## FOREWORD

The Statistical Abstract of Haryana which contains the latest available data on various socio-economic aspects of the State, is issued every year by the Department of Economic and Statistical Affairs, Haryana. It is presented every year to the Hon'ble Members of Haryana Vidhan Sabha alongwith other budget documents.

In the Statistical Abstract, 2022-23, the department has endeavoured to include all the relevant data to the changing socio-economic scenario. I hope that the information contained in this document will be of significant use for formulating future development plans, policies and for administration. I am confident that the Parliamentarians, Legislators, Planners, Administrators and various Research Organizations interested in studying the economy of the State, will find this document useful. For its wider use and utility, it is available on the department website, accessible at [www.esaharyana.gov.in](http://www.esaharyana.gov.in)

## PREFACE

Department of Economic and Statistical Affairs (Planning Department, Government of Haryana) is the Nodal Department for coordination of statistical activities, compilation and dissemination of data pertaining to key economic activities. Statistical Abstract of Haryana, published by the Department, provides district-wise time series statistics/indicators on various socio-economic aspects of the State. The current issue of the Abstract contains comprehensive statistics covering socio-economic aspects across economic sectors such as area & population, health & family welfare, education, labour & employment, social security & social welfare, co-operation, agriculture, horticulture, irrigation, livestock & animal husbandry, fisheries, forests, industries, electricity, transport, public distribution system tourism, local bodies, banking, apart from key macro economic indicators such as GSDP, Per Capita Income. This document will serve as a useful reference for statistical data requirements for planning, evidence based policy and decision making.

The ever increasing demand for the Statistical Abstract from Government departments, universities, research institutions and research scholars bears testimony to its utility for academics and practitioners of public policies alike. It is sincerely hoped that the modifications made in the present edition will further enhance its relevance.

## SECTION—IX LABOUR AND EMPLOYMENT

Data in respect of labour and its related activities is given in this section. The information has been collected from Labour and Employment Department, Haryana and Labour Bureau, Govt. of India.

Table 9.1— number of shops, commercial establishments, hotels and restaurants and employment therein.

Table 9.2— average per capita annual money earnings of factory workers in India by States.

Tables 9.3 to 9.4— data on industrial disputes and causes of disputes. Strike means work stoppage declared and organised by the workers and lock-out refers to work stoppage declared by employer generally after a strike. The number of workers involved means the actual number of workers affected either directly or indirectly in the dispute.

Table 9.5— data on Trade Unions under the Trade Union Act, 1926.

Table 9.6— classification of Trade Unions according to membership.

Table 9.7— registered Trade Unions affiliated to various Parties/Central Organisations.

Table 9.8—data on workmen's compensation. Under Workmen's Compensation Act- 1923, compensation is payable to workers employed in scheduled employment for injuries due to accidents resulting in death and disablement (Permanent or temporary) and not caused through the fault of the worker himself.

Table 9.9— Average wages paid to agricultural and skilled workers in certain selected villages of state.

Table 9.10—data regarding registration & placing in various employment exchanges and employment.

Table 9.11—employment in the organised sector of Haryana.

(Act establishments are those which are covered by the "Compulsory Notification of Vacancies Act, 1959". Others are Non-Act establishments previously this classification used to be large and small establishments).

## SECTION—XII

### STATE INCOME

The Gross State Value Added (GSVA) is defined as a measure in monetary terms of the volume of all goods and services produced within the geographical boundaries of the State, accounted without duplication during a given period of time. The Consumption of Fixed Capital (CFC) is deducted from GSVA to obtain Net State Value Added (NSVA). The entire economic activities have been classified into different sectors namely; agriculture, forestry & fishing, mining & quarrying, manufacturing, construction, electricity, gas, water supply & other utility services, trade, repairs, hotels & restaurants, transport, storage & communication, financial services, real estate, ownership of dwellings & professional services, public administration and other services for estimating the GSVA and NSVA of the State. The estimates of GSVA and NSVA are adjusted to product add taxes less subsidies to obtain Gross State Domestic Product (GSDP) and Net State Domestic Product (NSDP).

**Per capita Income** —The GSDP or NSDP of a year divided by the population of that year gives per capita income. These estimates are subject to revision necessitated by the availability of data at the moment and change in methodology. The figures of per capita income have been arrived at on the basis of population data supplied by Registrar General of India.

Table 12.1—shows the Gross and Net State Domestic Product at current and constant (2011-12) prices.

Tables 12.2 and 12.3—show the industry-wise Gross State Value Added at current and constant (2011-12) prices, respectively.

Tables 12.4 to 12.5—show the industry-wise Net State Value Added at current and constant (2011-12) prices, respectively.

Table 12.6—shows the indices (2011-12=100) of Net State Domestic Product by broad sectors.

Table 12.7—depicts the percentage change in GSVA of Haryana and India by broad sectors at constant (2011-12) prices.

Table 12.8 to 12.9—show the per capita income of various states and the Indian Union at current and constant (2011-12) prices.

## SECTION XIII

### GROSS FIXED CAPITAL FORMATION IN HARYANA

Gross fixed capital formation in Haryana consists of additions to the assets of producers of tangible reproducible goods which have an expected life time use of one year or more. The main objective of these estimates is to assess the pace of development brought out as a result of investment both in public and private sectors. These estimates also provide insight as to the quantum of expenditure that has been made for the creation of capital assets during the year. For estimating the gross fixed capital formation, the entire economic activities have been classified into thirteen sectors, viz. agriculture, forestry, fishing, mining and quarrying, registered manufacturing and un-registered manufacturing, construction, electricity, gas and water supply, transport, storage and communication, trade, hotels and restaurants, banking and insurance, real estate and ownership of dwellings (residential part only), public administration and other Services.

## SECTION—XIV AGRICULTURE

Agriculture statistics regarding classification of area and production of Principal crops and yield per hectare of major crops for the State as a whole and district-wise data have been presented in this section. It also contains data on land revenue assessment, area under high yielding varieties, area under fruits and vegetables, consumption of fertilizers, agricultural machinery and implements including tractors and consolidation operations, etc. The information has been collected from Deputy Commissioners, Director of Land Records and Director of Agriculture and Farmers Welfare, Haryana and the data relates to agricultural year (1st July to 30th June.)

Area according to village papers—It is based on the returns of area prepared by village staff for revenue purposes in the districts.

Area under Forests—This includes actually forested area on the lands classed or administered as forest under any legal enactment dealing with forests whether state owned or private. Besides, the forest area along roads, railways and canals has also been included. The area under forests given in this section will not tally with that of the Forest Department shown in section XVIII, owing to the fact that certain lands though not wooded are taken as forest by the Forest Department whereas these are not treated as such by the revenue authorities.

Land not available for cultivation—This includes absolutely barren and unculturable land like mountains, deserts, etc. which cannot be brought under plough except at exorbitant cost, land covered by buildings, roads and railways and water or otherwise appropriated for non-agricultural purposes.

Other uncultivated land excluding fallow lands—This denotes land available for cultivation, either not taken up for cultivation or abandoned later on for one reason or the other and includes culturable waste, permanent pastures and other grazing lands and lands under miscellaneous trees, crops and groves.

Fallow land—It denotes cultivable land which after abandonment remains uncultivated over a long period called 'old fallows' and those kept uncultivated during the current year are called 'current fallows'.

Net area sown—It is the net area sown under crops, the areas sown more than once during the year being counted only once.

Total Cropped area—It includes total area covered with crops during the year. In case, different crops are raised on the same land during the year, the same area is counted more than once.

## SECTION—XIX

### FORESTS

The area under Forests shown in this section will not tally with the figures shown under the section 'Agriculture' supplied by the Department of Land Records due to different definitions followed by the Department of Forest and Department of Land Records. The Department of Forest reckons entire area including non-wooded area under its control as the forest area, whereas the Department of Land Records compiles the area on the basis of actual area under forests.

Table 19.1—area under forests in the State.

Table 19.2—percentage of area under forests and forest area per lakh of population in State.

## SECTION—XXI

### POWER AND NEW & RENEWABLE ENERGY

The data has been collected from the Central Electricity Authority, Government of India, U.H.B.V.N.L. and D.H.B.V.N.L for this section.

Table 21.1—low tension and 11 kilovolts lines.

Table 21.2—consumption of electricity in Haryana.

Table 21.3— number of pending applications for electricity connections by uses.

Table 21.4—number of electricity connections for various purposes.

Table 21.5—number of energised tubewells.

Table 21.6—units sold and the per capita consumption of electricity.

Table 21.7—installed generation capacity and power availability.

Tables 21.8 and 21.9—show installed plant capacity, electricity generated, utilised and number of consumers in India (State-wise) and installed plant capacity and consumption per square kilometre and per thousand of population in India.

Table 21.10—depicts annual per capita consumption of electricity in India.

Table 21.11—indicates the number of villages electrified in various States.

Table 21.12—installation of solar pumps under PM-KUSUM (component-B).

Table 21.13— indicates the progress of renewable energy capacity.

## SECTION—XXII

### TRANSPORT STATISTICS

This section contains information relating to road transport, development of roads and railways. The information has been collected from the O/o Transport Commissioner, DIG Police (CID) Haryana and Public Works Department (Building and Roads) Haryana and Ministry of Surface Transport (Transport Research Division), Government of India and Northern Railway, New Delhi.

The railway system in India is divided into various zones which are further sub-divided into divisions. The divisions are not co-terminus with the State territories. On the re-organisation of the Punjab State, about 1,220 kilometres of rail length came to the share of Haryana State as against the total rail length of 3,312 kilometres in the erstwhile Punjab State. The railway administration prepares the railway statistics division-wise and not station-wise or section-wise. They have, therefore, shown their inability to supply the section-wise data on goods booked and number of passengers originating and earnings accruing there from section-wise. In this section, the data have, therefore, been presented for Delhi, Ambala and Ferozepur Divisions as a whole. This data will not thus provide a clear idea about the working of railways in Haryana.

Table 22.1—shows number of non-transport vehicles registered in State.

Table 22.2—shows number of transport vehicles registered in State.

Table 22.3—shows district-wise road accidents in the State.

Table 22.4—shows the district-wise number of professional and non-professional driving licences.

Table 22.5—presents the depot-wise data relating to commercial wing of Haryana Roadways.

Table 22.6—gives metalled and unmetalled road length maintained by Public Works Department.

Table 22.7 and 21.8—furnish district-wise information by types of road length maintained by Public Works Department and Local Bodies.

Table 22.9—gives number and percentage of villages connected with metalled roads.

Table 22.10—shows road length per 100 sq. km. of area and per lakh of population in India.

Table 22.11—includes route kilometres of the railways. (In calculating route kilometres, double or triple lines are counted only once.)

Table 22.12—gives number of wagons loaded with important commodities on broad gauge.
