

Presentation on Panchayat Planning and Implementation

**RD (Panchayat) Department
Government of Tripura**

An overview of Gram Sabha at Latuatilla GP under Jolaibari RD Block

Gram Sabha in progress at West Padmabil VC under Padmabil RD Block

Steps adopted for implementation:

- Capacity building of Elected Representatives and SHG Women for effective Gram Sabha.
- Evidence Based Assessment of Progress made in 2021-22 and framing proposals for 2022-23.
- Public Information Campaign – Full public disclosure on Schemes, Finances, etc.
- Structured Gram Sabha meetings spread over 2nd October – 31st December, 2021, with active participation by Frontline workers/Supervisors.
- Resource envelope made available to all RLBs in advance for realistic planning.
- eGramSwaraj portal provided for pragmatic and holistic Gram Panchayat Development Plan.

Process for GPDP

- Collection of primary data informally through Elected Representatives and Panchayat Functionaries.
- Mission Antyodaya gap report through field functionaries.
- Collection of wish list/stack of proposed work/projects.
- Scheme wise availability of resources.
- Conduct of Gram Sabha and preparation of draft Action Plan.
- Uploading of Annual Action Plan in eGramSwaraj portal.

GPDP Implementation Issues

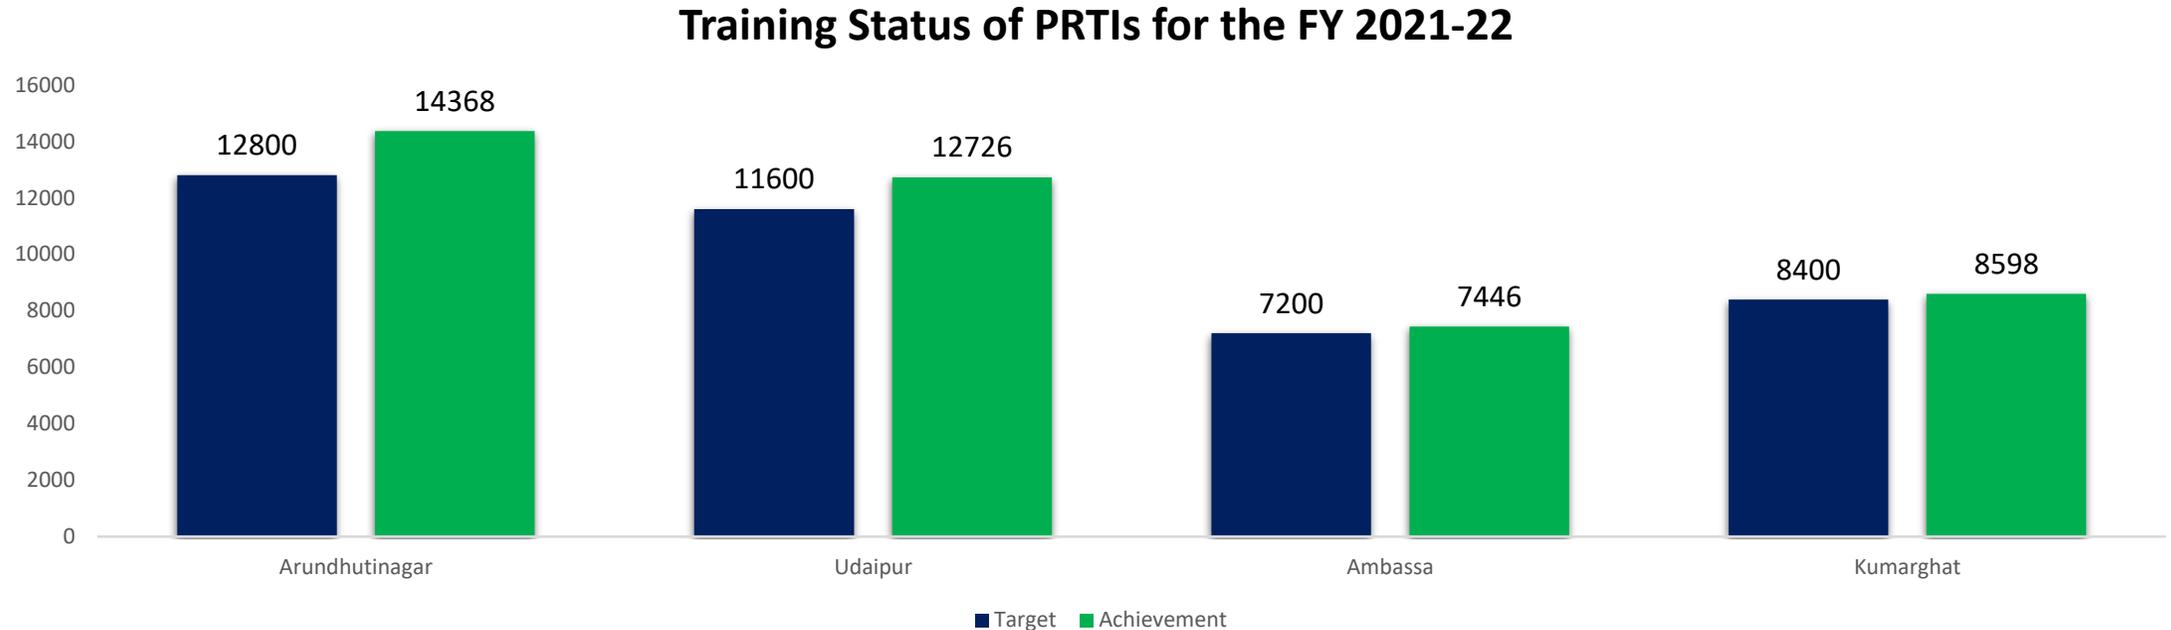

- Lack of technical support at the grass root level for GPDP preparation.
- Tendency by Departments for working in isolation.
- Active participation of line Department is still wanting at grass roots level.
 - (e.g : availability of dedicated manpower in all GPs/VCs during Gram Sabha)
- Limited review of GPDP at various levels.

Gap Identification and Gram Sabha Discussion

Based on the available inputs of Gaps in the Gram Sabha:

- **Identified gaps validated by the Gram Sabha and proposed interventions.**
- **Identified gaps further categorized on priority based on inputs collected through various survey method like PRA exercise, Mission Antyodaya etc.**

Capacity Building Status for the year 2021-2022

- PRTIs were entrusted for Capacity Building of ERs & Functionaries.
- Special emphasis has been given to the training of PRI-SHG convergence, the reflection of which can be seen in the holistic VPRP.
- Remote learning facilities have been extended to the GP level so that maximum participants can be trained during pandemics or any natural disasters.
