Memo No. Science/2024/2854

Date: 09-07-2024

Subject: "Planting Seeds of Change: Stories for SDG" (Implementation in schools)

This is with reference to subject cited above and in continuation with letter no. Science/2024/2848 dated 4.7.2024. Hope all SDG coordinators of your district are implementing the program of "Planting Seeds of Change: Stories for SDG" in schools. **Given below are some points to ensure the implementation of this program at school level.**

1. Creation of group of Eco club incharges (eco clubs for mission LiFE) of schools of your district. An online session of eco club incharges can be arranged by DIET faculties.
2. Sharing of links and hard copy of all the six stories of SDGs in all schools of your district (link attached).
3. Suggest some inspirational stories about e.g. conservation of resources (water, energy, fuels, land, air etc.), judicious use of materials and things, appreciating traditional practices, personal hygiene, peace and harmony. 17 SDG goals may also be referred.
4. Ensure the organisation of storytelling/story writing contest in its letter and spirit.
5. Sharing of monthly activities mentioned in sustainability calendar and sharing the activities for July month (plantation/selfie with plant)
6. Collection of best practices by schools and then sharing in the state SDG group.
7. Proper media coverage of the program in district newspapers.

Let's remind the power of stories to inspire action and drive change. We look forward to continuing our journey towards a sustainable future and making a meaningful impact on the global community
