

Regular Technology Enhancement Trainings for the Outsourced Employees of NIC Odisha State Centre, Bhubaneswar

Besides the need for providing latest technology up-gradation trainings to the NIC Officials, it has also become imperative to provide such training to the outsourced employees who have a significant role in the development of various cutting edge technology based IT applications for NIC.

Keeping this in mind, NIC Odisha State Centre has initiated a regular technology upgradation training programme from **14th December 2020** at the **NIC Training Lab, Bhubaneswar** starting with “**Stepping Stone for MEAN Stack Developer**” consisting of the following modules;

1. Advanced concepts of Functional Programming
2. Node JS, Express, EJS
3. Fundamentals of NoSQL & its family of Databases
4. MongoDB
5. Angular 9.0

During the launch the participants were addressed by **Mrs Kabita Roy Das, DDG & SIO, Shri S.K.Mohapatra, DDG & Head, Training and Shri S.A. Khan, STD & ASIO(State).**

This training is being provided on a regular basis during 11AM to 12PM. The future subjects identified to be covered are;

1. Docker Containerisation
2. ArangoDB
3. Python & Django
4. Flutter
5. R etc.
