

**Minutes of the Strategic Meeting held on Tuesday, 05<sup>th</sup> August 2025, at VIP Conference Hall  
of Hon'ble Civil Aviation Minister-cum-Chairman, Haryana Airports Development Corporation Limited,  
To comprehensively review the progress of ongoing development works at Maharaja Agrasen Hisar Airport**

---

A strategic meeting was convened on Tuesday, 05<sup>th</sup> August 2025, in the VIP Conference Hall of Hon'ble Civil Aviation Minister-cum-Chairman, Haryana Airports Development Corporation Limited, in the esteemed presence of following chairing authorities to comprehensively review the progress of ongoing development works at Maharaja Agrasen Hisar Airport.

**Ms. Amneet P. Kumar, IAS**

*Worthy Commissioner & Secretary, Civil Aviation Department, Govt. of Haryana  
(Joined Virtually)*

**Sh. Narhari Singh Banger, IAS**

*Worthy Adviser, Civil Aviation Department, Govt. of Haryana & Managing Director, Haryana Airports Development Corporation Ltd. (HADC) (Present In-person)*

The Officials of State & Central Government Departments were present in meeting. The attendance sheet of the attendees is attached herewith as **Annexure - I**.

At the outset of the meeting, the participating departments introduced themselves to the Chairing Authorities. A detailed discussion was then held on following Agenda Points with all concerned State and Central Government departments to review the ongoing development works at Hisar Airport.

The Airport Director, Airports Authority of India (AAI), presented an overview of the construction progress of the new integrated terminal building and other allied infrastructure at Hisar Airport in Haryana. Following this, the Chief Executive Officer (CEO) of Haryana Airports Development Corporation Limited (HADC) delivered a comprehensive presentation on the Five-Year Development Plan and the Vision Document 2025–2030 for Maharaja Agrasen Hisar Airport. The CEO highlighted the current status, financial sustainability strategies, and the strategic importance of the airport, which spans 7,200 acres and is positioned to become a key aviation and logistics hub in North India. The presentation also emphasized the airport's alignment with the Amritsar-Kolkata Industrial Corridor (AKIC) and its planned integration with the proposed Integrated Manufacturing Cluster (IMC), a flagship initiative of the State Government :-

To comprehensively review the progress of ongoing development works at Maharaja Agrasen Hisar Airport**

---

**The following additional points were discussed in detail during the meeting to ensure a comprehensive understanding and resolution of all relevant matters:-**

1. **Water Logging Issue in Operational Area** : The issue of water logging was identified as a significant operational hazard. The Superintending Engineer (PWD – Civil) informed that a katcha drain had been constructed earlier, which collapsed due to rainfall. A *pakka* drain is now proposed, to be constructed up to the boundary wall by the Public Health Engineering Department (PHED), and beyond that, by the Irrigation Department. The Adviser, CAD, highlighted that the involvement of multiple agencies is contributing to delays in addressing the issue.
2. **Fresh Water Supply** : The representative of PHED reported that the Airports Authority of India (AAI) is not permitting pipeline laying through the airside, which has led to the doubling of the pipeline length and related complications. The Chairperson directed AAI to allow pipeline installation through the airside to facilitate efficient water supply.
3. **Improper Handover by PWD** : The AAI representative raised concerns about the improper handover of operational areas and infrastructure by PWD. The Adviser, CAD, Government of Haryana, instructed PWD to complete the formal handover process without further delay.
4. **Segregation of Range Centre and HADC Office Building** : It was discussed that the Range Centre and the HADC Office Building need to be physically segregated from the airside for security and operational reasons. The CEO, HADC, informed that the matter has been submitted for Principal Approval from the competent authority of the Civil Aviation Department, Government of Haryana.
5. **Issue of Canteen Operations in SHA Area** : The AAI representative reported that the canteen currently operating in the SHA area is facing operational losses due to low sales and high rental charges, leading the vendor to consider vacating the premises. Acknowledging the issue, the Adviser directed the AAI representative to offer the vendor a revised rental of ₹3,000 per month to support the continuation of canteen services and ensure vendor viability.

---

**Conclusion**

The meeting concluded with strong reaffirmation by all departments to work collaboratively towards the time-bound development of Maharaja Agrasen Hisar Airport, aligning with Haryana's vision of making it a premier aviation and Logistics Hub in North India. The Chairing authorities thanked all attendees and reiterated the importance of inter-departmental coordination and expedited execution.
