

About Us

Ali Yavar Jung National Institute of Speech and Hearing Disabilities (AYJNISHD-D) is a leading government institute in India providing specialized clinical services for speech and hearing impairments, including stroke-related communication disorders like aphasia and dysarthria. It focuses on affordable and accessible rehabilitation, certifies speech and language disabilities under the RPWD Act, 2016, and offers community outreach, advanced therapy, and educational programs for affected individuals.

Stroke Awareness

What is Stroke?

A stroke is a sudden interruption of blood supply to the brain. It is a medical emergency.

The First Hour Matters

The Golden Hour is the first 60 minutes after stroke symptoms begin.

After life saving measures

What should we do? What to look for?

ACT F.A.S.T

Face drooping
Arm weakness
Speech difficulty
Time to act

Warning Signs

Sudden weakness
Speech problems
Vision loss
Dizziness
Severe headache

This is the most critical time when fast medical treatment can save brain tissue, prevent disability, and save life.

During a stroke, nearly 2 million brain cells are lost every minute. The faster the treatment, the better the chance of recovery.

Take the patient to a hospital
Do not wait for symptoms to improve

- ✓ Note the exact time when symptoms started
- ✓ Do not give food, water, or medicine

Rehabilitation

Speech Therapy
Physiotherapy
Occupational Therapy

PREVENTION

- Control BP and sugar
- Healthy eating
