ECONOMIC CENSUS-2005

HARYANA

STATE LEVEL REPORT

**ECONOMIC AND STATISTICAL ORGANISATION
PLANNING DEPARTMENT
GOVERNMENT OF HARYANA
CHANDIGARH**

NOTE

As per the advice of Central Statistical Organisation, Ministry of Statistics and Programme Implementation, Government of India, the word 'Enterprise' has been replaced by 'Establishment', 'Own-Account Enterprise' by 'Own-Account Establishment' and 'Establishment' by 'Establishment with at least one hired worker'. While making reference to the previous period the same terminology has been followed.

PREFACE

The Central Statistical Organisation, Government of India had launched the scheme of Economic Census and Surveys in the year 1976 in order to bridge the data gaps in respect of unorganised non-agricultural sector of the economy. Under this scheme, Economic Censuses are conducted periodically throughout the country to provide basic information on location, type of activity, nature of operation, employment etc. of the establishments and to make available the frame to Central Statistical Organisation for designing follow-up Sample Surveys for obtaining detailed information on investment, input, output, employment and other operational characteristics of the establishments. Conduct of Economic Census is a joint endeavor of the Central Statistical Organisation, Ministry of Statistics and Programme Implementation, Government of India and Directorates of Economics and Statistics in States/UTs.

Accordingly, the first Economic Census was conducted in entire country during October, 1977. It aimed to collect the basic information about the non-agricultural establishments employing at least one hired worker on a fairly regular basis. The second and the third Economic Censuses were conducted in 1980 and 1990 respectively alongwith the house listing operations of 1981 and 1991 Population Censuses. These covered establishments with at least one hired worker and own-account establishments related to agricultural (excluding crop production and plantation) as well as non-agricultural activities. The fourth Economic Census was conducted in 1998 as a full-fledged Census with the same scope and coverage as of third Economic Census. The fifth Economic Census 2005, which has been conducted in whole of the country during the year 2005-06 is the latest in the series.

This report presents a broad analysis of the results compiled on the basis of information collected under fifth Economic Census 2005 relating to Haryana State. The report analyses number of agricultural and non-agricultural establishments and employment therein with rural/urban break-up of various districts. Report also covers the information about some of the important characteristics of the establishments like seasonality, working with/without premises, use of power/fuel, type of ownership etc. Break-up of establishments has been given according to major activity groups also.

I am thankful to all the District Statistical Officers in the districts for their cooperation in supervising the field work. Thanks are also due to Sh. V.K. Gupta, Joint Economic and Statistical Adviser (Retd.) for his guidance during field survey and data processing work. I feel obliged to the Central Statistical Organisation, Ministry of Statistics and Programme Implementation, Government of India for providing detailed guidelines and technical support on the basis of which this report has been prepared. I would also like to record my thanks to the Office of Registrar General of India, New Delhi & its Data Center at Chandigarh and Computer Center, Ministry of Statistics and Programme Implementation, Government of India, New Delhi for the valuable services rendered in processing the data through Intelligent Character Recognition technology and generating the tables for this report.

The acknowledgement is also made of the useful work done by Dr. Nathu Ram Sheoran, Research Officer and his team in Economic Census Section in the preparation of this report under the supervision and guidance of Senior Officers of Economic and Statistical Organisation, Haryana.

It is hoped that the information presented in this report will be of immense use to the planners, policy makers and all others interested in the economy of the State.

The report is also available on Department's website www.esaharyana.gov.in.

CHANDIGARH
Dated the 1st August, 2008

RAJENDER KUMAR BISHNOI
Economic and Statistical Adviser
to Government, Haryana.

CHAPTER-1

INTRODUCTION

The centrally sponsored scheme of fifth Economic Census was launched in the country in 2004 by Central Statistical Organisation (CSO), Ministry of Statistics and Programme Implementation (MOS & PI), Government of India (GOI) in collaboration with States/UTs to bridge the statistical data gaps in respect of unorganised sector of the economy. The efficient formulation of any sectoral planning scheme depends on reliable data base, preferably defined at lower level. The Economic Census is the complete count of all entrepreneurial units located within the geographical boundaries of the country, involved in any economic activities of either agricultural (excluding crop production and plantation) or non-agricultural sectors of the economy, engaged in the production and/or distribution of goods and/or services not for the sole purpose of own consumption. Since the Economic Census covers a large number of small units which are subjected to high rates of mobility and mortality, the Economic Census is required to be repeated at frequent intervals of five years.

Availability of Data in Agricultural and Non-Agricultural Sectors of the Economy:

1.2 During the last six decades, number of programmes were implemented to effect improvement in the reliability and timely availability of agricultural statistics. The programmes include National Sample Surveys, Crop Cutting Experiments, Quin-quennial Livestock/Agricultural Census etc. As a result, a fairly adequate system of agricultural statistics has been built up over a period, although there is still a scope for improvement. On the other hand, the availability of statistics for the non-agricultural sectors of economy like manufacturing, trade, transport, construction, services etc. was not satisfactory. While data were being collected regularly for some organised segments of these sectors, the coverage was partial, irregular and unreliable for most of unorganised segments. For example, data on manufacturing establishments registered under the Factories Act, 1948 were being collected regularly under the Annual Survey of Industries (ASI), whereas there was no regular collection of dependable statistics for non-factory units, i.e. manufacturing establishments using power and employing less than 10 persons or those not using power and employing less than 20 persons. Similarly, while statistics of rail transport and road

transport (in public sector) could be obtained from the respective administrative authorities, practically no data was available on road transport in private sector. There were similar gaps in the sectors relating to trade, construction, services etc. Though several attempts were made in the past to fill these data gaps, they were only partial and uncoordinated.

1.3 In order to fill the vital data gaps and for providing the basic frame work and information for planning, policy formulation, economic administration and the estimation of National Income, a central scheme called "Economic Census and Surveys" was launched by the Government of India during the Fifth Five Year Plan period. The scheme envisages organising periodically a nation-wide Census of all economic activities (excluding those engaged in crop production and plantation) followed by periodic detailed enquiries on a sample basis.

Attempts Made Earlier to Cover the Data Gap:

Economic Census 1977 :

1.4 Under the scheme of Economic Census and Survey, the first ever Economic Census was conducted in Haryana State alongwith other States of the country in the last quarter of 1977 to provide basic information on the number of establishments, number of persons usually working, the nature of activity and other characteristics such as type of ownership, social group of owner etc. of the establishment in non-agricultural sectors of the economy. The Census did not cover own-account and agricultural establishments. An establishment for the purpose of Economic Census was defined as one engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption and employing at least one hired worker on a fairly regular basis. For the field operation of first Economic Census (1977), a dual approach was adopted namely, (i) house listing for the urban areas and also for villages in rural areas with a population of over 5000 as per 1971 Population Census and (ii) village level enquiry for remaining villages in the rural areas. In the case of manufacturing activities, details about the output were also collected for important items. In addition to economic particulars, a schedule giving village amenities was also canvassed with details of various services available in the rural areas and the distance from the village to avail such facilities.

1.5 Further, on the basis of frame provided by this Census, the follow-up Sample Surveys covering non-factory manufacturing sector and other sectors such as trade, hotels and restaurants, transport, storage and warehousing and services were conducted

during 1978-80 to collect detailed information on employment, emoluments, investments, inputs and outputs etc. Of these, the non-factory manufacturing sector was covered during 1978-79 and the remaining sectors during 1979-80. For this purpose, the establishments were categorised into two groups, namely, (i) directory establishments i.e. establishments having a total employment of six or more persons and/or annual output/turnover/receipts of Rs. one lakh or more and (ii) the rest called the non-directory establishments. Separate Sample Surveys were conducted for these two groups. The non-directory establishments and own-account establishments were surveyed by the National Sample Survey Organisation (NSSO) as a part of their normal 33rd and 34th rounds, while the directory establishments were surveyed by the special staff appointed under the scheme in both the Centre and the States.

Economic Census 1980:

1.6 Second Economic Census was conducted in 1980 alongwith Population Census. It was considered economical and expedient by the Central Government to organise the second Economic Census in 1980 in conjunction with the house listing operations of Population Census 1981 in the overall interest of economy and operational convenience. Thus, the second Economic Census in Haryana vis-a-vis other States in the country was conducted in 1980 alongwith the house listing operations of the 1981 Population Census with wider scope and coverage as compared to first Economic Census (1977). Under the first Economic Census, only the non-agricultural sector was covered whereas the second Economic Census (1980) covered both non-agricultural and agricultural sectors. However, establishments engaged in crop production and plantation in agricultural sector were still kept outside the purview of second Economic Census. Further, in the first Economic Census only the establishments employing at least one hired worker on a fairly regular basis were covered whereas the second Economic Census also covered own-account establishments. In order to get the complete picture of non-agriculture economic activities in the context of generation of more employment opportunities, it was considered essential to collect information on own-account establishments also. Since the second Economic Census was linked with house listing operations of 1981 Population Census, complete house listing approach was adopted in urban as well as in entire rural areas for identifying the establishments under the second Economic Census instead of village level enquiry approach for smaller villages (villages with 5000 population or less) as was done at the time of first Economic Census.

1.7 For the purpose of second Economic Census (1980), an establishment was defined as an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption. An agricultural establishment was defined as one engaged in live-stock production, agricultural services, hunting, trapping and game propagation, forestry & logging and fishing. Establishments engaged in activities pertaining to agricultural production and plantation were not covered under the second Economic Census. Establishments engaged in all other activities were termed as non-agricultural establishments.

1.8 Information was collected on location of establishments, description of economic activity carried on, nature of operation, type of ownership, social group of owner, use of power, total number of workers usually engaged with its hired component and break-up of male and female workers. The entire field work was done by the field staff consisting of Enumerators and Supervisors employed in the Directorate of Census Operations, Haryana. Economic and Statistical Organisation, Haryana was also associated in the supervision of field work, data processing and preparation of State level report of Economic Census in the State.

1.9 The first follow-up survey after the conduct of second Economic Census in 1980 was initiated by the Central Government in 1983-84 covering hotels and restaurants, transport, storage and warehousing and services. The second survey covering unorganised manufacturing sector and the third covering wholesale and retail trade sectors were conducted during 1984-85 and 1985-86 respectively. Later on with a view to continuing the follow-up survey programme, the frame of 1980 Economic Census was updated during 1987-88 in some of the urban areas having problems of identification of Enumeration Blocks and changes due to rapid industrialisation. On the basis of the updated frame, a survey on hotels and restaurants and transport was conducted in 1988-89, while the second survey covered unorganised manufacturing sectors in 1989-90. The third survey on wholesale and retail trade was launched during the year 1990-91.

Economic Census 1990:

1.10 The third Economic Census, although approved by the Planning Commission, Government of India for conducting in 1986, could not be carried out in time due to financial constraints and other administrative problems. As in the case of second Economic Census, the third Economic Census was, therefore, synchronised with the house listing operations of the Population Census 1991. Coverage and approach of

third Economic Census (1990) was similar to that of second Economic Census (1980). Based on the frame thrown up by Economic Census 1990 four follow-up surveys were carried out: (i) Establishment survey covering sectors of mining & quarrying and storage & warehousing: 1992-93; (ii) Establishment survey covering sectors of hotels & restaurants and transport: 1993-94; (iii) NSS 51st round covering directory, non-directory and own-account establishments in unregistered manufacturing sector: 1994-95 and (iv) Directory trade establishments survey: 1996-97. NSS 53rd round covered the residual part of the unorganised trade sector in 1997.

Economic Census 1998:

1.11 When the first Economic Census (1977) was conducted throughout the country as a joint endeavor of Central Statistical Organisation in the Department of Statistics, Government of India and Directorates of Economic and Statistics in various States/UTs, it was thought that future Economic Census shall be conducted periodically on quin-quennial basis. But for the sake of convenience and cost constraints, second and third Economic Censuses were merged with the house listing operations of Population Census of 1981 and 1991 respectively. With the result, there has been a gap of ten years between the second (1980) and the third (1990) Economic Censuses.

1.12 With a view to meet the demand of various user departments for the data on the unorganised sectors of the economy and the nature of large number of small units which are subjected to high rates of mobility and mortality, it has been opined by Department of Statistics, Government of India that the Economic Census must be brought back to its quin-quennial nature so that an adequate and complete sampling frame once in five years is available for the follow-up detailed Sample Surveys. Secondly, it gained importance in assessing the impact of the economic liberalisation process on entrepreneurial activities in the country. Keeping in view these aspects, it was decided to conduct the fourth Economic Census in the year 1996 throughout the country in all States/UTs. However, due to late approval/release of funds under the scheme by Government of India, it could be conducted in various States/UTs during 1998.

1.13 Scope and coverage of fourth Economic Census conducted in 1998 was the same as of third Economic Census (1990). Under the fourth Economic Census, a complete enumeration of entrepreneurial activities (other than crop production and plantation) in rural and urban areas of the State alongwith other States of the country was carried out. For the purpose of fourth Economic Census (1998), an establishment was defined as an

undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption. An independent house listing approach was adopted both in rural and urban areas for identifying the establishments under the fourth Economic Census. Provision was made in the House List Form to identify establishments either being carried out at the place/places listed or without any fixed place i.e. in the open by one or more members of the household residing in the premises listed.

1.14 Based on the frame thrown up by Economic Census 1998, the following follow-up surveys were carried out:-

- (i) Special establishments survey in unorganised sector: 1998-99.
- (ii) Survey on unorganised manufacturing sector: 2000-01.
- (iii) Survey on unorganised establishments in services sector (excluding trade and finance) : 2001-02.
- (iv) Survey of unorganised manufacturing sector: 2005-06.
- (v) Survey on unorganised establishments in services sector (excluding trade): 2006-07.

Fifth Economic Census 2005:

1.15 The fifth Economic Census was conducted during 2005 in the country covering all economic activities (agricultural and non-agricultural) except those engaged in crop production and plantation. Economic Census is the complete count of all entrepreneurial units located within the geographical boundaries of the country. The main purpose of conducting Economic Census is to generate an updated frame of establishments for detailed follow-up surveys which mainly provide data for compilation of estimates of National Income from unorganised sector. The results of Economic Census also provide basic entrepreneurial data on number of establishments and employment therein relating to different sectors of the economy for the purpose of planning and development etc.

Scope and Coverage of fifth Economic Census:

1.16 The fifth Economic Census (2005) was conducted in the whole of the country. All economic activities (agricultural and non-agricultural) except those involved in crop production and plantation have been covered under the fifth Economic Census.

Definition of an Establishment:

1.17 For the purpose of fifth Economic Census, an establishment was defined as an enterprise or part of an enterprise that is situated in a single location in which one or predominantly one kind of economic activity is carried out. It is an economic unit under a single legal entity. If more than one entrepreneurial activity is carried out in the same census house by the same person/persons or by the same workers and the workers can not be divided into two or more establishments then such establishments were treated as one establishment with two activities: one major and the other subsidiary. Establishments were classified into agricultural establishments and non-agricultural establishments. An agricultural establishment was defined as one engaged in livestock production, agricultural services, hunting, trapping and game propagation, forestry & logging and fishing. Establishments engaged in activities pertaining to agricultural production and plantation were not covered under this Economic Census. Establishments engaged in all other activities were termed as non-agricultural establishments. The establishments operated with the help of household labour only were termed as own-account establishments.

Exclusions of Activities:

1.18 Activities relating to growing of agricultural crops and plantations mentioned below are not counted under this Census:-

- i) Growing of cereal crops such as paddy, wheat, jawar, bajra, maize, barley etc.
- ii) Pulses such as arhar, gram, moong, masoor, urd etc.
- iii) Raw cotton, raw jute, mesta, sun hemp and other kind of fibres etc.
- iv) Oil seeds such as sesamum, ground nut, mustard, linseed, castor, rape seed etc.
- v) Sugarcane, sugarbeet, potatoes, other roots and tubers etc.
- vi) Vegetables, singhara, chillies and spices.
- vii) Floriculture and horticulture including their nurseries.
- viii) Fodder crop, medicinal plants.
- ix) Agricultural production not else where classified.

1.19 All establishments engaged in plantations, which are also excluded in this Census are listed below:-

- i) Tea, coffee, rubber, tobacco, pepper and cardamom etc.

- ii) Coconut, arecanut, cashewnut, walnut, almond, other edible nuts not elsewhere classified.
- iii) Apple, bananas, grapes, mangoes, oranges, pears, other fruits not elsewhere classified.
- iv) Ganja, cinchona, opium, betel leaves (pan), cocoa, other plantations not elsewhere classified.

1.20 Economic activities carried out under the following situations (i) to (ix) are also have not been covered in this Census:-

- i) Establishments of shelter-less and nomadic population which keep on moving from place and camp either without shelter or with make-shift shelter are not covered.
- ii) Establishments engaged in some activities like smuggling, gambling, beggary, prostitution etc. are not covered.
- iii) Domestic servants whether they work in one household or in a number of households are not being covered. Similarly drivers who undertake jobs for others on wages will also not being covered.
- iv) All wage paid employees are not considered to be running establishments.
- v) Household members engaged in household chores are not considered to be running establishments.
- vi) Persons doing different types of jobs depending on the availability of work e.g. loading, unloading, helping a mason or a carpenter, doing earthwork for a contractor should not be taken as running establishments since they do work on wages.
- vii) Households members working for others and earning some money (insignificant) should not be treated as engaged in entrepreneurial activity.
- viii) Households in which none of the members is engaged in any gainful activity i.e. households depending on remittances, rent, interest, pensions etc. will not be treated as engaged in entrepreneurial activity.
- ix) Owners of tube-wells, tractors and bullock carts etc. who utilise their spare capacity to earn extra money should not be classified as running an establishment, if the spare capacity utilisation is occasional and not on regular basis.

Approach:

1.21 An independent house listing approach was adopted both in rural and urban areas for identifying the establishments under the fifth Economic Census. Provision was made in the House List Schedule to identify establishments being carried out at the place/places listed or without any fixed place i.e. in the open by one or more members of the household residing in the premises listed.

Planning for the Census:

1.22 A high level Committee at all India level named Standing Committee on fifth Economic Census was constituted under the Chairmanship of Director General, Central Statistical Organisation. The Committee finally decided that the fifth Economic Census should be a full-fledged Census and be conducted during 2004-05. The Committee also recommended formation of three working groups for advising on planning, execution and reports on the Census. Working Group-I was for planning of survey, finalisation of contents of Schedules to be canvassed, format of output tables and related aspects; Working Group-II for conduct of field/survey work and conceptual and operational definition of respondent etc. and Working Group-III for data processing, tabulation and release of results. For monitoring of various activities of the Economic Census, Steering Committee at State level under the Chairmanship of Chief Secretary and Monitoring Committees under the Chairmanship of Deputy Commissioner in each district of State were constituted.

Forms:

1.23 The Economic Census operations consisted of (i) identification of the establishments through complete house listing enquiry in the House List Schedule No. 51,52 (ii) collecting basic particulars regarding the establishments in the Establishment Schedule No. 53,54 and (iii) entries contained in the Establishment Schedule were compiled in Establishment Abstract Schedule No. 55,56 (iv) address and other particulars of the establishments in the Address Slip Schedule No. 57 for establishments having 10 or more workers (Annexures I to VII).

Items of Information Collected:

1.24 The items of information collected in the fifth Economic Census included location of the establishments, nature of operations, type of ownership, social group of owner, power/fuel used for the activity, registration, source of finance, total number and

the number of hired persons usually working in the establishments, years of operation and name of the establishments alongwith detailed address in Hindi/English language was also recorded for establishments having 10 or more workers (unpaid and hired workers included) .

Period of the Census:

1.25 Initially, it was proposed by Ministry of Statistics and Programme Implementation, Government of India that field operation of fifth Economic Census in various States/UTs be conducted during 2004-05 but it was postponed to between April, 2005 to June, 2005. However, Haryana State chose the month of June, 2005 for conducting the field work of fifth Economic Census.

Operations:

1.26 The overall responsibility for technical guidance and data processing/ tabulation of the Economic Census data rested with the Central Statistical Organisation in cooperation with the Directorates of Economics and Statistics in the States/UTs. The field operations under fifth Economic Census in Haryana was conducted under the control of the Economic and Statistical Organisation, Haryana. For organising fifth Economic Census in the State, State level Steering Committee and District level Monitoring Committees were constituted by the State Government under the Chairmanship of Chief Secretary to Government, Haryana and Deputy Commissioners of various districts respectively. In order to canvass the House List Schedule, Establishment Schedule and Address Slip Schedule, the part-time services of about 8000 locally drawn personnel such as school teachers, village level workers, municipal workers etc. were utilised as Enumerators. The local officials of slightly senior levels were appointed as Supervisors. Intensive training was given to various functionaries at State, district and lower levels. For the field work, the Enumerators visited the census villages/UFS blocks in rural/urban areas. Each Enumerator was allotted with the work of one or more Enumeration Blocks. One Enumeration Block broadly covers 200-230 households in rural and one UFS block 150-170 households in urban area.

Provisional Results:

1.27 Arrangements were made for quick tabulation of important items in the Establishment Schedule by the Enumerators themselves. For this purpose, an Establishment Abstract (format at Annexure-V & VI) was prescribed to be filled by the

Enumerators immediately after the field work in an Enumerator's Block was completed. Further aggregations at district levels were made by the staff of District Statistical Offices for providing district-wise provisional results on items such as the total number of agricultural and non-agricultural establishments, the total and hired employment in these establishments together with certain selected characteristics. The provisional results at the State level were compiled and consolidated by the staff of Economic and Statistical Organisation, Haryana at the State Headquarter. The all India provisional results were released on 12th June, 2006.

Processing of Economic Census Schedules and Tabulation Plan:

1.28 “Automated Form Processing” more commonly known as Intelligent Character Recognition (ICR) technology was used first time in the processing of data collected through fifth Economic Census. After coding of the economic activities as per National Industrial Classification (NIC), 2004 in the filled-in Establishment Schedules by the staff of District Statistical Offices the work of Inventory preparation and formation of Batches of filled-in Schedules for scanning was done at district level as given below:-

- i) Set of Schedules of a Block was formed as a Batch for scanning purpose.
- ii) It was presumed that the set of Schedules canvassed from each Block are arranged type-wise (at the top Schedules No. 51, then 53,55 and 57 at the bottom for Rural Block and at the top Schedules No. 52, then 54,56 and 57 at the bottom for Urban Block) and kept in plastic packets.
- iii) It was also presumed that each of such packing sets of all the Blocks of a district are then arranged sector-wise (Rural and Urban Blocks separately) and kept in separate Card Board Boxes. Separate Inventory-cum-Job Sheets were prepared for rural and urban areas for each district.

1.29 The work of scanning of filled-in Schedules was carried out at Data Center of the Office of the Registrar General of India (RGI) located at Chandigarh. A team of Economic and Statistical Organisation, Haryana assisted Data Center in scanning and processing of Economic Census Schedules. After scanning of all the filled-in Schedules certain pre-determined consistency checks (as prepared by MOS & PI) were carried out on the data and an edit error list was generated for each Batch of Schedules by the Data Center. This edit error list was examined by the team of Economic and Statistical Organisation, Haryana and necessary corrections were made in the data file so as to make

it error fee. The error free data files were sent to Office of the Registrar General of India, New Delhi. The tabulated results required for writing State level report were provided by Computer Centre, Ministry of Statistics & Programme Implementation, Government of India, New Delhi.

1.30 Various tables has been prepared by Economic and Statistical Organisation, Haryana from tabulated results provided by Government of India in the form of CD. Results of fifth Economic Census has been classified into four broad categories (a) Agricultural Own-Account Establishments; (b) Agricultural Establishments with at least one hired worker; (c) Non-Agricultural Own-Account Establishments; and (d) Non-Agricultural Establishments with at least one hired worker. For each of these categories, details on number of establishments, employment with rural-urban break-up for each district were planned to be presented by size class of employment, major activity-wise etc.

1.31 List of economic activities for which agricultural and non-agricultural establishments have been classified is given at Annexure-VIII.

1.32 In the tabulation software there was provision for generating district-wise Summary Statements also. These contained distribution of establishments and employment therein by type of establishments (i.e. Own-Account Establishments, Non-directory Establishments and Directory Establishments) in each of the 20 major activity groups (list at Annexure-VIII). The distribution is separately for Private NPI, Private Unincorporated Proprietary/Partnership and Private Others. Like 1980, 1990 and 1998 Economic Census, information contained in the Summary Statements will be used as a frame for future follow-up surveys to be undertaken by NSSO/CSO as follow-up of 2005 Economic Census.

Classification of Establishments:

1.33 The National Industrial Classification (NIC), 2004 was used in fifth Economic Census for classifying the establishments.

Concepts and Definitions:

1.34 The concepts and definitions of important terms used in the fifth Economic Census are at Annexure-IX.

Format of the Report:

1.35 The report consists of two parts. In Volume-1 of the report, salient aspects of the census results at State level are discussed. Chapter-1 deals with the background of

Economic Census and its actual conduct and Chapter-2 deals with results at a glance. Chapter-3 and 4 deals with principal characteristics of establishments separately for agricultural and non-agricultural activities respectively. Chapter-5 deals with registration and source of finance of establishments. Chapter-6 contains summary of results. Some charts featuring broad results have also been included in the report.

1.36 Volume-2 of the report will be prepared from the House List Schedule and Address Slip Schedule. The content of the Volume-2 would be basically listing of houses/units as per their category codes like residential units, residential-cum-entrepreneurial units etc. and address of the entrepreneurial units having 10 or more workers. It has also been decided to bring out Volume-2 in soft form instead of hard copies.

1.37 Specimen copies of Schedules canvassed (House List Schedule, Establishments Schedule , Establishments Abstract Schedule and Address Slip Schedule), list of major economic activity groups and concepts and definitions of terms used in the report are also given at the end of the report in the form of Annexures I to IX.

CHAPTER-2

RESULTS AT A GLANCE

The present chapter deals with the results of fifth Economic Census at glance. In Haryana there were 833898 establishments which were engaged in the different economic activities other than crop production and plantation with 2244817 persons usually working in them. Among these establishments 759033 forming 91.02 percent were engaged in non-agricultural activities and the rest 74865 forming 8.98 percent were engaged in agricultural activities other than crop production and plantation. As stated earlier, establishments engaged in activities pertaining to agricultural production and plantation were outside the purview of this Census. Of the total establishments, 457950 (54.92 percent) were located in rural areas and the remaining 375948 (45.08 percent) in urban areas. Own-account establishments (establishments which are owned and operated with the help of household members only i.e. without any hired worker) numbering 560091 form 67.17 percent of the total establishments. The remaining 32.83 percent numbering 273807 constitute establishments with at least one hired worker on the fairly regular basis.

Establishments:

2.2 The number of establishments and employment therein are given in table 2.1. It is observed from the table 2.1 that out of total 457950 establishments located in rural areas, 339474 establishments (74.13 percent) were own-account and 118476 (25.87 percent) were establishments with at least one hired worker. Out of 457950 establishments located in rural areas, 68412 establishments (14.94 percent) were engaged in agricultural activities and the rest 389538 establishments (85.06 percent) were engaged in non-agricultural activities. Out of 68412 agricultural establishments in rural areas, 57731 (84.39 percent) were own-account establishments and the remaining 10681 (15.61 percent) were establishments with at least one hired worker. In the case of 389538 non-agricultural establishments in rural areas, 281743 (72.33 percent) were own-account establishments and the rest 107795 (27.67 percent) were establishments with at least one hired worker. Table 2.1 also reveals that in rural areas the own-account establishments and establishments with at least one hired worker were found to be roughly in the ratio of 5:1 and 3:1 respectively in agricultural and non-agricultural activities.

* Other than crop production and plantation.

Note: Figures under columns 3 and 5 are percentages with respect to column 6.

2.3 As regards urban areas, 6453 establishments constituting 1.72 percent of the total 375948 urban establishments were engaged in agricultural activities and the rest 369495 establishments i.e. 98.28 percent were engaged in non-agricultural activities. Out of total establishments in urban areas, 220617 (58.68 percent) were own-account establishments and the remaining 155331 (41.32 percent) were establishments with at least one hired worker. Of the urban agricultural establishments, 3579 (55.46 percent) were own-account establishments and the rest 2874 (44.54 percent) were establishments with at least one hired worker. In case of non-agricultural establishments in the urban areas, out of total 369495 establishments, own-account establishments were 217038 (58.74 percent) whereas the rest 152457 (41.26 percent) were establishments with at least one hired worker.

2.4 As could be expected, concentration of agricultural establishments was more in rural areas than in urban areas. About 91 percent of the total number of establishments engaged in agricultural activities were in the rural areas and the remaining about 9 percent were in the urban areas. In case of non-agricultural activities, around 51 percent establishments were located in the rural areas and the remaining 49 percent were in the urban areas. Out of total 833898 establishments in Haryana State, 457950 (54.92 percent) were located in the rural areas and the rest 375948 (45.08 percent) were located in the urban areas.

Employment:

2.5 Of the total 2244817 persons working in all the establishments in Haryana State, 1111460 persons (49.51 percent) were working in the rural establishments and 1133357 persons (50.49 percent) were working in the urban establishments. Of the total 698735 persons working in own-account establishments, 439168 (62.85 percent) belong to rural establishments. Out of total 1546082 workers engaged in establishments with at least one hired worker, 672292 (43.48 percent) were working in rural areas as compared to 873790 workers (56.52 percent) in urban areas. Hired workers accounted for 85.71 percent (1325107) of the total employment of 1546082 in all establishments with at least one hired worker.

2.6 In the establishments engaged in agricultural activities, out of total 157033 persons employed, 112631 (71.72 percent) were engaged in own-account establishments and the remaining 44402 (28.28 percent) in establishments with at least one hired worker. Of the total workers engaged in agricultural establishments with at least one hired worker, the hired workers accounted for about 64.43 percent.

2.7 Out of 2087784 persons employed in establishments engaged in non-agricultural activities, the employment in own-account establishments accounted for only 586104 i.e. 28.07 percent and the remaining 1501680 (71.93 percent) were working in establishments with at least one hired worker. In establishments with at least one hired worker 86.34 percent (1296497 out of 1501680) were hired workers.

Major Activity-Wise Distribution of Agricultural Establishments and Employment therein:

2.8 The activity-wise distribution of agricultural establishments and employment therein is given in table 2.2 and 2.3.

Table 2.2: Number of Agricultural Establishments by Major Activity Groups and by type of Establishments-Haryana State

| Major Activity Groups | OAE | Estt. | Total |
|----------------------------------|-------------------|-------------------|-------------------|
| 1 | 2 | 3 | 4 |
| Rural | | | |
| 01 Farming of Animals | 56803 (98.39) | 10108 (94.64) | 66911 (97.81) |
| 02 Agricultural Services | 822 (1.43) | 488 (4.57) | 1310 (1.91) |
| 03 Fishing etc. | 106 (0.18) | 85 (0.79) | 191 (0.28) |
| All Activities (Agricultural) | 57731 (100.00) | 10681 (100.00) | 68412 (100.00) |
| Urban | | | |
| 01 Farming of Animals | 3449 (96.37) | 2595 (90.29) | 6044 (93.66) |
| 02 Agricultural Services | 58 (1.62) | 161 (5.60) | 219 (3.39) |
| 03 Fishing etc. | 72 (2.01) | 118 (4.11) | 190 (2.95) |
| All Activities (Agricultural) | 3579 (100.00) | 2874 (100.00) | 6453 (100.00) |
| Combined | | | |
| 01 Farming of Animals | 60252 (98.27) | 12703 (93.71) | 72955 (97.45) |
| 02 Agricultural Services | 880 (1.44) | 649 (4.79) | 1529 (2.04) |
| 03 Fishing etc. | 178 (0.29) | 203 (1.50) | 381 (0.51) |
| All Activities (Agricultural) | 61310 (100.00) | 13555 (100.00) | 74865 (100.00) |

Note: (i) Figures in brackets give percentage to all activities (agricultural) in respective areas.

(ii) OAE= Own-Account Establishments, Estt.= Establishments with at least one hired worker.

2.9 Table 2.2 indicates that the activity group 'Farming of Animals' dominated all the agricultural activity groups netting 72955 establishments with a share of 97.45 percent of the total 74865 agricultural establishments. Whereas the share of 'Farming of Animals' activity group was found to be more in rural areas as compared to urban areas, the share of 'Agricultural Services' and 'Fishing etc.' activities was found to be more in urban areas as compared to rural areas.

| Combined | | | |
| 01 Farming of Animals | 111188 (98.72) | 39443 (88.83) | 150631 (95.92) |
| 02 Agricultural Services | 1218 (1.08) | 4322 (9.73) | 5540 (3.53) |
| 03 Fishing etc. | 225 (0.20) | 637 (1.44) | 862 (0.55) |
| All Activities (Agricultural) | 112631 (100.00) | 44402 (100.00) | 157033 (100.00) |

Note: (i) Figures in brackets give percentage to employment in all activities (agricultural) in respective areas.
(ii) OAE= Own-Account Establishments, Estt.= Establishments with at least one hired worker.

2.10 As regards employment in agricultural establishments for the State as a whole, table 2.3 indicates that the activity group 'Farming of Animals' again dominated the other activity groups with a share of 95.92 percent of the total employment in agricultural establishments. Whereas the proportion of employment in 'Farming of Animals' was found more in rural areas, it was found more in 'Agricultural Services' and 'Fishing etc.' activities in urban areas.

Major Activity-Wise Distribution of Non-Agricultural Establishments and Employment therein:

2.11 The activity-wise distribution of non-agricultural establishments and employment therein is given in table 2.4 and 2.5.

2.12 The table 2.4 indicates that 'Retail Trade' alone contributed 43.81 percent of all the non-agricultural establishments. This was followed by 'Manufacturing' with 17.85 percent establishments and further by 'Other Community, Social and Personal Service Activities' with 6.91 percent establishments. These three activity groups together shared about 69 percent establishments in rural areas and about 68 percent in urban areas.

2.13 In own-account establishments 'Retail Trade' had dominated all other groups with a share of 51.06 percent followed by 'Manufacturing' which accounted for a share of 15.94 percent of the total own-account establishments in the State. 'Other Community, Social and Personal Service Activities' occupied the third place which accounted for 7.54 percent.

2.14 Amongst establishments with at least one hired worker, the activity group 'Retail Trade' had the highest number of 77835 establishments sharing 29.91 percent of the total 260252 in the State. It was followed by 'Manufacturing' with a total of 55979 establishments or 21.51 percent of the total. The activity 'Education' occupied the third place which accounted for 20945 establishments or 8.05 percent.

2.15 The distribution of employment over all the non-agricultural establishments by 17 major activity groups and by type of establishments is presented in table 2.5. The three economic activity groups viz., 'Manufacturing' 'Retail Trade' and 'Education' were dominant in having the maximum number of workers. 'Manufacturing' group alone absorbed 702945 persons out of the total 2087784 (33.67 percent of total employment). This activity group is followed by 'Retail Trade' group accounting for 485366 employees with a share of 23.25 percent of the total employment in non-agricultural sector. 'Education' occupied the

Note: (i) Figures in brackets give percentage to employment in all activities (Non-agricultural).

(ii) OAE=Own-Account Establishments, Estt.= Establishments with at least one hired worker.

third place with 199733 employees sharing 9.57 percent. Thus the three groups together constituted 66.49 percent of the total employment in non-agricultural sector with a comparable share of 64.76 percent in the total establishments. The employment in 'Manufacturing' 'Retail Trade' and 'Public Administration & Defence and Social Security' was 332550, 262587 and 109968 persons showing 29.77, 23.50 and 9.84 percent respectively of total employment in urban areas. Thus, the total share in employment of these three activity groups was 63.11 percent. However, a slight different ranking has been observed in rural areas. Here the economic activity group 'Manufacturing' has dominated with 38.17 percent share, 'Retail Trade' with 22.95 percent share and 'Education' with 12.57 percent share. As such, the combined share of these three economic activity groups was 73.69 percent of the total employment in rural non-agricultural establishments.

2.16 Further break-up of establishments into own-account establishments and establishment with at least one hired worker as presented in table 2.5 reveals that the economic activity group 'Manufacturing' had the maximum employment in establishments with at least one hired worker which accounted for 598257 persons (39.84 percent) followed by 'Education' 195341 persons (13.01 percent). In case of own-account establishments, the 'Retail Trade' group has the maximum employment accounting 292459 persons (49.90 percent) followed by 'Manufacturing' group with 104688 persons (17.86 percent) and 'Other Community, Social and Personal Services' group offered employment to 43593 persons (7.44 percent).

Selected Characteristics of Establishments :

2.17 Table 2.6 indicates the selected characteristics of establishments in Haryana State by their location. It reveals that 18129, 773643 and 6590 establishments out of total 833898 establishments forming 2.17, 92.77 and 0.79 percent were owned by Private Non-Profit Institutions, Private Unincorporated Proprietary/Partnership and Private Others respectively. Thus, about 96 percent of the establishments were in the private sector. Only 3.77 percent of the total establishments were seasonal establishments, 12.52 percent were without any premises and 69.12 percent of the establishments were working without power or fuel. In Haryana State establishments owned by Scheduled Castes were 9.96 percent and by Other Backward Classes were 28.07 percent.

2.18 The table 2.6 further reveals that the concentration of establishments owned by Private Unincorporated Proprietary/Partnership and the establishments without power/fuel was 95.36 percent and 67.85 percent respectively in urban areas.

However, in rural areas establishments owned by Private Unincorporated Proprietary/Partnership and without power/fuel were 90.65 percent and 70.16 percent respectively. Of all the 83016 establishments owned by Schedule Castes and 234115 establishments owned by Other Backward Classes in the State, 55754 and 158000 respectively were located in rural areas and the remaining 27262 and 76115 were located in urban areas.

Note: (i) Figures in brackets show the percentage share of selected characteristics of establishments to all establishments in the respective areas.

(ii) OAE=Own-Account Establishments, Estt. = Establishments with at least one hired worker, NPI=Non-Profit Institutions, SC= Scheduled Caste, OBC= Other Backward Class.

Distribution of Establishments and Employment by Size Class of Employment:

2.19 Table 2.7 gives the detail of establishments and persons usually working therein by size class of employment with rural and urban break-up. It reveals that shares of the size class 1-5 in all establishments was about 95 percent whereas about 3 percent and 2 percent establishments were accounted for by the size classes 6-9 and 10 & above respectively. About 96 percent of the establishments in the rural areas fall under size class of employment 1-5 whereas about 2 percent each of establishments fall under the size classes 6-9 and 10 & above respectively. In the urban areas, the size class with 1-5 employees accounted for about 94 percent of the total establishments whereas the size classes 6-9 and 10 & above accounted for about 4 percent and 3 percent respectively. Thus, establishments with size class of employment 1-5 are slightly more in rural areas and 6-9 and 10 & above in urban areas.

Table 2.7: Distribution of Establishments and Persons Usually Working therein by Size Class of Employment and Rural Urban Location-Haryana State
(Number)

| Items | Size Class of Employment | | | |
|------------------------------|--------------------------|------------------|-------------------|---------------------|
| | 1-5 | 6-9 | 10 & above | All classes |
| 1 | 2 | 3 | 4 | 5 |
| Rural | | | | |
| (i) Establishments | 438615 (95.78) | 11296 (2.47) | 8039 (1.75) | 457950 (100.00) |
| (ii) Persons Usually Working | 661388 (59.51) | 82427 (7.42) | 367645 (33.07) | 1111460 (100.00) |
| Urban | | | | |
| (i) Establishments | 352757 (93.83) | 13797 (3.67) | 9394 (2.50) | 375948 (100.00) |
| (ii) Persons Usually Working | 590131 (52.07) | 100122 (8.83) | 443104 (39.10) | 1133357 (100.00) |
| Combined | | | | |
| (i) Establishments | 791372 (94.90) | 25093 (3.01) | 17433 (2.09) | 833898 (100.00) |
| (ii) Persons Usually Working | 1251519 (55.75) | 182549 (8.13) | 810749 (36.12) | 2244817 (100.00) |

Note: Figures in brackets give percentage to all classes.

2.20 Table 2.7 further reveals that though the establishments in size class 10 & above constituted only 2.09 percent of the total establishments in Haryana State, these account for 36.12 percent of the total persons usually working in all the establishments. The share of employment for this group in the rural areas was 33.07 percent and in urban areas it was 39.10 percent of the total persons usually working in these areas. The size class 1-5 which had the maximum number of establishments in rural as well as in the urban areas accounted for 59.51 percent and 52.07 percent of total employment in the respective areas.

Inter-District Comparison on Concentration of Establishments with Respect to Population and Area:

2.21 Inter-district comparison of establishments by population as given in table 2.8 reveals that though district Faridabad tops the list as regards the total number of establishments, the concentration was maximum in Kaithal district with 61 establishments per 1000 population followed by Fatehabad (59), Kurukshetra (48) and Ambala (45). Jhajjar district was trailing behind all the districts with 28 establishments per 1000 population. For the State as a whole, average number of establishments per 1000 population was 39.

2.22 In the urban areas Fatehabad district claimed highest position having 86 establishments per 1000 population whereas Panchkula district got the lowest position with 33 establishments per 1000 population as against State's average of 61 establishments per 1000 population. So far as rural sector is concerned, Kaithal district topped the list with 56 establishments per 1000 population and Sonipat and Jhajjar districts were put up in the lowest position each having 21 establishments per 1000 population. The above analysis, particularly relating to urban areas, should not make one to believe that Fatehabad district is more industrialized/commercialized than Faridabad, Gurgaon, Panipat and Hisar etc. unless other factors such as density of population etc. are taken into account.

2.23 Inter-district comparison of establishments by area as given in table 2.9 further shows that Faridabad district had the concentration of 37 establishments per Sq. Km. of area closely followed by Panipat (34), Ambala (29), Yamunanagar and Kurukshetra (26 each). Other districts above the State's average of 19 establishments per Sq. Km. of area were Kaithal (25), Gurgaon (24), Rohtak (23) and Karnal (20). Bhiwani district with 9 establishments per Sq. Km. occupied the lowest position.

Comparison of Results of 1977, 1980, 1990, 1998 and 2005 Economic Censuses:

2.24 It has already been made clear in Chapter-1 that first Economic Census was conducted independently in 1977 with limited scope and coverage. Under this Economic Census, only establishments with at least one hired worker under non-agricultural sector were covered. Thereafter, the field work of second Economic Census 1980 and third Economic Census 1990 were carried out alongwith the house listing operations of the decennial Population Censuses of 1981 and 1991 respectively with wider scope and coverage. Both these Economic Censuses have enumerated own-account establishments and establishments with at least one hired worker in both the agricultural and non-agricultural sectors (except activities relating to crop production and plantation). Scope and coverage of fourth Economic Census 1998 and fifth Economic Census 2005 is similar to Economic Census 1980 and Economic Census 1990 though these have been conducted independently. The tabulation plan of Economic Census 2005 envisaged to provide comparable results with Economic Census 1980, Economic Census 1990 and Economic Census 1998 in respect of number of establishments and persons usually employed, by location, by type of establishments, by selected characteristics. However, comparison with results of Economic Census 1977 could be made in respect of non-agricultural establishments with at least one hired worker only. Following paragraphs contain a comparison of various results of 1977, 1980, 1990, 1998 and 2005 Economic Censuses.

Number of Establishments and Employment therein:

Table 2.10: Establishments and Employment therein by their Location-Haryana State
(Number)

Table 2.10: Establishments and Employment therein by their Location-Haryana State (Concl.)

| Location | Annual Growth Rate of Establishments | | | Annual Growth Rate of Employment | | |
|----------|--------------------------------------|---------|-----------|----------------------------------|---------|-----------|
| | 1980-90 | 1990-98 | 1998-2005 | 1980-90 | 1990-98 | 1998-2005 |
| 1 | 10 | 11 | 12 | 13 | 14 | 15 |
| Rural | 2.78 | 1.62 | 9.84 | 3.56 | 1.60 | 9.33 |
| Urban | 4.43 | 2.19 | 3.50 | 3.21 | 1.90 | 2.34 |
| Combined | 3.64 | 1.93 | 6.61 | 3.34 | 1.79 | 5.35 |

2.25 Table 2.10 gives the comparative figures of number of establishments and usual employment in them with rural-urban break-up for Economic Census 1980, 1990, 1998 and 2005. The Economic Census 2005 revealed that there were 833898 establishments in the State in different economic activities with 2244817 persons usually working in them as compared to 319679 establishments with 973966 workers as per Economic Census 1980, 457120 establishments with 1353234 workers as per Economic Census 1990 and 532817 establishments with 1559007 workers as per Economic Census 1998. In Haryana annual growth rate in number of establishments during the period 1998-2005 was observed as 6.61 percent and State ranks at 6th position after Mizoram, Tripura, Kerala, Tamil Nadu and Assam. Annual growth rate was 3.64 percent during the period 1980-90 and 1.93 percent during the period 1990-98. Likewise, annual growth rate of employment in these establishments was observed as 5.35 percent during the period 1998-2005 and State ranks at 4th position after Jammu & Kashmir, Andhra Pradesh and Kerala. In the State annual growth rate in employment was 3.34 percent during the period 1980-90 and 1.79 percent during the period 1990-98.

2.26 It could be observed that though the number of establishments in rural sector had increased from 208715 in Economic Census 1990 to 237420 in Economic Census 1998 and further to 457950 in Economic Census 2005, their share to total number of establishments had increased from 44.56 percent in Economic Census 1998 to 54.92 percent in Economic Census 2005. However, share of employment in the rural establishments to total employment decreased marginally from 38.75 percent in Economic Census 1990 to 38.18 percent in Economic Census 1998 and then increased to 49.51 percent in Economic Census 2005. The share of employment in urban establishments increased marginally from 61.25 percent in 1990 to 61.82 percent in 1998 which declined to

50.49 percent in 2005. The annual growth rate of establishments was 1.93 percent during 1990-98 and 6.61 percent during 1998-2005. The annual growth rate of establishments was 9.84 percent in rural areas and 3.50 percent in urban areas during 1998-2005. Like the annual growth rate of establishments, annual growth rate of employment has also increased from 1.79 percent during 1990-98 to 5.35 percent in 1998-2005. The annual growth rate become 9.33 percent in rural area and 2.34 percent in urban areas during 1998-2005.

Agricultural and Non-Agricultural Establishments:

2.27 Table 2.11 gives information on the number of agricultural and non-agricultural establishments with rural and urban break-up.

Table 2.11: Agricultural and Non-Agricultural Establishments by their Location- Haryana State

(Number)

| Location | Agricultural Establishments | | | | Non-Agricultural Establishments | | | |
|----------|-----------------------------|-------------------|-------------------|-------------------|---------------------------------|--------------------|--------------------|--------------------|
| | EC 1980 | EC 1990 | EC 1998 | EC 2005 | EC 1980 | EC 1990 | EC 1998 | EC 2005 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| Rural | 8276 (71.14) | 13625 (70.18) | 13354 (71.55) | 68412 (91.38) | 150442 (48.84) | 195090 (44.57) | 224066 (43.58) | 389538 (51.32) |
| Urban | 3357 (28.86) | 5790 (29.82) | 5310 (28.45) | 6453 (8.62) | 157604 (51.16) | 242615 (55.43) | 290087 (56.42) | 369495 (48.68) |
| Combined | 11633 (100.00) | 19415 (100.00) | 18664 (100.00) | 74865 (100.00) | 308046 (100.00) | 437705 (100.00) | 514153 (100.00) | 759033 (100.00) |

Note: Figures in brackets indicate percentages to total.

Table 2.11: Agricultural and Non-Agricultural Establishments by their Location- Haryana State

(Concl.)

| Location | Annual Growth Rate of Agricultural Establishments | | | Annual Growth Rate of Non-Agricultural Establishments | | |
|----------|---|---------|-----------|---|---------|-----------|
| | 1980-90 | 1990-98 | 1998-2005 | 1980-90 | 1990-98 | 1998-2005 |
| 1 | 10 | 11 | 12 | 13 | 14 | 15 |
| Rural | 5.11 | (-0.25) | 26.29 | 2.63 | 1.75 | 8.22 |
| Urban | 5.60 | (-1.08) | 2.82 | 4.41 | 2.26 | 3.52 |
| Combined | 5.26 | (-0.49) | 21.95 | 3.58 | 2.03 | 5.72 |

2.28 Table 2.11 reveals the trend in the number of agricultural establishments during 1980, 1990, 1998 and 2005. There was marked increase in the number of agricultural

establishments from 1980 to 1990 (11633 in 1980 to 19415 in 1990) showing an annual growth rate of 5.26 percent. Contrary to this, number of agricultural establishments had fallen to 18664 as per Economic Census 1998 showing a negative annual growth rate of 0.49 percent during 1990-98. In 2005 these increased to 74865 showing an annual growth rate of 21.95 percent. As against this, number of non-agricultural establishments had increased from 308046 in Economic Census 1980 to 437705 in 1990 showing an annual growth rate of 3.58 percent during 1980-90 than to 514153 showing an annual growth rate of 2.03 percent. Number of non-agricultural establishments further increased to 759033 in 2005 registering an annual growth rate of 5.72 percent. Further, annual growth rate specially of non-agricultural establishments was more in urban areas than in rural areas both during 1980-90 and 1990-1998. It was 4.41 percent as compared to 2.63 percent in rural areas during 1980-90 and 2.26 percent as compared to 1.75 percent in rural areas during 1990-98. Contrary to this, growth rate of non-agricultural establishments was more in rural areas than urban areas i.e. 8.22 percent as compared to 3.52 percent during 1998-2005.

Own-Account Establishments and Establishments with at least one hired worker:

2.29 The comparative picture of own-account establishments and establishments with at least one hired worker by their location for the Economic Censuses of 1980, 1990, 1998 and 2005 is given in table 2.12.

Table 2.12: Own-Account Establishments and Establishments with at least one hired worker by their Location-Haryana State

(Number)

| Location | Own-Account Establishments | | | | Establishments with at least one hired worker | | | |
|----------|----------------------------|--------------------|--------------------|--------------------|---|--------------------|--------------------|--------------------|
| | EC 1980 | EC 1990 | EC 1998 | EC 2005 | EC 1980 | EC 1990 | EC 1998 | EC 2005 |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| Rural | 130674 (52.68) | 164733 (49.19) | 182740 (47.78) | 339474 (60.61) | 28044 (39.16) | 43982 (35.99) | 54680 (36.37) | 118476 (43.27) |
| Urban | 117384 (47.32) | 170192 (50.81) | 199744 (52.22) | 220617 (39.39) | 43577 (60.84) | 78213 (64.01) | 95653 (63.63) | 155331 (56.73) |
| Combined | 248058 (100.00) | 334925 (100.00) | 382484 (100.00) | 560091 (100.00) | 71621 (100.00) | 122195 (100.00) | 150333 (100.00) | 273807 (100.00) |

Note: Figures in brackets indicate percentage to total.

Table 2.12: Own-Account Establishments and Establishments with at least one hired worker by their location-Haryana (Concl.d.)

| Location | Annual Growth Rate of Own-Account Establishments | | | Annual Growth Rate of Establishments with at least one hired worker | | |
|----------|--|---------|-----------|---|---------|-----------|
| | 1980-90 | 1990-98 | 1998-2005 | 1980-90 | 1990-98 | 1998-2005 |
| 1 | 10 | 11 | 12 | 13 | 14 | 15 |
| Rural | 2.34 | 1.31 | 9.25 | 4.60 | 2.76 | 11.68 |
| Urban | 3.78 | 2.02 | 1.43 | 6.02 | 2.55 | 7.17 |
| Combined | 3.05 | 1.67 | 5.60 | 5.49 | 2.62 | 8.94 |

2.30 It can be seen from the table 2.12 that there was marked increase both in the number of own-account establishments and establishments with at least one hired worker during the inter-census periods. There were 248058 own-account establishments in 1980 and 334925 own-account establishments in 1990 which increased to 382484 in 1998 with an annual growth rate of 3.05 percent and 1.67 percent respectively. These further increased to 560091 in 2005 with an annual growth rate of 5.60 percent during the period 1998-2005. Share of own-account establishments in urban areas to all own-account establishments increased steadily from 47.32 percent in 1980 to 50.81 percent in 1990, 52.22 percent in 1998 but it decreased to 39.39 percent in 2005. As regards establishments with at least one hired worker, these increased from 122195 in 1990 to 150333 in 1998 with a marked annual growth rate of 2.62 percent during the period 1990-98 and increased further to 273807 in 2005 with an annual growth rate of 8.94 percent during 1998-2005. It is worth noting from table 2.12 that establishments with at least one hired worker are concentrated more in urban areas as compared to rural areas as 60.84 percent, 64.01 percent, 63.63 percent and 56.73 percent of these were found located in urban areas as per Censuses of 1980, 1990, 1998 and 2005 respectively.

Selected Characteristics of Establishments by their Location:

2.31 Table 2.13 reveals the composition of some of the selected characteristics of establishments by their location as observed in Economic Census 1980, Economic Census 1990, Economic Census 1998 and Economic Census 2005.

Own-Account Establishments-Selected Characteristics:

2.32 The number of non-perennial (seasonal) own-account establishments has increased from 7000 in 1980 to 8771 in 1990 showing an annual growth of 2.28 percent. The number has come down to 7430 in 1998 thereby showing a negative annual growth of 2.05 percent during 1990-1998. Further the number increased to 24033 showing an annual growth of 18.26 percent. The annual growth rate was more i.e. 5.61 percent in urban areas as compared to 0.84 percent in rural areas during 1980-90. Contrary to this, more decline has been observed in urban areas (3.36 percent annually) as compared to annual decline of 1.38 percent in rural areas during 1990-98. The annual growth in rural areas was more i.e. 21.77 percent than in urban areas i.e. 7.68 percent during 1998-2005. The proportion of non-perennial own-account establishments to total number of own-account establishments were 2.82, 2.62, 1.94 and 4.29 percent in 1980, 1990, 1998 and 2005 respectively. This proportion of non-perennial own-account establishments has been found more in rural areas (3.97, 3.42, 2.76 and 5.90 percent) as compared to urban areas (1.54, 1.84, 1.19 and 1.81 percent) in all the four Economic Censuses of 1980, 1990, 1998 and 2005 respectively.

2.33 Of the total own-account establishments, 40061, 47749, 44117 and 88417 constituting 16.15 percent, 14.25 percent, 11.53 percent and 15.79 percent were found working without any premises during 1980, 1990, 1998 and 2005 respectively. The proportion was more or less the same in rural and urban areas separately also. As against the annual growth rate of 1.77 percent during 1980-90 in the number of own-account establishments without any premises, decline of 0.98 percent per annum has been observed during 1990-98. However, during 1998-2005 annual growth rate in number of own-account establishments with out premises increased to 10.44 percent.

2.34 Number of own-account establishments working with power/fuel has increased from 49142 in 1980 to 69622 in 1990, 89734 in 1998 and further to 145940 in 2005 registering an annual growth of 3.55 percent, 3.22 percent and 7.19 percent during 1980-90, 1990-98 and 1998-2005 respectively. As compared to this, annual growth in rural areas was 3.53 percent, 2.79 percent and 9.95 percent and in urban areas 3.56 percent, 3.69 percent and 3.85 percent during 1980-90, 1990-98 and 1998-2005 respectively.

Table 2.13: Selected Characteristics of Establishments by their Location-Haryana State

| Type of units | Own-Account Establishments | | | | Establishments with at least one hired worker | | | |

Note: SC= Scheduled Castes, OBC= Other Backward Classes.

2.35 Though the number of own-account establishments owned by Scheduled Castes has increased from 31663 in 1980 to 39690 in 1990 to 41378 in 1998 and then to 69083 in 2005, their share to total number of own-account establishments has varied from 12.76 percent in 1980 to 12.33 percent in 2005. As regards own-account establishments owned by Other Backward Classes, these increased from 112113 in 1998 to 177279 in 2005 and their share to total own-account establishments has increased steadily from 29.31 percent in 1998 to 31.65 percent in 2005.

Establishments with at least one hired worker-Selected Characteristics:

2.36 The number of non-perennial (seasonal) establishments with at least one hired worker has increased from 2480 in 1980 to 3635 in 1990 with an annual growth of 3.90 percent during 1980-90. The trend has been reversed during 1990-98 and their number has come down to 2381 in 1998 showing a negative annual growth of 5.15 percent. Annual growth rate has been found negative during the period 1990-98 in rural and urban areas separately also. But number of seasonal establishments with at least one hired worker increased to 7406 in 2005 showing annual growth of 17.60 percent during the period 1998-2005. Share of seasonal establishments with at least one hired worker to total establishments with at least one hired worker was found more in rural areas as compared to urban areas during all the four Economic Censuses of 1980, 1990, 1998 and 2005.

2.37 The number of establishments with at least one hired worker without any premises has increased from 1979 in 1980 to 3606 in 1990 and to 4773 in 1998 showing an annual growth of 6.18 percent and 3.57 percent respectively. Their number rose further to 15947 in 2005 with a higher annual growth of 18.81 percent. About 3 percent of all the establishments with at least one hired worker were found without any premises as per Economic Censuses, 1980, 1990, 1998 and this percentage increased to about 6 percent in Economic Census 2005.

2.38 A total of 111600 establishments with at least one hired worker were found working with power/fuel in 2005 as compared to 23026 in 1980, 39085 in 1990, 48686 in 1998 and their annual growth rate were found to be 5.43 percent during 1980-90, 2.78 percent during 1990-98 and 12.58 percent during 1998-2005. About one-third of the total establishments with at least one hired worker have been found working with power/fuel as per the Economic Censuses of 1980, 1990, 1998 and about 41 percent as per Economic Census 2005.

2.39 Only 1.53 percent of all the establishments with at least one hired worker were owned by Scheduled Castes during 1980. Their share has slightly increased to 2.54 percent in 1990 and to 3.77 percent in 1998 and further to 5.09 percent in 2005. Annual growth rate in the number of establishments with at least one hired worker owned by Scheduled Castes has been observed as 10.98 percent during 1980-90, 7.83 percent during 1990-98 and 13.70 percent during 1998-2005. As regards establishments with at least one hired worker owned by Other Backward Classes, these increased from 21547 in 1998 to 56836 in 2005 and their share in total establishments with at least one hired worker has increased from 14.33 percent to 1998 to 20.76 percent in 2005.

Comparison of Results of 1977, 1980, 1990, 1998 and 2005 Economic Censuses in Respect of Non-Agricultural Establishments with at least one hired worker only :

2.40 Table 2.14 gives the number of non-agricultural establishments with at least one hired worker in Haryana, employment therein and other selected characteristics of non-agricultural establishments as per Economic Censuses of 1977, 1980, 1990, 1998 and 2005.

2.41 At the time of first Economic Census 1977, there were only 40656 non-agricultural establishments with at least one hired worker in Haryana State. The number has increased to 70260 in 1980, 118746 in 1990, 146029 in 1998 and 260252 in 2005. The percentage increase in the number of non-agricultural establishments with at least one hired worker during the periods 1977-80, 1980-90, 1990-98 and 1998-2005 worked out as about 73, 69, 23 and 78 respectively. Total persons usually working in these establishments also increased from 428333 in 1977 to 628141 in 1980, 899251 in 1990, 1057416 in 1998 and then to 1501680 in 2005. The increase was recorded as about 47 percent during 1977-80, 43 percent during 1980-90, 18 percent during 1990-98 and 42 percent in 1998-2005. Hired workers also increased from 396138 in 1977 to 570522 in 1980, 796053 in 1990, 923118 in 1998 and further to 1296497 in 2005 showing an increase of about 44 percent, 40 percent, 16 percent and 40 percent during 1977-80, 1980-90, 1990-98 and 1998-2005 respectively. Selected characteristics revealed that the number of establishments with at least one hired worker operating seasonally increased from 1630 in 1977 to 2446 in 1980 and 3561 in 1990 but decreased to 2236 in 1998. However, 5557 non-agricultural establishments with at least one hired worker were identified as working seasonally during 2005.

Only 163 non-agricultural establishments with at least one hired worker were found working without any premises during 1977. The number has increased significantly to 1893 in 1980, 3460 in 1990, 4338 in 1998 and further to 14911 in 2005. Impressive growth has also been observed in non-agricultural establishments with at least one hired worker working with power/fuel, under Private ownership, under Scheduled Castes ownership and under Other Backward Classes ownership during the period 1977-2005. However, the share of rural areas in number of non-agricultural establishments with at least one hired worker decreased from 51.26 percent in 1977 to 41.42 percent in 2005, the number of total persons usually working increased from 40.15 percent in 1977 to 42.50 percent in 2005 and number of hired workers therein also increased from 41.16 percent in 1977 to 44.02 percent in 2005.

CHAPTER-3

AGRICULTURAL ESTABLISHMENTS

The present chapter deals with the main results relating to agricultural establishments enumerated in Economic Census 2005 in Haryana State. An agricultural establishment for the purpose of Economic Census was defined as one which was engaged in farming of animals, agricultural services, hunting, trapping and game propagation, forestry & logging and fishing. Establishments engaged in activities of crop production and plantations were not covered under the Economic Census 2005.

Number of Agricultural Establishments and Employment:

3.2 It has already been indicated in Chapter-2 that agricultural establishments accounted for about 9 percent of the total establishments and provided about 7 percent of the total employment in all the establishments in the State. Table 3.1 gives the number of agricultural establishments and the employment therein by type of establishments with rural and urban break-up. It can be seen from the table that out of 74865 agricultural establishments, 61310 forming 81.89 percent were own-account establishments and the remaining 13555 (18.11 percent) were establishments with at least one hired worker. Out of the total 157033 persons usually working in all the agricultural establishments, 112631 persons (71.72 percent) were engaged in own-account establishments and the remaining 44402 (28.28 percent) were working in establishments with at least one hired worker. Hired labour formed only 18.22 percent of the total employment in all agricultural establishments whereas it constituted 64.43 percent of the total employment in agricultural establishments with at least one hired worker in the State. An agricultural establishment on an average had 2.10 persons usually working in it whereas own-account establishments and establishments with at least one hired worker on an average had 1.84 persons and 3.28 persons respectively.

| III. All Establishments | | | | | |
| (a) Number | 68412 | 91.38 | 6453 | 8.62 | 74865 |
| (b) Employment | | | | | |
| (i) Total | 140951 (2.06) | 89.76 | 16082 (2.49) | 10.24 | 157033 (2.10) |
| (ii) Hired | 21436 ((15.21)) | 74.92 | 7174 ((44.61)) | 25.08 | 28610 ((18.22)) |
| (iii) Female | 44696 ((31.71)) | 94.45 | 2625 ((16.32)) | 5.55 | 47321 ((30.13)) |

Note: (i) Figures in single brackets under Cols. 2,4 & 6 indicate average persons per establishment.

(ii) Figures in double brackets under Cols. 2,4 & 6 indicate percentage of female/hired to total employment.

3.3 Majority of the agricultural establishments i.e. 91.38 percent were located in rural areas. Rural areas also accounted for 94.16 percent of the total own-account establishments and 78.80 percent of the total establishments with at least one hired worker. Likewise, 89.76 percent of the total persons employed were found working in establishments located in rural areas. Proportion of rural employment to total employment in own-account establishments and establishments with at least one hired worker was 94.86 percent and 76.83 percent respectively.

3.4 Female employment (excluding children) constituted 30.13 percent of total employment in all the agricultural establishments. Proportion of female employment to total employment was found more in own-account establishments (34.15 percent) as compared to establishments with at least one hired worker (19.95 percent). About 94 percent of the female workers were working in agricultural establishments in rural area.

3.5 The table 3.2 shows district-wise distribution of agricultural establishments by their type and by location. The table reveals that maximum number of 16904 agricultural establishments were located in Kaithal district followed by Fatehabad (16164), Sirsa (4342), Gurgaon (4180), Karnal (3814), Kurukshetra (3752), Rohtak (3689) and Jind (3268). Kaithal district had the maximum number of 14672 agricultural own-account establishments as well as maximum number of 2232 agricultural establishments with at least one hired worker. In rural areas, Kaithal district again surpassed other districts with 16548 agricultural establishments whereas in urban areas Faridabad district had the highest number of 1027 agricultural establishments. The minimum number of 556 agricultural establishments were found in the Panchkula district.

3.6 It can be seen from table 3.3 that in the State maximum number of 34097 persons were working in agricultural establishments located in Kaithal District. Panchkula district was at the bottom employing only 1696 persons in agricultural establishments. In rural areas, Kaithal district generated maximum employment of 33361 persons through agricultural establishments whereas Panchkula district generated least employment of 1165 persons only. In urban areas Faridabad district occupied first position with 2283 workers and Mahendragarh district remained at bottom with only 85 persons working in agricultural establishments.

| (iii) Private Others | 120 (0.89) | 537 (1.21) | 4.48 |
| (iv) Cooperative | 81 (0.59) | 286 (0.64) | 3.53 |
| (v) Govt. & PSU | 307 (2.27) | 1978 (4.45) | 6.44 |

Note: (i) Figures in brackets give percentage to all Establishments with at least one hired worker.
(ii) Private NPI= Private Non-Profit Institutions.

3.7 It is clear from the table 3.4 that out of total 13555 agricultural establishments with at least one hired worker, only 185 establishments with at least one hired worker forming 1.36 percent were owned by Private Non-Profit Institutions. Private Unincorporated Proprietary/Partnership establishments with at least one hired worker numbering 12862 constituted 94.89 percent. Private Others establishments with at least one hired worker numbering 120 constituted 0.89 percent and the remaining 2.86 percent establishments with at least one hired worker belonged to Government & PSUs and Cooperative sectors.

3.8 The employment in Private Unincorporated Proprietary/Partnership establishments with at least one hired worker was 91.85 percent. Private Non-Profit Institutions with at least one hired worker and Private establishments with at least one hired worker owned by others employed 1.85 percent and 1.21 percent of the total employment in all the agricultural establishments with at least one hired worker respectively. The employment in Government & PSUs and Cooperative sectors was only 5.09 percent. On an average 3.28 persons were found working in agricultural establishments with at least one hired worker in the State with a variation from 3.19 persons in rural areas to 3.58 persons in urban areas.

Distribution by Size Class of Total Employment:

3.9 Distribution of agricultural own-account establishments and agricultural establishments with at least one hired worker together with total persons usually working therein by size class of total employment is given in the tables 3.5 and 3.6 respectively .

3.10 It is seen from the table 3.5 that the employment size class of 1-5 persons accounted for 99.07 percent of the total agricultural own-account establishments and 96.64 percent to total employment in these establishments. In the next size class of 6-9 persons, 0.92 percent of the establishments and 3.32 percent of the employment were found. Remaining 0.01 percent of the

establishments and 0.04 percent of the employment were in the size class of 10 & above. Almost similar trend was observed in rural and urban areas separately.

Table 3.5: Distribution of Agricultural Own-Account Establishments and Persons Usually Working therein by Size Class of Employment and Rural-Urban Location

(Number)

| Items | Size Class of Employment | | | |
|-------------------------------|--------------------------|----------------|--------------|--------------------|
| | 1-5 | 6-9 | 10 & Above | All Classes |
| 1 | 2 | 3 | 4 | 5 |
| Rural | | | | |
| (i)Own-Account Establishments | 57179 (99.04) | 548 (0.95) | 4 (0.01) | 57731 (100.00) |
| (ii) Persons Usually Working | 103174 (96.57) | 3615 (3.39) | 48 (0.04) | 106837 (100.00) |
| Urban | | | | |
| (i)Own-Account Establishments | 3561 (99.50) | 18 (0.50) | - | 3579 (100.00) |
| (ii)Persons Usually Working | 5671 (97.88) | 123 (2.12) | - | 5794 (100.00) |
| Combined | | | | |
| (i)Own-Account Establishments | 60740 (99.07) | 566 (0.92) | 4 (0.01) | 61310 (100.00) |
| (ii)Persons Usually Working | 108845 (96.64) | 3738 (3.32) | 48 (0.04) | 112631 (100.00) |

Note: Figures in brackets give percentage to all classes respectively.

3.11 Since more employment is provided by an establishment with at least one hired worker as compared to an own-account establishment, bigger size classes of employment have been taken in the table 3.6 as compared to table 3.5. It is clear from the table 3.6 that smaller establishments with at least one hired worker each employing upto 5 persons accounted for 93.82 percent of the total agricultural establishments with at least one hired worker and 76.06 percent of the total employment in these establishments with at least one hired worker. 5.61 percent of the establishments with at least one hired worker in the size class of 6-19 accounted for 13.30 percent of the total employment. Table 3.6 further reveals that the larger establishments with at least one hired worker employing 20 or more persons though formed only 0.57 percent of all the agricultural establishments with at least one hired worker accounted for

10.64 percent of the total employment in all the agricultural establishments with at least one hired worker.

Table 3.6: Distribution of Agricultural Establishment with at least one hired worker and Persons Usually Working therein by Size Class of Employment and Rural-Urban Location

(Number)

| Items | Size Class of Employment | | | | | | | |
|---|--------------------------|-----------------|----------------|----------------|----------------|----------------|-------------|-------------------|
| | 1-5 | 6-9 | 10-19 | 20-99 | 100-199 | 200-499 | 500 or More | All Classes |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| RURAL | | | | | | | | |
| (i) Establishments with at least one hired worker | 10060 (94.18) | 506 (4.74) | 64 (0.60) | 41 (0.38) | 7 (0.07) | 3 (0.03) | - | 10681 (100.00) |
| (ii) Persons Usually Working | 26660 (78.15) | 3525 (10.33) | 900 (2.64) | 1499 (4.39) | 877 (2.57) | 653 (1.92) | - | 34114 (100.00) |
| URBAN | | | | | | | | |
| (i) Establishments with at least one hired worker | 2657 (92.44) | 169 (5.88) | 22 (0.77) | 22 (0.77) | 2 (0.07) | 2 (0.07) | - | 2874 (100.00) |
| (ii) Persons Usually Working | 7112 (69.13) | 1180 (11.47) | 297 (2.88) | 824 (8.01) | 222 (2.16) | 653 (6.35) | - | 10288 (100.00) |
| COMBINED | | | | | | | | |
| (i) Establishments with at least one hired worker | 12717 (93.82) | 675 (4.98) | 86 (0.63) | 63 (0.46) | 9 (0.07) | 5 (0.04) | - | 13555 (100.00) |
| (ii) Persons Usually Working | 33772 (76.06) | 4705 (10.60) | 1197 (2.70) | 2323 (5.23) | 1099 (2.47) | 1306 (2.94) | - | 44402 (100.00) |

Note: Figures in brackets give percentage to all classes respectively.

3.12 Table 3.6 which also presents the break-up for rural and urban areas shows that in the rural areas, the smaller establishments with at least one hired worker (employing upto 5 persons) accounted for 94.18 percent and 78.15 percent of the total rural establishments with at least one hired worker and total employment in these establishments respectively. Their counterpart in the urban areas accounted for 92.44 percent and 69.13 percent respectively of the total urban establishments

with at least one hired worker and employment therein. It is further observed that the number of larger establishments with at least one hired worker employing 20 or more persons was more in the urban areas than in rural areas. In rural areas 0.48 percent of the establishments with at least one hired worker were employing 20 or more persons each and these accounted for 8.88 percent of total employment in rural establishments with at least one hired worker. As compared to this, the larger establishments with at least one hired worker in urban areas constituted 0.91 percent of the urban establishments with at least one hired worker with 16.52 percent of the total urban employment in these establishments.

Inter-District Comparison of Agricultural Own-Account Establishments by Size Class of Total Employment:

3.13 Inter-district comparison of 61310 agricultural own-account establishments in the State according to size class of total employment is given in table 3.7 Its break-up for rural and urban areas separately is further given in tables 3.8 and 3.9 respectively.

3.14 It may be seen from table 3.7 that out of total 23735 agricultural own-account establishments of the smallest size (having one worker only), maximum number i.e. 5008 establishments forming 34.13 percent were located in Kaithal district. In the size class of 2-5 workers, maximum number of 9583 own-account establishments constituting 65.32 percent of total 37005 such establishments were also located in Kaithal district. In the size class of 6-9 workers, Fatehabad district was at the top position with 193 establishments out of total 566 establishments. In the larger group of 10 or more persons, one establishment in this class was located in Yamunanagar, Kaithal, Fatehabad and Sirsa districts. However, within each district individually, the percentage share of agricultural own-account establishments with only one worker varied between maximum of 77.16 percent in Mahandragarh and minimum of 26.75 percent in Jhajjar. In the employment size class of 2-5 workers Bhiwani ranked first with 67.40 percent share and Mahandragarh remained at the bottom with only 22.64 percent share of the middle level own-account establishments.

Table 3.7: Inter-District Comparison of Agricultural Own-Account Establishments by Size Class of Employment-Rural and Urban Combined (Number)

| Districts | Size Class of Employment | | | | |
|------------------|--------------------------|------------------|---------------|-------------|-------------------|
| | 1 | 2-5 | 6-9 | 10 or More | All Classes |
| 1 | 2 | 3 | 4 | 5 | 6 |
| 1. Panchkula | 208 (47.60) | 225 (51.49) | 4 (0.91) | - | 437 (100.00) |
| 2. Ambala | 892 (51.53) | 837 (48.35) | 2 (0.12) | - | 1731 (100.00) |
| 3. Yamunanagar | 549 (48.50) | 574 50.71 | 8 (0.70) | 1 (0.09) | 1132 100.00 |

| Haryana State | 1885 (52.67) | 1676 (46.83) | 18 (0.50) | - | 3579 (100.00) |

Note: Figures in brackets for each district give percentage to all classes.

3.15 Tables 3.8 and 3.9 which presents data for rural and urban areas separately further indicate that Kaithal district ranked first with 4862 and 9499 agricultural own-account establishments in the employment size class of 1 and 2-5 workers respectively in rural areas whereas Faridabad and Jind district stood first in urban areas with maximum number of 232 and 334 such establishments respectively of the same size class. In the employment size class of 6-9 workers, maximum number of 193 own-account establishments were found located in rural areas of Fatehabad district and 4 own-account establishments in urban areas of Jind district.

Inter-District Comparison of Agricultural Establishments with at least one hired worker by Size Class of Total Employment:

3.16 The following three tables contain the district-wise distribution of 13555 agricultural establishments with at least one hired worker in the State according to size class of total employment. Table 3.10 contains data for rural and urban areas combined where as tables 3.11 and 3.12 are separately for rural and urban areas respectively.

3.17. Table 3.10 indicates that 12717 (93.82 percent) of the total 13555 agricultural establishments with at least one hired worker in the State were of the employment size of 1-5 workers. Further, the highest number i.e. 2166 (97.04 percent) of the establishments with at least one hired worker of this size were located in Kaithal district alone. Panchkula district had the least number (92) of these establishments with at least one hired worker. In the next higher group of 6-9 workers, maximum number of 72 (13.66 percent) establishments with at least one hired worker were found located in Sonipat district out of total 675 such establishments with at least one hired worker. Mahendragarh district is at the bottom with only 2 establishments with at least one hired worker of this size. It may also be noted that out of total 14 establishments with at least one hired worker of larger size of the order of 100 or more workers, 2 each were located in Jind, Hisar, Bhiwani and Rewari district and 1 each in Panchkula, Kurukshetra, Karnal, Panipat, Sonapat, and Gurgaon district. Within each district itself, percentage share of agricultural establishments with at least one hired worker of the size upto 5 workers varied between 98.79 percent in Mahandragarh district and 77.31 percent in Panchkula district. None of the district was having establishments with at least one hired worker of size class of 500 or more workers.

Table 3.10: Inter-District Comparison of Agricultural Establishments with at least one hired worker by Size Class of Employment-Rural and Urban Combined (Number)

| Districts | Size Class of Employment | | | | | | | |
|------------------|--------------------------|---------------|--------------|--------------|-------------|-------------|-------------|-------------------|

Note: Figures in brackets for each district give percentages to all classes.

3.18 Break-up of agricultural establishments with at least one hired worker into rural and urban areas separately can be viewed from table 3.11 and 3.12. In rural areas, Kaithal district ranked first with 2050 agriculture establishments with at least one hired worker in the total employment group of 1-5 workers, whereas Fatehabad topped with 58 such establishments with at least one hired worker in the next higher group of 6-9 workers. In urban areas, it was Faridabad district which stood first with 631 agricultural establishments with at least one hired worker of the size class of 1-5 workers followed by Rohtak with 302 such establishments with at least one hired worker. In the next higher group of 6-9 workers also, Faridabad district with 30 establishments with at least one hired worker followed by Rohtak with 27 establishments with at least one hired worker were having the maximum number of these establishments. No agricultural establishment with at least one hired worker having 6-9 workers found in Mahendragarh district.

Hired Workers in Relation to Total Persons Employed in Agricultural Establishments with at least one hired worker:

3.19 Out of total 44402 persons usually working in 13555 agricultural establishments with at least one hired worker, 64.43 percent were hired workers. Average number of total and hired workers per establishment with at least one hired worker was found as 3.28 and 2.11 respectively. The district-wise distribution is given in the table 3.13.

3.20 It is clear from the table 3.13 that 64.43 percent of the total persons usually working in agricultural establishments with at least one hired worker in Haryana were hired workers. Out of total 28610 workers employed as hired workers, the number varied from 430 workers (1.50 percent) in Jhajjar district to 3384 workers (11.82 percent) in Fatehabad district.

3.21 It is also clear from the table 3.13 that the proportion of hired workers to total workers in agricultural establishments with at least one hired worker was lowest (48.85 percent) in Kaithal district and highest (86.03 percent) in Panchkula district as compared to 64.43 percent for the State as a whole. Table 3.13 further shows that total employment and hired employment per agricultural establishment with at least one hired worker was as high as 8.06 and 6.93 respectively in Panchkula district and as low as 2.04 and 1.45 in Mahendragarh and Kaithal districts against the State's average of 3.28 and 2.11 respectively.

Table 3.13: District-Wise Distribution of Persons Usually Working and Hired Workers Engaged in Agricultural Establishments with at least one hired worker

(Number)

| Districts | Establis- hments with at least one hired worker | Total Persons Usually Working | Hired Workers | Hired Workers as Percentage of Total Persons | Workers per Establishment with at least one hired worker | |

Note: (i) Figures in brackets give percentage to all establishments.

(ii) OAE= Own-Account Establishments, Estt. = Establishments with at least one hired worker.

(iii) Pvt. NPI=Private Non-Profit Institutions, SC= Scheduled Castes, OBC= Other Backward Classes.

3.23 The table 3.14 reveals that out of 74865 agricultural establishments in the State, establishments forming 97.85 percent belonged to the category of Private Unincorporated Proprietary/Partnership. There were 706 (0.94 percent) establishments belonging to the category of Private Non-Profit Institutions and 593 establishments (0.79 percent) to the category of Private Others. 12440 establishments forming 16.62 percent of the total establishments were of seasonal nature. Among the establishments, 5697 establishments (7.61 percent) were found operated without any premises. It was also observed that 90.00 percent of the total agriculture establishments operated without any power or fuel. As regards ownership of these establishments by social categories, 10.32 percent of agricultural establishments were owned by Scheduled Castes, 30.05 percent were owned by persons belonging to Other Backward Classes.

3.24 In the agricultural establishments located in rural areas, 99.61 percent of the establishments were privately owned. In rural areas 17.93 percent of agricultural establishments were of seasonal nature and 90.59 percent were working without power/fuel. In the agricultural establishments located in the urban areas, share of privately owned establishments was 99.42 percent and the share of establishments of seasonal nature was 2.65 percent. Agricultural establishments in urban areas operating without any premises accounted for 6.42 percent and as many as 83.67 percent were operating without any power or fuel. Scheduled Castes and Other Backward Class persons owned just 6.73 percent and 22.66 percent respectively of the agricultural establishments in urban areas.

CHAPTER-4

NON-AGRICULTURAL ESTABLISHMENTS

A non-agricultural establishment, for the purpose of Economic Census was defined as an establishment which was engaged in the activities other than agricultural activities. Activities relating to the processing of primary produce of agricultural and allied activities such as milling of paddy into rice, preparation of flour from wheat, preparation of gur/khandsari/sugar from sugarcane, baling and processing of wool from sheep etc. are treated as non-agricultural activities. The following paragraphs deal with some of the main results pertaining to the characteristics of non-agricultural establishments both for own-account establishments and establishments with at least one hired worker enumerated under fifth Economic Census in Haryana.

Number of Non-Agricultural Establishments and Employment therein:

4.2 It has already been indicated in Chapter-2 that non-agricultural establishments accounted for about 91 percent of the total establishments and about 93 percent of total employment in these establishments in the State. Table 4.1 gives the number of non-agricultural establishments and employment therein by type of establishments with rural and urban break-up. It can be seen from the table that out of 759033 non-agricultural establishments, 498781 forming 65.71 percent were non-agricultural own-account establishments and the remaining 260252 (34.29 percent) were non-agricultural establishments with at least one hired worker. Out of the total 2087784 persons usually working in all the non-agricultural establishments, 586104 persons representing 28.07 percent were engaged in own-account establishments and the remaining 1501680 (71.93 percent) were working in establishments with at least one hired worker. Hired labour formed 62.10 percent of the total employment in all non-agricultural establishments whereas it constituted 86.34 percent of the total employment in non-agricultural establishments with at least one hired worker in the State. A non-agricultural establishment on an average had 2.75 persons usually working in it whereas own-account establishments and establishments with at least one hired worker separately had on an average 1.18 persons and 5.77 persons respectively.

**Table 4.1 : Number of Non-Agricultural Establishments and Employment therein-
Haryana State**

| Type of Establishments | Rural | | Urban | | Combined Number |
|--|---------------------|-------|---------------------|-------|----------------------|
| | Number | % | Number | % | |

Note: (i) Figures in single brackets under Cols. 2,4 & 6 indicate average persons per establishment.

(ii) Figures in double brackets under Cols. 2,4 & 6 indicate percentage of female/hired to total employment.

4.3 In rural areas 51.32 percent and in urban areas 48.68 percent non-agricultural establishments were found to be located. Rural areas accounted for 56.49 percent of the own-account establishments and 41.42 percent of the establishments with at least one hired worker. Whereas urban areas accounted for 43.51 percent of the own-account establishments and 58.58 percent of the establishments with at least one hired worker. As regards employment in non-agricultural establishments, 53.51 percent and 46.49 percent employment was found in establishments located in urban and rural areas respectively. Proportion of rural employment to employment in own-account establishments and establishments with at least one hired worker was 56.70 percent and 42.50 percent respectively. Proportion of urban employment to employment in own-account establishments and establishments with at least one hired worker was 43.30 percent and 57.50 percent respectively.

4.4 Female employment (excluding children) constituted only 11.22 percent of total employment in all the non-agricultural establishments. Proportion of female employment to total employment was found more in establishments with at least one hired worker (13.53 percent) as compared to own-account establishments (5.29 percent). Out of total female employed in various non-agricultural establishment, the female employed in rural areas was slightly more (59.52 percent) as compared to urban areas (40.48 percent).

Number of Establishments and Employment therein by Major Industry Groups:

4.5 The distribution of non-agricultural establishments and employment therein separately for own-account establishments and establishments with at least one hired worker by major activity groups and by rural-urban locations for the State as a whole is given tables 4.2 and 4.3 respectively.

4.6 A perusal of table 4.2 clearly shows that the activity-wise distribution of non-agricultural own-account establishments grouped into 17 major activity groups shows that 'Retail Trade', 'Manufacturing' and 'Other Community, Social and Personal Services' were the three most important activity groups from the point of view of both number of own-account establishments and number of persons usually working in these establishments. The activity group 'Retail Trade' dominated all the non-agricultural activity groups netting 254682 own-account establishments with a share of 51.06 percent of the establishments and 292459 workers

with a share of 49.90 percent of the total employment. It was followed by the activity group 'Manufacturing' netting 79505 establishments with a share of 15.94 percent of the total non-agricultural own-account establishments and 104688 persons with a share of 17.86 percent of total employment. The activity group 'Other Community, Social and Personal Services' was in the third place accounting for 37593 establishments with a share of 7.54 percent and 43593 persons with a share of 7.44 percent of total employment.

4.7 In the urban sector, 'Retail Trade' dominated all the sectors with a share of 51.71 percent of the total establishments and 50.89 percent of the total employment in the urban sector. The 'Manufacturing' and 'Other Community, Social and Personal Services' activity groups were in the second and third place in respect of both number of establishments and employment therein.

4.8 A similar trend was observed in rural sector also. 'Retail Trade' activity group accounted for 50.56 percent of all the non-agricultural own-account establishments in the rural sector with a share of 49.14 percent in the total employment in this sector. It was followed by 'Manufacturing' activity group with 17.96 percent share in number of establishments and 20.30 percent share in total employment in this sector. 'Other Community, Social and Personal Services' activity was again in the third place but with slightly higher share as compared to urban sector.

4.9 The employment per non-agricultural own-account establishment for all the activity groups together was 1.18 in the rural areas and 1.17 in the urban areas. The employment per establishment was maximum in 'Education' activity group i.e. 2.13 and 1.41 in rural areas and urban areas respectively. The highest employment per establishment for the State as a whole was also observed in 'Education' activity group (1.71) followed by 'Mining & Quarrying' (1.62) and 'Manufacturing' activity (1.32). It may also be noticed that the employment rate in the activity group 'Retail Trade' which accounted for the largest number of establishments, was only 1.15. The employment rate was the least i.e. 1.06 per establishment in 'Construction' 'Transport & Storage' and 'Posts & Telecommunications' activities.

Note: (i) OAE = Own-Account Establishments, Emp.= Employment.

(ii) Figures in brackets give percentage to respective total.

4.10 The table 4.3 shows that the activity 'Retail Trade' had the maximum number of 77835 establishments with at least one hired worker out of a total of 260252 establishments with at least one hired worker and accounted for a share of 29.91 percent. This was followed by the activity group 'Manufacturing' which had accounted for 55979 establishments with at least one hired worker with a share of 21.51 percent. The activity group 'Education' possessing 20945 establishments with at least one hired worker occupied the third place. These three groups together shared 59.47 percent of the total non-agricultural establishments with at least one hired worker in Haryana State.

4.11 In rural areas, the activity group 'Retail Trade' shared maximum number of 25453 establishments with at least one hired worker. In urban areas also activity group 'Retail Trade' netted the maximum number of 52382 establishments with at least one hired worker with a share of 34.36 percent followed by the activity groups 'Manufacturing' and 'Wholesale Trade' with a share of 22.87 percent and 6.04 percent respectively.

4.12 In employment for the State as a whole, the activity group 'Manufacturing' occupied the first place having 39.84 percent of the total employment. It was followed by 'Education' group netting 13.01 percent of the total employment. The next group in order was 'Retail Trade' which accounted for 12.85 percent of the total employment. These three groups together had a share of 65.70 percent to total employment in non-agricultural establishments with at least one hired worker. Almost similar pattern has been noticed in the urban sector. In the rural sector, the share of employment in activity groups 'Manufacturing' and 'Education' was 47.47 percent and 18.76 percent respectively. 'Retail Trade' group with only 9.32 percent share in employment was at the third place.

4.13 The employment per non-agricultural establishment with at least one hired worker for all the activities together was found as 5.77 persons. It was highest i.e. 13.85 persons per establishment with at least one hired worker in 'Public Administration & Defence and Social Security' followed by 'Manufacturing' (10.69), 'Education' (9.33) and 'Financial Intermediation' (8.25). Employment rate was least i.e. 2.48 persons per establishment with at least one hired worker in 'Retail Trade' group. In rural areas, the employment rate was noticed as high as 14.35 persons per establishment with at least one hired worker in 'Manufacturing' group. However, in urban areas the highest employment rate was found in 'Public Administration & Defence and Social Security' group employing 28.83 persons per establishment with at least one hired worker.

Inter-District Comparison of Own-Account Establishments and Establishments with at least one hired worker:

4.14 The tables 4.4 and 4.5 contain the district-wise comparison of 498781 non-agricultural own-account establishments and 260252 non-agricultural establishments with at least one hired worker respectively in the State with their rural and urban break-up.

4.15 The table 4.4 shows that Hisar district had the maximum number of 36614 non-agricultural own-account establishments constituting 7.34 percent of the total followed by Gurgaon with 35853 establishments (7.19 percent), Faridabad with 34512 establishments (6.92 percent), Karnal with 33370 establishments (6.69 percent), Yamunanagar with 31280 establishments (6.27 percent) and Kaithal with 29647 establishments (5.94 percent). The other districts which account for more than 5 percent of the total number of non-agricultural own-account establishments are Ambala, Jind, Bhiwani, Panipat, Rohtak and Kurukshetra. Panchkula district has the least number i.e. 10361 establishments (2.08 percent). In rural areas, maximum concentration was observed in Hisar district with a share of 7.61 percent whereas in urban areas it was maximum i.e. 11.45 percent in Faridabad district.

4.16 The data in table 4.5 reveals that Faridabad dominated all other districts in the State and accounted for 16.33 percent of the total non-agricultural establishments with at least one hired worker. It was followed by Gurgaon netting 10.02 percent of the non-agricultural establishments with at least one hired worker. Sirsa district which accounted for 6.00 percent occupied the third place. The other districts which accounted for more than 5 percent each of the total non-agricultural establishment with at least one hired worker were Panipat, Hisar and Ambala. Panchkula district was at the bottom with a share of only 2.10 percent of the non-agricultural establishment with at least one hired worker.

4.17 In rural areas, it was Gurgaon district which occupied first position having 12.80 percent of the rural non-agricultural establishments with at least one hired worker in the State followed by Faridabad (9.40 percent), Bhiwani (6.45 percent) and Ambala (5.99 percent). Panchkula district was at the bottom place with only 2.34 percent share of the rural non-agricultural establishments with at least one hired worker. In urban areas, Faridabad district was at the first place with 21.23 percent share and Panchkula district was again at the bottom place with a share of only 1.93 percent.

Table 4.4 : Distribution of Non-Agricultural Own-Account Establishments by Districts and by Rural-Urban Location

(Number)

| Districts | Rural | | Urban | | Combined | |

Inter-District Comparison of Persons Usually Working in Non-Agricultural Own-Account Establishments and Establishments with at least one hired worker:

4.18 Table 4.6 gives the distribution of persons usually working in non-agricultural own-account establishments by the district and by rural-urban location. It could be seen from the table that in the rural sector Gurgaon district had the maximum number of workers i.e. 26076 (7.85 percent) followed by Hisar with 25666 (7.72 percent). Other districts which accounted for more than 5 percent of the total number of workers in rural areas were Kaithal (7.61 percent), Karnal (6.68 percent), Bhiwani (6.48 percent), Jind (6.45 percent), Fatehabad (5.60 percent), Sirsa and Ambala (5.32 percent each) and Yamunanagar (5.01 percent).

4.19 In urban sector, Faridabad district was in the lead accounting for 10.97 percent of the total employment followed by Hisar, Rohtak, Yamunanagar and Gurgaon with 7.42 percent, 7.13 percent, 7.09 percent and 6.84 percent share respectively. Other districts which accounted for more than 5 percent of the total employment in urban areas were Karnal (6.23 percent) Ambala (6.13 percent), Panipat (5.69 percent), Jind (5.30 percent) and Sirsa (5.25 percent).

4.20 Table 4.7 gives the distribution of persons usually working in non-agricultural establishments with at least one hired worker by districts and by rural-urban location. It is seen that in the rural sector Gurgaon district had maximum number of 115790 workers (18.14 percent) followed by Sonipat with 61144 (9.58 percent), Faridabad with 41140 (6.45 percent), Jhajjar with 39417 (6.18 percent) and Panipat with 38809 (6.08 percent). Other districts which accounted for more than 5 percent of the total number of workers in rural areas in non-agricultural establishments with at least one hired worker were Hisar (5.66 percent), Rewari (5.46 percent) and Bhiwani (5.13 percent). The least number of 9416 workers (1.48 percent) were found in Panchkula district.

4.21 In urban sector, Faridabad district was in the lead accounting for 21.74 percent of the total employment in non-agricultural establishments with at least one hired worker followed by Gurgaon, Panipat and Yamunanagar with 10.29 percent, 7.16 percent and 6.60 percent share respectively. Other district which accounted for more than 5 percent of the total employment in urban areas was Ambala (5.05 percent). All these 5 districts together had contributed about 51 percent of the total employment in urban

non-agricultural establishments with at least one hired worker in the State. The least number of 13534 workers (1.57 percent) were found in Mahendragarh district.

Number of Establishments with at least one hired worker and Employment therein by type of Ownership:

4.22 It can be noticed from table 4.8 that out of total 260252 non-agricultural establishments with at least one hired worker in the State, only 6545 establishments with at least one hired worker forming 2.51 percent were owned by Private Non-Profit Institutions. Private Unincorporated Proprietary/Partnership and Private Others establishments with at least one hired worker numbering 216613 constituted 83.23 percent

and the remaining 14.26 percent establishments with at least one hired worker belonged to Cooperatives and Government sectors. In urban areas, proportion of establishments with at least one hired worker owned by Private Unincorporated Proprietary/Partnership and Private Others was as high as 92.16 percent as compared to 70.60 percent in rural areas. However, 25.29 percent of the establishments in rural areas were owned by Government & PSUs compared to corresponding share of 5.24 percent in urban areas.

4.23 Private Unincorporated Proprietary/Partnership and Private establishments with at least one hired worker owned by Others employed 1115219 persons which formed 74.26 percent of the total 1501680 persons employed in all the non-agricultural establishments with at least one hired worker. The employment in Government & PSUs owned establishments was 22.80 percent. Remaining 2.94 percent employment was in establishments with at least one hired worker owned by Private Non-Profit Institutions and Cooperatives. Further, of the total employment of 1501680 persons in all the non-agricultural establishments with at least one hired worker in the State, 203173 forming 13.53 percent were female workers (excluding children). Among these female workers, 61.94 percent were absorbed in establishments with at least one hired worker owned by Private Unincorporated Proprietary/Partnership and Private Others, 33.67 percent in Government owned establishments with at least one hired worker and the remaining 4.39 percent in establishments with at least one hired worker owned by Private Non-Profit Institutions and Cooperatives.

4.24 Of the total employment of 1501680 persons and female employment of 203171 in all the non-agricultural establishments with at least one hired worker, 1296497 and 196610 forming 86.34 percent and 96.77 percent respectively were hired workers. Further, of the total 1296497 hired workers 70.54 percent were absorbed in Private Unincorporated Proprietary/Partnership and Private Others establishments with at least one hired worker and 26.41 percent in Government & PSUs establishments with at least one hired worker. Establishments with at least one hired worker owned by Private Non-Profit Institutions and Cooperatives absorbed only 2.13 percent and 0.92 percent respectively of hired employment. Likewise among the female hired workers, 60.83 percent were absorbed in establishments with at least one hired worker owned by Private Unincorporated Proprietary/Partnership and Private Others, 34.79 percent in Government

Note: (i) Figures in brackets give the percentage to respective total.
(ii) Pvt. N P I = Private Non- Profit Institutions.
(iii) P S U = Public Sector Undertakings.

and PSUs owned establishments with at least one hired worker and remaining 4.38 percent in establishments with at least one hired worker owned by Private Non-Profit Institutions and Co-operatives.

4.25 It may also be seen from the table 4.8 that hired component of total workers in all the non-agricultural establishments with at least one hired worker in the State was of the order of 86.34 percent. It was found ranging between 81.30 percent in establishments with at least one hired worker owned by Private Unincorporated Proprietary/Partnership to 100 percent in Government & PSUs owned establishments with at least one hired worker. In case of female employment, the hired component was found as 96.77 percent with a variation from 94.81 percent in establishments with at least one hired worker owned by Private Unincorporated Proprietary/Partnership to 100 percent in Government & PSUs owned establishments with at least one hired worker.

Hired Workers in Relation to Total Persons Employed in Non-Agricultural Establishments with at least one hired worker:

4.26 The distribution of hired workers in relation to total persons employed in non-agricultural establishments with at least one hired worker with rural and urban break-up is presented separately (i) by major activity groups at State level, and (ii) by districts for all activities together in the tables 4.9 and 4.10 respectively.

4.27 The table 4.9 indicates that out of total 1501680 workers usually working in non-agricultural establishments with at least one hired worker, 1296497 forming 86.34 percent were hired workers. This ratio was as high as 99.48 percent in 'Public Administration & Defence and Social Security' and as low as 65.35 percent in 'Retail Trade' group for the State as a whole. In rural areas out of total 638178 workers usually working in non-agricultural establishments with at least one hired worker, 570745 forming 89.43 percent were hired worker. This ratio was highest (99.18 percent) in 'Electricity, Gas and Water Supply' group. In urban areas out of total 863502 workers working in non-agricultural establishments with at least one hired worker, 725752 forming 84.05 percent were hired workers. This ratio was highest (99.62 percent) in 'Public Administration & Defence and Social Security' group.

4.28 The table 4.10 reveals that proportion of hired workers to total workers in non-agricultural establishments with at least one hired worker varied from about 79 percent to 91 percent in various districts. Further, this ratio has been found slightly higher in rural areas as compared to urban areas for various districts except Panchkula and Ambala. In Panchkula and Ambala districts, this ratio was found as 91.88 percent & 83.08 percent and 81.11 percent & 80.29 percent for urban and rural areas respectively.

4.30 It may be seen from table 4.11 that out of total 586104 workers engaged in all the non-agricultural own-account establishments in Haryana State, 31031 (5.29 percent) were female and 5567 (0.95 percent) were children. Of 31031 female workers, maximum i.e. 14092 (45.41 percent) were working in 'Retail Trade' group followed by 9742 (31.39 percent) in 'Manufacturing' group and 3050 (9.83 percent) in 'Other Community, Social and Personal Service Activities' group. Likewise, out of total 5567 child workers 2495, 1948 and 322 constituting 44.82 percent, 34.99 percent and 5.78 percent were found working in 'Retail Trade', 'Manufacturing' and 'Other Community, Social and Personal Service Activities' groups respectively. 'Retail Trade' and 'Manufacturing' groups had more female as well as child workers in rural areas than in urban areas. On the contrary, the number of female workers in 'Other Community, Social and Personal Service Activities' group was more in urban areas than in rural areas. The female workers and the child workers were more in rural areas i.e. 21383 and 4663 than in urban areas i.e. 9648 and 904 respectively as it is evident from the table 4.11 given above.

4.31 It is clear from the table 4.12 that out of total 1501680 workers engaged in non-agricultural establishment with at least one hired worker in Haryana State, 203173 (13.53 percent) were female workers and 16878 (1.12 percent) were child workers. Of 203173 female workers, maximum i.e. 76110 (37.46 percent) were found working in 'Education' group followed by 66208 (32.59 percent) in 'Manufacturing' group. In case of 16878 child workers, 7682 forming 45.51 percent were working in 'Manufacturing' group followed by 4567 (27.06 percent) in 'Retail Trade' group and 1437 (8.51 percent) in 'Restaurants & Hotels' group. Further, out of 203173 female worker 118008 (58.08 percent) were found working in establishments with at least one hired worker located in rural areas and the remaining 85165 (41.92 percent) in urban areas. However, concentration of child workers was more in rural areas as compared to urban areas. 11298 child workers forming 66.94 percent of total 16878 child workers in the State were found working in non-agricultural establishments with at least one hired worker located in rural areas.

| Haryana State | 586104 | 31031 | 5567 | 1.17 | 0.06 |

4.32 District-wise break-up of 31031 female workers and 5567 child workers which constitute only 5.29 percent and 0.95 percent of total 586104 workers engaged in non-agricultural own-account establishments can be seen in table 4.13. Out of total 31031 female workers, maximum i.e. 3329 were found working in establishments located in Gurgaon district followed by Hisar, Kaithal and Faridabad districts with 2434, 2286 and 2119 female workers. Rewari district had the least number of 842 female workers in the non-agricultural own-account establishments.

4.33 Establishments located in rural areas engaged more female workers than urban areas in all the districts except Ambala and Yamunanagar. As regards child workers, maximum i.e. 1074 out of total 5567 child workers in the State were found working in the non-agricultural own-account establishments located in Gurgaon district alone. Child workers ranging from 38 in Panchkula district to 612 in Bhiwani district were also found working in all other districts of the State.

| 19.Faridabad | 228834 | 23326 | 1904 | 5.38 | 0.55 |
| Haryana State | 1501680 | 203173 | 16878 | 5.77 | 0.78 |

4.34 Table 4.14 provides the district-wise distribution of female and children employed in non-agricultural establishments with at least one hired worker with rural and urban break-up. It could be seen from the table that out of total 1501680 persons

working in these establishments, 203173 and 16878 workers constituting 13.53 percent and 1.12 percent respectively were female workers and child workers. Among the female workers, maximum i.e. 24572 (12.09 percent) were located in Gurgaon district followed by 23326 (11.48 percent) in Faridabad, 17379 (8.55 percent) in Sonipat and 14630 (7.20 percent) in Jhajjar. Mahendergarh district had the least number i.e. 4313 (2.12 percent) of female workers. Among the child workers, maximum i.e. 2796 (16.57 percent) were located in Gurgaon district followed by 1904 (11.28 percent) in Faridabad, 1574 (9.33 percent) in Sonipat. Mahendragarh district had the least number (103) of child workers working in non-agricultural establishments with at least one hired worker.

4.35 Further comparison of female and child workers in rural and urban areas as is evident from table 4.14 reveals that out of 203173 female workers and 16878 child workers in the establishments with at least one hired worker for the State as a whole, 118008 (58.08 percent) and 11298 (66.94 percent) respectively were working in the rural areas. The concentration of female workers was more in rural areas than in urban areas in respect of 13 districts namely Kurukshetra, Kaithal, Panipat, Sonipat, Jind, Fatehabad, Sirsa, Hisar, Bhiwani, Jhajjar, Mahendragarh, Rewari and Gurgaon. However, in case of child workers, the concentration in rural areas as compared to urban areas was more in 16 district namely Panchkula, Ambala, Yamunanagar, Kurukshetra, Kaithal, Karnal, Sonipat, Jind, Fatehabad, Sirsa, Hisar, Bhiwani, Jhajjar, Mahendragarh, Gurgaon and Faridabad.

4.36 Table 4.14 further indicates that the total employment rate per non-agricultural establishment with at least one hired worker was higher i.e. 5.92 in rural areas than in urban areas (5.66). The female employment rate was also more i.e. 1.09 in rural areas than in urban areas (0.56). For rural and urban areas combined, female employment rate was 0.78 as compared to total employment rate of 5.77 persons per non-agricultural establishment with at least one hired worker. For individual districts, total employment rate was as high as 10.03 in Jhajjar district and as low as 3.87 in Mahendragarh district. In case of female employment rate, it was again maximum (2.05) in Jhajjar district and minimum (0.49) in Mahendragarh district. Further comparison of district-wise employment rate in rural and urban areas reveals that total employment rate was comparatively more in rural areas than in urban areas of Panipat, Sonipat, Jind,

Fatehabad, Hisar, Rohtak, Jhajjar, Rewari and Gurgaon districts. However, female employment rate in rural areas as compared to urban areas was more in all the districts except Panchkula.

Distribution by Size Class of Total Employment:

4.37 The following paragraphs contain distribution of non-agricultural establishments and employment therein according to size class of employment with rural and urban break-up. This distribution is given separately for own-account establishments and establishments with at least one hired worker in the following two tables 4.15 and 4.16 respectively.

Table 4.15: Distribution of Non-Agricultural Own-Account Establishments and Persons Usually Working therein by Size Class of Employment and Rural-Urban Location

(Number)

| Items | Size Class of Employment | | | |
|------------------------------|--------------------------|----------------|----------------|--------------------|
| | 1-5 | 6-9 | 10 & Above | All Classes |
| 1 | 2 | 3 | 4 | 5 |
| Rural | | | | |
| (i) Establishments | 281300 (99.84) | 398 (0.14) | 45 (0.02) | 281743 (100.00) |
| (ii) Persons Usually Working | 328445 (98.83) | 2721 (0.82) | 1165 (0.35) | 332331 (100.00) |
| Urban | | | | |
| (i) Establishments | 216787 (99.88) | 233 (0.11) | 18 (0.01) | 217038 (100.00) |
| (ii) Persons Usually Working | 251820 (99.23) | 1609 (0.63) | 344 (0.14) | 253773 (100.00) |
| Combined | | | | |
| (i) Establishments | 498087 (99.86) | 631 (0.13) | 63 (0.01) | 498781 (100.00) |
| (ii) Persons Usually Working | 580265 (99.00) | 4330 (0.74) | 1509 (0.26) | 586104 (100.00) |

Note: Figures within brackets give percentage to all classes.

4.38 The table 4.15 reveals that out of total 498781 non-agricultural own-account establishments, 498087 (99.86 percent) non-agricultural own-account establishments and out of total 586104 persons employed, 580265 (99.00 percent) were belonging to

employment size class of 1-5 persons. The remaining only 0.14 percent of establishments and 1.00 percent of employment were belonging to employment size class of 6-9 persons and 10 or more persons. Almost the same trend was observed in case of rural and urban areas separately.

Table 4.16: Distribution of Non-Agricultural Establishments with at least one hired worker and Persons Usually Working therein by Size Class of Employment and Rural-Urban Location

(Number)

| Items | Size Class of Employment | | | | | | | |
|---|--------------------------|-------------------|------------------|-------------------|------------------|-------------------|------------------|---------------------|
| | 1-5 | 6-9 | 10-19 | 20-99 | 100-199 | 200-499 | 500 or More | All Classes |
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 |
| Rural | | | | | | | | |
| (i) Establishments with at least one hired worker | 90076 (83.56) | 9844 (9.13) | 3990 (3.70) | 2993 (2.78) | 552 (0.51) | 299 (0.28) | 41 (0.04) | 107795 (100.00) |
| (ii) Persons Usually Working | 203109 (31.83) | 72566 (11.37) | 54248 (8.50) | 115698 (18.13) | 72298 (11.33) | 80054 (12.54) | 40205 (6.30) | 638178 (100.00) |
| Urban | | | | | | | | |
| (i) Establishments with at least one hired worker | 129752 (85.11) | 13377 (8.77) | 4386 (2.88) | 4186 (2.75) | 413 (0.27) | 261 (0.17) | 82 (0.05) | 152457 (100.00) |
| (ii) Persons Usually Working | 325528 (37.69) | 97210 (11.26) | 59577 (6.90) | 159510 (18.47) | 53764 (6.23) | 75374 (8.73) | 92539 (10.72) | 863502 (100.00) |
| Combined | | | | | | | | |
| (i) Establishments with at least one hired worker | 219828 (84.47) | 23221 (8.92) | 8376 (3.22) | 7179 (2.76) | 965 (0.37) | 560 (0.21) | 123 (0.05) | 260252 (100.00) |
| (ii) Persons Usually Working | 528637 (35.20) | 169776 (11.31) | 113825 (7.58) | 275208 (18.33) | 126062 (8.39) | 155428 (10.35) | 132744 (8.84) | 1501680 (100.00) |

Note: Figures within brackets give percentage to all classes.

4.39 In the employment size class of 1-5 workers, rural and urban combined had accounted for 84.47 percent of establishments with at least one hired worker whereas the total number of persons employed was only 35.20 percent. On the other hand, remaining establishments with at least one hired worker in the employment group of 6 & above workers having 15.53 percent share in the total establishments with at least one hired worker accounted for 64.80 percent of the total employment. Former establishments are

termed as non-directory establishments and the later having total employment of 6 & more workers are termed as directory establishments.

Inter-District Comparison of Non-Agricultural Own-Account Establishments by Size Class of Total Employment:

4.40 Inter-district comparison of 498781 non-agricultural own-account establishments in the State according to size class of total employment is given in the table 4.17 to 4.19.

4.41 Table 4.17 reveals that out of total 428830 non-agricultural own-account establishments of the smallest size (having one worker only), maximum number of 30182 establishments forming 82.43 percent were located in Hisar district. In size class of 2-5 workers, maximum number of 6378 own-account establishments constituting 17.42 percent of total 69257 establishments were also located in Hisar district. In the size class of 6-9 workers, Hisar district again was at top position with 52 establishments out of total 631 establishments, but in the larger group of 10 or more persons it was Rewari district which had maximum number of 8 establishments out of total 63 establishments. Within each district individually, the percentage share of non-agricultural own-account establishments with only one worker varied between maximum of 91.09 percent in Yamunanagar and minimum of 78.58 percent in Sirsa. Sirsa ranked first with 21.24 percent share and Yamunanagar remained at the bottom with only 8.84 percent share of the middle level own-account establishments in the employment size class of 2-5 workers. Non-agricultural own-account establishments having total workers as 6 or more carried negligible weight in all the 19 districts of Haryana.

4.42 Table 4.18 and 4.19 given below further indicates that Hisar and Gurgaon districts ranked first with 18111 and 4008 non-agricultural own-account establishments in the employment size class of 1 and 2-5 workers respectively in rural areas whereas Faridabad and Hisar district stood first in urban areas with maximum of 22370 and 3073 such establishments respectively of the same size class.

Inter-District Comparison of Non-Agricultural Establishments with at least one hired worker by Size Class of Total Employment:

4.43 The following three tables contain the district-wise distribution of 260252 non-agricultural establishments with at least one hired worker in the State according to size class of total employment. Table 4.20 contains data for rural and urban areas combined whereas table 4.21 and 4.22 are for rural and urban areas respectively.

4.44 The table 4.20 indicates that out of total 260252 non-agricultural establishments with at least one hired worker in the State, 219828 forming 84.47 percent were having employment of upto 5 workers. These are termed as non-directory establishments. The rest 15.53 percent were directory establishments. Within various districts, the proportion of non-directory establishments to total establishments with at least one hired worker varied from highest 89.05 percent in Sirsa district to lowest 75.94 percent in Panchkula district. In the employment size of 6-9 and 10-19 workers, maximum number of 3623 and 885 directory establishments were found located in Faridabad district. In the size class of 20-99 workers, maximum number of 963 directory establishments were also in Faridabad district. In the higher employment size groups of 100 or more workers, maximum number of 341 directory establishments were found located in Gurgaon district alone out of total 1648 directory establishments in the State belonging to these groups. Inter-district comparison for rural and urban areas separately can be viewed in tables 4.21 and 4.22. In rural areas out of total 107795 non-agricultural establishments with at least one hired worker, 90076 forming 83.56 percent were having employment of upto 5 workers. Remaining establishments were having employment of 6 or more workers. In urban areas out of total 152457 non-agricultural establishments with at least one hired worker, 129752 forming 85.11 percent were having employment of upto 5 workers.

Selected Characteristics of Non-Agricultural Establishments by Major Activity Groups:

4.45 The following six tables contain selected characteristics of non-agricultural establishments in the State by major activity groups. The first three tables relate to own-account establishments with separate break-up for rural and urban areas whereas the next three tables are for establishments with at least one hired worker.

4.46 It is seen from table 4.23 that there were 13442 non-perennial i.e. seasonal non-agricultural own-account establishments which constituted 2.69 percent of the total non-agricultural own-account establishments. As many as 83756 establishments (16.79 percent) were operating without premises and 357593 establishments (71.69 percent) were without any power/ fuel for carrying out their activities. As far as social group of owner of the non-agricultural establishments is concerned, 62295 establishments (12.49 percent) were owned by Scheduled Castes and 158547 establishments (31.79 percent) by Other Backward Classes.

4.47 Out of total 13442 non-agricultural own-account seasonal establishments, 5824 accounting for 43.33 percent were under economic activity group 'Retail Trade'. This group was followed by 'Manufacturing' and 'Transport and Storage' groups netting 25.88 percent and 8.84 percent respectively of the total seasonal establishments. It may be noticed that the three groups together constituted about 78.00 percent of the total seasonal establishments.

4.48 Among 83756 non-agricultural own-account establishments operating without premises, the activity group 'Retail Trade' accounted for 38086 establishments with a share of 45.47 percent. This was followed by 'Transport & Storage' and 'Manufacturing' activity groups having a share of 28.47 percent and 8.03 percent respectively. All these three activity groups together constituted about 82.00 percent of the total non-agricultural own-account establishments which operated without premises.

4.49 Among the 357593 non-agricultural own-account establishments running without any power/fuel, 'Retail Trade' group with 214850 establishments dominated all other groups and accounted for 60.08 percent of the total establishments. This was followed by 'Manufacturing' with a share of 11.08 percent.

@ Less than 0.01 percent

Note:- (i) SC= Scheduled Castes, OBC= Other Backward Classes.

(ii) Figures in brackets give percentage to respect total.

4.50 'Retail Trade' appeared to be the most preferred activity by the Scheduled Castes and Other Backward Classes persons owning establishments which accounted for 51.00 percent and 42.02 percent of the total establishments owned by these groups respectively. This was followed by 'Manufacturing' accounting for 17.19 percent and 23.05 percent of total establishments owned by these groups respectively.

4.51 The break-up for rural areas as given in table 4.24 further reveals that among the 281743 rural non-agricultural own-account establishments, 9558 (3.39 percent) were seasonal, 48474 (17.21 percent) were without premises, 197805 (70.21 percent) were not using any power/fuel for carrying out their activities and 42023 (14.92 percent) and 109167 (38.74 percent) were owned by Scheduled Castes and Other Backward Classes. Of the seasonal establishments, 41.18 percent were belonging to 'Retail Trade' activity group followed by 'Manufacturing' (28.69 percent) and 'Transport & Storage' (9.94 percent). Among the establishments without premises, maximum i.e. 41.40 percent were found in 'Retail Trade' group followed by 'Transport & Storage' (32.53 percent). Majority of the establishments using no power/fuel for carrying out their activities were belonging to 'Retail Trade' group (60.76 percent) followed by 'Manufacturing' group (12.28 percent). Of 42023 establishments owned by Scheduled Castes, maximum i.e. 53.54 percent were found in 'Retail Trade' group followed by 'Manufacturing' group (18.70 percent) and 'Other Community, Social and Personal Service Activities' group (7.14 percent). Likewise 42.17 percent, 24.55 percent and 11.42 percent of the establishments owned by Other Backward Classes were found belonging to 'Retail Trade', 'Manufacturing' and 'Other Community, Social and Personal Services' respectively.

4.52 It may be observed from table 4.25 that urban areas had 217038 non-agricultural own-account establishments of which 3884 establishments were seasonal, 35282 establishments running without premises and 159788 establishments not using any power/fuel. These accounted for 1.79 percent, 16.26 percent and 73.62 percent respectively of the total non-agricultural own-account establishments in the urban sector. The share of the establishments owned by Scheduled Castes and Other Backward Classes was 9.34 percent and 22.75 percent respectively in the total urban establishments. Among seasonal establishments, 48.61 percent belonged to the economic activity group 'Retail Trade' and it was followed by 'Manufacturing' activity group accounting for 18.98 percent.

In the case of establishments without premises, 'Retail Trade' group accounted for 51.07 percent of these establishments followed by 'Transport and Storage' with a share of 22.88 percent. Among the establishments running without power/fuel, 'Retail Trade' again dominated with a share of 59.24 percent followed by 'Manufacturing' activity group (9.59 percent). About 60.00 percent of the establishments owned by Scheduled Castes as well as by Other Backward Classes were found belonging to the two activity groups namely 'Retail Trade' and 'Manufacturing' together in urban areas.

4.53 Table 4.26 reveals that out of 260252 non-agricultural establishments with at least one hired worker in the State, only 6545 establishments with at least one hired worker (2.51 percent) were owned by Private Non-Profit Institutions and majority of 218478 (83.95 percent) were owned by Private Unincorporated Proprietary/Partnership and Private Others. Remaining 35229 (13.54 percent) establishments with at least one hired worker were owned by Government & PSUs. About 60.00 percent of the establishments with at least one hired worker owned by Private Unincorporated Proprietary/Partnership were confined to two major activity groups viz., 'Retail Trade' (34.81 percent) and 'Manufacturing' (25.01 percent). Out of Government & PSUs owned establishments with at least one hired worker majority i.e. 32.56 percent were relating to 'Education' followed by 'Public Administration & Defence and Social Security' (23.61 percent). Among establishments with at least one hired worker owned by Private Non-Profit Institutions, 27.70 percent were relating to the 'Other Community, Social and Personal Service Activities'.

4.54 Of the total non-agricultural establishments with at least one hired worker, 5557 forming 2.14 percent were of seasonal nature. About 70.00 percent of these seasonal establishments were belonging to three major activity groups viz., 'Manufacturing' (39.12 percent), 'Retail Trade' (24.72 percent) and 'Transport & Storage' (5.87 percent).

4.55 Establishments with at least one hired worker operating without premises constituted only 5.73 percent of the total non-agricultural establishments with at least one hired worker. The Three major activity groups each of which accounted for more than 10.00 percent of the establishments with at least one hired worker operating without premises were 'Transport & Storage' (33.05 percent), 'Retail Trade' (27.92 percent) and 'Manufacturing' (13.51 percent).

(ii) Figures in brackets give percentage to respective total.

4.56 Out of total 260252 non-agricultural establishments with at least one hired worker, 151389 (58.17 percent) were carrying out their activities without using any power/fuel. Among these, 38.87 percent were related to 'Retail Trade' group.

4.57 As regards social group of owner, out of 260252 non-agricultural establishments with at least one hired worker, 12992 forming 4.99 percent were owned by Scheduled Castes and 53075 forming 20.39 percent by Other Backward Classes. 69.31 percent of the establishments with at least one hired worker owned by Scheduled Castes and 69.95 percent of the establishments with at least one hired worker owned by Other Backward Classes were confined to the three major activity groups namely, 'Retail Trade' 'Manufacturing' and 'Other Community, Social and Personal Services' .

4.58 A similar trend has been exhibited by rural and urban sectors separately which can be viewed from table 4.27 and 4.28.

CHAPTER-5

REGISTRATION AND SOURCE OF FINANCE OF ESTABLISHMENTS

The salient features of 74865 agricultural establishments (own-account as well as establishments with at least one hired worker) and 759033 non-agricultural establishments (own-account as well as establishments with at least one hired worker) have been discussed in Chapter-3 and Chapter-4 respectively. This chapter deals with the inter-industry comparison of all the 833898 establishments (agricultural and non-agricultural together) by type of registration and source of finance.

Inter-Industry Comparison of Establishments by Type of Registration:

5.2 Table 5.1 indicates that out of 833898 establishments of all types in Haryana State, 693328 (83.14 percent) were reported as un-registered and only 140570 (16.86 percent) were registered with various agencies viz., Factories Act 1948, SDI, KVIC/KVIB, Powerloom/Handloom/Handicraft, Textile Commissioner, Jute Commissioner etc., Central Excise/Sales Tax Act and Shop & Establishment Act etc. Of 11095 establishments found registered under Factories Act 1948, 4263 (38.42 percent) were related to 'Manufacturing' activity alone. Out of 7707 establishments found registered with SDI, 3689 (47.87 percent) were engaged in activities related to 'Manufacturing'. Among establishments found registered with KVIC/KVIB, 314 (36.18 percent) were related to 'Manufacturing' activity group. Out of 1084 establishments registered with Powerloom/Handloom/Handicraft, 535 (49.35 percent) were involved in activities related to 'Manufacturing' group. Out of 586 establishments, 235 (40.10 percent) were also related to 'Manufacturing' activity which were registered with Textile Commissioner/Jute Commissioner etc. Out of 60260, 31022 establishments related to 'Retail Trade' activity group were found registered under Shop & Establishment Act.

5.3 Break-up for rural and urban sectors separately can be viewed from the tables 5.2 and 5.3 respectively.

Table 5.1: Number of Agricultural and Non-Agricultural Establishments by Activity Groups and by Type of Registration-Rural and Urban Combined

Inter-Industry Comparison of Establishments by Source of Finance:

5.4 Table 5.4 presents inter-industry comparison of all the 833898 establishments (agricultural and non-agricultural) by source of finance for rural and urban sector combined.

5.5 Out of 833898 establishments identified in Haryana State, maximum i.e. 780642 establishments (93.61 percent) were reported either self financing or have not taken any finance. 20849 establishments (2.50 percent) and 6468 establishments (0.78 percent) have borrowed from Financial Institutions and Non-Institutions/Money Lenders respectively. Further, 22969 establishments (2.75 percent) were reported as taken assistance from Govt. Sources. Remaining 2970 establishments (0.36 percent) were having other type of source of finance like NGOs, Voluntary Organisations etc. Of 780642 establishments having source of finance of its own or not taken any type of loan 41.06 percent were belonging to 'Retail Trade' activity group followed by 'Manufacturing' (16.23 percent) and 'Farming of Animals' (8.85 percent). Among establishments assisted under Govt. Sources, 21.27 percent were related to 'Education' activity group followed by 'Retail Trade' group (15.90 percent), 'Public Administration & Defence and Social Security' group (14.03 percent), 'Manufacturing' group (10.29 percent) and 'Health & Social Works' (9.60 percent). Likewise out of 20849 establishments have taken loan from Financial Institutions 26.81 percent were related to 'Retail Trade' activity group followed by 'Manufacturing' (24.15 percent), 'Transport & Storage' (14.88 percent), 'Farming of Animals' (8.50 percent) and 'Wholesale Trade' (6.43 percent). Among establishments which have taken loan from Non-Institutions/ Money Lenders 36.33 percent were related to 'Retail Trade' activity group followed by 'Farming of Animals' (18.65 percent), 'Manufacturing' (17.70 percent) and 'Transport & Storage' (9.09 percent). Establishments which have taken loan from other source of finance like NGOs/ Voluntary Organisations were mainly confined to four activity groups viz., Other Community, Social and Personal Service Activities, 'Retail Trade', 'Education' and 'Restaurants & Hotels' with a share of 31.28, 13.77, 9.46 and 8.79 percent respectively.

5.6 Similar break-up for rural and urban sectors separately can be viewed from the two tables 5.5 and 5.6 respectively.

Table 5.4: Number of Agricultural and Non-Agricultural Establishments by Activity Groups and by Source of Finance-Rural and Urban Combined

| Major Activity Groups | Number of Establishments Financed By | | | | | |

CHAPTER-6

SUMMARY OF RESULTS

Like the previous three Economic Censuses of 1980, 1990 and 1998, the fifth Economic Census had within its ambit all establishments (own-account establishments and establishments with at least one hired worker) engaged in non-agricultural activities as well as in agricultural activities other than crop production and plantation. The Economic Census 2005 has revealed that in Haryana there were 833898 establishments engaged in different economic activities other than crop production and plantation with 2244817 persons usually working in them. In Haryana the annual growth rate in number of establishments during the period 1998-2005 was observed as 6.61 percent and State ranks at sixth position after Mizoram, Tripura, Kerala, Tamil Nadu and Assam. Likewise, annual growth rate of employment in these establishments was observed as 5.35 percent during the period 1998-2005 and State ranks at fourth position after Jammu & Kashmir, Andhra Pradesh and Kerala.

6.2 Amongst 833898 establishments, 759033 establishments (91.02 percent) were engaged in non-agricultural activities and the remaining 74865 (8.98 percent) in agricultural activities. Rural establishments accounted for 54.92 percent of total establishments. The share of rural establishments in the non-agricultural and agricultural establishments was 51.32 percent and 91.38 percent respectively. Establishments with at least one hired worker on a regular basis constituted 32.83 percent of the total establishments whereas the own-account establishments which were owned and operated with the help of household labour only accounted for the rest (67.17 percent). 81.89 percent of the agricultural establishments and 65.71 percent of the non-agricultural establishments were own-account establishments and the remaining were establishments with at least one hired worker. (Table 2.1)

6.3 Out of total 2244817 persons usually working in all establishments enumerated in the fifth Economic Census, 157033 persons (7.00 percent) were working in agricultural establishments. The share of rural areas in respect of employment in agricultural establishments was 89.76 percent. Number of persons working in non-agricultural establishments were 2087784 constituting 93.00 percent of total persons employed in all the establishments. The share of rural areas in respect of employment in non-agricultural

establishments was 46.49 percent. Among the total persons working in all establishments, 1111460 were in rural areas of which 53.28 percent were hired workers whereas 1133357 were in urban areas of which 64.67 percent were hired workers. In all hired workers numbering 1325107 constituted 59.03 percent of the total persons employed in all the establishments in Haryana State. In case of non-agricultural establishments, share of hired workers to total persons employed was 62.10 percent whereas it was only 18.22 percent for agricultural establishments. Share of female (excluding children) workers among the total persons working in non-agricultural establishments and agricultural establishments was 11.22 percent and 30.13 percent respectively. (Table 2.1, 3.1, 4.1)

6.4 Considering all establishments together, 12.52 percent of the total establishments were working without premises and 3.77 percent of the total establishments were of seasonal nature. 69.12 percent of the total establishments were working without power/fuel. Establishments owned by Scheduled Castes and Other Backward Classes were found as 9.96 percent and 28.07 percent respectively in Haryana. Private Unincorporated Proprietary/Partnership and Other Private establishments accounted for 92.77 percent and 0.79 percent respectively of the total establishments. Private Non-Profit Institutions accounted for 2.17 percent of total establishments. (Table 2.6)

Agricultural Establishments

6.5 There were in all 74865 establishments in the State which were engaged in agricultural activities other than crop production and plantation. These establishments had an usual employment of 157033 persons of which 28610 (18.22 percent) were hired workers and 47321 (30.13 percent) were female workers. (Table 3.1)

6.6 Own-account establishments constituted 81.89 percent of the total agricultural establishments and establishments with at least one hired worker accounted for the rest (18.11 percent). Own-account establishments accounted for 71.72 percent of the total persons working in the agricultural establishments and establishments with at least one hired worker shared the remaining 28.28 percent. (Table 3.1)

6.7 Rural areas accounted for a larger share than urban areas not only in total number of own-account establishments and persons working therein but also in the total number of establishments with at least one hired worker and persons employed therein. 94.16 percent of the own-account establishments and 94.86 percent of the total persons employed therein and 78.80 percent of the establishments with at least one hired worker and 76.83 percent of the total persons employed therein were in the rural areas. (Table 3.1)

6.8 Of the total own-account establishments, 17.27 percent were seasonal, 7.60 percent were without premises and 92.25 percent were working without any power/fuel for running their activities. Share of own-account establishments owned by Scheduled Castes and Other Backward Classes was 11.07 percent and 30.55 percent respectively. (Table 3.14)

6.9 Of the total establishments with at least one hired worker, 13.64 percent were seasonally operated, 7.64 percent were working without premises and 79.81 percent were working without any power/fuel. Establishments with at least one hired worker owned by Scheduled Castes and Other Backward Classes constituted only 6.94 percent and 27.75 percent respectively. (Table 3.14)

6.10 While establishments with at least one hired worker owned by Private Non-Profit Institutions, Private Unincorporated Proprietary/Partnership and Private Others accounted for 1.36 percent, 94.89 percent and 0.89 percent respectively of the total establishments with at least one hired worker and 1.85 percent, 91.85 percent and 1.21 percent respectively of total employment. (Table 3.4)

6.11 About 39.00 percent of the own-account establishments were of smaller size each having only one person working therein. Of the total workers engaged in own-account establishments, 34.15 percent were female workers. On an average, total employment per own-account establishment was found as 1.84. (Table 3.1, 3.7)

6.12 In case of establishments with at least one hired worker, about 94.00 percent were of smaller size each having 1-5 persons working in them. Of the total workers engaged in establishments with at least one hired worker, 64.43 percent were hired workers and 19.95 percent were female workers. On an average, total and hired employment per establishment with at least one hired worker was found 3.28 and 2.11 respectively. (Table 3.1, 3.10)

Non-Agricultural Establishments:

6.13 At the State level, there were 759033 non-agricultural establishments with 2087784 persons usually working therein. (Table 4.1)

6.14 Own-account establishments formed 65.71 percent of the total non-agricultural establishments and establishments with at least one hired worker constituted the remaining 34.29 percent. Establishments with at least one hired worker accounted for 71.93 percent of the total persons working in non-agricultural establishments and own-account establishments shared the rest 28.07 percent. (Table 4.1)

6.15 In total number of own-account establishments as well as persons working therein, rural areas had greater share than the urban areas which accounted for 56.49 percent and 56.70 percent respectively of own-account establishments and total employment therein. Establishments with at least one hired worker and persons working therein were more in urban areas than rural areas which accounted for 58.58 percent and 57.50 percent respectively. (Table 4.1)

6.16 Hired workers constituted 62.10 percent of the total persons employed in the establishments. The proportion of hired workers to total persons employed in establishments located in urban areas was little more than in rural areas. It was 55.98 percent in urban areas against 44.02 percent in rural areas. (Table 4.1)

6.17 Share of female workers in the total employment was more in establishments with at least one hired worker than in own-account establishments. It was 13.53 percent in establishments with at least one hired worker and 5.29 percent in own-account establishments. (Table 4.1)

6.18 The three major activity groups namely, 'Retail Trade', 'Manufacturing' and 'Other Community, Social and Personal Services' together shared about 75.00 percent of the total number of own-account establishments and persons working therein. These three groups also accounted for about 87.00 percent of total female workers and about 86.00 percent of total child workers engaged in non-agricultural own-account establishments in the State. (Table 4.2, 4.11)

6.19 Hisar district accounted for the highest share (7.34 percent) whereas Panchkula district had the least share (2.08 percent) of number of own-account establishments in the State. Likewise, Hisar district contributed maximum number of employment (7.59 percent) whereas Panchkula district had the least (2.05 percent) number of persons employed out of total persons employed in all the own-account establishments in the State. (Table 4.4, 4.6)

6.20 Of the total own-account establishments, 2.69 percent were seasonally operated, 16.79 percent were working without premises and 71.69 percent were using no power/fuel for carrying out their economic activities. Of the own-account establishments, 12.49 percent were owned by Scheduled Castes and 31.79 percent by Other Backward Classes respectively. (Table 4.23)

6.21 The three major activity groups namely, 'Retail Trade', 'Manufacturing' and 'Education' were the most important activity groups from the point of view of number of

establishments with at least one hired worker and number of persons employed therein. At the State level, these three groups together accounted for about 59.00 percent of the total establishments with at least one hired worker and about 66.00 percent of total employment therein. Though the 'Retail Trade' activity group alone accounted for 29.91 percent of the total establishments with at least one hired worker, it generated 12.85 percent of the total employment in all the establishments with at least one hired worker. On the contrary, 'Manufacturing' activity group accounted for 21.51 percent of the total establishments with at least one hired worker and 39.84 percent of total employment in these establishments. (Table 4.3)

6.22 On an average, 1.18 persons were employed in an own-account establishment whereas 5.77 persons were employed in an establishment with at least one hired worker at the State level. The average size of a rural and urban establishment with at least one hired worker was 5.92 and 5.66 respectively in term of total employment. (Table 4.2, 4.3).

6.23 Of the total establishments with at least one hired worker, 2.14 percent were seasonal, 5.73 percent were working without premises and 58.17 percent were operating without power/fuel. Private Non-Profit Institutions, Private Unincorporated Proprietary/ Partnership and Private Others establishments with at least one hired worker represented 2.51 percent, 82.55 percent and 0.68 percent respectively of the total these establishments. The remaining & PSUs. 13.54 percent establishments with at least one hired worker were owned by Government. The employment in the Private Non-Profit Institutions, Private Unincorporated Proprietary/Partnership and Private Others establishments with at least one hired worker accounted for 2.09 percent, 71.00 percent and 3.26 percent respectively of the total employment in all these establishments. Govt. & PSUs owned establishments with at least one hired worker employed 22.80 percent of the total employment in all these establishments.(Table 4.8, 4.26)

6.24 Establishments with at least one hired worker each employing less than 6 persons (known as non-directory establishments) constituted 84.47 percent of the total these establishments whereas rest 15.53 percent employing 6 or more persons were directory establishments.(Table 4.16)

6.25. Faridabad district had the maximum share of 16.33 percent and 15.24 percent in number of establishments with at least one hired worker and employment therein respectively in the State whereas Panchkula and Mahendergarh districts had the minimum share of 2.10 percent and 2.27 percent respectively.(Table 4.5, 4.7)

Registration of Establishments:

6.26 It was found that out of total 833898 establishments (agricultural as well as non-agricultural), 693328 (83.14 percent) were reported as not registered with any agency. Among the establishments having registration with some agencies, 11095 establishments were reported as registered under Factories Act, 1948 and another 7707 establishments were registered with State Directorate of Industries. 28593 establishments were registered with Central Excise/Sales Tax Act and 60260 establishments were registered with Shop & Establishment Act. Besides, 1084 establishments were reported as registered with agencies relating to Powerloom/Handloom/Handicraft and another 49272 establishments were registered with other agencies relating to KVIC/KVIB, Textile/Jute Commissioner and others. About 38.00 percent of the establishments registered under Factories Act, 1948 were found related to 'Manufacturing' activity group alone. Likewise, about 48.00 percent of the establishments registered with other main agencies namely, State Directorate of Industries, Powerloom/Handloom/Handicraft etc. were related to 'Manufacturing' activity group. (Table 5.1)

Financing of Establishments:

6.27 As far as source of finance of the various establishments is concerned, 780642 establishments (93.61 percent) out of total 833898 establishments were self financed i.e. they were having source of finance of their own. Remaining only 53256 establishments (6.39 percent) were reported as having various types of finance i.e. assistance from Government sources, borrowing from Financial Institutions, Non-Institutions/Money Lenders and others like NGOs/ Voluntary Organisations. (Table 5.4)

CONCEPTS AND DEFINITIONS

Enterprise :

An institutional unit in its capacity as a producer of goods and services is known as an enterprise. An enterprise is an economic transactor with autonomy in respect of financial and investment decision making, as well as authority and responsibility for allocating resources for production of goods and services. It may be engaged in one or more economic activities at one or more locations. An enterprise may be a sole legal unit.

Establishment:

The establishment is defined as an enterprise or part of an enterprise that is situated in a single location in which one or predominantly one kind of economic activity is carried out. It is an economic unit under a single legal entity.

Agricultural Establishment:

An agricultural establishment for the purpose of Economic Census is defined as one engaged in livestock production; agricultural services; hunting, trapping and game propagation; forestry and logging; and fishing. Establishments engaged in activities pertaining to agricultural production and plantations are not considered as agricultural establishments for the purpose of Economic Census.

Non-Agricultural Establishment:

Establishments engaged in activities other than agricultural activities (excluding activities pertaining to agricultural production and plantation) are termed as non-agricultural establishments. Activities relating to the processing of primary produce of agricultural and allied activities such as milling of paddy into rice, preparation of atta from wheat, preparation of gur/khandsari/sugar, baling and pressing of wool obtained from sheep etc. are not treated as agricultural activities but are treated as non-agricultural activities.

Own-Account Establishment:

It is an establishment owned and operated with the help of members of the household only.

Directory Establishment :

An establishment employing six or more persons daily on a fairly regular basis is called a directory establishment.

Non-directory Establishment :

Non-directory establishment is that establishment which employs not more than five persons daily on a fairly regular basis.

Nature of Operation (Perennial, Seasonal) :

If the entrepreneurial activity is carried on throughout the year such as in the grocery shop, hotel etc., it is treated as perennial. If the activity of the establishment is confined to a particular season, the same is called the seasonal activity.

Type of Ownership :

The establishments enumerated are grouped under four broad types of ownership viz;

Government and PSUs

Privates Establishments

Private Non-Profit Institutions

Private Proprietary Establishments

Private Partnership Establishments

Institutions which are financed and controlled by households e.g. a Dharamshala, a Trust or a Temple etc. are treated as 'Non-Profit Institutions' (NPIs) serving households. Institutions which are financed and controlled by commercial organisations e.g. FICCI, ASSOCHAM are treated as NPIs serving commercial organisations/business houses. Both type of such institutions fall under the category of 'Private Non-Profit Institutions' (NPIs).

An establishment is treated as private if it is managed by a single or a group of private persons, without Government's participation, both in terms of management and shares. Loans granted by the Government to a private establishment do not make the establishment a Government establishment. All private establishments other than those mentioned in the category of 'Private NPIs' are categorised as 'Private Others'.

All establishments which are registered under the Act, of Cooperative Societies fall under the category of 'Cooperative'.

All other establishments which have ownership such as Central Government, State Government, Public Sector Undertakings, Local Bodies (Zilaparishad, Municipal Corporation, Municipal Authority etc.) are considered as Government establishments, Universities, Educational Boards which are autonomous but are getting grants from the Central or State Government or Local Bodies are also included in the category of 'Government'.

Social Group of Owner :

This information is collected in respect of owner/management of the establishments having type of ownership as 'Private Others' and has been grouped into eight categories of social groups viz; ST Female, ST Male, SC Female, SC Male, OBC Female, OBC Male, Others Female and Others Male. If the private establishment is run on partnership basis then priority has been given in the order of these eight groups for deciding the social group of owner of the establishment. For example, if a partner of a privately owned establishment belongs to ST Female category and other partners to SC Male, OBC Female, Others Female and Others Male (say) then this establishment falls under the category of ST Female.

Power/Fuel Used:

If any one or more sources of power/fuel are specifically used by an establishment in carrying out its economic activity (other than lighting purpose or heating the premises etc.), it is considered as power/fuel used. The different source of power/fuel considered are electricity, coal/soft coke, petrol/diesel, gas firewood, kerosene, animal power, non conventional energy (biogas, solar and wind energy) and others such as atomic power etc. Establishments using non of these types of powers are categorised as without power.

Registration :

An establishment may or may not require registration under an Act for carrying out the economic activity. For instance factory employing 10 or more workers and using power, or 20 or more workers but not using power, is required to be registered under sections 2 m (i) or 2m (ii) as the case may be under the Factories Act, 1948. The State Government may also require some other factories to be registered under Section 85 of the Factories Act. Similarly there may be small industrial units in manufacturing sector which may be registered with some authority such as the State Directorate of Industries etc. All the

(xii)

establishments identified under fifth Economic Census 2005 have been grouped in the following categories as per response given by the respondents.

Authority for Registration/Recognition

Not Registered

Registered under/Recognised with

Factories Act, 1948

State Directorate of Industries

KVIC/KVIB

Powerlooms/Handloom/Development Commissioner Handicraft

Textile Commissioner/Jute Commissioner/Coir Board/Central Silk Board

Central Excise/Sales Tax Act

Shop & Establishment Act

Cooperative Society/Labour Act

Registered with other agencies

Maximum of two types of registration (out of above) have been considered for each enterprise identified under fifth Economic Census 2005.

Source of Finance :

All the establishments have been categorised into following five groups as far as their major source of finance for establishing/running the establishments are concerned:-

- i) No finance/Self Financing
- ii) Assistance from Govt. Source
- iii) Borrowing from Financial Institutions
- iv) Borrowing from Non-Institutions/Money Lenders
- v) Others (like NGOs, Voluntary Organisations)

Number of Persons Usually Working :

The total number of persons usually working daily in an establishment with break-up of Adult Males, Adult Females, Children Males, Children Females and component of hired have been taken into account. The workers with age less than 15 years have been categorised as children. The figure of number of persons is a position in the last year for perennial establishments and last working season for seasonal establishments. The categories of workers include both supervisory and primary workers. A worker need out

(xiii)

mean that the same persons is continued, but it refers to a position. Apprentices paid or unpaid are treated as hired workers. Part-time employees are also treated as employees as long as they are engaged on a regular basis. Exchange of labour mutually between households is regarded as household labour and not as hired labour.

Address and Other Particulars of the Establishments:

Name of the establishment alongwith detailed address in Hindi/English language was recorded for establishments having 10 or more workers (unpaid and hired workers included) in Address Slip Schedule No. 57.

Years of Start of Operation:

Year of start of operation of establishments was recorded in Address Slip Schedule No. 57.
