for
Postal Accounts and Finance Department, Uttar Pradesh Postal Circle
during Cyber Security Awareness Month, October -2023
by
Regional Centre of Excellence for Application Security
Lucknow, Uttar Pradesh

In an endeavor to create awareness under the cyber security awareness month campaign 2023, the Regional Centre of Excellence for Cyber Security delivered a workshop session on "Cyber Security Awareness: Understanding Risks and Learning to Defend" to the employees of O/o General Manager (Finance), Uttar Pradesh Postal Circle, Postal Accounts and Finance Division, at the Zonal Training Centre, Northern Zone on October 30th, 2023. Under the guidance of Shri Shailesh Srivastava, Senior Director (IT) and HoD, CoEAS-UP, the session was delivered by Miss Aparna Khare, Deputy Director (IT) and Miss Divyanshi Kushwaha, Deputy Director (IT).

In an age marked by an escalating digital footprint, the imperative of cybersecurity assumes

paramount significance. Given the escalating sophistication of cyber threats, spreading cyber security awareness is of pivotal importance.

The session started with the participants engaging in how they were involved in online activities and how their work was influenced by it. The session was then delivered, with due consideration to their daily work, highlighting the various cyber threats and prominent recent

cyber-attack examples that have been encountered. The audience was then enriched with

guidelines and best practices for defending against the prevalent cyber threats in a way that reflected their daily use cases.

The session was concluded with brief overview of cyber laws at present, legal considerations and how users can report incidents of cybercrime on the National Cyber Crime Reporting Portal (https://cybercrime.gov.in/). The participants appreciated the session and the members were applauded for sharing this crucial awareness to all.
