

Message

Dear Teachers,

Heartfelt wishes on Teachers' Day 2025.

A teacher is much more than a guide in academics; they are the architect of a child's future. From helping a child trace the first alphabet to guiding them through life's important decisions, teachers walk every step with patience, empathy, and support. They shape not just minds, but values, dreams, and aspirations that define the destiny of our nation.

The teachers of Kendriya Vidyalayas across the country are nurturing young minds with innovative practices, creative approaches, and a spirit of inclusiveness. Their constant endeavour ensures that every learner feels empowered, inspired, and prepared to contribute meaningfully to society.

Kendriya Vidyalaya Sangathan is proud to be a **trendsetter in the implementation of the National Education Policy (NEP) 2020**. With a strong focus on experiential learning, skill development, technology integration, and holistic growth, KVS teachers are translating the vision of NEP into reality, making classrooms vibrant centres of innovation and inspiration.

On this special day, we celebrate you the true torchbearers of knowledge, values, and progress. With respect and warm wishes, I extend a heartfelt **Happy Teachers' Day** to every teacher.
