Mission

To ensure enhancement in the quality of existing and emerging human resource development programmes in disability rehabilitation and to address the life cycle needs of Persons with Disabilities (Divyangjan) across the country, including those from remote and under-served areas.

Monitoring of the Training Programme

Although the In-service Training Programme has been found very useful by a large number of participants, feedback is essential to take any corrective measure. As per the directions of FSA, monitoring of training programmes conducted under the above said Scheme had to be undertaken by the Council. The Council, therefore, deputed officers for carrying out the monitoring activity by making surprise visits to various implementing agencies conducting the In-service Training Programme. This was done to ensure the timely conduct of the training programme at their institute. The concerned officers were required to submit a detailed report on completion of the training programme. The Council deputed visiting experts to carry out surprise checks during the ongoing training programme. These surprise checks, without informing the implementing agencies, have facilitated the RCI to judge the efficacy of the programme.

Submission of Report

On completion of the training programme, implementing agencies prepare and submit the programme wise report along with group photographs of the participants, list of participants and their attendance sheet with signature (local and out station), list of resource persons and duly filled feedback form, to the RCI in the form of a soft copy, along with Utilization Certificate and income & expenditure statement, duly certified by Chartered Accountant or Govt. Auditors as the case may be, within a month of organizing the training programme.

Feedback

RCI has also developed a feedback form to be filled in by the participants after the completion of the training programme. Each In-service Training Programme that was conducted had to be evaluated by obtaining feedback from the participants. Feedback not only enabled RCI and DEPwD, Ministry of Social Justice & Empowerment to assess the effectiveness of the training conducted but it also made up some good suggestions that can be incorporated in the training programmes to be organized in future. The system of feedback was such that it had not inhibited the participants from speaking out what they honestly felt about the training programme. It was, therefore, left to the participants whether they would like to disclose their name on the feedback form or make their assessment anonymous.

Based on the reports along with the feedback form received from various implementing agencies, In-service Training and Sensitization Scheme had a powerful impact. The objective of the training programme was useful and the instructions were easily understandable. The learning materials as hand-outs provided to the participants were satisfactory that was unanimously supported by the participants. Majority of the participants informed that there should be wide publicity of the awareness about the schemes related with the disability in rural areas so that no child will be deprived of the rights and provisions. Also, important suggestions were made by the delegates based on the response of the participants. Some of the suggestions that were made are as under:

- ✓ Beneficiaries reported that the training programme is very useful and this type of training programme may be conduct on regular basis.
- ✓ Participants were found satisfied with reference to knowledge, content, presentation skills.
- ✓ Participants informed that the training programme has achieved its objective very well.

It is also proposed to impart training through Administrative Institutes of Central and State Govt./National Institutes of DEPwD/RCI approved training institutes/University Departments.
