ISSUED BY: DEPARTMENT OF ECONOMIC & STATISTICAL ANALYSIS HARYANA 2019

PREFACE

With the advent of planning era, the budgetary operations of the Government have assumed vital importance. The Government budget has become a major instrument of policy as changes in receipts as well as expenditure structure significantly affect the level of national output. The role of Government activities has increased mainly on account of social and economic responsibility. In order to run the administration smoothly and to meet the developmental expenditure, the State Governments raise their revenue through various sources.

The present report provides some of the basic statistics relating to receipts and expenditure of all States in Indian Union by using various parameters. An attempt has been made in this report to compare the receipts from various sources and expenditure incurred on development and non-development activities during the year 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 [Revised Estimates (RE)] and 2018-19 [Budget Estimates (BE)]. The budgetary data used in this report has been taken from the bulletin, "State Finances: A Study of Budgets of 2017-18 and 2018-19" issued by the Reserve Bank of India.

This report has been prepared by Smt. Saroj Mehra, Research Officer with the assistance of Smt. Shakuntla, Assistant Research Officer under the supervision of Sh. Rajender Kumar Mor, Deputy Director and overall guidance of Dr. Nathu Ram Sheoran, Additional Director.

I hope that this publication would prove very useful for administrators, planners and research scholars interested in the budgetary transactions of State Governments.

EXECUTIVE SUMMARY

The Constitution of India clearly specifies the expenditure responsibilities as well as the resources, which are in the domain of the Union as well as the State Governments. The States have been entrusted a crucial role in the growth process and most of the development functions have been assigned to them. They have the responsibility of developing social and economic infrastructure as well as maintaining the law and order. Therefore, the State Governments always attempt to raise the sufficient resources to perform their job effectively. Taxes on income both for individuals and corporate entities, union excise duties and tax on import and export of goods, service taxes etc., are within the domain of the Union. Taxes on consumption are assigned to the States. Recognizing the asymmetry in the assignment of receipts and expenditure responsibilities, the Constitution envisaged transfer of resources from the Union to the States.

In this report, an attempt has been made to compare the receipts of State Governments from various sources and expenditure incurred on development and non-development activities. The budgetary data analysed in this report has been taken from the bulletin on State Finances issued by the Reserve Bank of India. In order to present a meaningful comparison of receipts and expenditure of State Governments, all 29 States have been grouped into 'non-special category States' and 'special category States'. The eleven States namely Arunachal Pradesh, Assam, Himachal Pradesh, Jammu & Kashmir, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura and Uttarakhand, all situated in hilly areas have been taken in special category. The remaining 18 States have been included in non-special category.

The analysis of States' Own Tax Revenue of all 29 States shows that out of the total States' Own Tax Revenue of ₹ 847144.81 crore received by all States during 2015-16 (Accounts), the maximum collection was made from Sales Tax (62.36 percent) followed by State Excise (11.91 percent) and Stamps & Registration fees (10.92 percent). During 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE) also, the maximum States' Own Tax Revenue was collected from Sales Tax followed by State Excise and Stamps & Registration fees.

The State-wise analysis reveals that the share of Sales Tax in total State's Own Tax Revenue was maximum in Kerala (78.82 percent) and minimum in Bihar (41.67 percent) during 2015-16 (Accounts) in the non-special category. During 2016-17 (Accounts), the share of Sales Tax was maximum in Kerala and Jharkhand. The share of Sales Tax in total State's Own Tax Revenue was maximum again in Kerala during 2017-18 (RE). But during 2018-19 (BE), the share was estimated to be maximum in Jharkhand. The share of Sales Tax in Haryana was recorded as 68.09 percent, 69.03 percent, 66.91 percent and 71.64 percent during 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively. The share of State Excise in total State's Own Tax Revenue was maximum in Karnataka during 2015-16 (Accounts) to 2017-18 (RE) but during 2018-19 (BE), it was maximum in West Bengal. Bihar and Gujarat with either nil or negligible share of State Excise during the years 2016-17 (Accounts) to 2018-19 (BE) were at the bottom amongst the States of non-special category. It was due to the implementation of prohibition policy in these two States. In Haryana, it was 14.13 percent, 13.56 percent, 12.31 percent and 12.21 percent during 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively. In special category States, the share of Sales Tax in total State's Own Tax Revenue was maximum in Manipur (84.49 percent) and minimum in Arunachal Pradesh (35.55 percent) in 2015-16 (Accounts). During 2016-17 (Accounts) and 2017-18 (RE) also, it was maximum in Manipur but in 2018-19 (BE), it was maximum in Arunachal Pradesh.

The per capita revenue from Sales Tax in non-special category was recorded as maximum in Goa and minimum in Bihar throughout the period of four years. In Haryana, it was estimated as ₹ 7771.30, ₹ 8541.24, ₹ 10716.85 and ₹ 12482.27 during 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively. The per capita revenue from State Excise was maximum in Karnataka in all the four years. In Haryana, it was estimated as ₹ 1612.94, ₹ 1677.50, ₹1971.33 and ₹ 2127.66 during 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively.

The examination of total revenue indicates that out of the total revenue receipts of all 29 States, about 51 to 55 percent revenue was collected from States' own sources whereas the remaining 45 to 49 percent revenue was received from the Centre in the form of share in Central Taxes and Grants from the Centre during the period of four years. Bihar has collected the minimum percentage ranging from about 22 to 29 percent of its total revenue receipts throughout the period of four years in the States of non-special category. In case of Haryana State, the major share of 75.03 percent, 76.62 percent, 79.44 percent and 78.55 percent in total revenues was received from State's own sources during 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively. The percentage of revenue from States' own sources to their total revenue was less than 37 percent in all special category States except Uttarakhand where half of its total revenue was generated from its own sources

throughout the period of four years. Therefore, the major sources of revenue in these special category States were Grants from the Centre and share in Central Taxes.

In the non-special category States, the per capita revenue from States' own sources was recorded as maximum in Goa and minimum in Bihar throughout the period of four years. The per capita revenue from the Centre in the form of share in Central Taxes remained at maximum level in Goa whereas Andhra Pradesh ranked at first position in respect of per capita grants received from the Centre during all the four years. In Haryana State, the per capita share in Central Taxes was ₹ 2028.13, ₹ 2399.08, ₹ 3000.67 and ₹ 3297.90 whereas the per capita share from the Central Grants was ₹ 2353.79, ₹ 2064.57, ₹ 2164.41 and ₹ 2552.70 in 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively. The per capita total receipts (revenue and capital) during the four years were highest in Goa and lowest in Bihar in non-special category. In Haryana, it was estimated as ₹ 29040.06, ₹ 27778.19, ₹ 33560.56 and ₹ 36418.51 during 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively.

The analysis of developmental expenditure shows that the developmental revenue expenditure as percentage to total revenue expenditure in the non-special category was maximum in Chhattisgarh during 2015-16 (Accounts), 2016-17 (Accounts) and 2017-18 (RE) but in 2018-19 (BE), it was maximum in Telangana. In the special category States, it ranged from about 52 percent to 72 percent during the four years. The developmental capital expenditure as percentage to total capital expenditure was recorded as maximum in Rajasthan (99.25 percent), Punjab (99.37 percent), Andhra Pradesh (97.85 percent) and Karnataka (97.93 percent) during 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively in the non-special category. It was minimum in Goa throughout the period of four years. In the major special category States namely Assam, Himachal Pradesh, Jammu & Kashmir and Uttarakhand, it ranged from about 50 percent to 95 percent during the period of four years.

Rajasthan with 80.92 percent of total developmental expenditure in total expenditure ranked first in the non-special category States during 2015-16 (Accounts). Odisha, Chhattisgarh and Telangana ranked first in respect of the total developmental expenditure as percentage to total expenditure during 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE), respectively. In the major special category States, the developmental expenditure as percentage to total expenditure varied from about 58 to 71 percent whereas in small States,

it ranged from 57 percent to 75 percent during the four years. The per capita total developmental expenditure was recorded as maximum in Goa throughout the period of four years in the non-special category. In the special category States, Arunachal Pradesh ranked first in respect of per capita total developmental expenditure during 2015-16 (Accounts) and 2016-17(Accounts) but in 2017-18 (RE) and 2018-19 (BE), the first position was captured by Sikkim.

The share of States' Own Tax Revenue in total revenue receipts for all States of non-special category taken together fluctuated from about 45 percent to 55 percent during the period of last 6 years, i.e. 2013-14 to 2018-19 (BE). It ranged from about 18 percent to 24 percent for the special category during the same period. The total developmental expenditure as percentage to total expenditure varied from about 67 percent to 71 percent for all States of non-special category taken together during the period 2013-14 to 2018-19 (BE). It varied from about 64 percent to 68 percent for the special category States during the same period. The fiscal deficit to GSDP ratio of all non-special category States taken together was estimated as lower than the 3.0 percent norm of Fiscal Responsibility and Budget Management (FRBM) Act during the years 2013-14, 2014-15, 2017-18 (RE) and 2018-19 (BE) but the ratio remained higher than the 3.0 percent norm during 2015-16 and 2016-17 largely due to the impact of Ujwal DISCOM Assurance Yojana (UDAY). Similarly, the fiscal deficit-GSDP ratio in Haryana State crossed the FRBM threshold during the years 2015-16 (Accounts) and 2016-17 (Accounts) due to the same reason of UDAY. The fiscal deficit-GSDP ratio of all special category States taken together fluctuated between 2.1 percent in 2015-16 (Accounts) to 6.6 percent in 2017-18 (RE).

CHAPTER - I

INTRODUCTION

The Constitution of India clearly specifies the expenditure responsibilities as well as the resources, which are in the domain of the Union as well as the State Governments. This has been done through three lists, the Union list, the State list and the Concurrent list. There is no overlap of responsibilities as well as resources except for the Concurrent list.

1.2 The States have been entrusted a crucial role in the growth process and most of the development functions have been assigned to them. They have the responsibility of developing social and economic infrastructure as well as maintaining the law and order. Most of these functions have a direct interference with people and require considerable employees' strength to organize and perform effectively. Therefore, the State Governments always attempt to raise the sufficient resources to perform their job effectively.

1.3 In terms of the powers to raise resources, the Union Government has a predominant position. Taxes on income both for individuals and corporate entities, union excise duties and tax on import and export of goods, service taxes etc., are within the domain of the Union. Taxes on consumption are assigned to the States. Taxes on services, though meant for final consumption are levied by the Union. Recognizing the asymmetry in the assignment of receipts and expenditure responsibilities, the Constitution envisaged transfer of resources from the Union to the States. This structured revenue sharing arrangement not only attempts at vertical and horizontal equity; it also provides additional resources for States to meet their expenditure obligations.

1.4 In this report, an attempt has been made to compare the receipts of State Governments from various sources with a view to bring out the divergence in the mobilization of resources by the States and the Central Government and expenditure incurred on development and non-development activities. The budgetary data for the years 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 [Revised Estimates (RE)] and 2018-19 [Budget Estimates (BE)] used in this report has been taken from the bulletin, "State Finances : A Study of Budgets of 2017-18 and 2018-19" issued by the Reserve Bank of India. This is the 49th report in the series started from the year 1968-69.

1.5 In order to present a meaningful comparison of receipts and expenditure of State Governments, all 29 States have been grouped into 'non-special category States' and 'special category States'. Eleven States namely Arunachal Pradesh, Assam, Himachal Pradesh, Jammu & Kashmir, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, Tripura and Uttarakhand, all situated in hilly areas have been taken in special category. The remaining 18 States namely Andhra Pradesh, Bihar, Chhattisgarh, Goa, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Telangana, Uttar Pradesh and West Bengal have been included in non-special category.

1.6 Chapter II of the report focuses on evaluating the resources of the States. The resources of the States have been analysed in terms of the revenue receipts including State's Own Tax and Non-Tax revenue, Grants-in-Aid and Share in Central Taxes from the Government of India in all 29 States of 'non-special category States' and 'special category States' during the years 2015-16 (Accounts), 2016-17 (Accounts), 2017-18 (RE) and 2018-19 (BE). In Chapter III, an attempt has been made to analyse the utilization of resources on the basis of developmental revenue expenditure, developmental capital expenditure and total developmental expenditure of both revenue and capital accounts in all 29 States during the years 2015-16 (Accounts), 2017-18 (RE) and 2018-19 (BE). Chapter IV draws attention to the comparative position of all States in respect of States' Own Tax Revenue and developmental expenditure during the last 6 years.

CHAPTER-II

RESOURCES OF THE STATES

As per Article 202 of the Constitution of India, the Governor of a State shall cause to be laid before the House or Houses of the Legislature of the State, a statement of the estimated receipts and expenditure of the State for a financial year. This statement contains all the receipts and expenditure, loans and advances, public accounts and transactions in contingency funds of the current year and the estimates for the coming year. The total receipts of the Government are classified as Revenue Receipts and Capital Receipts. Revenue Account Receipts constitute what is usually known as the "Revenue Budget" which takes into account all the revenue receipts. The total revenue receipts include State's Own Tax and Non-Tax revenues and Grants-in-Aid and Share in Central Taxes from the Government of India. The State's share in Central taxes devolves as per the recommendations of the Central Finance Commission. The transfer from the Central Government has their limitations. Therefore, the State Governments depend upon their own resources for revenue generation. Capital Account Receipts include Recoveries of Loans, Miscellaneous Capital Receipts, Borrowings and Other Liabilities. This chapter explored the issues regarding States' Own Tax Revenue, Per Capita States' Own Tax Revenue, Total Revenue Receipts, Per Capita Total Revenue Receipts and Per Capita Total Receipts.

4.3 Ratios of Revenue and Fiscal Deficit to GSDP

Non-special Category States

The revenue deficit to GSDP ratio of all non-special category States taken together hovered between 0.1 percent to 0.4 percent during the period 2013-14 to 2017-18 (RE) but in 2018-19 (BE), the ratio has been budgeted as nil. The revenue deficit-GSDP ratio of Haryana State was estimated as 1.0 percent in 2013-14 which increased to 2.9 percent in 2016-17 but thereafter, the ratio was on decreasing trend recording the figures of 1.4 percent and 1.2 percent in 2017-18 (RE) and 2018-19 (BE), respectively. The fiscal deficit to GSDP ratio of all non-special category States taken together was estimated as lower than the 3.0 percent norm of Fiscal Responsibility and Budget Management (FRBM) Act during the years 2013-14, 2014-15, 2017-18 (RE) and 2018-19 (BE) but the ratio remained higher than the 3.0 percent norm during 2015-16 and 2016-17 largely due to the impact of Ujwal DISCOM Assurance Yojana (UDAY). Similarly, the fiscal deficit-GSDP ratio in Haryana State crossed the FRBM threshold during the years 2015-16 and 2016-17 due to the same reason of UDAY.

Special Category States

The revenue deficit-GSDP ratio was estimated as negative in case of all special category States excluding one or two exceptions implying that the States of this category have budgeted to collect revenues higher than their current spending in most of the period during 2013-14 to 2018-19 (BE). The revenue deficit-GSDP ratio for all the States of this category taken together was also negative throughout the reference period with the exception of 2017-18 (BE) when it was budgeted as positive. The fiscal deficit-GSDP ratio of all special category States taken together fluctuated between 2.1 percent in 2015-16 to 6.6 percent in 2017-18 (RE).

The ratios of revenue deficit and fiscal deficit to GSDP have been given in Tables 4.3 (a) and 4.3 (b), respectively.
