The Sustainable Development Goals Report
2022

United Nations
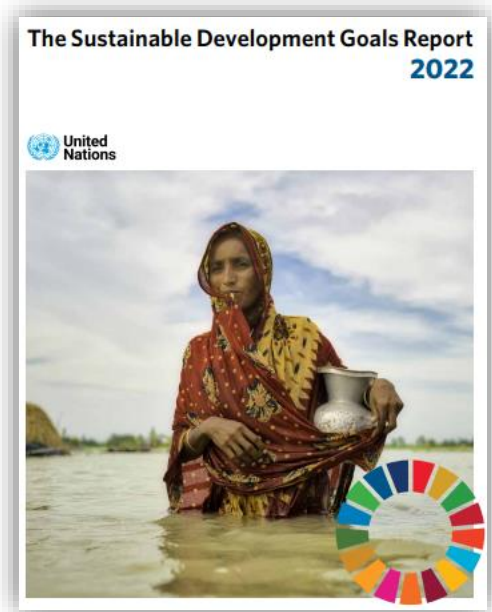

"**to take that knowledge forward to provide better data for better lives**" – *UNSDG Report 2022*

"**Investing in data capacities and data partnerships to leave no one behind, build trust and fill data gaps to achieve the SDGs must be a priority for national governments and the international community if countries are to rely upon evidence-based policy responses to emerge stronger from the crisis and face the unknown challenges ahead.**" – ***UNSDG Report*** *2022*

SUSTAINABLE DEVELOPMENT G🔵ALS

Understanding PDI in context

UN Secretary General's Data Strategy and PDI strategy
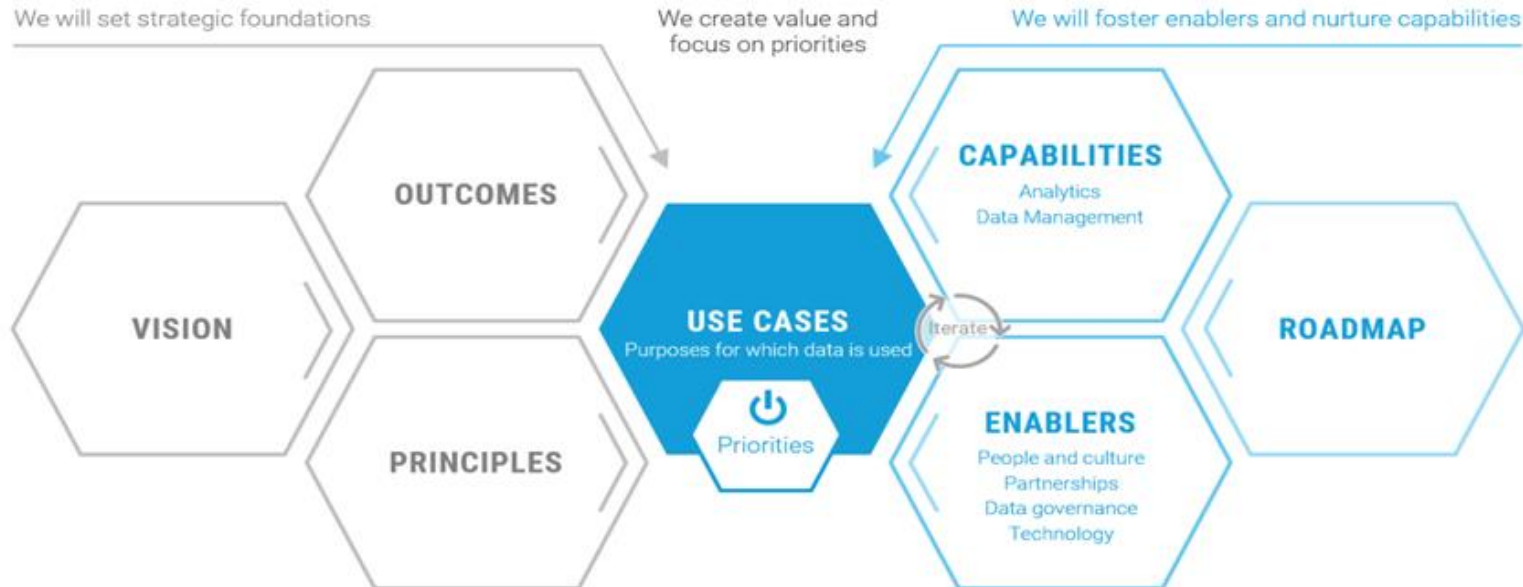

OUR VISION

Building a whole-of-UN ecosystem that unlocks our full data potential: For better decisions and stronger support to people and planet—in the moments that matter most.

PRIORITIES FOR DATA ACTION

Our ambition is to unlock the data potential of the UN family to better support people and planet. We want to focus data action on what matters most.
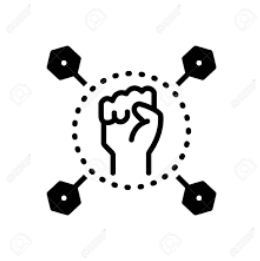

CAPABILITIES

We will nurture the abilities we need to unlock our full data potential

ANALYTICS

Challenging everyone in the UN family to use data to understand "what happened", "why it happened", "what may happen next" – and respond with insight, impact and integrity

DATA MANAGEMENT

Enabling everyone to discover, access and share data they need across the full spectrum of data types, so we can meet the data needs of the organization, people and planet

Approach for developing PDI
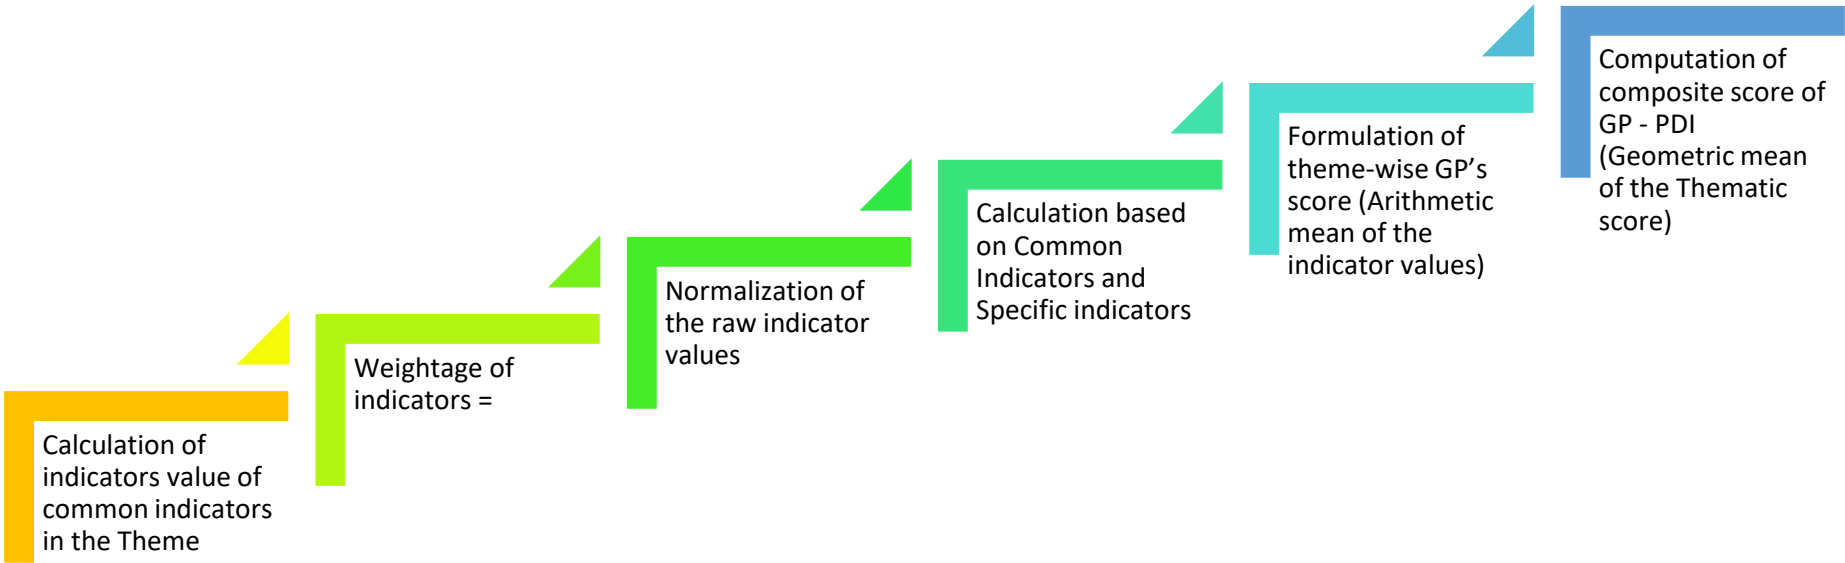

- Identify common indicators for inclusion in assessment of GPs
- Identify specific indicators of limited commonality
- Collection of data for preparing baseline for computation of PDI
- Decide the methodology for computation of PDI
- Assign Weightages
- Identify Target Values
- Normalisation of raw indicator value
- Formulation of Theme-wise GP Score
- Computation of PDI

Calculation of PDI

Calculation of indicators value of common indicators in the Theme

Weightage of indicators =

Normalization of the raw indicator values

Calculation based on Common Indicators and Specific indicators

Formulation of theme-wise GP's score (Arithmetic mean of the indicator values)

Computation of composite score of GP - PDI (Geometric mean of the Thematic score)

Calculation of PDI

Weight calculation

Estimation of each Indicator score at Block level - Weighted arithmetic means of the each Indicator scores of the GPs

Estimation of thematic score at Block level - Weighted arithmetic means of the thematic scores of the GPs

Estimation of overall PDI score at Block level - Weighted arithmetic means of the PDI scores of the GPs

Calculation of PDI

Weight at District level	Estimation of each Indicator score at District level - Weighted arithmetic means of the each Indicator scores of the Blocks	Estimation of thematic score at District level - Weighted arithmetic means of the each Theme scores of the Blocks	Estimation of overall PDI score at District level - Weighted arithmetic means of the PDI scores of the blocks

Calculation of PDI

Weight at State level

Estimation of each Indicator score at State level - Weighted arithmetic means of the each Indicator scores of the Districts

Estimation of thematic score at State level - Weighted arithmetic means of the each Theme scores of the Districts

Estimation of overall PDI score at State level - Weighted arithmetic means of the PDI scores of the Districts

Groupings-wise scores were estimated at GP, Block, District and State level

At GP level
- Arithmetic mean of the normalized indicator value under each grouping

At Block level
- Weighted average of the GP level group score under each grouping using GP population ratio as weights

At District level
- Weighted average of the block level group score under each grouping using block population ratio as weights

At State level
- Weighted average of district level group score under each grouping using district population ratio as weights
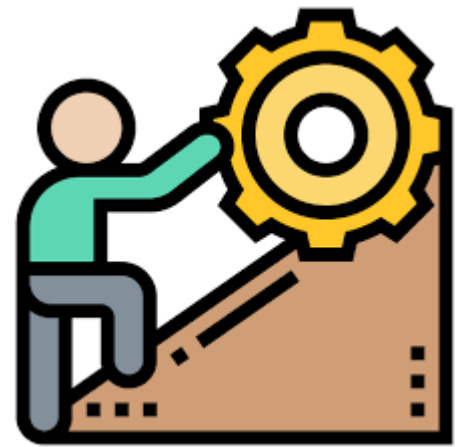

PDI – Challenge and Limitation

Challenge

- ✓ something that needs great mental or physical effort in order to be done successfully
- ✓ tests a person's ability
- ✓ a move to convince a person to perform an action they otherwise would not
- ✓ it is a dare it is an invite to take part in a competition.

Limitation

- ▪ thing is not as good as they or it could be
- ▪ is an imperfection that limits its use or value

PDI – Challenge and Limitation

PDI (with the Thematic LIF) - a challenge for all
PDI Limitations - can be overcome –

Analysis

Interpretation and Use

"There is no 'Plan B' because we do not have a 'Planet B.' We have to work and galvanize our action."
– UN Secretary General Ban Ki Moon

Not a panacea for all ills

Works along with, not instead of

Limitation placed by officials

The Recommendations – highlights

1) **Positioning PDI in MoPR**

2) **Institutionalising PDI**

3) **PDI- a composite score of development status**

4) **PDI Baseline**

5) **PDI Ranking and Grading of Gram Panchayats**

6) **Data Visualization**

7) **Use of LIF Thematic and Indicator values along with PDI**

8) **Data Analysis**

9) **Targets values, Targets and timeline – to be decided by GPs in groups**

The Recommendations – highlights

15) Incremental progress and measurement

- Comparison of like to like
- Assessment mechanism
- Self-assessment placed in the Gram Sabha
- Involvement of CSOs, Institutions, experts and third-party evaluation

16) Incentivization using PDI and LIF

17) Reference Period

18) Weightage

19) Scope of PDI

- Ease of use and actionable

- evolving and continuous process

- leads into GPDP

- outcomes on the scale of development

- LIF on which it rests provides actionable points

- to move to hamlet & household levels

- policy and programme, planning and focus for actions at level of Ministries, States, Districts and Sub-district level

- gamechanger at GP level
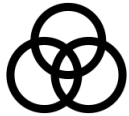

The Recommendations – highlights

20) **Endowed advantageous and disadvantaged GPs**

21) **PDI use for Aspirational Panchayats**

22) **Common indicators and Specific indicators**

23) **Mandatory number of indicators**

24) **Priority indicators – to be decided by GP**

The Recommendations – highlights

25) Data

- Data source identification and Metadata

- Data availability gaps

- Standardization of data points

- Standardizing of source of GP profile related data

- Identification of Indicators/data points from administrative data

- Data to be collected from Gram Panchayat

- Data to be collected by Survey or other such mechanism

The Recommendations – highlights

26) **Data Validation**

27) **From complete data collection to minimum data collection from field**

28) **Establish a proper end to end IT platform for PDI**

29) **Key role of NIC**

30) **MoSPI full involvement to be mandated**

31) **Data storage and accessibility**

32) **Data of Gram Panchayats to be available on the OGD platform**

33) **States initiatives to be integrated**
