

# Cyber Security Training for Treasury Department

## NIC MUZAFFAR NAGAR

# CYBER SECURITY TRAINING FOR TREASURY DEPARTMENT

### ON CYBER SECURITY THREATS AND PASSWORD PROTECTION

### Report

National Informatics Centre (NIC), Muzaffar Nagar conducted a **Cyber Security Training** for the officers and officials of the Treasury Department with the objective of enhancing awareness about cyber threats and promoting secure digital practices in official work.

The training focused on the current cyber threat landscape and the importance of strong password hygiene and protection measures to safeguard sensitive data and systems.

### PARTICIPANTS

Treasury Officers and Officials

The training session was hosted and presented by **Mr. Vineet Kumar Garg**, District Informatics Officer (DIO), NIC Muzaffar Nagar and **Ms. Akanksha Goel**, Additional District Informatics Officer (ADIO), NIC Muzaffar Nagar.

Treasury Officers and Officials actively participated in the programme and appreciated the informative nature of the session.

### MAJOR POINTS COVERED

#### PASSWORD SECURITY AND PROTECTION MEASURES

- Creating strong and complex passwords
- Avoiding common and predictable passwords
- Regularly changing passwords
- Never sharing passwords or OTPs
- Importance of confidentiality of credentials
- Use of Multi-Factor Authentication (MFA)
- Secure login practices

#### CYBER SECURITY THREATS AND ATTACKS

- Phishing attacks and suspicious emails
- Malware, Ransomware and Viruses
- Social Engineering and Online Frauds
- Data Breaches and Identity Theft
- Fake Links and Malicious Attachments
- Unauthorized Access and System Hacking
- Safe use of Internet and Official Systems

Real-life examples were shared to help participants understand how cyber criminals target users through negligence and lack of awareness.

An interactive session was held and queries raised by participants regarding cyber incidents and security precautions were addressed by the NIC team.

Officials were also advised on preventive measures to safeguard office systems, laptops, and official data from cyber threats.

Such initiatives play a vital role in ensuring safe digital governance and protecting sensitive treasury-related information. NIC Muzaffar Nagar reaffirms its commitment to continue providing technical guidance and cyber security support to all government departments in the district.
