## FOREWORD

Index of Industrial Production (IIP) is the short-term micro economic indicator widely used in measuring the industrial growth of the Haryana State. The index indicates the relative change over time in the volume of production in industrial sector and it is an effective tool to measure the trend of current industrial production.

The Department of Economic and Statistical Analysis, Haryana has been compiling index of industrial production for Haryana state as per the guidelines of the Central Statistical Organisation (CSO), Govt. of India. Production data of selected items is collected directly from the selected factories. The index relates to Mining & Quarrying, Manufacturing and Electricity Sectors with an analysis of use-based classification of index numbers from the year 2004-05 to 2009-10 with 1999-2000 as base year.

This publication shown the trend of the industrial sector by index at major industrial group level of NIC-1998. It also reflects the position of industrial sector at item level. Indices of industrial production help the planners and industrialists to analysis the industrial sector at item level to take decision.

I hope this publication would prove very useful to all the Govt. departments, planners, industrialists and researchers etc. interested in the field of industrial development. This report is placed on the Department website also which can be accessed at [www.esaharyana.gov.in](http://www.esaharyana.gov.in).

I appreciate the efforts made by Director, Department of Economic & Statistical Analysis, Haryana and his staff for bringing out this report in time.

Chandigarh  
Dated the 24<sup>th</sup> Sept., 2010

Ajit M. Sharan  
Financial Commissioner & Principal  
Secretary to Govt. Haryana,  
Planning Department.

## **PREFACE**

Industry plays a vital role in the economy of a State. The Index of Industrial Production (IIP) is one of the prime short-term micro economic indicators of the economic development to measure trend in the behaviour of the industrial performance over a period of time in comparison to a chosen base year. It indicates the relative change of physical production in the field of industries during a specified year as compared to previous year.

The Department of Economic and Statistical Analysis, Haryana has been compiling the Index of Industrial Production for Haryana State under the guidance of the Central Statistical Organisation (CSO), Govt. of India since 1971-72 and publish the report periodically. The present report containing informations relating to IIP from the year 2004-05 to 2009-10 is the third issue of the series with base year 1999-2000. The Index of Industrial Production of Haryana State relates to Mining & Quarrying, Manufacturing and Electricity Sectors with an analysis of use-based classification of the index numbers.

This report provides an useful information for planners, industrialists and researchers etc. interested in the industrial development of the State. The report is also available on deptts. web site [www.esaharyana.gov.in](http://www.esaharyana.gov.in).

I take this opportunity to thank the Central Statistical Organisation, Government of India for providing valuable guidance. Efforts made by the District Statistical Officers for timely collection of production data from the industrial units is thankfully acknowledged. The cooperation extended by various industrial units for providing required production data for computation of IIP is also highly appreciated and acknowledged.

This report has been prepared by Sh. I.S.Mann, Research Officer with the help of Smt. Veena Sharma and Sh. Manjeet Singh, Assistant Research Officers and Smt. Krishna Sharma, Steno typist. Useful work done by them for bringing out the report is acknowledged. Efforts have been made to improve the quality of the report. Suggestions for further improvement are most welcome.

Chandigarh  
Dated the 24<sup>th</sup> Sept., 2010

**R.K. BISHNOI**  
Director, Department of Economic and Statistical  
Analysis, Haryana.

## **EXECUTIVE SUMMARY**

Industrialisation plays a vital and crucial role in the economic development of an economy. It accelerates economic growth of a State and thereby increases the contribution of industry sector in the State Domestic Product by way of increase in the production and employment. Index of Industrial Production (IIP) is one of the prime indicators of the economic development for measurement of trend in the industrial production over a period of time with reference to a chosen base year.

The Index of Industrial Production for the State is compiled in accordance with the guidelines of the Central Statistical Organisation (CSO), Govt of India. In the Ist part of the report detail methodology for selection of items basket, weighting diagram, source of data and computation of index number has been given. 103 items have been selected from registered manufacturing sector which covers 79.30 percent of total gross value of output of registered manufacturing sector for the year 1999-2000. Mining & quarrying and electricity have been taken as single item. The total weight of industrial sector has been taken as 1000 which has been distributed to Mining & Quarrying, Registered Manufacturing & Electricity sectors as per their Gross Value Added (GVA) figures. The weights of registered manufacturing sector have further been distributed at 2/3/4 digit as well as item level as per criteria suggested by CSO. Production data of selected items is collected directly from the selected factories in the State.

Index of Industrial Production presently being prepared in the State with 1999-2000 as base year covers Manufacturing, Electricity and Mining & Quarrying sectors. Index number has been calculated at sector level, group level (2 digit) and item level. The same has been presented in the report accordingly. Review of index numbers for the year 2009-10 has also been given in the report.

The General Index of Industrial Production with 1999-2000 as base year increased from 201.68 in 2008-09 to 223.73 in 2009-10 registering an increase of 10.94 percent. The Index of Manufacturing Sector which carries the highest weight in IIP rose from 196.85 in 2008-09 to 217.98 in 2009-10, exhibiting a growth of 10.73 percent. The Index of Electricity Sector indicates a growth of 13.84 percent as it rose from 316.43 in 2008-09 to 360.22 in 2009-10. Like wise the index of Mining & Quarrying Sector increased from 95.99 in 2008-09 to 98.67 in 2009-10 registering a growth of 2.80 percent.

In the last part of the report use-based classification which represents the changing pattern of customers needs, based on taste and habits towards the purchase of industrial product has been given. Review of the used based classification for the year 2009-10 has also been given therein.

The report elaborates that the Index of Basic Goods Industries like fertilizers, insecticides, pesticides, various items of iron, steel & stainless steel, mining & quarrying and electricity etc. increased from 180.01 in 2008-09 to 195.56 in 2009-10 recording an increase of 8.64 percent.

The Index of Capital Goods Industries like tractors, motors cars, cranes, compressors, dump loaders, refrigerators, A.C. motors and insulated cables etc. increased from 173.65 in 2008-09 to 201.70 in 2009-10 showing an increase of 16.15 percent.

The Index of Intermediate Goods Industries like yarn, dyes and colours, glass bottles, fibre glass sheet/board, gas cylinders, motor vehicle parts & accessories and parts & accessories of motor cycles, scooters and three wheelers etc. increased from 219.50 in 2008-09 to 274.86 in 2009-10 recording an increase of 25.22 percent.

The Index of Consumer Goods Industries increased from 223.55 in 2008-09 to 224.91 in 2009-10 showing an increase of 0.61 percent. The Index of Consumer Durable Goods Industries like tyres/tubes, radio telephone system, motor cycles, bicycles and utensils all type etc. decreased from 323.93 in 2008-09 to 319.16 in 2009-10 indicating an decrease of 1.47 percent over the previous year. The Index of Consumer Non-Durable Goods Industries like milk, milk powder, desi ghee, rice, sugar, edible oil, leather shoes, readymade garments and papers etc. increased from 171.18 in 2008-09 to 175.73 in 2009-10 exhibiting an increase of 2.66 percent over the previous year.

## INTRODUCTION

Industrial Sector occupies an important position in Indian Economy and has pivotal role to play in the rapid and balanced economic development. Index of Industrial Production (IIP) is one of the tools for measuring the growth of the industrial sector at a particular point of time. The index shows the relative change over time in the volume of industrial production and is an effective tool to measure the trend of current industrial production.

At the National level, Central Statistical Organisation (CSO), Government of India prepares all India Index of Industrial Production. The Department of Economic and Statistical Analysis, Haryana is preparing Annual Index of Industrial Production of Haryana since the year 1971-72. Due to liberal industrial policy and close proximity of the State to National Capital, the investment in the industrial sector is growing rapidly. There is need to continuously measure the growth of industrial sector with a view to assess and plan the industrial development schemes in the State.

A number of State Directorates of Economic & Statistics are also engaged in compiling the State level Index of Industrial Production. The Govt. of India has constituted a Technical Advisory Committee (TAC) in June, 1995 for an in-depth examination of various technical issues such as identification of representative items basket for individual State, development of corresponding weighting diagram with an appropriate linkage with the weighting diagram of all India's Index of Industrial Production etc. The TAC resolved technical issues relating to IIP and provided technical guidance in the matter of shifting the base year of current series to new series.

The recommendations of the Technical Advisory Committee on comparable Index of Industrial Production were examined by the Central Statistical Organisation (CSO), Govt. of India and the guidelines on compilation of State level Index of Industrial Production were prepared. According to criteria laid down in the guidelines issued by Central Statistical Organisation, the Directorate of Economic and Statistical Analysis, Haryana identified the items basket and prepared the weighting diagram for preparation of comparable State level Index of Industrial Production with 1999-2000 as base year.

In the present report the State indices of Industrial Production for Mining and Quarrying, Manufacturing and Electricity Sectors for the years 2004-05 to 2009-10 with base year 1999-2000 have been given. Indices for the year 2009-10 are provisional. Mining and Quarrying Sector has been included in the preview of IIP for the 1st time. The General Index of Industrial Production for the series with base year 1999-2000 is as under:-

<b>Year</b>	<b>General Index of Industrial Production (Base Year 1999-2000 =100)</b>	<b>Percentage increase/ decrease over previous year</b>
2004-05	147.88	8.94
2005-06	162.31	9.76
2006-07	179.84	10.80
2007-08	194.89	8.37
2008-09	201.68	3.48
2009-10	223.73	10.94

# **METHODOLOGY**

## **Scope and Coverage**

The Index of Industrial Production (IIP) is prepared annually as per National Industrial Classification (NIC) 98 for mining and quarrying, manufacturing and electricity sectors. The manufacturing sector covers the industries registered under section 2m(i) and 2m(ii) of the factory Act, 1948 and functioning within jurisdiction of Haryana. The section 2m(i) refers to the units employing 10 or more workers with power and section 2m(ii) refers to the units employing 20 or more workers without power on any day of the preceding twelve months.

## **Base year**

The Index of Industrial Production is being prepared in the State since 1971-72. To capture the changes in the industrial sector, the State series of IIP is revised from time to time by dropping obsolete items, including the new items in the basket and also by shifting the base year to a more recent one. The current State series of IIP has been revised by shifting its base from 1993-94 to 1999-2000 under the over all guidance of Central Statistical Organisation, Govt. of India, New Delhi.

The methodology for compiling an index of industrial production is two fold. The first stage is to identify and select the items to be included in the items basket which could monitor and reflect the performance of the industrial sector. The second stage is to allocate the weights to the items included in the items basket.

## **Selection of items basket**

The State level IIP with base year 1999-2000 covers three major industrial sectors Viz mining & quarrying, manufacturing (Registered) and electricity. For selection of items basket, the requisite data based on detailed results of Annual Survey of Industries 1999-2000 have been supplied by the CSO. The mining & quarrying and electricity sectors have been taken as single item.

In order to have proper representation at 2 digit level, the items basket for revised series of State IIP with base year 1999-2000 has to be identified in such a manner that all the items having at least 0.2 percent contribution in the total output of respective 2 digit categories has to be taken into account for selection. But despite general guidelines for selection of items, the cut off criteria in terms of item level percentage contribution in the output of 2 digit group has been taken as 1.00 percent to keep the size of items basket as manageable. The items included in the items basket are distinct in nature. Some items of similar nature have been grouped together at

the item level. Ambiguous items such as other product, by products and the items which can create problems at the stage of data collection have been excluded from the item basket. All items of mining and quarrying have been clubbed together as single item as scope of this sectors is very limited in Haryana State.

In all 103 items have been selected for the items basket which covers 79.31 percent gross value of output of registered manufacturing sector of the year 1999-2000. The selected items have been assigned use based codes i.e basic goods, intermediate goods, capital goods and consumer goods.

The selected items have been classified under 4 digit industry groups which in turn have been classified under 2 digit industry group.

List of selected items of manufacturing (registered) sector alongwith their respective gross value of output have been shown in table no 1.1.

### **Weighting Diagram**

After selection of items weightage of each item in the base year has been determined. For this purpose total weight has been taken as 1000. The total weight of 1000 has been first distributed to mining and quarrying, registered manufacturing and electricity sectors on the basis of Gross Value Added of each sectors for the year 1999-2000. The weights of registered manufacturing sector have further been distributed to various 2 digit industry groups (15-36) of NIC 98 in proportion to their GVA figures. The 2 digit level weights further distributed to represent 3 digit groups which, in turn, distributed to 4 digit classes within the respective 3 digit groups represented in the item basket. Finally the 4 digit level weights have been distributed to selected items in the respective 4 digit classes in proportion to item wise GVO figures. The weighting diagram prepared at item level is further assigned use based categories.

Since mining & quarrying and electricity sectors are single item sectors, no apportioning of weight has been done.

Table Number 1.2 shows the distribution of weights for the year 1999-2000 at sector level. Distribution of weight among selected groups at 2 & 3 digit level of manufacturing sector has been shown in table no 1.3 & 1.4 respectively. Item level distribution of weights of manufacturing sector is available at table no 1.5.

### **Source of data**

The production data for IIP is collected from the concerned industrial units in the State. For selection of factories for collection of production data for manufacturing sector the unit wise ASI frame of items selected in the items basket for the year 1999-2000 is used. The units

producing a particular item included in the items basket is first arranged in descending order of production and a cut off point not below 60% of the particular item is selected as sample for collection of data from field.

The month wise data on generation of electricity taken from the website (www.cea.nic.in) of the Central Electricity Authority is used. Gurgaon and Faridabad districts are major producers of minerals in the State. Hence the data of total production of major and minor minerals is collected from these districts and used for calculation of IIP of this sector.

### **Computation of Index Number**

The change in production of selected units producing the item in the current period viz-a-viz their production in base year is relative change in the production of the item. The total production of an item in the current period is estimated using the relative change in production of the selected units.

The Index is computed by using the Laspeyre's Formula : -

$$I = \frac{\sum R_i W_i}{\sum W_i}$$

Where I = Index Number

R<sub>i</sub> = Production relative of ith selected item

W<sub>i</sub> = Weight assigned to ith item

∑ = Summation of all items within each group upto major group (2 digit) level.

The production relative of an item is defined as percentage growth of the production compared to the base year production.

$$R_i = \frac{P_{ci}}{P_{oi}} \times 100$$

Where R<sub>i</sub> = Production relative of ith selected item.

P<sub>ci</sub> = Current year production of ith item

P<sub>oi</sub> = Base year production of ith item.

The production relatives are thus calculated at product (4 digit) level of NIC code and the ultimate indices are calculated up to major group (2 digit) level. Sectoral Indices and General Index are based on weighted Laspeyre's Index Number.

**Index of Industrial Production**  
**in**  
**Haryana**

## **REVIEW OF INDEX OF INDUSTRIAL PRODUCTION IN HARYANA 2009-2010**

The industry sector recorded an annual growth of 10.94 percent in 2009-10 over the previous year as the Index of Industrial Production increased from 201.68 in 2008-09 to 223.73 in 2009-10. The sector wise and group wise details of IIP are given below: -

### **Manufacturing Sector**

The Index of Manufacturing Sector increased from 196.85 in 2008-09 to 217.98 in 2009-10 registering an annual growth of 10.73 percent over the previous year. Manufacture of coke, refined petroleum products and nuclear fuel (23) recorded the highest growth of 30.97 percent followed by manufacture of motor vehicles, trailers & semi-trailers (34) which recorded growth of 30.29 percent. Manufacturing of office accounting & computing machinery (30) recorded growth of 28.35 percent, manufacture of tobacco products (16) recorded growth of 23.59 percent and manufacture of medical, precision & optical instruments, watches & clocks (33) recorded growth of 21.90 percent. Manufacture of electrical machinery and apparatus n.e.c. (31), manufacture of radio, television and communication, equipment & apparatus (32) and manufacture of food products and beverages (15) have recorded negative growth of 17.22 percent, 15.05 percent and 1.10 percent respectively.

### **Electricity Sector**

The Index of Electricity Sector increased from 316.43 in 2008-09 to 360.22 in 2009-10 registering an annual growth of 13.84 percent over the previous year.

### **Mining and Quarrying**

The Index of Mining & Quarrying sector increased from 95.99 in 2008-09 to 98.67 in 2009-10 exhibiting an growth of 2.80 percent.

### **Index of Industrial Production at Major Group (2-digit level) of Manufacturing Sector**

#### **1. Manufacture of Food Products and Beverages (15)**

The food manufacturing industries carry the second highest weight of 116.38 in the manufacturing sector. The index of this group decreased from 129.44 in 2008-09 to 128.02 in 2009-10 indicating a negative growth of 1.10 percent. Alcohol/liquor exhibited highest growth of

7.19 percent followed by powder milk 6.71 percent, vanaspati 4.89 percent and milk, skimmed pasturised 3.93 percent. The index of sugar, edible oil, ghee, atta/maida/sooji, biscuit & cookies and malt declined as compared to the previous year.

## **2. Manufacture of Tobacco Products (16)**

Tobacco group carry a weight of only 0.45 in the manufacturing sector. The index of this group increased from 200.49 in 2008-09 to 247.78 in 2009-10 and recorded a growth of 23.59 percent. The highest growth of 30.23 percent was recorded by katachu (katha/khair) and 1.07 percent by tobacco, chewing in this group.

## **3. Manufacture of Textiles (17)**

The textile industries carry a weight of 34.30 in the manufacturing sector. The index of this group increased from 130.09 in 2008-09 to 130.68 in 2009-10 recording a growth of 0.45 percent . The index of handloom cloth, cotton recorded highest growth of 33.78 percent followed by yarn, woolen/shoddy which recorded growth of 26.06 percent. Carpet cotton & durries recorded negative growth of 11.50 percent.

## **4. Manufacture of Wearing Apparel; Dressing and Dyeing of Fur (18)**

Wearing apparel industries has been assigned the weight of 35.64 in the manufacturing sector. The index of this group increased from 324.46 in 2008-09 to 339.32 in 2009-10 and recorded a growth of 4.58 percent. The index of readymade garments has recorded growth of 7.27 percent whereas the index of leather garments & jackets has shown negative growth of 16.11 percent.

## **5. Tanning and Dressing of Leather; Manufacture of Luggage, Handbags, Saddlery, Harness and Footwear (19)**

The leather Industries has been allotted a weight of 20.98 in the manufacturing sector. The index of this group has increased from 154.07 in 2008-09 to 158.21 in 2009-10 and recorded a growth of 2.69 percent. The index of rubber chappels has recorded highest increase of 14.16 percent followed by leather shoes 1.30 percent and canvas shoes 0.56 percent.

## **6. Manufacture of Wood and Wood Products (20)**

The wood industry has been assigned the weight of 1.10 only. The index of this group has increased from 151.84 in 2008-09 to 152.94 in 2009-10 and recorded a growth of 0.73 percent.

## **7. Manufacture of Paper and paper Products (21)**

The paper Industries has been assigned the weight of 8.98. The index of this group increased to 158.40 in 2009-10 from 157.27 in 2008-09 recording a growth of 0.72 percent. Manufacture of corrugated sheet boxes recorded the highest growth of 1.66 percent followed by paper all kind which has recorded the growth of 1.26 percent over the previous year. Paper cartons/boxes has recorded negative growth of 1.59 percent in this group.

## **8. Publishing, Printing and Reproduction of Recorded Media (22)**

The publishing and printing industry has been allotted the weight of 5.44. The index of this group increased from 86.67 in 2008-09 to 87.34 in 2009-10 and recorded a growth of 0.77 percent. Journals/periodicals has recorded growth of 6.13 percent whereas books has recorded negative growth of 13.31 percent.

## **9. Manufacture of Coke, Refined Petroleum Products and Nuclear Fuel (23)**

The petroleum industries carry a weight of 0.80. The index of this group has increased from 88.38 in 2008-09 to 115.76 in 2009-10 and recorded an increase of 30.97 percent. Aviation turbine fuel is the single products selected in this group.

## **10. Manufacture of Chemicals and Chemicals Products (24)**

The chemical and chemical products industry group carry a weight of 43.03. The index of this group increased from 135.44 in 2008-09 to 159.26 in 2009-10 which indicates a growth of 17.59 percent. Manufacture of dyes & colors has recorded highest growth of 74.97 percent in this group followed by insecticides 8.50 percent. Fertilizer and pesticides has recorded negative growth of 12.96 percent and 7.21 percent over the previous year.

## **11. Manufacture of Rubber and Plastic Products (25)**

The rubber and plastic industries has been assigned a weight of 28.52. The index of this group has increased from 128.38 in 2008-09 to 138.10 in 2009-10 recording a growth of 7.57 percent. The manufacture of switches, electric recorded highest growth of 61.14 percent followed by footwear, rubber (excl. boot) 32.41 and rubber roll 23.14 percent. Film PVC & Helmet safety etc. has recorded negative growth of 45.34 and 15.59 percent respectively in this group.

## **12. Manufacture of other Non-Metallic Mineral Products (26)**

This industry group carry weight of 22.06 in the manufacturing sector. The index of this group has increased from 165.67 in 2008-09 to 168.74 in 2009-10 recording a growth of

1.85 percent. Building bricks recorded the highest growth of 38.83 percent followed by porcelain sanitaryware 16.78 percent. Asbestos corrugated sheet/Joints and fibre glass sheet/board recorded negative growth of 20.89 percent and 15.83 percent respectively.

### **13. Manufacture of Basic Metals (27)**

Basic metal group carries a weight of 84.52 in the manufacturing sector. The index of this group increased from 142.42 in 2008-09 to 150.21 in 2009-10 recording a growth of 5.47 percent. Casting body recorded the highest growth of 25.16 percent followed by bar, rods & rounds, iron/steel 22.50 percent. Plates/flates/sheet, stainless steel, steel tapes and tubes & pipes, high carbon steel recorded negative growth of 16.31, 10.11 and 9.49 percent respectively.

### **14. Manufacture of Fabricated Metal Products, Except Machinery and Equipments (28)**

Fabricated metal product industry carries a weight of 25.11 in the manufacturing sector. The index of this group increased from 153.47 in 2008-09 to 181.53 in 2009-10 recording a growth of 18.28 percent. Nuts bolts, screws & washers has recorded highest growth of 36.35 percent in this group followed by casting & forging, iron/steel 34.12 percent. The index of stainless steel has declined by 34.60 percent followed by electric stamping lamination which has recorded negative growth of 18.41 percent.

### **15. Manufacture of Machinery and Equipment n.e.c. (29)**

Machinery and equipment industry carries the weight of 123.04 in the manufacturing sector. The index of this industry group increased from 156.42 in 2008-09 to 168.94 in 2009-10 recording a growth of 8.00 percent. Part & accessories for agri./forestry machinery, fuel filters, engine cylinders & tractors have recorded the highest growth in this industry group whereas the growth of cranes declined by 54.12 percent.

### **16. Manufacture of office, Accounting and Computing Machinery (30)**

This industry group has been allotted the weight of 19.90 in the manufacturing sector. Core (ferrite) is single item selected in this group. The index of this group has increased from 156.79 in 2008-09 to 201.23 in 2009-10 recording a growth of 28.35 percent.

### **17. Manufacture of Electrical Machinery and Equipment n.e.c (31)**

The electrical machinery and equipment industry group has been assigned weight of 32.14 in manufacturing sector. The index of this group has decreased from 176.77 in 2008-09 to

146.34 in 2009-10 recording an decrease of 17.22 percent. Conductors recorded highest growth of 131.53 percent followed by electric motors starters 9.37 percent. The growth of switch gear & control gears, cable insulated, auto/miniature lamp, bulb & tubes, copper clad laminated sheets and A.C. motors has declined.

### **18. Manufacture of Radio, Television and Communication Equipment and Apparatus (32)**

This industry group has been allotted weight of 24.01 in the manufacturing sector. Radio telephone system is single product selected in this industry group. The index of this group has increased from 310.13 in 2008-09 to 263.44 in 2009-10 and recorded a negative growth of 15.05 percent.

### **19. Manufacture of Medical, Precision and Optical Instruments, Watches and Clocks (33)**

The medical and scientific instrument industry carries weight of 10.80 in the manufacturing sector. The index of this group has increased from 317.93 in 2008-09 to 387.57 in 2009-10 recording growth of 21.90 percent. Surgical needle holders recorded highest growth of 56.41 percent followed by Syringes all type 22.26 percent. Microscope has recorded negative growth of 7.90 percent in this group.

### **20. Manufacture of Motor Vehicles, Trailers and Semi-Trailers (34)**

This industry group carries highest weight of 200.23 in the manufacturing sector. The index of this group increased from 234.00 in 2008-09 to 304.87 in 2009-10 recording growth of 30.29 percent. Two products have been selected from this group. Motor car recorded highest growth of 31.12 percent followed by motor vehicle part and accessories 29.63 percent.

### **21. Manufacture of other Transport Equipment (35)**

Other transport equipment industry has been assigned weight of 83.24 in the manufacturing sector. The index of this group increased from 363.58 in 2008-09 to 375.45 in 2009-10 recording a growth of 3.27 percent. The index of part and accessories for motor cycles, scooters and three wheelers recorded highest growth of 21.81 percent followed by bi-cycle 4.28 percent. No item has recorded negative growth in this industry group.

### **22. Manufacture of Furniture, Manufacturing n.e.c (36)**

This industry group carries weight of 4.27 in the manufacturing sector. The index of this group has increased from 108.21 in 2008-09 to 114.25 in 2009-10 and recorded an increased of 5.58 percent.

# INDEX OF INDUSTRIAL PRODUCTION IN HARYANA

## Use-Based Classification

The Use-Based Classification represents the changing pattern of customer's needs, based on the tastes and habits towards the purchase of industrial products. The industrial products have been clubbed into four major groups comprising of Basic Goods Industries, Capital Goods Industries, Intermediate Goods Industries and Consumer Goods Industries with a view to analyse the movement of growth rate of different groups of industries and their achievements within the frame of organized sector.

The Use-Based Classification represents the classification of the industrial products according to the product applications. Each industry group reflects the variations in the production of a particular class of industries based on product usage. The industries are classified into four groups viz., Basic Goods, Capital Goods, Intermediate Goods and Consumer Goods with sub-groups such as Consumer Durable and Consumer Non-Durable Goods. Concepts and definitions for Use-Based Classification are given below.

### **(i) Basic Goods**

Any bulk raw material product used for further production of new items in manufacturing and agriculture.

### **(ii) Capital Goods**

Plants, machinery and goods used for further investments.

### **(iii) Intermediate Goods**

Any goods product produced as incomplete product or which goes as input in production for further finishing.

### **(iv) Consumer Goods**

#### **a) Consumer Durable Goods**

Products directly used by consumers and having a larger durability (say more than 2-3 years).

#### **b) Consumer Non-Durable Goods**

Products that are directly used by consumers and that cannot be preserved for long periods.

The share of each use-based industry group to the industry sector of the State and the number of industrial groups and items covered representing the use-based groups are as under: -

**Share of each Use-Based Industry Group and Number of Industrial Groups and Items Covered**

**Base Year 1999-2000**

<b>Sr. No.</b>	<b>Industry Group</b>	<b>Weight</b>	<b>Number of Items covered</b>	<b>Number of Industry Groups</b>
1.	Basic Goods Industries	191.43	20	10
2.	Capital Goods Industries	254.51	19	13
3.	Intermediate Goods Industries	207.25	23	16
4.	Consumer Goods Industries	346.81	43	31
	(a) Consumer Durable Goods	118.91	11	10
	(b) Consumer Non-Durable Goods	227.90	32	21

**G-3.1 Index of Industrial Production in Haryana  
Weights of Industries at Use-Based Classification  
Base Year 1999-2000**

☒ Basic Goods Industries	☒ Capital Goods Industries
☒ Intermediate Goods Industries	☒ Consumer Goods Industries

The indices of Use- Based classification and growth of each class of Use-Based industry groups are presented in following table :-

### Index and Growth Rate of Each Class of Use-Based Industry

Sr. No	Industry Group	Weight	Index					
			Base Year 1999-2000=100					
			2004-05	2005-06	2006-07	2007-08	2008-09	2009-10
1	2	3	4	5	6	7	8	9
1	Basic Goods Industries	191.43	135.35 (0.93)	146.92 (8.55)	156.62 (6.60)	166.48 (6.29)	180.01 (8.13)	195.56 (8.64)
2	Capital Goods Industries	254.51	122.74 (12.60)	129.26 (5.32)	149.76 (15.85)	167.25 (11.68)	173.65 (3.83)	201.70 (16.15)
3	Intermediate Goods Industries	207.25	149.56 (4.93)	172.61 (15.41)	191.26 (10.80)	206.97 (8.22)	219.50 (6.05)	274.86 (25.22)
4	Consumer Goods Industries	346.81	172.25 (13.16)	188.91 (9.67)	207.90 (10.05)	223.64 (7.57)	223.55 (-0.04)	224.91 (0.61)
	(a)Consumer Durable Goods	118.91	238.83 (22.18)	263.71 (10.42)	295.73 (12.14)	315.40 (6.65)	323.93 (2.70)	319.16 (-1.47)
	(b)Consumer Non-Durable Goods	227.90	137.52 (6.05)	149.88 (8.99)	162.07 (8.13)	175.76 (8.45)	171.18 (-2.61)	175.73 (2.66)
	<b>General IIP</b>	<b>1000.00</b>	<b>147.88 (8.94)</b>	<b>162.31 (9.76)</b>	<b>179.84 (10.80)</b>	<b>194.89 (8.37)</b>	<b>201.68 (3.48)</b>	<b>223.73 (10.94)</b>

During the year 2009-10, Intermediate Goods Industries recorded the highest growth of 25.22 percent followed by Capital Goods Industries 16.15 percent and Basic Goods Industries 8.64 percent. Consumer goods industries recorded growth of 0.61 percent.

#### A. Basic Goods Industries

Basic goods industries which has been assigned the weight of 191.43 recorded growth of 8.64 percent during the year 2009-10 as compared to the previous year. The index of this industry group rose from 180.01 in 2008-09 to 195.56 in 2009-10. Fertilizer, pesticides & insecticides, hot rolled/cold rolled sheet, stainless steel plate/flates/sheet, high carbon steel tubes & pipes, and

generation of electricity are the major products in this group. These items have significantly effected the index of this group. Aviation turbine fuel, iron/steel bar, rods & rounds, stainless steel strips, steel/stainless steel pipes, tubes & poles, casting body, iron/steel casting & forging, iron/steel sheets & plates and electricity recorded a notable increase during the year 2009-10. Index of stainless steel, plates/flates/sheet stainless steel, fertilizer, tubes & pipes, high carbon steel and pesticides etc. recorded negative growth over the previous year.

### **B. Capital Goods Industries**

The Index of Capital Goods Industries having weight of 254.51 increased from 173.65 in 2008-09 to 201.70 in 2009-10 showing an increase of 16.15 percent. Motor car, tractors, refrigerators ex-deep freezer, desert coolers, AC motors, front dump loaders, switch gear & control gear/penal and insulated cable are major products of this group. Conductors recorded the highest growth of 131.53 percent followed by part & accessories for agri./forestry machinery 74.98 percent and fuel filters 40.17 percent. Manufacturing of cranes, switch gears control gear/panel, insulated cable, A.C. motor, tools, microscope and laminated sheets, copper clad recorded negative growth. All other items have recorded the positive growth.

### **C. Intermediate Goods Industries**

The Intermediate Goods Industries carry a weight of 207.25. The Index of this industry group has increased from 219.50 in 2008-09 to 274.86 in 2009-10 recording an increase of 25.22 percent. Yarn, dyes & colors, cylinders, nut , bolt, screw & washers, core (ferrite), motor vehicle part & accessories and part & accessories of motor cycle, scooters and three wheelers are major products in this group. Aforesaid increase in the index is due to increase in the production of dyes & colors, building bricks, nut, bolts, screws & washers, motor vehicles part & accessories, core (ferrite) and steel/tin containers etc. The manufacturing of dyes & colors recorded the highest growth of 74.97 percent followed by building bricks 38.83 percent and nuts, bolts, screws & washers 36.35 percent during the year 2009-10 over the previous year. Film, Pvc, asbestos corrugated sheet/joints, electrical stamping lamination, fiber glass sheet/board, tape, steel and thermocol boxes have recorded negative growth during the year over previous year.

### **D. Consumer Goods Industries**

Consumer Goods Industries has captured the weight of 346.81. This industry group has recorded growth of 0.61 percent during the year 2009-10 as the index of this group increased from 223.55 in 2008-09 to 224.91 in 2009-10.

### **(a) Consumer Durable Goods Industries**

The Consumer Durable Goods Industries has been assigned the weight of 118.91. The Index of this industry group has decreased from 323.93 in 2008-09 to 319.16 in 2009-10 and recorded negative growth of 1.47 percent. Motor cycles, tyre/tube, radio telephone system, head light glass and bicycles are the main products of this group. Manufacturing of electric switches recorded the highest growth of 61.14 percent followed by needle holders, surgical 56.41 percent and rubber roll 23.14 percent during the year 2009-10 as compared to previous year. The manufacturing of auto/miniature lamps, safety helmet, radio telephone system and tyre/tube recorded negative growth of 33.48 percent, 15.59 percent, 15.05 and tyre/tube 6.67 respectively.

### **(b) Consumer Non -Durable Goods Industries**

The Consumer Non-Durable Goods Industries has been allotted the weight of 227.90. The Index of this industry group has increased from 171.18 in 2008-09 to 175.73 in 2009-10 and recorded a growth of 2.66 percent as compared to previous year. Rice, ghee, vanaspati, atta, sugar, edible oils, readymade garments, leather shoes, rubber chappals and paper all kind are the major products of this group. The production of cotton handloom cloth, footwear, rubber (excl. boot) katachu (katha/khair), syringes all types, rubber chapels, readymade garments, alcohol/liquor (IMFL)- blended, powder milk and vanaspti etc. recorded highest growth during the year 2009-10 over previous year. Bulb & tubes, sugar, leather garments & jackets, edible oil, books, carpet cotton & durries and ghee etc. recorded negative growth.

Index of Industrial Production according to Use-Based classification for the years 2004-05 to 2009-10 for Basic Goods Industries, Capital Goods Industries, Intermediate Goods Industries and Consumer Goods Industries (Durable and Non-durable Goods separately) has been represented in table No. 3.1.
