

Exposure Visit: New Recruits of NIC Chhattisgarh visited IGKV and interacted with the Vice-Chancellor (VC)

The exposure visit of the newly joined NICians was organized on 28th July 2021 to Indira Gandhi Krishi Viswavidyalaya (IGKV), Chhattisgarh.

The team headed by Shri Y.V.S Rao, STD visited Research Centers, Museum, Knowledge Centre etc. of IGKV and interacted with eGovernance team.

Prof. (Dr.) R. R. Saxena, Associate Director (Research), IGKV and Shri Abhijeet Kaushik, Scientist-C, NIC Coordinator for eGovernance project of IGKV, took the team on a round of the IGKV.

Professors of different Research wings including Phytosanitary Laboratory- relating to the health of plants, especially with respect to the requirements of international trade, Cell Culture and Tissue engineering, DNA based Seed Testing, Bio-diversity museum etc. explained in detail the technology involved in the process and how it is significant for contributions to the nation.

The team visited the beautiful agricultural museum of IGKV

A meeting with the Vice Chancellor (VC) was organized on the Occasion. Dr. S. K. Patil, VC welcomed Dr. A. K. Hota, DDG & SIO with flower bouquet.

All newly joined NICians were also welcomed with flowers.

7

Shri Abhijeet Kaushik, Scientist-C, presented various eGovernance projects operational at IGKV, developed and supported by NIC. This included total student life cycle covering admission, academic, Finance & HR, Research, eLibrary, Recruitment etc. He presented mobile apps developed such as Crop Doctor, Smart Kisan, e-Haat, Custom Hiring, Krishi pathasala etc.

VC in his address appreciated the role and support of NIC making IGKV proud with a number of eGovernance awards. He mentioned that in spite of the Covid pandemic the university could do the examination online and declaration of the result was in time due to hundred percent automation. He asked support of NIC for Seed Certification project which would be very beneficial for the farmers. Later, all new recruits introduced themselves and interacted with VC.

SIO in his concluding address appreciated the vision of the VC due to which the university has been ranked as second largest agricultural university in India in terms of its intake.

SIO informed that NIC has the Seed Certification solution which can be presented to the University and also to the department of Agriculture, Govt of Chhattisgarh.

He added that the scope of solutions based on AI and AR/VR can also be explored and developed.

The meeting concluded with Vote of Thanks by
Prof. (Dr.) R. R. Saxena, Associate Director (Research), IGKV.

Team expressed their heartfelt thanks to IGKV for such an enriching exposure trip.
