Subject: Dissemination of Class VIII Science & Maths Study Material prepared by ZIET Chandigarh

Sir/Madam,

KVS is committed to the academic growth of every learner. Since students learn best by understanding concepts rather than memorizing them, ZIET Chandigarh has created Class **VIII concept based Science & Maths Study Material** to build curiosity and make both the subjects simple and joyful. The resources break down complex concepts into simple, relatable ideas. Through clear explanations, everyday examples, and structured practice exercises, it is hoped that the materials will bridge learning gaps and build genuine conceptual clarity.

In this spirit, you are requested to facilitate the wide dissemination of the study materials across all Kendriya Vidyalayas under your region.

To ensure that our students derive the maximum benefit from this initiative, you are requested to encourage the Principals, Science & Maths faculty in your region to:

- Integrate the study material into daily classroom teaching and remedial sessions to support diverse learning paces.
- Utilize the practice exercises to encourage classroom discussions and deeper critical thinking rather than rote testing. Teachers can access the material on Samagam portal.

Steps for Teachers to Access the Study Materials on the Samagam Portal:

1. Visit the official KVS Samagam Portal and log in using your assigned User ID.
2. Navigate to the **Resources** (or *Academic / Knowledge Hub / Study Material*) tab located on the left-hand sidebar or the top menu bar of the dashboard.
3. Click on **Resources** and apply the relevant dropdown filters (Class, Subject, etc.).
4. Click the **View**, **Preview**, or **Download** icon next to the desired file name to open the document in a new tab or save it to your device.

It is hoped that both teachers and students will make extensive use of this valuable resource.

Yours sincerely

16/11/26

(Dr. Ritu Pallavi)
Assistant Commissioner(Training)
