18.	Agricultural & Non-Agricultural Activities Total (Item 3+17)

CONCEPTS AND DEFINITIONS

Enterprise :

An enterprise is an undertaking engaged in production and/or distribution of goods and/or services not for the sole purpose of own consumption.

Agricultural Enterprise :

An agricultural enterprise for the purpose of Economic Census is defined as one engaged in livestock production; agricultural services; hunting, trapping and game propagation; forestry and logging and fishing (corresponding to Divisions 02, 03, 04, 05 and 06 of NIC-1987). Enterprises engaged in activities pertaining to agricultural production and plantations (Divisions 00 and 01 of NIC-1987) are not considered as agricultural enterprises for the purpose of Economic Census.

Non-agricultural Enterprises :

Enterprises engaged in activities other than agricultural activities (excluding activities pertaining to agricultural production and plantation) are termed as non-agricultural enterprises (corresponding to economic activities covered by Sections 1 to 9 and X of NIC-1987). Activities relating to the processing of primary produce of agricultural and allied activities such as milling of paddy into rice, preparation of atta from wheat, preparation of gur/khandsari/sugar from sugarcane, baling and pressing of wool obtained from sheep etc. are not treated as agricultural activities but are treated as non-agricultural activities.

Own-account Enterprise :

It is an enterprise owned and operated with the help of members of the household only.

Establishment :

An enterprise run by employing at least one hired worker on a fairly regular basis is an establishment.

Directory Establishment :

An establishment employing six or more persons daily on a fairly regular basis is called a directory establishment.

Non-directory Establishment :

Non-directory establishment is that establishment which employs not more than five persons daily on a fairly regular basis.

Nature of Operation (perennial, seasonal) :

If the entrepreneurial activity is carried on throughout the year such as in the grocery shop, hotel etc., it is treated as perennial activity. If the activity of the enterprise is confined to a particular season, the same is called the seasonal activity.

Type of Ownership :

The enterprises enumerated are grouped under four broad types of ownership viz. ; (i) Private Non-Profit Institution; (ii) Private Others; (iii) Co-operatives; and (iv) Governments.

Institutions which are financed and controlled by households e.g. a Dharamshala, a Trust or a Temple etc. are treated as NPIs serving households. Institutions which are financed and controlled by commercial organisations e.g. FICCI , ASSOCHAM are treated as NPIs serving commercial organisations/business houses. Both type of such institutions fall under the category of Private Non-Profit Institutions (NPI).

An enterprise is treated as private if it is managed by a single or a group of private persons, without Governments participation, both in terms of management and shares. Loans granted by the Government to a private enterprise do not make the enterprise a Government enterprise. All private enterprises other than those mentioned in the category of 'Private NPI' are categorised as 'Private Others'.

All enterprises which are registered under the Act of Co-operative Societies fall under the category of 'Co-operative'.

All other enterprises which have ownership such as Central Government, State Government, Public Sector undertakings, local bodies (Zilaparishad, Municipal Corporation, Municipal Authority etc.) are considered as Government enterprises. Universities, educational boards which are autonomous but are getting grants from the Central or State Governments or local bodies are also included in the category of 'Government.'

Social Group of Owner :

This information is collected in respect of owner/management of the enterprises having type of ownership as 'Private Others' and has been grouped into eight categories of social groups viz. ; ST Female, ST Male, SC Female, SC Male, OBC Female, OBC Male, Others Female and Others Male. If the private enterprise is run on partnership basis then priority has been given in the order of these eight groups for deciding the social group of owner of the enterprise. For example, if a partner of a privately owned enterprise belongs to ST Female category and other partners to SC Male, OBC Female, Others Female and Others Male (say) then this enterprise falls under the category of ST Female.

Power/Fuel Used :

If any one or more sources of power/fuel are specifically used by an enterprise in carrying out its economic activity (other than lighting purposes or heating the premises etc.), it is considered as power/fuel used. The different source of power/fuel considered are electricity, coal/soft coke, petrol/diesel, gas, firewood, kerosene, animal power, non-conventional energy (bio gas, solar and wind energy) and others such as atomic power etc. Enterprises using non of these types of powers are categorised as without power.

Years of Operation :

Keeping in view the number of years of operation of activity of an enterprise with reference to the date of survey, all the enterprises have been categorised into ten categories namely; less than one year, completed one year, completed two years, completed three years, completed four years, completed five years, completed six years, completed seven years, completed eight years and completed nine years or more.

Registration :

An enterprise may or may not require registration under an Act for carrying out the economic activity. For instance factory employing 10 or more workers and using power, or 20 or more workers but not using power, is required to be registered under sections 2m (i) or 2m (ii) as the case may be under the Factories Act 1948. The State Government may also require some other factories to be registered under Section 85 of the Factories Act. Similarly there may be small industrial units in manufacturing sector which may be registered with some authority such as the State Directorate of Industries etc. All the enterprises identified under Fourth Economic Census 1998 have been grouped into the following categories as per response given by the respondents:-

- (i) Registered under Factory Act, 1948.
- (ii) Registered with State Directorate of Industries.
- (iii) Registered or recognised by KVIC/KVIB.
- (iv) Registered or recognised by Development Commissioner of Powerlooms/Handlooms.
- (v) Registered or recognised by Development Commissioner of Handicrafts.
- (vi) Registered or recognised by the Textile Commissioner.
- (vii) Registered or recognised by the Jute Commissioner.
- (viii) Registered or recognised by the Coir Board.
- (ix) Registered or recognised by the Central Silk Board.
- (x) Not registered or recognised with any of the above.

Maximum of two types of registration (out of above) have been considered for each enterprise identified under fourth Economic Census 1998.

Source of Finance:

All the enterprises have been categorised into following six groups as far as their major source of finance for establishing/running the enterprises are concerned-

- (i) Assistance under IRDP
- (ii) Assistance under other poverty alleviation programmes (TRYSEM/DWCRA/Tool Kits etc.)
- (iii) Borrowing from institutions
- (iv) Borrowing from non-institutions
- (v) Self financing
- (vi) Others.

Number of persons usually working daily :

The total number of persons usually working daily in an enterprise with break-up of Adult Males, Adult Females, Children Males, Children Females and component of hired have been taken into account. The workers with age less than 15 years have been categorised as children. The figure of number of persons is a position in the last year for perennial enterprises and last working season for seasonal enterprises. The categories of workers include both supervisory and primary workers. A worker need not mean that the same person is continued, but it refers to a position. Apprentices paid or unpaid are treated as hired workers. Part-time employees are also treated as employees as long as they are engaged on a regular basis. Exchange of labour mutually between house-holds is regarded as household labour and not as hired labour.
