Message

I am happy to learn that the Department of Disaster Management has brought out a compendium of comprehensive check list on the line of Incident Response System Guidelines issued by National Disaster Management Authority, government of India to enable disaster response.

I am sure that the stakeholders earmarked as per Incident Response System in the state government, corporate, agencies of Central government existing in our State as well as NGOs will refer these check list during preparedness and response phase of disaster.

On this occasion, I wish my best wishes to the Department of Disaster Management Government of Uttarakhand.

Chairman, State Executive Committee

Preface

In any disaster response, the initial efforts would always be taken by the Sub-Division and District Administration. However, when Sub-Divisions and District are overwhelmed in any situation, the support necessarily has to come from the State and National level. While the IRS is mainly relevant at the basic functional level, it is absolutely necessary that the support functionaries from the State also conform to the principles of IRS in the emergency support duties. This will be greatly beneficial for the proper coordination of the various response efforts at the State level with that of the District.

The IRS envisages and lays down various tasks that may need to be performed and ensured by various members of activated Incident Response Teams at various levels of state administration. It also recommends prior identification of officers for the performance of different tasks and getting them trained in their respective roles, and provides a structure under which all the line departments will function in tandem with the Sub-division, District and State administration.

To attain efficiency in disaster response, the Check List has been prepared by the Department of Disaster Management, Government of Uttarakhand which will help various stakeholders (government and non-government) to "what to do and what not to do" during response phase of disaster.

I hope the effort put in place will strengthen the disaster response system in the state and district and will help to reduce human loss, gear up multi agency coordination and resource mobilisation as well their appropriate deployment within the golden hours of response.

Finally, I am pleased to place on record my deep appreciation for Shri Armit Singh Negi, IAS Secretary Disaster Management, GoU who has commendably steered the formulation of these check list.

(S. Ramaswamy)

The Staging Area (SA) is an area where resources are collected and kept ready for deployment for field operations. These may include things like food items, vehicles and other materials and equipment. The SA will be established at a suitable area near by the affected site for immediate, effective and quick deployment of resources.

More than one SA may be established if required. If resources are mobilised at other locations to be ultimately despatched to the affected areas, these locations are also known as SAs. The overall in-charge of the SA is known as Staging Area Manager (SAM) and he needs to work in close liaison with both the LS and PS through the OSC.

School and college playgrounds and stadia etc. may be used as SA.

For Air Operations, open space of Airport Authority of India (AAI) may be used for loading and unloading of relief materials. If area of AAI is not available, other suitable places near Helipads, Helibases etc. will have to be selected for such purpose.

For parking of vehicles, playgrounds of the schools or any large plain areas may be used and also called as SA. Such parking area will preferably have separate entry and exit points. The SAM will arrange for separate entry and exit points to avoid and reduce traffic jam in an emergency. The check list for SAM is as follows.

Selection of the RBD depends on the nature of operations required. Rescuing people and taking them to shelter in case of earthquake or floods can best be handled by the police/Armed Forces and thus in such cases it should ideally be headed by them. However in cases of such disaster like bird flu epidemic, the main requirement will be providing medical treatment to the victims, vaccinating and culling of birds. In such cases the RBD shall have to be headed by Medical Officer for treatment of victims and supported by Animal husbandry department and Municipal institutions for vaccinating and culling of birds.
