Clinical

The institution should have facility for diagnosis, management and rehabilitation of all types of speech, language, and swallowing disorders in clinical population across life span.

Size of clinical population: The participating institution must have a clinical load of a minimum of 1920 new and 3840 follow up therapy cases in the first and second semesters: in addition to this, 1920 new and 3840 follow up therapy cases in the third and the fourth semester: and, in addition to this, 1920 new and 3840 follow up therapy cases in the fifth and the sixth semester.

Library

Library should accommodate at least 30% of the staff and students of the institute at any given time. Library should have internet and photocopying facilities.

Books mentioned under 'Recommended reading' under each paper must be available. There shall be addition of a minimum of two books every year for each subject of study.

There should be at least 5 journals (2 each in Speech-language pathology and Audiology, and 1 general) for the B.ASLP program
