ANNUAL REPORT ON REGISTRATION OF BIRTHS AND DEATHS ACT, 1969 FOR YEAR 2022

The enactment of the Registration of Births and Deaths Act, 1969 opened a new era in the history of vital registration system. It brought out uniformity in the antiquated existing systems of registration. It was enforced in the Haryana state with effect from 1st April 1970. Subsequently the Haryana Registration of Births and Deaths Rules 1972 were framed under this Act. These rules were repealed by the Haryana Registration of Births and Death rules 2002, which came into effect from 1st January 2002.

This report contains registration hierarchy, registration procedure coverage level, difficulties experienced, shortfalls and efforts made for the improvement of the registration system in the State.

2.2 Rural Registration Centres.

From 1st January, 2005, Primary Health Centres have been designated as registration centre in rural area of the state. In-charge Medical Officer of PHC/CHC has been notified as Registrars. Following system for flow of reporting forms, registration and delivery of certificates has been adopted in the rural area.

3.0 Monitoring and Uses of CRS Data.

3.1 Monitoring;

Following three tier monitoring system was adopted in order to ensure proper implementation of the system and timely flow of returns.

- (i) Monthly meeting of registration officials were organised at the district level, in the first week of every month. In this meeting monthly returns were collected.
- (ii) District Registrar reviewed the performance and sorted out bottle- necks, if any, in the system, with the concerned Registrar in the monthly clinical meetings held on 7th of every month.
- (iii) Meeting of Statistical Assistants were organised at state HQ on 11th of every month. In these meetings, besides collecting the monthly returns, participants were trained on day-to-day functioning of the system. Their problems were also sorted out in these monthly meetings.

This mechanism of monthly monitoring helped a lot in improving the quantity as well as quality of the system. Almost all the monthly returns were collected at the state HQ in time. Every month, last registration number in each registration centres was matched with the monthly cumulative sums of births and deaths registered for each and every registration centre in the state to check the correctness of the reporting.

3.2 Uses of CRS data.

Data collected at State HQ was compiled through computers and analysed for various differentials. CRS has grown up as a source of regular information in monitoring of sex ratio at birth, family welfare programme and institutionalised deliveries. Earlier there was no such regular source of information. Due to certain constraints partial data of registration could be compiled but efforts are being made to get the complete data compiled.

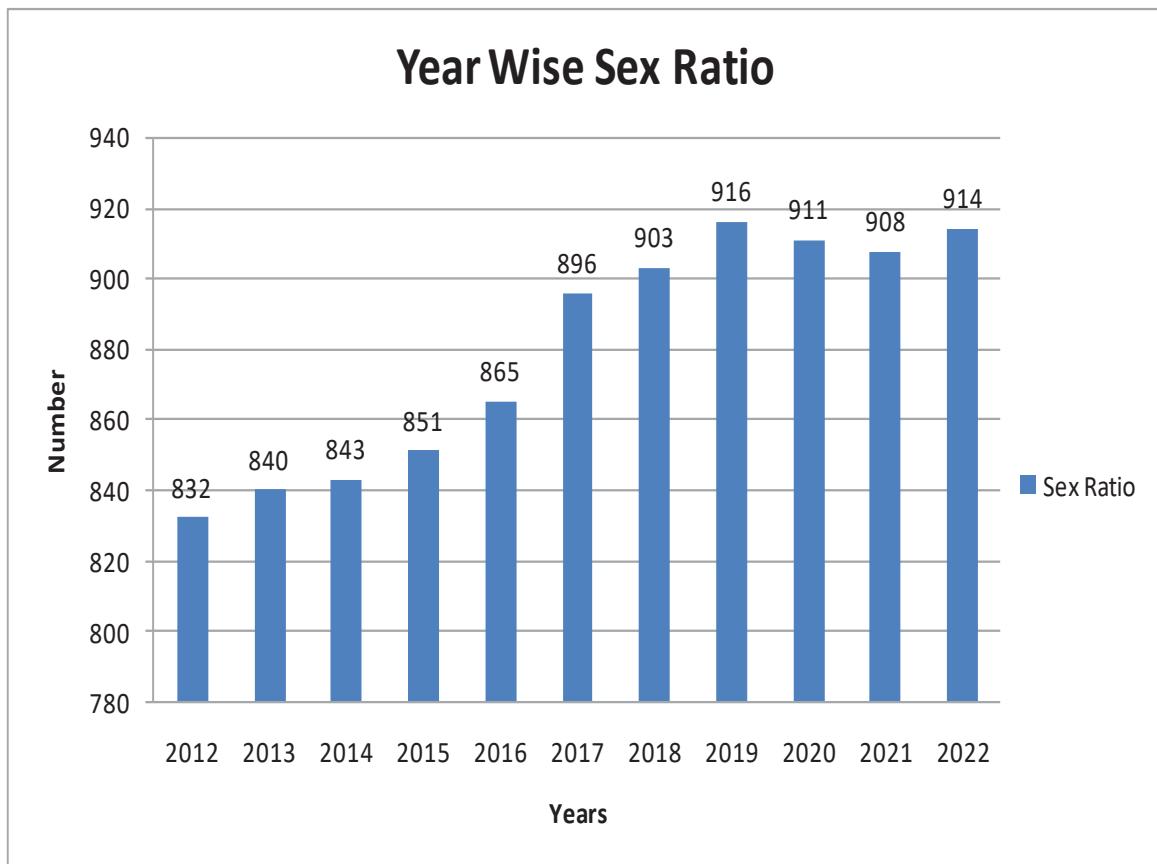

District wise sex ratio at birth and institutionalized deliveries are presented in the following tables: -

6.0 General Response Of Public Towards The Act

The registration of births and deaths was not new for the public of Haryana State. Prior to enactment of Registration of Births and Deaths Act 1969, registration of vital events was governed under Medical Manual. Registration in the state is more than a century old. Registration record from year 1881 is available in some of the urban as well as rural registration centres. Positive response on the new system adopted in the state has been received by the general public.

Following are the salient feature of the system.

1. Registration at the door step of the public.
2. Supply of free extract at the time of registration.
3. Delayed registration of events in case of un-registered event.
4. Sensitization of mass regarding CRS and its importance.
5. Registration of the name of a new born child at a belated stage.

In order to ensure cent percent delivery of free copy of extract, the certificate under Section 12 has been made as a part of the reporting forms. In this way provision of this Section has been made practically possible. In almost all the cases free certificates were delivered to the concerned families. Still there are few registration centres where efforts are still required. Chief Registrar office is coordinating with the Local Self Govt. department in order to implement registration system in urban area particularly ensuring cent percent delivery of free copies of the extract. Chief Registrar office is also coordinating with state government and Directorate of Census Operation, Haryana and ORGI in making all efforts to achieve the target of cent percent registration.

7.0 Maintenance of Records

Under the Act, Registrar is required to maintain the record of all births, deaths and still births in separate registers. On the first day of January 2022 new registration were started by the Registrars. Registrars verified this record and at the end of the year download the record from crsorgi portal.

To preserve the old Birth and Death registers, during year 2018-19, the birth and death record of districts was get scanned and digitalized. The scanning and digitalization of the record was get done through HARTRON (Nodal Agency).

8.0 Delayed Registration

Section 13 of RBD Act, 1969 laid down the procedure for registration of vital events reported after the expiry of stipulated normal reporting period i.e. 21 days. Provision of delayed fee has been prescribed in the state rules (Notified on dated st May 2015).

9.0 Inspection Arrangement

Inspection of registration centres and registration records is important in ensuring both qualitative and quantitative improvement in registration work. The District Registrars and Additional District Registrars were directed to conduct inspection of registration centres in rural as well as urban areas of their district. Records of some registration centres were inspected at State H.Q. List of such registration centres are appended with the report.
