Document Verification Process

After the PI Admin assigns candidates to a PI User, the PI User initiates the document verification process. The mode of verification is determined based on the candidate's willingness for upgradation:

a. Willingness: "Float – I want to participate in the next round of counselling"

The candidate's documents are verified through the Online Document Verification process.

b. Willingness: "Freeze – I do not want to participate in the next round of counselling"

The candidate is required to report to the allotted institute, and Document Verification is conducted physically at the institute.

WILLINGNESS for UPGRADATION = Float
 = Want to participate in next round

Online verification

- 
 Candidate uploads documents: PI User verifies them online on the counselling portal.
- 
 • If a discrepancy is identified in any candidate document, the PI User can raise a query against the relevant document.
- The query is displayed in the candidate portal, enabling the candidate to review and rectify the issue by re-uploading the required document.
- Once all documents are successfully verified, the system generates the Provisional Allotment Letter/Cancellation Letter.
- 
 No admission-fee details are captured in online verification.

WILLINGNESS for UPGRADATION = Freeze
 = Takes admission in allotted college

Physical verification

- 
 Candidate reports at the allotted institute - PI User verifies all details.
- 
 Admission-fee details ARE captured at this stage.
- 
 Candidate proceeds to provisional admission.

Note
 1. In case of discrepancy if the candidate fails to re-upload the documents, seat will be cancelled.
 2. Admission fee is captured only when willingness is Freeze (physical reporting).
