

Release of a booklet on "Security Guidelines and Mitigation Plan for Government Websites and Applications of Puducherry UT " by Chief Secretary to Govt. of Puducherry UT

The **Cybersecurity and Mitigation plan** are essential for protecting digital assets of the Govt. departments as they contain sensitive data, and networks from cyber threats. The Document aims to cover the measures at the design stage, hosting stage as well as post implementation stage. These points were discussed as concerns during the Cyber Security SZ conference organized by MHA.

The compliance to the points recommended would help strengthening the department's efforts to bring more secured e-services.

A booklet on " Security Guidelines and Mitigation Plan" for the Govt. websites/web applications is prepared and it was handed over to Shri. Sharad Chauhan, IAS, Chief Secretary, Government of Puducherry and to Shri. Jayant Kumar Ray, Secretary to Government, (Information Technology), Government of Puducherry UT in the presence of State Coordinator Shri. Prashant Kumar Mittal, DDG, NIC, New Delhi, on 25/11/2024.

The booklet has been prepared and compiled by NIC, Puducherry with the guidance of Regional Centre of Application Security, Trivandrum and Cyber Security Division, NIC, Delhi. The booklet is also circulated to the southern states by Regional centre of Application Security, NIC, MeiTY.

Along with the Document, also enclosed the references of the Guidelines for Indian Govt. websites and Apps, DPDP act 2023, Aadhaar data security regulations,2016, and CERT-IN directions related to information security practices are given.
