We need to be proactive towards training institutes to build up the training programs in terms of quality and quantity. We should start Doctor degree in Audiology, Speech Language Pathology, Prosthetic and Orthotic Engineering, Rehabilitation Psychology, Rehabilitation Sciences, Rehabilitation Social work etc.
- (iii) UGC, NAAC, NIRF don't recognise rehabilitation sciences education at par with other established subject. Specific steps should be taken in this regard by involving the ministry of education.

Also, it was suggested by him to create Internship Opportunities in Disability Sector for Engineering and Management trainees for their respective training courses for an approximate period of 1-2 weeks of their entire coursework, as another initiative to promote inclusive society for PwDs.

The major highlights of Council's participation in Disability Welfare Committee are as follows:

The internship programme for engineering and management trainees included in the DWC report will create opportunities for all the engineering and management graduates to undergo the internship as a part of their respective training courses. It will be a flagship programme of the Council for which 40 hours of internship training module will be developed by the Council as a guideline and the same may be submitted to AIU to include it as a component of internship programme in their technical training institutions across the country for engineering and management trainees. It will lead to awareness generation amongst the masses and all

## CHAPTER – 2

### STANDARDISATION OF TRAINING PROGRAMMES AND EXPERT COMMITTEES

The Council develops and standardizes training programmes to meet the human resource requirement for various categories of Professionals/Personnel allocated to RCI. These programmes are reviewed, revised and updated from time to time. As per Chapter III Section 18 of the RCI Act, 1992, “The Council may prescribe minimum standards of education required for granting recognised rehabilitation qualification by Universities or institutions in India”. At present, 60 programmes are functional through regular mode in the area of disability rehabilitation and special education and the list of such programmes is given at **Annexure 2.1**.

#### Procedure for standardization of programmes in the field of Disability Rehabilitation and Special Education

#### EXPERT COMMITTEES

To carry out the purpose of the Rehabilitation Council of India Act, 1992 (as amended in 2000), the Council has constituted various Expert Committees under Sub-Section (1) of Section 7 of the RCI Act. The list of the Expert Committees is placed at **Annexure 2.2. to 2.13**. Functions of the Expert Committees are as given below:

- (i) To recommend the courses, its duration, subject for examinations and standards of the proficiency to be obtained in any University or Institution for grant of recognized rehabilitation qualifications.

- (ii) To recommend the minimum standards of the staff, equipment, accommodation, library and other infrastructural facilities for institution and training of the rehabilitation professionals.
- (iii) Any other related matter.

The meetings of the Expert Committees organized during the period and gist of the discussions taken are as under:

## MEETING OF EXPERT COMMITTEES

**I. The meeting of senior Rehabilitation Experts from different parts of the country was convened on May 20, 2021 through Video Conferencing Mode at RCI to deliberate and recommend on the following agenda points.**

- I - Petition filed by Dr. Angela Ann Joseph to consider her Ph.D. in Clinical Psychology from AIIMS for registration as Clinical Psychologist in CRR of RCI
- II - Ph.D. degree in Clinical Psychology conferred at AIIMS, New Delhi to be included in Schedule of RCI
- III - Approval for starting the Post Master Diploma in Learning Disability (PMDLD)

Accordingly, the members discussed the agenda point at length and made the following observations with regard to each.

**Agenda-I: Petition filed by Dr. Angela Ann Joseph to consider her Ph.D. in Clinical Psychology from AIIMS for registration as Clinical Psychologist in CRR of RCI**

- 1) Dr. Angela Joseph has claimed in her petition at the Hon. High Court, Delhi that she has received requisite education and training in clinical psychology during her Ph.D. studies and qualified to practice the profession of clinical psychology as an expert. In favour of her claim she has submitted: a) Copy of Bachelor's degree certificate from University of Windsor, Ontario, Canada, b) Copy of Post-graduate degree certificate from Christ University, Bangalore, and c) Copy Ph.D. in Clinical Psychology from AIIMS, New Delhi, vide Para – 2 of the WPC.

The committee after scrutinizing these documents carefully concluded the petitioner's claim on education and training in clinical psychology is unfounded for the following reasons:

- a) The Post-graduate degree she has obtained from Christ University is in Psychology and not in the branch of Clinical Psychology, as claimed by the petitioner
  - b) The Ph.D. certificate doesn't specify her degree is in the discipline of Clinical Psychology
  - c) The lack of accreditation certificate with regard to her Bachelor's degree qualification by the Association of Indian Universities (AIU) – an Apex body that evaluates the courses, syllabi, standards, and credits of foreign Universities pursued abroad and equates them in relation to various courses offered by Indian Universities. The absence of equivalence certificate (by AIU) of Bachelor's qualification obtained from Canada renders her post-graduate degree itself as invalid.
- 2) Dr. Angela Joseph submitted a list of conferences attended and research papers published in support of her training in clinical psychology, vide Para – 3 of the WPC.
- The committee deliberated and concluded that attending and presenting research papers at National/International Conferences or conducting a workshop or delivering lectures are no prima

foci evidence of the generic professional training to render clinical & rehabilitation services for Persons with Disability in real life situation.

- 3) Dr. Angela Joseph states she is “Clinical Psychologist” under section 2 (1) (g) of Mental Health Care Act of 2017, vide Para – 4 of the WPC

The experts observed that the Mental Health Care Act of 2017 is unequivocal in its definition of Clinical Psychologist. As per the Act, the Petitioner doesn’t have the defined qualification i.e. 2- yr. duration Master of Philosophy in Clinical Psychology involving supervised clinical training for the entire duration following a postgraduate qualification in Psychology (per Mental Health Care Act, 2017 u/s 2 (1) (g) (ii)). Thus her claim for registration under CRR of RCI in category “Clinical Psychologist” is baseless.

- 4) Further it has been stated, vide Para – 9 and 10, that AIIMS started Ph.D. in Clinical Psychology from the academic year 2001 and the students undergo extensive training in the department of psychiatry, involving in clinical assessment of patients and attending the academic programs.

The expert’s committee found no evidence in support of the above and in support of the following which are core aspects of clinical psychology training:

- Official proceedings for starting Ph.D. in clinical psychology at AIIMS from the academic year 2001
- Copy of the approved and implemented program structure and syllabi in each of the theory and practical subjects of clinical psychology required for the training
- Clinical roster for supervised clinical training by the trained and registered supervisor, and the duration of supervision and clinical specialities
- The internal and external examination schedule conducted to validate the Students’ learning of professional praxis
- Copies of year wise academic schedule indicating Classes, Guest lectures, Seminars, Case conferences, Journal reviews, Book reviews, Film reviews, Psychotherapy meeting, Topic discussion etc. for clinical psychology trainees
- Pass-out exam held to certify students’ expertise in administering, scoring and interpreting core psychological tests, inventories and scales, and for assessing, conducting and recording each form of therapies in children/adolescents and adults
- Student’s logbook to ascertain the minimum clinical work carried out
- Guidelines for ethical practice during clinical training
- List of qualified and registered clinical psychology faculty members for offering supervised training

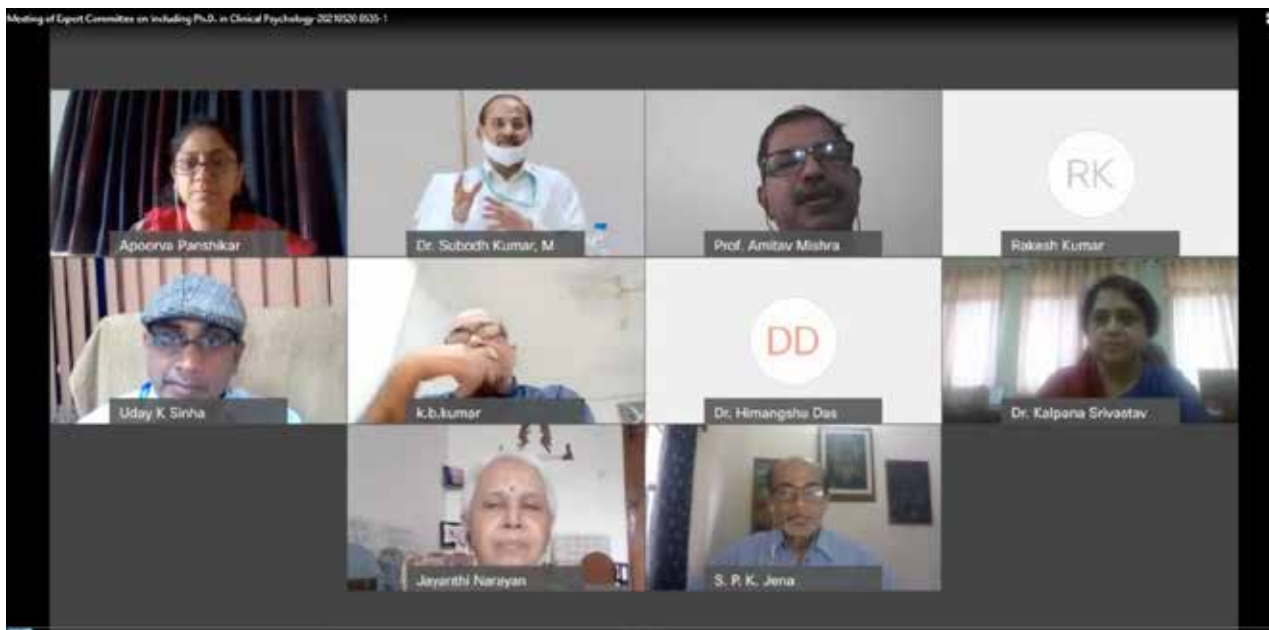

Since there is no supporting evidence in favour of these, the Committee unanimously dismissed the claim about the extensive training has been imparted during petitioner’s Ph.D. period

- 5) Further it has been stated, vide Para – 13 (A), the Petitioner’s rights to carry on her profession as per Article 14 & 16 of Constitution of India is violated.

The Committee is of the belief that the Petitioner hasn’t acquired legally defined qualification (per RCI Act 1992, MHC Act 2017) to practice the profession of clinical psychology. Hence the question of depriving her constitutional rights doesn’t arise at all. On the other hand, allowing her to practice without requisite education, training in set of skills and clinical experience under supervision would be serious violation of core principles for empowerment of persons with disabilities (RCI Act 1992 & RPWD Act 2016).

The Expert’s Committee suggested the Council to submit the facts in detail to the Judiciary and state unequivocally the plea by Dr. Angela Joseph to register under CRR cannot be considered as her claims regarding possession of professional qualification, and education and training in Clinical Psychology to render mental health services as specialist is found baseless and misleading. The petitioner may be

advised to acquire an approved qualification in clinical psychology from any Council recognized centre and then apply for registration to practice legally and ethically.

II - Ph.D. degree in Clinical Psychology conferred at AIIMS, New Delhi to be included in the Schedule of RCI

Experts submitted following views on Ph.D. after deliberation:

- 1) Ph.D. is a research degree earned after a period of four or five years of graduate-level study, involving a Hypothesis testing mostly through empirical data collection, analysis and interpretation culminating in the creation, submission, presentation and defense of a research dissertation, under the guidance of an academican or researcher
- 2) Ph.D. degree is a vertical academic program and doesn't prepare the research scholars for practice of a profession
- 3) Ph.D. program doesn't provide generic skill training required to render a variety of services in real-life situation
- 4) Ph.D. degree doesn't involve one-on-one supervised training by a team of mentors/ experts specialized in different domain of services, so that candidates can become competent to render services in real-life situations
- 5) Ph.D. program doesn't provide opportunities for experiential learning (clinical internship with scope to learn from own decisions and judgments)
- 6) Ph.D. degree doesn't provide hands-on training/instruction to acquire various professional praxes
- 7) Ph.D. degree doesn't involve periodic competency-based evaluation in theory and practice in various domains
- 8) Ph.D. degree in clinical discipline focuses on one specific aspect of disease/ailments and goes deeper to understand some facets of a condition.
- 9) Ph.D. degree doesn't provide a wide exposure, in every aspects of each of the common clinical conditions under a team of qualified professional supervisors
- 10) Ph.D. is a vertical study/education/knowledge/research in one or more than one aspect/s of a disease/disorder/ailment and doesn't make a research scholar competent to practice a profession by render services and be accountable for what they deliver.

The experts were of the opinion owing to these technical/professional reasons, Ph.D. degree given under the title such as 'Psychology', 'Clinical Psychology', 'Psychiatry' Behavioral Science' 'Social Science'

etc., shall not be considered as professional qualification, sufficient for rendering generic clinical services in Mental Health field and not to include under the Schedule of the RCI Act. In consistent with these principles, Experts unanimously agreed, that the Ph.D. degree in clinical psychology from AIIMS also **cannot** be included under the Schedule of RCI Act.

Members also recalled that this issue has been discussed at length in the past in the Expert Committee and has been unanimously resolved to keep 2-yr. M.Phil Clinical Psychology as the minimum Professional Qualification to register as “Clinical Psychologist”. Following its notification the Centers offering Ph.D. in Clinical Psychology in the country are admitting only the candidates with RCI recognized M.Phil degrees for Ph.D. program.

Further, the Committee believed that professional degrees in clinical psychology must adhere to certain Norms specified and followed globally for competency training. The training modules developed by the RCI for various level of professional training in clinical psychology adhere to these criteria and meet the stipulated Norms.

The stipulated RCI Norms for imparting professional training in clinical psychology include:

- 1) There must an independent Department of Clinical Psychology rendering Psychological services (aside from Medical services by Psychiatry & Pediatric Departments) such as Family therapy, Marital therapy, Group therapy, De-addiction, Therapy for Child and Adolescents, Psychosocial interventions for Geriatric population, Therapy for Psychosocial dimensions/sequel of chronic medical conditions such as Heart Diseases, Chronic Kidney Diseases, Chronic Obstructive Pulmonary Diseases, Dermatological Disorders, Cancer, GI Disorders, Terminally ill, Neurodevelopmental disorders like Autism, Intellectual disability, Learning disorders, ADHD etc. in addition to common mental disorders in adults and children occurring due to mundane stress and strain, and severe mental disorders.
- 2) There must be at least 2 registered fulltime regular faculty members, of the two one must be at Professor or Associate Professor level.
- 3) The ratio of patients and trainees admitted for clinical training shall be 1 : 50 (student: patient ratio) per month, and 75% of these cases must be receiving various forms of Psychological therapies.
- 4) Trainees shall carry out minimum prescribed clinical work specified for each level of training. For M.Phil level training the prescribed clinical exposure would be 4600 hr. over 2-year period. Of this, 3600 hr. shall be direct contact with the Patients under the supervision by a team of registered clinical faculty members.
- 5) Apart from daily monitoring, tutoring, mentoring and clinical training, there shall be a formal assessment of the trainees, twice or thrice a year, in the form of theory and clinical examination to evaluate the clinical competence (defined as the possession of required clinical skill, knowledge, attitude and practice (SKAP)) in each kind of therapy and assessment tool.

Since Ph.D. degree of AIIMS doesn't characterize any of these professional norms, the degree cannot be considered as professional qualification in clinical Psychology and shall not be included under the Schedule of RCI Act.

The members deliberated further and highlighted the following points;

- 1) There is no separate department of Clinical Psychology at AIIMS for specialized training, education and facilitating a professional career in clinical discipline for young aspirants
- 2) There is no specified number of RCI registered faculty members in Clinical Psychology for mentoring, though there are a few registered professionals from Rehabilitation Psychology and Special Education stream.
- 3) Albeit it is stated the AIIMS started Ph.D. in Clinical Psychology from 2001 academic year, there is no separate stream offering Ph.D. degree in Clinical Psychology. There are 27 medical/clinical streams for candidates with medical qualification such as MD/MS/M.Ch. and 4 specializations (Anatomy, Biochemistry, Biophysics and Biotechnology) with non-medical entry qualification, but no evidence of Clinical Psychology stream.
- 4) The degree awarded to the petitioner is 'Ph.D.', and not "Ph.D. in Clinical Psychology" as claimed.
- 5) The Masters Degree obtained by the petitioner is not in Clinical Psychology as claimed but in Psychology with a few special papers related to clinical field.
- 6) Since the petitioner doesn't have the stipulated professional qualification in Clinical Psychology as per RCI Act of 1992 and Mental Health Care Act of 2017, the alleged violation of her fundamental rights to "practice the profession" is baseless. On the contrary, if petitioner is allowed to practice as Clinical Psychologist with present qualification, it would be violation of the rights of PwD to be served only by qualified and registered personnel and liable for imprisonment as per RCI Act 1992, section 13 (3).

- 7) The Section 23 of AIIMS Act 1956 is related to the recognition of medical qualification granted by the institute, and Section 24 is related to grant of medical degrees/diplomas. Clinical Psychology is one of the Rehabilitation Sciences and is regulated by an independent statutory body under the MSJ&W. Developing, approving and prescribing professional qualification/s for a successful rehabilitation of PwDs and mitigating the disability and enhancing community integration come under the ambit of RCI Act and in no way prejudiced by the AIIMS Act of 1956. Thus, any educational training in the fields of Disability and Rehabilitation for categories of PwDs including Mental Disability, as outlined under RPWD Act 2016 requires prior approval and recognition of RCI.

The fact that AIIMS discontinued in 2005 the B.Sc. (Hon) Speech and Hearing Course which was started without the approval of RCI endorse this point. Also, the fact that AIIMS doesn't offer B.Pharm degree that comes under AICTE's ambit, but offer M.Sc. Pharmacology that comes under Medical stream suggest a clear distinction made between medical and other courses.

- 8) Though AIIMS is exempted from inspection/approval processes for medical degrees, the institute strictly follows, for sake of uniformity, the identical nomenclature for Medical UG/PG degrees, duration of the course, syllabus, curriculum transaction, exam pattern, frequency of exam, minimum criteria for pass in theory and practical exam, admission criteria etc. as specified by the respective Medical regulatory bodies and followed country wide.

However, in present case, AIIMS offering degree in Clinical Psychology that is not present in the lexicon of RCI. The Doctoral program in Clinical Psychology approved by the RCI is a Clinical Doctoral program (not a research Doctorate) called Psy.D., with an entirely different educational experience and competency for rendering evidence-based clinical & rehabilitation services.

Perhaps AIIMS would like to consider starting RCI-approved 4-yr Psy.D. a professional /clinical degree in Clinical Psychology in place of Ph.D. an academic degree. In such an eventuality, the Council is committed to render all support to start and stabilize the Clinical Doctoral training in Clinical Psychology at the Country's premier institute.

#### Agenda III - Approval for starting the Post Master Diploma in Learning Disability (PMDLD)

The proposed course 'PG Diploma in Specific Learning Disability' developed by Department of Psychology of Kerala University was placed before the committee for consideration. The Experts deliberated at length on the above agenda point and highlighted the following points:

- 1) As per the latest guidelines of Government of India, the field of Academic Learning Disorder (LD) is well covered by the inputs from different professionals, viz.
  - A) Pediatricians and Psychiatrists for evaluating Children with LD from the medical and developmental perspective and intervening as indicated.
  - B) Clinical and/or Rehabilitation Psychologists for evaluating the nature/type/severity of LD, Cognitive impairment/deficits contributing to the disability, and attention, emotional and behavioral symptoms occurring as co-morbidities and initiating appropriate interventions at the individual, family and school level.
  - C) Special Educators and Occupational Therapists focusing on remedial training and integrating in normal school environment
- 2) These responsibilities by different professionals have been well delineated within the interdisciplinary model of management, also Gazette notified and being followed systematically.
- 3) In view of the above, there is no need for the Council to create another level or category of experts who appears to be only duplicating the input by others.
- 4) Moreover, the university department of Psychology is largely managed by academician with very few clinician or rehabilitation professionals, if at all. The training program of the proposed nature mandates

appointment of RCI qualified, registered and experienced professionals to head and coordinates the training, and the opening of special schools to feed the trainees enrolled under the program for providing hands-on professional experience in clinical assessment, formal evaluation, formulation and initiating interventions.

- 5) Though these infrastructures are achievable in some departments of psychology, the outcome of these efforts may not be cost-effective. On the contrary, advising those interested to work with LD to complete an already recognized training program depending on one's own interest would be ideal in the current scenario.
- 6) It was not clear whether the course is going to produce a cadre of professional who can do assessment of specific learning disability. As per the objective and content of proposed course none of the above cadre of professionals are going to be prepared; b. The proposed course is not fulfilling the preparation of any such professional listed under RCI act.
- 7) As a feedback, the syllabus enclosed needs an extensive modification, if at all it is going to be adapted for the training. This issue is not relevant at this point of time.
- 8) The Committee appreciates the efforts made by the Department for developing a course structure.

Considering above shortcomings, the proposal of PG Diploma in Specific Learning Disability submitted by Kerala University was not considered.

**VI. The Meeting of the Expert Committee regarding revision of minutes of meeting held on 8th September, 2020 on inclusion of A & B Level contents of Indian Sign Language in D.Ed. (HI), B.Ed. (HI) & M.Ed. (HI) Syllabus of RCI held on 20 July, 2021 through Video Conferencing in presence of Dr. Subodh Kumar, Member Secretary, RCI.**

At the outset, the Member Secretary, RCI Dr. Subodh Kumar welcomed the members and briefed about the agenda. He highlighted the role of RCI and also mentioned about the mandate that RCI has for providing skill based training to professionals including the Special Educators for quality education to children with various disabilities in general and children with hearing impairment in particular. He assured that the Council is committed to support and ensure quality education to the professionals and children with various disabilities.

Sh. A.S.Narayanan expressed his concern with regard to nomenclature of the newly developed D.Ed.Spl.Ed.(HI) syllabus and appointment of instructor mentioned. He also mentioned about the education of children with hearing impairment and the need of sign language training to special educators.

Dr. Surinder Randhawa showed her concern for the revised minutes with the suggestions from the experts and mentioned about the minutes of 2016. She also stressed on the inclusion of 300 hours in the syllabus for ISL skills, Bilingualism and appointment of deaf teachers.

Ms. Atiya Hajee mentioned about the suggestions by the committee regarding inclusion of experts in development of syllabus and lack of information to the committee.

Dr. Varsha Gathoo, being unwell, partially attended the meeting and clarified on the concerns raised by the members. She elaborated that the Diploma Spl Edu (HI) and the A,B,C, level courses are two separate programs. For Diploma Spl Edu (HI) she mentioned that there are 12 courses (papers), out of which 5 are core i.e. common courses for all Diploma Spl Edu i.e. VI and IDD. There are 2 pedagogy papers of teaching school subjects and remaining 5 are specialisation papers which were directed by the Council to have components of both Hearing impairment and Speech Disability. This was in view with the directives given by RCI to converge the two disabilities as mentioned in RPWD Act 2016. While informing about the members of the sub-committee, for each of the 5 specialisation papers of HI, Dr Gathoo mentioned that Ms. Monica Punjabi, Mr. Sunil Sahasrabudhe and Mr. Harish Soni from ISLRTC were members along with others. A total of 12 committee members were included by RCI as a team which had

to undertake convergence of disabilities at the Diploma, B.Ed and M.Ed Spl Education (HI) programs. Dr Varsha Gathoo further mentioned that some training centres had reported that deaf individuals who enrolled in Diploma Spl Edu (HI) find Audiology and Speech courses difficult. So she suggested that two alternate courses to be developed for students with hearing impairment who find difficulty in Audiology and Speech courses. The responsibility of the same was assigned to Ms. Monica Punjabi, Mr. Sunil Saharabudhe, Mr. Harish Soni, Mr Suman Kumar and Prof Goswami and was edited by Dr Gathoo and shared with all members. On getting approval from all, these two courses were also re-titled as Fundamentals of Hearing, Deafness and Management through Sign Language and Receptive and Expressive Language. Dr Gathoo informed that all the members including Ms Monica, Mr Sunil and Mr Harish were extremely happy about the content of these two courses as expressed in their messages and chats.

On the above details given by Dr Gathoo, Ms Monica Punjabi did endorse it and agreed that they have liked and approved these courses. She was however of the opinion that these two courses may be offered to all trainees irrespective of being deaf or hearing individuals. On this Dr Varsha Gathoo informed that alternate courses and adaptations are need based, and so if a hearing person is enrolling for Diploma Spl Edu (HI), he/she will have to undergo the mandatory courses in Audiology and Speech for keeping parity of the courses.

Further Dr Gathoo also informed that keeping in view the need of more skill training in Sign Language the practical hours of practicing sign language has been increased along with other skill based hours of Finger spelling etc. She further informed that besides these the trainees also have to learn about classroom transactional practices, developing teaching learning material, and many other aspects of classroom subject teaching. The components of modes and methods of communication had also been well covered in the syllabus of Diploma. Besides this she informed that an exclusive 6 months Top up course is being designed for teachers to acquire greater competencies in Sign Language keeping in view NEP 2020.

After detailed deliberations, the following decisions were taken:-

1. The suggestions given by the members as mentioned in the revised minutes were accepted that were under the purview of the Council
2. The numbers of hours as requested for ISL have already been included in the D.Ed. syllabus however, Ms.Monica and Sh. Sunil will look into the content for any change if required without changing the number of hours and credits and submit the same to the Chairperson of the committee. Same will be carried in the B.Ed. & M.Ed. Syllabus.
3. Appointment of deaf instructor / teacher mentioned as preferably will be changed.
4. Nomenclature will remain as D.Ed.Spl.Ed.(HI)
5. Intake will be 35 per batch.
6. A sub-committee to be formed for preparation of pre-test, post-test competency based programme in ISL for registration.

**VII. A meeting for finalisation of D.Ed. Special Education (MD) courses in various disability specializations after convergence held on 6<sup>th</sup> August, 2021 through video conferencing.** After deliberations on all the listed agenda items, following were the outcomes and action plan:

**IX. The Core Committee meeting on programs in Audiology and Speech-language Pathology was held on September 03, 2021 in virtual mode: Convened from RCI Office, New Delhi**

The Core Committee met on September 03, 2021 at 2:30 pm in videoconferencing mode at RCI to deliberate and recommend on the following issues:

- I Institution of Masters program in 'Deglutology and Swallowing Disorders'
- II Issue relating to implementation of NEP at Bangalore University
- III Implementation of New Education Policy 2020 in the field of speech and hearing
- IV Other issues relevant to the field of Audiology and Speech-language Pathology

#### **Agenda I: Development of Master degree program in Deglutology & Swallowing Disorders**

Dr. M Jayaram requested Dr. Shankar Mahadevan to present details of his proposal on a master's level program in Deglutology and Swallowing Disorders. Dr. Shankar Mahadevan appraised the members about his proposal stating that the program is conducted only at the Amrita Institute of Medical Sciences in India. Swallowing problem is more seen in geriatric population and in persons who suffer from dementia. With lack of programmes in this area and scarcity of professionals, it has become very difficult to provide needed clinical services to this affected population and thus there is a need for the course. After detailed discussions, the members recommended the following:

- a) The UG and PG programs in Audiology and Speech-language Pathology already have many units and sub-sections on swallowing related issues in their curriculum apart from the clinical work. The qualified graduates can very well specialize on swallowing disorders depending on the set up in which they are working. Therefore, the need for a separate Master's level program needs to be debated and discussed.
- b) Dr Prakash mentioned that the proposal, if accepted, leads to some sort of a super specialization and thus we need to get views of a larger section of speech and hearing professionals on the issue.
- c) The participating institution has to submit a proposal to the RCI for institution of the course whereafter the expert committee of RCI will examine the issue and make its recommendation after considering factors like the depth of the proposed course, job potential for future graduates and infrastructure at the proposer institution.

#### **Agenda II: Issue relating to implementation of NEP at Bangalore University**

The Chairman requested Dr Rashmi Bhat to elaborate on the issues arising out of the Government of Karnataka order on implementation of NEP in Karnataka.

Dr Rashmi briefed about the directives of the Bangalore North University (as per the directions of Higher Education Ministry of Karnataka) for implementing NEP from the current academic year itself. Government of Karnataka has issued an order implementing NEP 2020 in Karnataka. She informed the members that, with the existing scheme and time constraints, it would be difficult to accommodate additional courses as required under NEP. At the end of the deliberations, it was recommended as follows:

- a) The Council has to write to Government of Karnataka and other state governments that implementation of NEP 2020 for professional programs in Audiology and Speech Language Pathology, Clinical Psychology, Rehabilitation Psychology, and Prosthetics and Orthotics, coming under the ambit of the Rehabilitation Council of India, has to await examination and decision at the Council. Till such time, implementation of provisions of NEP 2020 has to be kept on hold.

#### **Agenda III: Implementation of NEP2020 in the field of speech and hearing**

There was in depth discussion on the applicability and implementation of NEP 2020 in professional programs in the field of disability rehabilitation. Though the members generally welcomed NEP 2020 and appreciated its positive features, they were apprehensive about its

applicability to professional fields like ours. After detailed deliberations, the following recommendations were made:

- a) There has to be national consensus on the relevance of NEP2020 for professional courses like speech and hearing and other disability-related specializations. The best course to follow would be to keep disability-related specializations outside the purview of NEP2020 like it has been done with respect to medical and legal education.
- b) Considering that programs like B.ASLP and M.Sc (Audiology) & M.Sc (Speech-language Pathology) are professional courses, multiple entry and exit points cannot be given. A given student will become a full professional only after completing the entire program, and therefore, exit points (with a diploma or a degree) cannot be given in between.
- c) Issues of NEP2020 as they relate to disability studies need to be identified for the Council to define its policy on NEP. The Chairman offered to prepare a discussion paper for deliberations by the members of the larger expert committee in speech and hearing.

#### **Agenda IV: Other relevant issues in the field of Audiology and Speech-language Pathology**

- a) On the issue of continuation of 2-year M.ASLP raised by Dr SP Goswami, Dr Subodh Kumar, Member Secretary clarified that the M.ASLP program has been discontinued from 2020-21. Universities and institutions can offer only M.Sc (SLP) & M.Sc (Aud) hereafter.
- b) Dr Suman Kumar raised the issue of some speech and hearing professionals using the title 'Dr' in front of their name. It was informed that such a process has no sanction of law, unethical, and most importantly conveys wrong information to the general public. The Chairman informed the members that we, speech and hearing professionals, are not medical professionals and hence the title 'Dr' should not be used. He informed that notice has already been issued by the Indian Speech and Hearing Association to the practitioners of such a dubious practice and will be followed up by more stringent action against them if the suggestion is not heeded.

The members requested the RCI that it should send out a notice to all the members to desist from such a practice failing which disciplinary action will be initiated by the Council. The issue may be discussed at the EC / GC of the Council, if required.

- c) Dr Suman Kumar raised the issue of high variability in the nomenclature of the teaching and clinical posts in our field as well as issues like recruitment rules and career advancement options. Following discussion, the members requested the RCI to make issues like model recruitment rules, career advancement requirements, salary, and nomenclature of different positions a part of the 'Rules and regulations' of all the programs.

**X. The Meeting of Expert Committee for finalisation of D.Ed. Special Education (MD) course in various disability specializations after convergence** was held on 8 september, 2021 and 9 september, 2021 through Video Conferencing. Prof. S.R. Mittal, Chairperson of the Core- requested Smt.L.V.Jayashree to present the 07 specialization courses prepared by the Sub-Committee of MD. The members of the core-committee made valid observations in terms of the Curriculum content. The suggestions were specifically done in order to maintain the parity among the various D.Ed. Special Education Programs. After extensive deliberation on course and its units the following recommendations were made unanimously:

1. All the suggestions submitted by the committee in the specialization courses will appropriately be incorporated by Smt. L.V.Jayashree in due consultation with the sub-committee members of MD. The revised curriculum will be reviewed once more by the core committee before the final submission.
2. The reviewed and approved Final curriculum will be submitted by Smt. L.V.Jayashree to Prof. S.R. Mittal latest by 13<sup>th</sup> September, 2021
3. Prof. S.R.Mittal, Chairperson of the Committee will submit the final syllabus to RCI by 15<sup>th</sup> September.

**XI. A Meeting of Expert to discuss various aspects of implementation of provisions of NEP, 2020** in general was held on 23 September, 2021 through Video Conferencing.

Dr. Subodh Kumar, Member Secretary, RCI briefed the experts about the meeting held with NCTE in March, 2021 and the request received from the NCTE earlier this month to hold a meeting to discuss various issues relating to the appointment of teachers in schools by 2030 and also the issues of including content relating to the education of children with disabilities as per the provision of RPW Act 2016 in different teacher-education programmes.

1. Development of curriculum on special education for inclusion in general teacher education courses as per NEP, 2020.
2. Steps to be taken for ensuring meaningful inclusion of children with disabilities in mainstream education so that the goal of Inclusive Education mentioned in NEP 2020 could be realised.
3. To discuss Initiatives, (if any), taken by NCTE for clearly demarking the role of RCI in the preparation of four-year Integrated B.A.B.Ed Programme.
4. As per NEP, 2020 there would be three types of courses i.e. two year B.Ed., One year B.Ed and 4 year Integrated B.Ed. which will be the minimum qualifications by 2030. The initiative taken in this regard for inclusive education and special education.
5. Points of discussion which need to be included in the MoU before its execution to work together to resolve the issues if any, related to Special Education and Inclusive Education

After detailed deliberation on all above points, the following decisions were taken:

1. Committee consisting of Prof Amitav Mishra and Dr. Varsha Gathoo to prepare a position paper and the Council will send the same to NCTE. The paper may include all points discussed in the Meeting and also included in NEP, 2020 and RPWD Act, 2016 with regard to the education of children with disabilities at all levels.
2. Role of NCTE and RCI in preparing curriculum at all levels from ECCE, inclusive education, vocational, technology etc. to be mentioned in the paper
3. In the meantime date of meeting with NCTE to be fixed by RCI
4. All the experts to participate in the meeting with NCTE.

**XII. The Meeting on alignment of special education curriculum as per NEP 2020 and modalities for MoU between RCI and NCTE** held under the joint Chairpersonship of Member Secretary, RCI and Member Secretary, NCTE on 21 October, 2021 at RCI.

At the outset, Dr. Subodh Kumar, Member Secretary, RCI welcomed the Member Secretary and other officers of NCTE followed by introduction of members.

The Member Secretary RCI, briefed the members about the mandate, objectives and functions of the RCI. He also highlighted about the various training programmes, category of professionals and grant of approval to conduct the RCI approved training programmes. He further apprised about the MoUs signed between RCI & NCTE in 2005 and 2015 for equivalency of special education programmes with general education programmes and about the discussions during the meeting held in February 2020 with Smt. Satbir Bedi, IAS the then Chairperson, NCTE. He mentioned in his remarks about the various initiatives taken by the RCI including national seminars and series of meetings in the light of RPwD Act, 2016 & NEP 2020. He also apprised about the convergence of various disability training programmes in the field of special education at diploma level with the objective to prepare special educators with competency in

more than one disability. An overview of the in-service teacher training programmes prepared in inclusive education of five and fifteen days was also provided by MS RCI.

The Member Secretary, NCTE, expressed her gratitude for arranging the meeting by RCI at such a short notice. She briefed about the development of general teacher education curricula in light of the NEP 2020. She especially mentioned about the framework of the curriculum which was aligned with the aim and objectives of the NEP 2020. The MS, NCTE expressed that NCTE was very keen to have interaction with RCI as the development of special education curricula is similar to general education system. This is essential for the equivalency of the curriculum of general and special. The MS, NCTE elaborated about the multiple entry and exit systems proposed in NEP2020 resulting in the 4years, 2 years and 1 year B.Ed., Diploma and integrated programmes. She elaborated the norms for entry, educational level, so also the flexibility in CBCS / CBSB that has been taken into consideration. She informed that in the new curriculum of 4 years duration one course on Inclusive education with 50 marks / 2 credits has been developed by NCTE.

Dr. Varsha Gathoo presented the highlights of the position paper on accomplishing the provisions of NEP 2020. The position paper was also tabled for the members present in the meeting (annexed). While highlighting the critical observations and suggestions of NEP 2020, Dr Varsha Gathoo especially elaborated on how the greater synergy between the course curriculum of NCTE and RCI could be brought in as mentioned in the NEP 2020. For each of the sections of Foundational literacy and Numeracy, Curtailing school drop outs, curricular transactions, skills of 21<sup>st</sup> century to teachers' recruitment, service conditions and capacity building of teachers and faculty at all levels, Dr Varsha presented the Role of RCI.

The following draft agenda by NCTE was discussed:

1. As per NEP 2020 only three programs in the field of Teacher Education i.e. Four years integrated B.Ed. Programme, Two years B.Ed. programme and One year B.Ed. programme are to be offered. So the programs currently offered by RCI need to be aligned with the provisions of NEP 2020 as has been developed by NCTE. This was taking into consideration as gradually all teacher education programs have to be converted by 2030.
2. As per NEP 2020 standardization and institutional reforms have to be undertaken. NCTE wanted to discuss as to how these have been undertaken or proposed to be undertaken in respect of Special Education programs.
3. The content of the courses of general education and special education be shared for the benefit of the students.
4. The entry qualifications, minimum standards for special teacher educators be prepared by the RCI in consultation with NCTE with 20-30% flexibility as per the requirement of RCI. The amendments to B.Ed. & D.Ed. (Special Education) have already been made by NCTE and are prescribed as minimum qualifications for the appointment of the school teachers.
5. Research study undertaken by RCI in terms of the requirement /demand & supply of Special Educators state or disability wise.

Prof. S.R. Mittal, elaborated on the work undertaken with regards to convergence of the D.Ed. Special Education programs. He mentioned that the purpose of convergence is to equip special

educators to handle the learning needs of children having different disabilities such as blindness & low vision / intellectual and developmental disabilities / hearing & speech impairment / multiple disabilities. He further suggested that a Major course in Education of children with disabilities be introduced in the 4 year integrated B.Ed general education curriculum. Towards this he mentioned that multi-disciplinary colleges / universities offering 4 year integrated B.Ed. general education with education of children with disabilities as full fledged major program will need to adopt two year B.Ed. special education programmes in any of the four groups of disability areas mentioned above and must seek recognition from the Rehabilitation Council of India. This will facilitate the registration of students successfully completing their 4 year integrated B.Ed. general education with the Council.

On specific question from NCTE whether special education courses are different for different set ups, Dr Jayanthi Narayan elaborated that the special education programs are comprehensive as the preamble of the newly developed program mentions that the special educators can work in varying set ups including special, inclusive or home based programs. This is in alignment of the RPWD Act, 2016, Section 16 and 17 and in Section 31.

This was followed by discussion on the issue of Equivalence of special education and general education teacher progression programmes and also on how teacher education programme which will be run by regular colleges or universities. The members also discussed on how pedagogy courses and other general courses have to be mutually shared by both NCTE and RCI.

The MS, RCI elaborated on the existing norms, standards that also included special schools/centres as an important component of the training centres.

Prof Mittal that in order to fulfil the objectives of NEP 2020 a joint committee of 4 experts from varying disabilities as per the 4 categories of RPWD Act 2016 be included in the joint committee of NCTE and RCI. The same was accepted.

He assured that the Council is always ready to support activities so as to ensure quality education to the special educators and children with various disabilities. He also explained that Braille for the special educators of the children with visual impairment and Indian Sign Language for the special educators of the children with hearing impairment are an integral part of training programmes. He also suggested that competency based skills in ISL to be given priority.

Dr Varsha Gathoo elaborated on the inclusion of alternate papers to Audiology and Speech and Language for the DHH students who wish to enrol in the D.Ed. Spl Education (HI). She informed that the present preamble to be made common across all D.Ed programs. She also provided the rationale as to why the word 'preferable' was affixed to ISL Instructor. The reason was that there were 70 to 80 ISL instructors currently available in the country as per the inputs provided by Ms Monica Punjabi. This number is insufficient to match the requirement of approximately 200 training centres. Non-availability of ISL instructors was discussed in the sub-committee so the word preferable was documented. Regarding the communication options, Dr.Varsha Gathoo informed that the term Communication options is a collective term which has been always used in syllabus and elaborated in manual. She gave example that in the school syllabus when colours are written, it implies that teachers teach all colours.

After detailed deliberations, the following decisions were taken:

1. Preamble to include ISL component as per the RPWD Act, NEP 2020.
2. In the eligibility criteria the term "Preferably" Deaf to be deleted and made essential. Qualifications remain the same. However, the said requirement of ISL instructor be termed as 'Guest Faculty' with DTISL qualification and reviewed after two years to ascertain availability of deaf instructors. A letter is to be sent to all training centers in this regards.
3. All the available options be mentioned in parenthesis besides in the communication options (Oralism, Total Communication, Sign Language and Bi-lingualism).
4. Dr. Varsha Gathoo to make the necessary changes in preamble, communication options and Eligibility criteria of ISL instructor and submit the final syllabus to RCI.

We have audited the attached Balance Sheet of Rehabilitation Council of India as at 31 March 2022, Income & Expenditure Account and Receipts & Payment Account for the year ended on that date under Section 19(2) of the Comptroller & Auditor General's (Duties, Powers & Conditions of Service) Act, 1971 read with Section 21(3) of the Rehabilitation Council of India, Regulation 1997. These financial statements are the responsibility of the Council's Management. Our responsibility is to express an opinion on these financial statements based on our audit.

2. This Separate Audit Report contains the comments of the Comptroller & Auditor General of India (C&AG) on the accounting treatment only with regard to classification, conformity with the best accounting practice, accounting standards and disclosure norms, etc. Audit observation on financial transaction with regard to compliance with the Law, Rules & Regulations (Propriety and Regularity) and efficiency-cum-performance aspects, etc., if any, are reported through Inspection Report/ C&AG's Audit Reports separately.

3. We have conducted the audit in accordance with auditing standards generally accepted in India. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements. An audit includes examination on a test basis, evidence supporting the amounts and disclosure in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of financial statements. We believe that our audit provides a reasonable basis for our opinion.

4. Based on our audit, we report that:

i. We have obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit;

ii. The Balance-Sheet, Income & Expenditure Account and Receipt & Payment Account dealt with by this report have been drawn up in the common format approved by the Ministry of Finance.

iii. In our opinion, proper books of accounts and other relevant records have been maintained by the Rehabilitation Council of India as required under Section 21(2) of Rehabilitation Council of India Regulations, 1997 in so far it appears from our examination of such books.

iv. We further report that:

#### **A Balance Sheet**

##### **A.1 Assets**

##### **A.1.1 Current Assets, Loan & Advances (Sch-9) Rs.384.26 lakhs**

An advance of Rs.55.21 lakh was paid to NICSI on 27.01.2021 for providing services for e-office. Against the above advance, NICSI provide facility to use Government assets (hardware & software) for a period of five years. This payment was pre-paid expense for ensuing five years. The project started functioning from 15.06.2021.

The total advance of Rs.55.21 lakh paid during January 2021 was charged as Other Administrative Expenditure in accounts for the year 2020-2021 by the Council instead of depicting the same as pre-paid expenses under "Current Assets, Loans and Advances". The amount should be written back and proportionate sum amounting to Rs.8.74 lakh should be written off and shown as expenses for this year. The balance amount of Rs.46.47 lakh should be shown as advance to NICSI.

Incorrect charging of pre-paid expenses as expenditure for 2020-21 resulted in understatement of Current Assets, Loans and Advances by Rs.46.47 lakh and expenditure for the year ended March 2022 has been understated by Rs.8.74 lakh with corresponding overstatement of expenditure of previous year by Rs.55.21 lakh.

#### **B. General**

However, the physical verification of fixed assets of RCI has not been conducted for financial year 2020-21 and 2021-22. Thus, the disclosure is incorrect.
