

## KVS (HQ) Training Calendar: 2024-25

### General Objectives:

To enable teachers to work towards prioritized goals in education such as universalisation and inclusion

To initiate the teachers to innovation and improvisation of curricula, methods and aids.

To provide adequate educational technocracy.

To prepare the teachers for their changing roles as facilitators of learning in view of changing needs of students and societal demands.

To help teachers identify their problems and to solve them through pooled resources and wisdom.

To promote the habits of self-study, independent thinking and creative approaches.

To encourage them to undertake action research; experiment to solve teaching-learning and behavioural problems of the students.

To help teachers to know the community and signal the ways and means of contributing to the welfare of the community.

To meet the training needs of the non-teaching staff for smooth functioning of the KVS machinery

### Resource Persons

To make these training programmes effective, collaboration is sought with the institutes of eminence. KVS will also tap the potential of the in-house resource persons, especially the teachers involved in the NMM, NPST, and the experts from the ROs and HQ.

**Series of 3 Days Workshop for Trained Graduate Teachers on “21<sup>st</sup> Century Skills”**

“The key overall thrust of curriculum and pedagogy reform across all stages will be to move the education system towards real understanding and towards learning how to learn - and away from the culture of rote learning as is largely present today. The aim of education will not only be cognitive development, but also building character and creating holistic and well-rounded individuals equipped with the key 21st century skills.” (NEP 2020, Part 1, 4.4. page 14)

According to NEP 2020 the reformed curriculum is designed to cultivate essential skills such as critical thinking, creativity, collaboration, communication, information literacy, media literacy, technological literacy, leadership, initiative, productivity, social skills, and flexibility.

- Training in these skills will enhance learning environment and academic outcomes.
- Research supports integrating these skills for better student engagement and critical thinking.
- Teaching 21st-century skills will prepare students for the workforce and diverse learning needs and also enhance global understanding and collaboration.

**The workshops are proposed to be held in virtual mode to enable the training of a large number of teachers region-wise with minimal disruption to their normal duties.**

**Note: A large number of workshops have been planned in virtual mode as a proposal for maintenance and repair of the hostel has been approved by the KVS Head Quarters this year.**
