HRTSC/File No. 149/SM-309/4961 dated 15.11.2022 issued to Superintending Engineer (SE), PHED, Palwal)**

1. A complaint was received from Sh. Chunne Khan vide e-mail dated 21.08.2022 regarding link road, sewerage and drainage lines of Ekta colony, Ward no.2, Nuh. Taking cognizance of the issue, a letter dated 28.06.2022 was sent to the Superintending Engineer (SE), PHED, Palwal to furnish action taken/ status report to the Commission by 06.07.2022. In response to this, a letter dated 15.07.2022 was received from him wherein it has been mentioned that work related to the link road is under the mandate of MC/PWD, the work of drainage line is under the jurisdiction of MC, Nuh and work regarding laying of sewer line, which relates to PHED office, has already been allotted to an agency and the same has been started at the site. The work was expected to complete by 14.10.2022. Therefore, a letter dated 04.08.2022 followed by a reminder dated 05.09.2022 were issued to the SE, PWD (B&R), Nuh and the EO, MC, Nuh to take cognizance and furnish action taken/ status report to the Commission, for which no reply was received even after telephonic directions. Thus, suo-moto notices were issued to Sh. Praveen Chaudhary, SE, PW (B & R), Gurugram and Sh. Attar Singh, EO (Additional Charge), MC, Nuh to ascertain the reasons for not responding to the communications of the Commission and to Sh. Krishan Dahiya, SE, PHED, Nuh for delay in delivery of notified service beyond the prescribed timelines and to further decide as to why a penalty of Rs.20,000 may not be imposed upon them and a compensation of ₹5000 may not be paid to the applicant in this case for their act of omission.

2. A response dated 23.11.2022 was received from Sh. Praveen Chaudhary, SE, PWD (B&R), Gurugram wherein point-wise reply to the complaint of Sh. Chunne Khan has been provided:-

A. Link Road: It has been mentioned that the road belonged to PWD (B&R) and is called the HNPP road to Shahpur Nangli. The condition of the road has been satisfactory and even in the built-up area, CC-blocks have been provided in apprehension of water stagnation. Drains have been provided on both sides of the road provided by PWD (B & R) to drain out the surface runoff of the road. Further, it has also been mentioned that the drain has been clogged at many places as the local people discharge their household wastes in the drain. Resultantly, the sewer water overflows from the drain and comes onto the road where the same is stagnated.
