- ➢ Candidates shall be able to login directly with their Application No. and chosen Password.

Note: Candidates are advised to record/remember their password for all future logins and not to disclose or share their password with anybody. Candidates can change their password after login, if desired at any point of time.

On Sign in this will redirect to Student Dashboard

Note :

✓ Candidates may take a printout (hard copy) of the registration form containing the above personal data. It is solely the responsibility of the candidates to verify that their personal data, including category, subcategory, state of eligibility, gender etc. are consistent with documentary evidence.

✓ If the personal data submitted / entered by a candidate is found to be incorrect at the time of verification of certificates either during reporting or at any later stage, the allotment of seat/provisional admission is liable to be cancelled. Once these personal data are verified and submitted, candidates will not be allowed to change the personal data under any circumstances.

Online Choice Filling, Saving and Locking

At this stage, all the registered candidates and who have valid Rank are required to fill their choices of branches and institutes in order of their preference. The detailed procedure is as follows:

➢ The procedure for filling choices and seeking pertinent information is guided through appropriate messages, pop-ups and tabs on the computer screen. Candidate must ensure that the pop-ups are enabled on their internet browser.

➢ All choices (available seat information for the related category) like institutes, disciplines (Engineering/Technology and Architecture), branches (e.g., Electronics Engineering, Computer Science, etc.) will be displayed.

➢ Candidates can, and should, fill in as many number of choices in the order of their preference from the list of available seats.

➢ Candidates are permitted, if they so desire, to change or re-order their choices, delete or edit earlier choices and add new choices any number of times until they lock their final choices. Choices should be positively locked before the scheduled date.

➢ Choices once locked cannot be edited/altered.

Locking of the Choices

➢ Candidates MUST lock their choices only after they have finalized them but, within the scheduled date and time. The locking of choices involves a few steps after the LOCK button is clicked. This includes entering the password, confirming the locking, entering OTP through text or mail etc. Candidate should follow all the steps carefully to complete the locking procedure.

➢ After the choices are locked, candidates will not be able to change their choices any further. A printable version of the choices along with the terms and conditions agreed by the candidate at the time of registration will be displayed once the choices are

locked.

➢ If a candidate fails to explicitly lock his/her choices before scheduled date and time, his/her last saved choices will be automatically locked after the deadline. Candidates are therefore strongly advised to lock their choices themselves and secure a printout of these locked choices. Registered candidates who do not fill any choices or fail to save them even once will not be considered for admission and seat allotment. Candidates can login again after locking the choices; the locked choices will be displayed but cannot now be modified or altered.

Note: 'SAVING' a choice is NOT the same as 'LOCKING' a choice. A choice that is only saved but not locked, can be retrieved later on and modified. The modified choice has to be saved again and the previously filled choices will be lost once the new choices are saved. But a choice that is locked cannot be modified again.

Seat Allotment

During this step, the choices submitted by the candidates will be processed centrally and seats will be allotted in the order of merit, availability of seats as per the Reservation Policy of the State for a particular category and on the basis of the locked choices. The allotment result will be available on the website: www.apdhte.nic.in. Candidates should take a printout of the allotment details from website.

Allotment Policy

As per the allotment policy seat allotment will be done in two rounds. In the first round, the seats will be allotted to the candidates and the result containing the institute and the branch allotted will be available on the website. In the second round, seats will be allotted against the available vacancies at the end of first round and the results will be available on the web site. In the second round, no fresh registrations or choice filling will be permitted; registered candidates will not be allowed to alter or resubmit their choice. Therefore, all candidates are advised to carefully fill in their choices in the first round itself. Allotment of seat will be based on a candidate's merit and his/her choices of branch/institute as per rule.

DOCUMENTS REQUIRED FOR REGISTRATION:

At the time of Online registration for APJEE 2023, the candidates will have to upload the scanned copy of the following documents to be eligible for appearing in the examination:

Conversion Rules as per rules of the state/UT

Before allotment of seats in the first round, if the number of registered PWD candidates is less than the seat available, conversion of PWD seats to non PWD is possible within the categories i.e. Cat I PWD to Cat I and Cat II PWD to Cat II separately to the extent of availability of PWD candidates.

If there is any resultant vacancy in the seats reserved for the PWD candidates after the first round of counseling, such seats will be converted to non-PWD seats within the separate Categories for the second and subsequent round(s).

Other instructions

- Category to be verified by the State Govt. before allotment of seats to avoid blocking of seats by candidates of other categories and states.
- Status of PWD candidate is to be captured at the time of registration
- Verification of status of PWD to be done before allotment of seats
