Bharat VC Solution hosted on National Data Centre

NIC VPN Services:

Virtual Private Network is most economical and secure method of connecting private networks over Internet. VPN helps mobile users to connect to their corporate network from Internet. NIC VPN Service is used by government officials to update their web sites and remote management of the servers hosted in NIC IDCs as well as access Intranet applications. VPN Services also used to access secure application under various E-GOV project.

Total No of VPN issued till now : 816

NIC Messaging Services:

Under the Digital India initiative, NIC has established a robust Messaging framework that includes core eMail application Gateway services, Short Messaging Service (SMS), OBD (Outbound Dialing) and an IT Platform for citizen engagement (e-Sampark). These services collectively create a value chain over the existing NIC web portals that host Digital Services and are used extensively by Central & State Governments for citizen engagement & disseminating information.

Total No of email issued till now : 4494

The National Social Assistance Programme (NSAP) is a welfare programme being administered by the Ministry of Rural Development. This programme is being implemented in rural areas as well as urban areas. NSAP represents a significant step towards the fulfilment of the Directive Principles of State Policy enshrined in the Constitution of India which enjoin upon the State to undertake within its means a number of welfare measures. These are intended to secure for the citizens adequate means of livelihood, raise the standard of living, improve public health, provide free and compulsory education for children etc.

The eOffice product aims to support governance by ushering in more effective and transparent inter and intra-government processes. The vision of e-Office is to achieve a simplified, responsive, effective and transparent working of all government offices. The Open Architecture on which eOffice has been built, makes it a reusable framework and a standard reusable product amenable to replication across the governments, at the central, state and district levels. The product brings together the independent functions and systems under a single framework.

Pension Payment System & mPension Manipur

Gifts to the senior citizens -
No more long queues at the
treasuries and banks

1 System for preparation & processing of Pension Bills and Payment to the pensioners

2 Disbursement of monthly pension strictly through pensioner's bank account by electronic payment through e-Kuber of RBI

3 Pensioner's photograph is furnished once in every 6 months as proof of liveness

4 Exclude pensioner from further payment unless photograph and certificate is furnished once in every 6 months

5 Role based and access to the system is based on the privilege/role assigned to the user during its creation

mPension Manipur

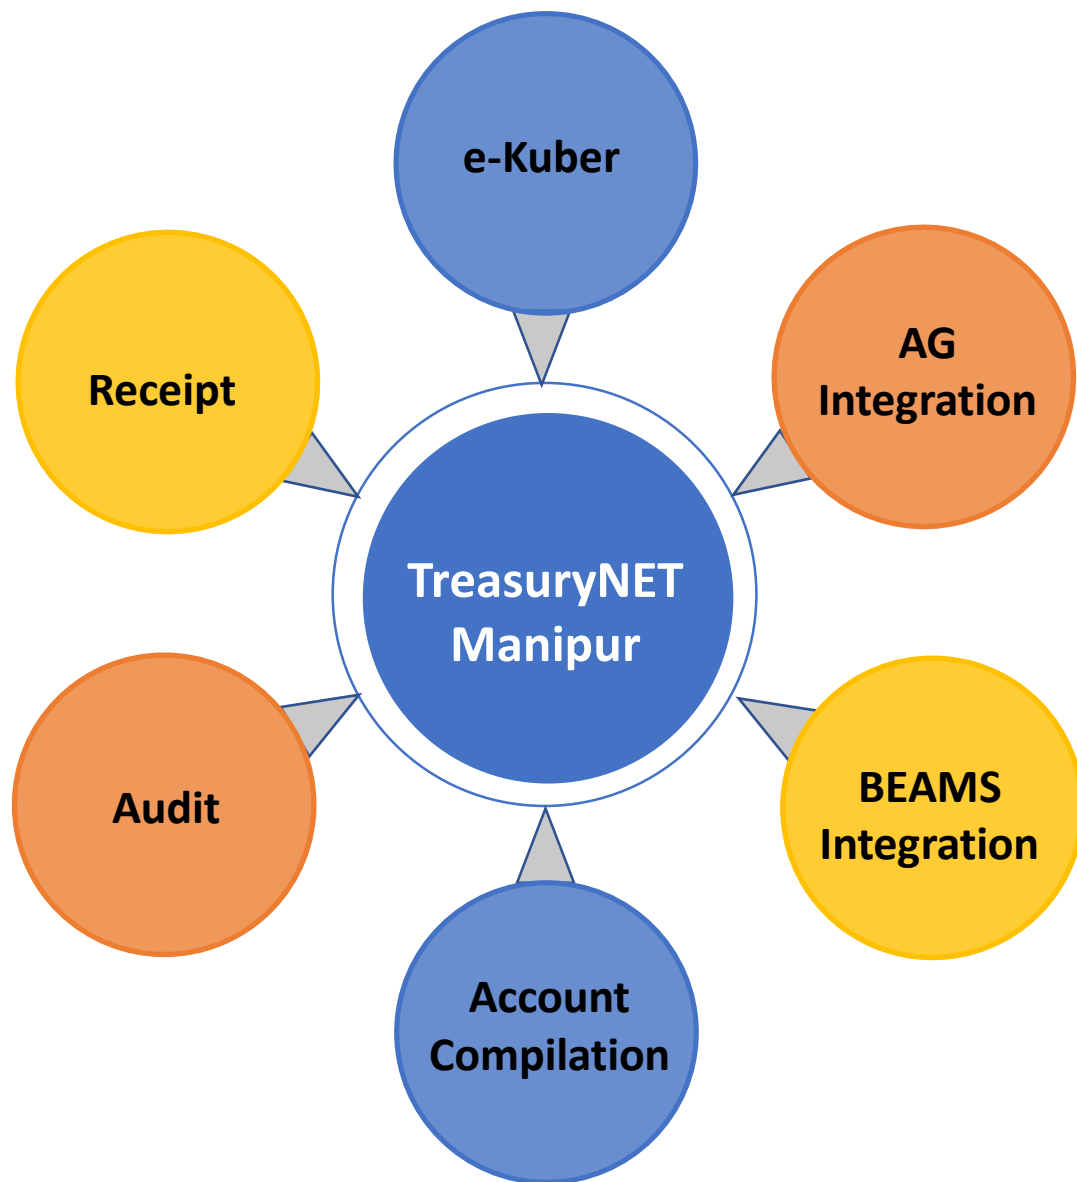

- A Mobile App that enables pensioners to update their live photographs online through a mobile device without having to physically visit a Treasury Office .
- Uses Artificial Intelligence techniques to detect liveness of the pensioner being photographed and allows upload of only photographs taken from living persons

Benefits:

Computerization of Pension Payment in Manipur has brought about a systemic change in the functioning of the Treasuries. The system controls the processing of pension bills leading to efficient and enhanced treasury operations.

Some of the positive outcomes are as follows:

- ❖ Centralized Pension database System of pensioners of all treasuries.
- ❖ Pensions released through bank accounts based on electronically generated treasury e-Advice through e-Kuber.
- ❖ Classification of the pensioners under SM (superannuated pensioners), SF (family pensioners), SP (special pensioners), MLA, those converted to family pensioners etc. at any given point of time.
- ❖ Reduced pressure on the Treasuries and faster and efficient processing of pension bills.
- ❖ Disappearance of queues at Banks and Treasuries since the pension can be drawn by the pensioner through ATMs.
- ❖ Timely submission of monthly accounts to Accountant General.
- ❖ Transparency is achieved which has contributed towards curbing of malpractices, extension of an efficient G2C services for senior citizens.
- ❖ The system has facilitated generation of various MIS reports and has ensured timely payments through bank accounts.

- TreasuryNet is a web based system which caters to the online transactions in treasuries as well as generates compiled accounts. It also provides various reports & queries to support decision making in financial matters.

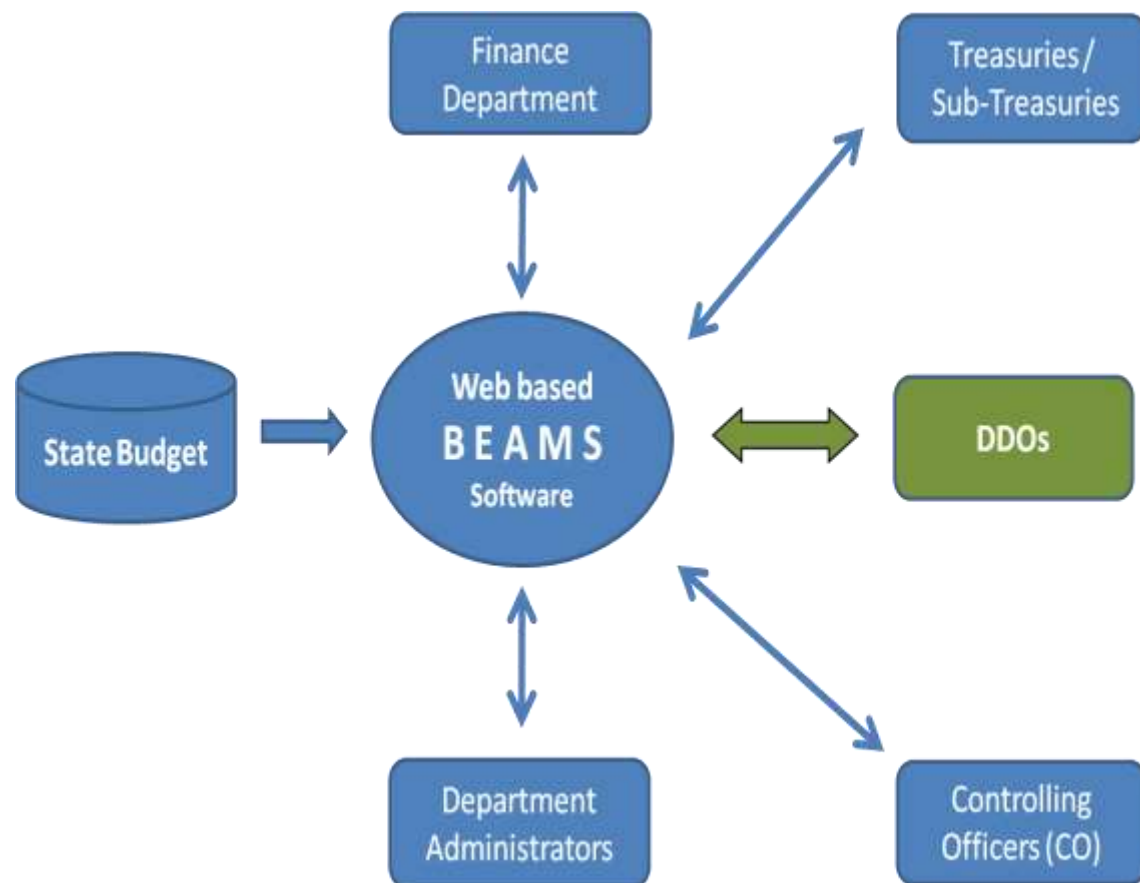

Benefits:

01

- Facilitate faster and efficient processing of bills, challans and accurate monthly Accounts compilation.
- Helps the Treasuries in achieving transparency in the processing of bills as well as tracking the records of payments and receipts.
- Integration of TreasuryNet Monthly compiled Accounts with Voucher level Compilation System (VLC) of Account General Office (AG), Manipur.

02

- The State Government have introduced electronic payment through e-Kuber of RBI
- Successfully implemented online payment for all payments from Treasuries directly to the beneficiary bank account through IFMS-eKuber seamless integration

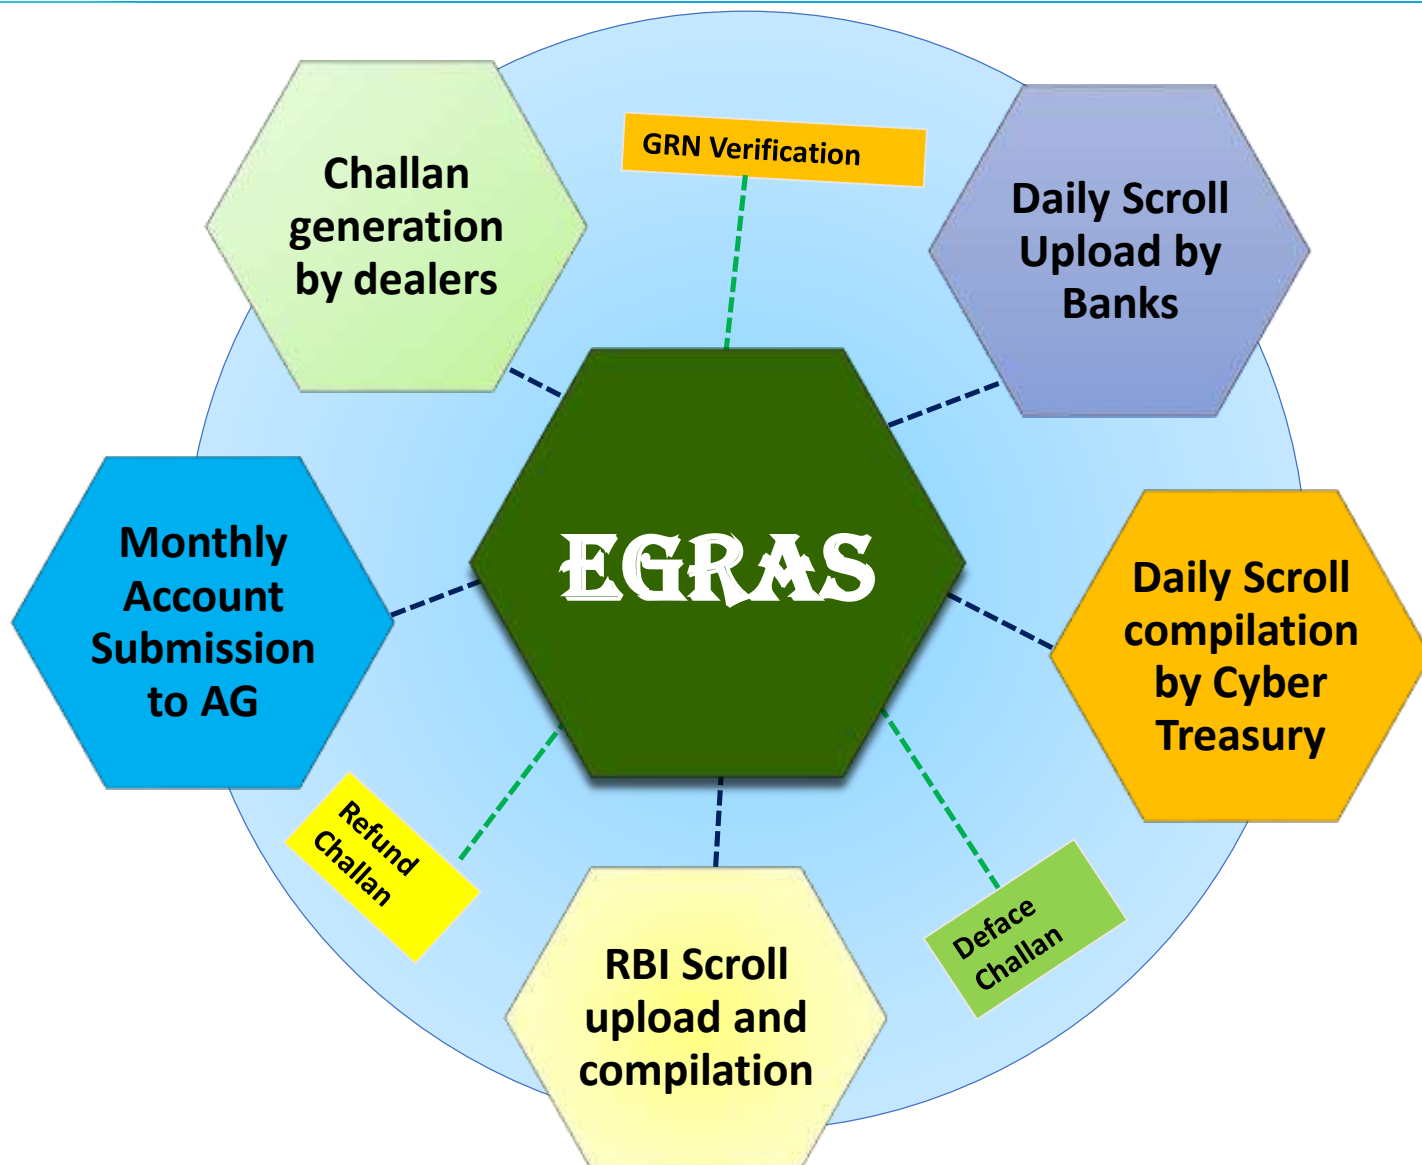

- Online system for distribution of budget and authorisation of expenditure electronically
- DDOs check availability of funds on BEAMS before the bills are submitted to Treasury
- Budget Authorization Slip generated from BEAMS for every bill
