PREFACE

Budget is a major instrument in making policy decisions since the revenue and expenditure structure directly affects the level of national income and output. With increased social and developmental responsibilities in recent years, the Government activities have increased manifold to augment the revenue resources to meet the increased developmental expenditure requirements through various sources viz. State's Own Tax Revenue, State's Own Non-Tax Revenue, Share in Central Taxes and Grants from Centre.

The present brochure is the thirty sixth issue after the formation of Haryana State and presents some of the basic statistics relating to revenue receipts and revenue expenditure of all the States in Indian Union including National Capital Territory of Delhi. An attempt has been made to compare the revenue receipts from various sources and revenue expenditure incurred on developmental and non-developmental activities during the year 2003-2004 (Accounts), 2004-2005 (Revised Estimates) and 2005-2006 (Budget Estimates). The budgetary data used in this report is taken from the bulletin State Finances (A Study Of Budgets of 2005-2006) issued by Reserve Bank of India printed in December, 2005.

This report has been prepared by Shri Hari Mohan, Research Officer with the assistance of Smt. Saroj Mehra, Assistant Research Officers and Smt. Veena Garg, Junior Scale Stenographer under the supervision of Major SCL Datta, Deputy Economic & Statistical Adviser and Shri G.N.Aggarwal, Joint Economic & Statistical Adviser with overall guidance of Shri O.P. CHAPTER - I

STATE FINANCES - AN INTRODUCTION

The Constitution of India clearly specifies the expenditure responsibilities as well as the resources, which are in the domain of the Union as well as the State Governments. This has been done through three lists, the Union list, the State list and the concurrent list. There is no overlap of responsibilities as well as resources except for the concurrent list.

1.2 The States have been entrusted a crucial role in the growth process and most of the developmental functions have been assigned to them. They have the responsibility of developing social and economic infrastructure as well as maintaining the law and order. Most of these functions have a direct interface with people and require considerable employees strength to organize and perform effectively.

1.3 In terms of the powers to raise resources, Union Government has a predominant position. Taxes on income both for individuals and corporate entities, excise duties and tax on import and export of goods, service taxes, etc; are within the domain of the Union. Taxes on consumption are assigned to the States. Taxes on services, though meant for final consumption are levied by the Union. Recognizing the asymmetry in the assignment of receipts and expenditure responsibilities, Constitution envisaged transfer of resources from the Union to the States. This structured revenue sharing arrangement not only attempts at vertical and horizontal equity; it also provides States with additional resources to meet their expenditure obligations.

1.4 This is the thirty sixth report in the series started from the year 1968-69. The Revenue receipts from various sources & expenditure incurred on developmental and non-developmental activities are not exactly comparable as in some states certain activities are directly under State control while in other States the same activities are run by Corporation and Board of the State. Like-wise State Lotteries are also run by few States only. In this report, an attempt has been made to compare the revenue receipts of State Governments with a view to bring out the divergence in the mobilisation of resources by the States and the Central Government and revenue expenditure incurred on developmental and non developmental activities for the year 2003-2004 (Accounts), 2004-2005 (Revised Estimates) and 2005-2006 (Budget Estimates). There are four distinct sources from which the State Governments derive their revenues .These are i) State's Own Tax Revenue, ii) State's Own Non Tax Revenue, iii) Share in Central Taxes and iv) Grants from Centre. In order to present a meaningful comparison, all the 29 States (including National Capital Territory of Delhi) have been grouped

into non- special category and special category States. Some of the States are considerably dependent on the flow of resources from the union government. More than one third of their resources are generated by way devolutions of Union Taxes and grant in aid. In case of special category states, such endowments accounted for nearly three fourth of their revenue receipts (though resource transfer from the Union government is now largely institutionalized and increasingly more in the nature of entitlements, transfers particularly from Finance Commission are sensitive to the criteria being adopted. After the resommendation of eleventh Finance Commission there was a significant squeeze in the share of special category States).

2. Bihar
3. Chhattisgarh

CHAPTER- II

Resources of the States-Revenue Receipts

2.1 2003-2004 (Accounts)

Out of the total revenue receipts of Rs. 316535.50 crores of all the 29 States in 2003-2004 (Accounts), 62.59% was collected by the States themselves, constituting 50.52% as State's own Tax revenue and 12.07% as State's own Non-Tax Revenue. The remaining 37.41% was received from the Centre in the form of Share in Central Taxes (21.19%) and Grants from Centre (16.22%). Non special category States contributed Rs. 281048.82 crores (88.79%) whereas special category States contributed Rs. 35486.68 crores (11.21%).

2.1(a) Non -Special Category States

In the non special category States, the percentage of revenue collected by a State to its total revenue receipt was maximum (93.01%) in Delhi followed by Goa (88.41%), Punjab (89.06%), Haryana (87.07%), Maharashtra (83.53%), Gujarat (79.16%), Tamil Nadu (76.09%), Kerala (75.29%), Karnataka (74.80%) and Andhra Pradesh (64.80%). The revenue collected by the remaining States was more than 50% in all the non-special category States except Bihar (28.14%), Jharkhand (46.06%) and Orissa (46.57%). The minimum (6.10%) percentage of revenue received in the form of Share in Central Taxes to total revenue receipts was in Haryana whereas it was 6.22% in Punjab, 8.35% in Goa, 9.86% in Maharashtra, 10.77% in Gujarat and 14.95% in Tamil Nadu. Delhi didn't receive any share from Central taxes. Bihar received the maximum (55.70%) percentage of share in Central Taxes. Percentage share of Grants from Centre was minimum (3.24%) in Goa whereas it was 4.72% in Punjab, 6.60% in Maharashtra and 6.83% in Haryana. The percentage share of Grants from Centre was maximum (25.05%) in Jharkhand.

The major share of revenues in Haryana from State's own Taxes and State's own Non Tax Revenue was 87.07%. The receipt Share in Central Taxes and Grants from Centre for Haryana was only 12.93% whereas the States like Bihar, Jharkhand, Orissa, Uttar Pradesh, West Bengal and Madhya Pradesh received 71.86%, 53.94%, 53.43%, 49.80%, 43.56% and 42.13% respectively of their revenues from the Centre in the form of Share in Central Taxes and Grants from Centre.

2.1(b) Special Category States

In the special category States, the percentage of State's own Tax Revenue and State's own Non Tax Revenue to its total revenue receipts was less than 39% in all the special category States except Sikkim and Uttaranchal where it was 48.11% and 44.35% respectively. The major sources of revenues in these special category States were Grants from Centre and Share in Central Taxes. The major special category States like Assam, Himachal Pradesh, Jammu & Kashmir and Uttaranchal derived their revenues between 56% to 83% from these two sources, while small States like Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland and Tripura received between 78% to 95% except Sikkim where it was only 51.89%.

The details of revenue receipts and percentage of revenue receipts from various sources to total revenue receipts of individual States during 2003-2004 (Accounts) are given in Table 2.1 (a) & 2.1 (b).
