

## HAPPENING

### Mr. Amit Agrawal, IAS, Addl. Secretary MeITy visited NIC Chhattisgarh State Unit

On 05<sup>th</sup> June, 2023, Mr. Amit Agrawal, IAS, Addl. Secretary, MeITy, Govt. of India paid his maiden and exclusive visit to NIC Chhattisgarh State Unit. On his , he was warmly received by Mr. T. N. Singh, SIO, by presenting bouquets of flowers. It was a moment of pride for NIC, Chhattisgarh to have its quarterly news

magazine “The InfoNIC” of Jan-Mar 2023 quarter released at the hands of the distinguished guest.

A presentation on eChallan, eDetection, iRAD, Vahan & Sarathi projects was given by Mr. Y. V. Sreenivasa Rao, Sr. Director (IT). With reference to each slide a healthy discussion on existing methodology, bottlenecks, possible solutions and roadmap took place. Mr. Mayank Chaturvedi, IAS, MD Smart City project, Mr. Sanjay Sharma, AIG Traffic, Mr. Vedvrat Sirmour, Jt. Transport Commissioner, Mr. Shailabh Sahu, Asst.

Transport Commissioner and Mr. Y. V. Sreenivasa Rao actively participated in the discussion. In the meeting which lasted over an hour the AS noted suggestions of the members with regard to improvement in eChallan, eDetection, iRAD, Vahan and Sarathi projects and also guided as to how technology could be leveraged in projects bringing in more comfort to citizens besides reducing efforts of implementing staff. The AS concluded the meeting on a happy note over the project functioning in the state.

### “Chhattisgarh Budget” Mobile Application in IOS platform

“Chhattisgarh Budget” Mobile App developed by NIC Chhattisgarh State Centre has been Launched in Apple Store on 15<sup>th</sup> July, 2023. This is the first IOS platform mobile app of NIC Chhattisgarh State Centre. Formerly on 06<sup>th</sup> March, 2023 android version of mobile app had been launched by Hon'ble Chief Minister Chhattisgarh. Chhattisgarh Budget App

makes State budget documents available to general public at one place. This app facilitates viewing of Budget Documents like Budget Speech, Press note, Key highlights, Budget at a Glance, Budget Documents etc. This initiative is aimed at providing State Budget documents in digital format to various stakeholders and information to general public.

### eDetection system implemented

eDetection module developed by NIC Odisha has been customized for Chhattisgarh and implemented in the State since 03/05/2023. Vehicles passing through 22 Toll gates are scanned by cameras installed at Tolls. All the Registration Numbers of the scanned vehicles are uploaded by the Toll staff to the eDetection system where each Number is verified against details in VAHAN to detect offences viz. Invalid fitness certificate, invalid PUC Certificate, Pending Tax and invalid permit. With the help of linking with eChallan system Challans are generated against offending vehicles. The owners of the offending vehicle are intimated through SMS regarding Challan with payment link. This system helps catching vehicles moving around, without valid documents. Introductory demonstration and training has been provided to the Transport department staff and Toll gate employees by Shri P. K. Nayak, Sr. Director (IT), BNIC, Bhubaneshwar through Video conferencing.

### AUTO EXPO Module in VAHAN implemented

An Auto Expo has been organized in the Science College Grounds, Raipur by the Raipur Automobile Dealer Association (RADA) from 24<sup>th</sup> March, 2023. As per the requirement of Transport Department, a suitable flow in VAHAN application has been provided for on the spot Registration

of vehicles sold in the expo. The implementation of Auto Expo flow has prevented exemption of Tax to ineligible vehicles and enabled speedy process of registration. It has been widely appreciated by the public, participating dealers and the administration alike.

### Payment to beneficiaries of Rajiv Gandhi Kisan Nyay Yojana

Chhattisgarh Chief Minister Mr. Bhupesh Baghel released the first installment of Rs. 1775.55 crore to 23.8 lakh farmers beneficiaries of Rajiv Gandhi Kisan Nyay Yojana in a public meeting held at Patan in Durg district on 21/05/2023.

## Launch of “SHRIANKHALA – Blockchain enabled Academic Certificate” in IGKV

Towards digitizing the education sector, Shri Bhupesh Baghel the Hon'ble Chief Minister of Chhattisgarh inaugurated the State's first-ever blockchain-enabled academic certification project

2023 at Indira Gandhi Krishi Vishwavidyalaya (IGKV), Raipur in the presence of Shri Ravindra Choubey, Minister of Agriculture, Dr. Girish Chandel, Vice-Chancellor, IGKV and

“SHRIANKHALA” other dignitaries of IGKV, Agriculture Department and NIC. (https://igkv.ac.in/Blockchain/blockHome.aspx) for Indira Gandhi Krishi Vishwavidyalaya, Raipur at state level festival “Akti Tihar Evam Mati Pujan Divas” on 22<sup>nd</sup> April, 2023 at Indira Gandhi Krishi Vishwavidyalaya (IGKV), Raipur while the development of modules was done by the team of NIC Chhattisgarh with the support of NIC KARNATAKA.

### Mission Vatsalya Monitoring System (MVMS)

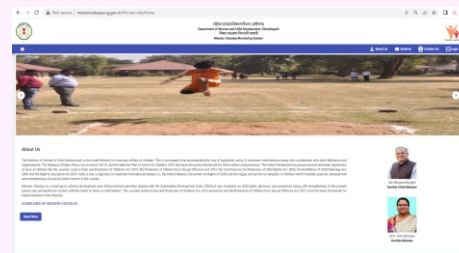

Mission Vatsalya Monitoring System (MVMS) is a web-based Management Information System developed by the NIC Chhattisgarh State Centre Raipur. It serves as an efficient tool for monitoring and supervising the Mission Vatsalya scheme.

The primary objectives of Mission Vatsalya are: (a) Ensuring children's rights to survival, development, protection, and participation. (b) Establishing essential services, strengthening emergency outreach, non-institutional care within families and communities, and providing institutional care, counseling, and support services at all levels. (c) Facilitating the restoration, rehabilitation, and mainstreaming of children in the state. (d) Ensuring self-sufficiency for children supported under

Mission Vatsalya after turning 18 years old and organizing appropriate assistance for them.

To monitor and promote the implementation of the scheme, a State Level Monitoring and Review Committee, led by the Chief Secretary, is in place. Additionally, the State Child Protection Society (SCPS) oversees the implementation and planning of the Mission Vatsalya scheme.

The MVMS, accessible at <https://missionvatsalya.cg.gov.in>, caters to all stakeholders of the scheme. It offers various features, including capturing child basic details, admissions, development plans, counseling, discharges, transfers, monitoring, and report generation. The system provides a customized user interface for different

stakeholders such as the state nodal officer, state child protection society, district child protection units, child welfare committees, juvenile justice boards, specialized adoption agencies, juvenile police units, and child care institutions. The MIS is dynamic, responsive, user-friendly, and secure, offering role-based access and multi-factor authentication using Google TOTP.

### High Risk Pregnancy Monitoring System (HRPMS)

• <https://govthealth.cg.gov.in/hrpms>

A high-risk pregnancy monitoring system is a medical solution developed for the department of Health & Family Welfare & Medical Education, Govt. of Chhattisgarh designed to closely monitor and manage pregnancies that are deemed high risk due to various factors.

The primary goal of a high-risk pregnancy monitoring system is to ensure the well-being of both the mother and the developing fetus by closely monitoring their health parameters and providing timely intervention if necessary.

A high-risk pregnancy is distinguished by any fetal or maternal condition that can

adversely affect the successful outcome of the pregnancy or at increased risk of morbidity or mortality before, during, or after delivery. By identifying pregnancies that are high risk, extra attention is taken care of mothers who need the most medical care, close monitoring and sometimes referral to a perinatal centre.

In HRPMS, ANM collects details of eligible couple along with first ANC details. HRP cases are mapped of First Referral Unit for expected delivery health centre. ANM captures outcome entry, i.e. type of delivery, details of infants. After

Case	ANC Visit	Outcome	PNC Visit
455	136	299	416
19	434	1	435
0	0	0	0

outcome details, ANM collects PNC Details of pregnant woman minimum four times within 45 days after delivery. Line list is tracked by PHC, CHC, DH and state level health professionals for HRP Monitoring.

### SEED Certification System - SATHI: Empowering India's Farmers with Technology

The Ministry of Agriculture and Farmers' Welfare, Govt. of India, in collaboration with the National Informatics Centre (NIC), has developed a ground breaking initiative called the Seed Certification System - SATHI. This user-oriented centralized portal aims to revolutionize the seed industry by providing a holistic approach to the entire seed life cycle across multiple generations. SATHI automates the seed supply chain from production to certification, licensing, inventory management, and sale by certified dealers to seed growers. It ensures the quality and traceability of seeds, promoting transparency and accountability in the agricultural sector. Key features of SATHI include GIS

reports based on the Bharat Map Interface, a wallet service for convenient transactions, an offline-friendly and device-agnostic mobile application for easy access, and a quality inspection module for rigorous quality checks. The system also generates sample slips and facilitates online forwarding of samples to seed testing laboratories, streamlining the certification process. The benefits of SATHI are manifold. It enhances seed quality and purity, increases accountability through seed traceability, and improves the efficiency of Seed Certification Inspectors. The GIS-based MIS reports powered by Bharat Map Interface aid in data-driven decision-making and resource

optimization. Moreover, the system reduces transactional time, expediting the certification process and providing farmers with certified seeds promptly. SATHI's digital approach also contributes to environmental sustainability by reducing paper usage and physical documentation, making it an eco-friendly alternative. Through the seamless integration of technology and agriculture, SATHI empowers farmers, ensuring the availability of top-quality seeds and fostering growth and prosperity in India's agriculture sector. As SATHI continues to evolve, the future of Indian agriculture shines brighter than ever before.

### CM Assam launches Medical Assets Management System portal

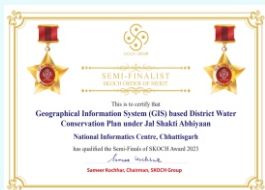

Dr. Himanta Biswa Sarma, Honble Chief Minister of Assam launched the "Asset Management System" <https://medicalassets.assam.gov.in> portal developed by National Informatics Centre (NIC), Assam for Medical Education & Research Department

(MERD), Govt. of Assam on 26th June, 2023. Medical Asset Management System (MED-AMS) is a comprehensive solution designed for the Medical Education and Research Department (MERD), Govt. of Assam to streamline the asset management processes for medical institutions. MED-AMS automates and centralizes the management of medical equipment, supplies, and other assets, allowing for improved accuracy, efficiency, and transparency. With MED-AMS, medical institutions can keep track of their assets from procurement to disposal, ensuring proper

maintenance and utilization. By using MED-AMS, medical institutions can increase the longevity of their assets, reduce costs, and improve the quality of healthcare services provided to patients. This innovative web portal aims to provide efficient and timely asset management, offering a transparent, user-friendly, and intuitive interface. The application ensures the security of the department's data, allowing access only through proper authentication, thereby facilitating easy data maintenance from anywhere and at any time.

## Award / Accolades
