

**Vision:** A village with Functional House Tap Connections to all, with targeted standard of quality water supply, good water management and abundant water availability for agriculture and all needs, and conserving its water ecosystem

# Water is essential for life

Household Activities

Functional Toilets at community/ markets

Functional Toilets at Households

Social Institutions  
Schools /  
Health Centers

Agriculture  
& allied  
activities

Industry

Sanitation

Water Sufficient Village

# Local Goals and Targets

1. Access to adequate clear water to all and potable water facilities.
2. Access to sanitation facilities in the villages.
3. Ensure 100% usage of HHL.
4. Develop mechanism on grey water treatment & purification.

# Local Goals and Targets

5. Ensure 100% ODF.
6. Address groundwater depletion, arsenic contamination, rainwater harvesting and groundwater recharge.
7. Maintain ecosystem through conservation of natural resources

# Role of Gram Panchayat

Educate all households on key aspects of usage and management of water and sanitation assets

Ensure adequate and functional toilet facilities for boys and girls in schools and Anganwadi

Ensuring maintenance of toilet of public places including those in markets and Gram Panchayat premises.

# Role of Gram Panchayat

- Select appropriate technology for water supply and grey water management by using technology like magic pits, kitchen gardening
- Liaise with respective agencies for ensuring adequate water supply, potable drinking water and water analysis and measurements
- People's committee formation and their capacity building for managing the assets existing and being created

Water Sufficient Village

# Role of Gram Panchayat

- Promoting modern agriculture and water use technologies
- Safeguarding water bodies and monitoring water quality
- Plan for operation and periodic maintenance of drinking water supply infrastructure

Water Sufficient Village

# Strengthening Committees

Standing Committees  
working for water and  
sanitation

Local Committees / Institutions/  
Village Health and Sanitation Committee / Village Water &  
Sanitation Committee / SHGs

Capacity Building  
Ensure Participation for  
inclusive planning for  
healthy village

Water Sufficient Village

# Low Cost No Cost Activities

Collect samples of water for testing and transfer to the water testing lab

Organise awareness activities on water related issues

Identify all sources of drinking water

Ascertaining drinking water adequacy at HH

Tariff collection from every HH for maintenance

Water Sufficient Village

# Resources Panchayat can look for
