THE 3D TECH TALK

NIC Odisha recently hosted an innovative three-day seminar, aptly named "The 3D Tech Talk," to encapsulate the 3-dimensional perspectives of emerging technologies. Held from May 6th to May 8th, 2024, the event featured three distinct themes: Industrial Internet of Things (IIOT), Cyber Security, and Artificial Intelligence/Machine Learning (AI/ML). Each day saw a deep dive into these cutting-edge topics, chaired by renowned external domain experts. Dr. Abhay Kumar Samal, Dean of the School of Computing & Dean of Project & Consultancy, inaugurated the series with a session on IIOT. This was followed by Shri Siddharth Pattnayak, CSIO of IServeU, who delved into the intricacies of Cyber Security. The final day featured Shri Shashanka Sekhar Choudhury, Ex-CTO of OSDA, who illuminated the advancements and applications of AI/ML.

In this seminar NIC Officers Shri. Sachin Kumar (Scientist-B), Shir. Dipak Kumar Sharma (Scientific Technical Assistant-A), Ms. Mamata Khamari (Scientist-F), Shri. Sangram Keshari Bishoi (Scientist-C), Shri. Anupam Roy (Scientific Technical Assistant-A), Shri Rahul Kumar Sinha (Scientist-B), Shri. Ashok Raout (Scientist-D), Shri Lalit Mohan Pradhan (Scientific Technical Assistant-A) & Shri. Dillip Kumar Gupta (Scientist-B) have presented various topics ranging from Industry 4.0 to LoRA WAN, from Evolution of AI to Generative Adversarial Network, from Enterprise Security to Honeypot technologies.

The seminar not only aimed at disseminating knowledge among NIC officers but also sought to enhance the presentation skills of younger officers. This fusion of expert insights and skill-building made "The 3D Tech Talk" a landmark event, fostering a rich exchange of ideas and promoting technological proficiency within the organization.
