Candidate must note his rank for future reference</p>

COUNSELLING

The result of counselling (seat allotment result) would be displayed on the online admission portal.

Checking of allotment result

Candidates can find their allotment status by logging into the Online Admission portal (www.itidelhi.admissions.nic.in) using his/her User ID and password.

No seat allotted Candidates

If no seat is allotted to the candidate then he/she would automatically participate in next counselling so they need to wait for next counselling result. However they can reshuffle /fill new/delete trade choices on stipulated dates for reshuffling of trades.

Only for seat allotted candidates

Candidates who are allotted a seat in counselling (Including Upgraded/Retained candidates of previous round and Fresh allotment candidates) needs compulsorily select his/her preference (upgrade(only available in first counselling) * /freeze#) online. Freezing /Up gradation of allotted seat Counselling would be available on stipulated dates given on the online admission portal (www.itidelhi.admissions.nic.in).

Freezing means If the candidate is satisfied with the seat allotted to him/her and wants to take provisional admission then he/she should freeze his/her allotted seat.

Up-gradation means that candidate wants to participate in next counselling for allotment of higher choice seat. If a higher choice seat is allotted to the candidate then he/she would lose the previously allotted seat. If no upgraded seat is allotted than candidate would retain his/her previously allotted seat. After up gradation candidate needs to wait for next counselling. However they can reshuffle /fill new/delete trade choices on stipulated dates. This option is only available during first counselling only.

Only for Freeze Preference candidates

Candidates who opt for **freezing preference** need to follow the following process for completing the admission process:-

1. **Physical Reporting:** Physical Reporting of candidate for Counselling at Allotted ITI would be done on stipulated dates from 9:30 AM to 4:30PM. The details (helpline nos/ address etc) of ITI's are available on the online admission portal and prospectus. The candidate should call (Preferable)/visit the allotted ITI and take the appointment (time slot) for physical verification beforehand so as to avoid un-necessary rush. However directly reporting candidates may also be physically verified if work load is less else they would be given time slot (date and time) by admitting ITI for physical verification.

2. **Online Fee Submission:** Candidate needs to pay Online Admission Fee on stipulated dates after physical reporting. If a candidate pays fee first and then is not able to successfully complete

physical reporting due to any reason then his/her allotted seat would get cancelled, fee paid would not be refunded and would be out of counselling process.

The following documents would be required at the time of Physical reporting at allotted ITI:-

1. Copy of seat Allotment letter
2. Copy of Provisional admission Slip
3. All his original certificates
4. Set of self attested photocopies of documents to be submitted at the allotted ITI
5. Medical fitness certificate
6. Self Attested Prohibition of Ragging undertaking
7. Undertaking
8. Self attested Character certificate
9. Aadhar card of candidate
10. Three Pics of candidate

Important Points

If a admitted candidate who does not physically report to provisionally admitting ITI within stipulated time, then his/ her provisional admission would be cancelled and fee paid would not be refunded and he/she would be out of admission process.

If a candidate reports to admitting ITI but is not able to provide/show the certificates as given in the above table then his/her provisional admission would be cancelled and fee paid would not be returned and he/she would be out of admission process. So to avoid such situation it is advised (at the discretion of candidate) that candidate may visit the allotted ITI with all the documents and get them checked for correctness (Before last date of freezing/ fee payment) and then pay the admission fee and physical verification. If candidate is satisfied with the correctness and completeness of his/her documents then he/she can pay the fee before hand and then physically report to allotted ITI within stipulated time. Helpdesks for this purpose would be working in all admitting ITI's from date of declaration of result.

If candidate has submitted undertaking of some document and the document is still not available with him but may get available after some days then he/she may opt for up gradation option (first counselling only) and in this way he will get time to get the document before next counselling. Please see up gradation option as given

above. If such candidate wants to hold currently allotted seat in next counselling then he/she can put the allotted trade/ITI as top option or else based on merit a higher choice seat may be allotted to the candidate and he/she would lose the previously allotted seat. If no upgraded seat is allotted then candidate would retain his/her previously allotted seat

(For All Non Admitted Candidates)

Seat Vacancy Display and Choice Filling After Counselling

Non allotted, upgraded and verified candidates who have not filled any trade choice may add, delete *and/or reshuffle their Trade/ITI choice after counselling during stipulated days for choice filling.

*Important choice filling note for upgraded candidates only: The allotted seat of the previous counselling would appear in different shade/colour and cannot be deleted. Only the choices placed above the allotted seat of previous counselling would be considered for next counselling/ seat allotment. However candidate can reshuffle the priority of his/her choice including upgraded seat of previous counselling.

Note: Verified candidates who have gone out of admission process due to non reporting can opt for participation in remaining counselling by logging on to online admission website and accepting the consent within stipulated time of choice filling. The consent would appear on online admission portal once candidate log into portal using his login id and password.

The above information is subject to change and same may be intimated on online admission website.

After payment of registration fee, there would be preliminary Verification of candidate's uploaded documents. During this process the documents uploaded by the candidate would be compared with the details filled by the candidate by ITI officials. This process would normally take around 2 working days after filing of application by the candidate.

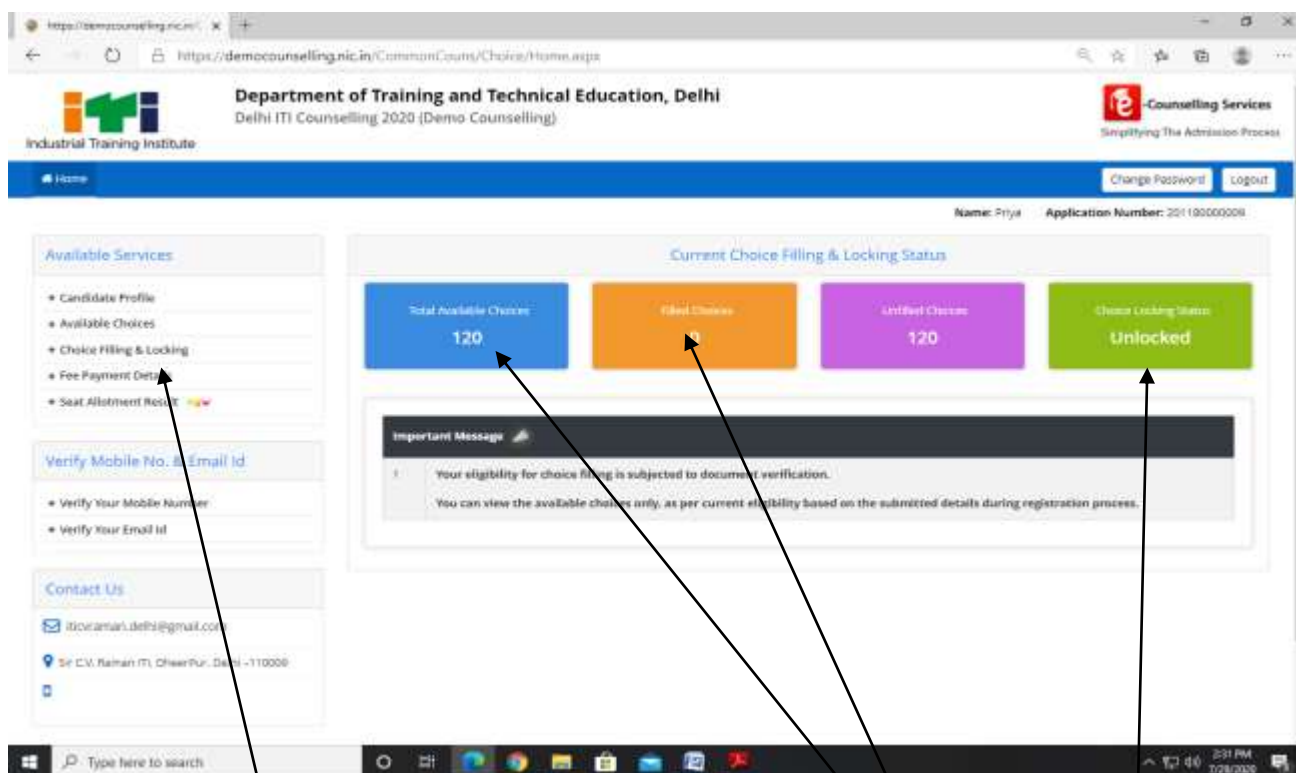

If some discrepancy is detected in the candidate's details then the same would be informed to the candidate. The candidate can view the same after logging in to online admission portal. The candidates need to get the discrepancy removed within stipulated time i.e. Last date of verification and get his application verified for being eligible to participate in admission. For removal of discrepancy candidate needs to upload the requisite document in support of his/her claim or correct his/her information on the online admission portal. Candidate can contact helpline numbers or visit facilitating centers.

Verification is one time process and would be carried out within the stipulated time as given in the prospectus. No verification would be done after the stipulated time of verification so it is in the interest of candidate to get the objection/ discrepancy removed (if any) as soon as possible so that his application gets verified and he/she would be able to participate in admission process.

Non verified candidates would not be able to participate in admission process.

In some deserving objection/discrepancy cases the candidate may verified subject to submission of undertaking by the candidate that he/she would get the discrepancy removed at the time of admission otherwise his/her allotted seat may be withdrawn and he/she would be out of further counselling's.

After verification the candidate needs to log into the online admission portal and fill Trade/ITI choices for participation in online admission process. The following screen will appear.

S. No.	The screen is showing the following data.		
1.	Total Available Choices	Maximum number of Trade/ITI for which Candidate is eligible to apply as per his qualification, gender etc.	In above snap the candidate is eligible for 120 ITI/Trade choices
2.	Filled Choices	They are total number of ITI/Trade choices which the candidate has applied for participation in counselling.	In above snap the candidate has applied for 0 out of 120 choices ITI/Trade choices available to him/her
3.	Unfilled Choices	It signifies total ITI/Trade choices which the candidate has not applied for but the candidate is eligible to apply. S.No 3 = S.No 1 – S.No. 2	Total unfilled choices in above Snap is 120.
4.	Choice Locking Status	Candidate needs to compulsorily lock his filled choices. Unlocked/not locked choices would not be considered for counselling.	Above candidates choices are not locked.

The candidate should click on “**Choice filling and locking**” for filling choices.

The following screen will appear.

The screenshot displays the 'Online Counseling' web application for the Department of Training and Technical Education, Delhi. The URL is <https://democounseling.nic.in/CommonCouns/Choice/ChoiceFilling.aspx>. The application number is 201180000007. The interface is divided into two main sections: 'Available Choice(S) View With' on the left and 'Filled Choice(S)' on the right. The 'Available Choice(S)' section lists various ITI programs with their respective 'Add' buttons. The 'Filled Choice(S)' section shows the choices already selected by the candidate. A candidate can click the 'Add' button next to a choice to add it to their filled list. The interface also includes filters for 'All Institute Types', 'All Institutes', and 'All Programs', and a search bar. The NIC logo is visible at the bottom right.

The **available ITI/Trade choices** will appear on the Left side. The candidate needs to click on “ADD CHOICE” to select choice. After clicking on “**Add**” button the selected choice will appear on right side. Candidate should fill as many choices as possible to increase his/her chances of getting a seat allotted.

Divyang candidates would only be shown trade choices for which they are eligible as per syllabus of that trade. The same is also given under “Admission Eligibility Qualifications” section of prospectus.. Divyang candidates must fill choices in the trades in which they are certified as fit for undergoing the trade by NCS National Career Service(Formerly VRC, 9-11 Vikas Marg, Karkardooma, Delhi /IBHAS) as the case may be as NCS certificate would be required at the time of admission. If due to wrong filling of choices a seat is allotted to the divyang candidate in which he/she is not fit for trade, then the same would get cancelled and candidate would be responsible for the same.

The location of various ITI’s is available in prospectus. Candidates may use this information to find out the distance of ITI from his/her place of residence. The higher choice seat would be first considered for allotment to the candidate and if that seat is not available then the next lower choice seat would be considered and so on. Choice number “1” would be the highest choice in order of preference.

The Trades/ITI’s for which a candidate is **not eligible** would **not** be shown in the “**Total Available choice column**“. Eg. If a candidate is **male** then he would not be shown “**all women courses in coed ITI’s**” and “**all trades of women ITI’s**”. Similarly if a candidate does not have mathematics and science in qualifying exam then trades which had entry qualification of mathematics and science would not be displayed to him/her.

Only the choices which the candidate has filled and locked would be considered for admission in order of preference i.e. most preferred trade/ITI choice to be given as **1st preference** and the preference of the choice would become less preferred as the choice number increases.

The screenshot displays the 'Choice Filling' interface on the NIC eCounseling portal. The top navigation bar includes links for Home, Choice Filling, Manage Filled Choices, Choice Interchange, Choice Rearrange, Multiple Selection, and Lock Choice. Below the navigation bar, there are filters for 'All Institute Types', 'All Institutes', and 'All Programs'. The main content area is divided into two sections: 'Available Choice(S) View With' and 'Filled Choice(S)'. The 'Available Choice(S)' section lists various ITI programs and their addresses, with a 'Save' button next to each. The 'Filled Choice(S)' section shows a table of filled choices with columns for Institute, Program, Choice No., Remove, Up, and Down. Arrows from the text above point to the 'Choice No.' column and the 'Up'/'Down' buttons. At the bottom, there are buttons for 'Save and Continue' and 'Save and Go to Home'.

Institute	Program	Choice No.	Remove	Up	Down
(TI) PUSA Institute Address: 110092	Turner - NCVT	1	Remove	Up	Down
(TI) PUSA Institute Address: 110092	Machinist - NCVT	2	Remove	Up	Down
(TI) PUSA Institute Address: 110092	Instrument Mechanic - NCVT	3	Remove	Up	Down
(TI) ARAB-KI-SARAI Institute Address:	Instrument Mechanic - NCVT	4	Remove	Up	Down

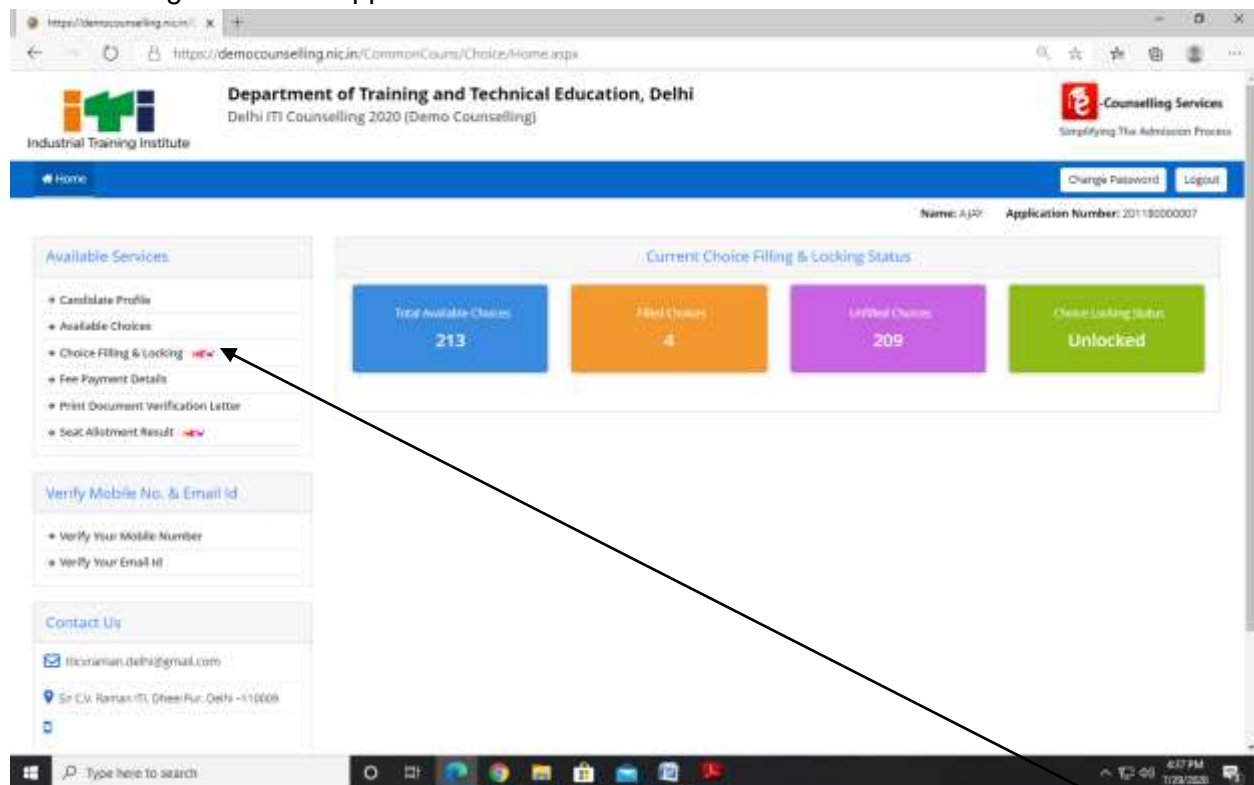

Candidate can change the Priority of his/her filled choice by clicking on **up or down** buttons given on the right side of filled choice.

Candidate can use various drop down filters as given above to sort available choices in convenient formats.

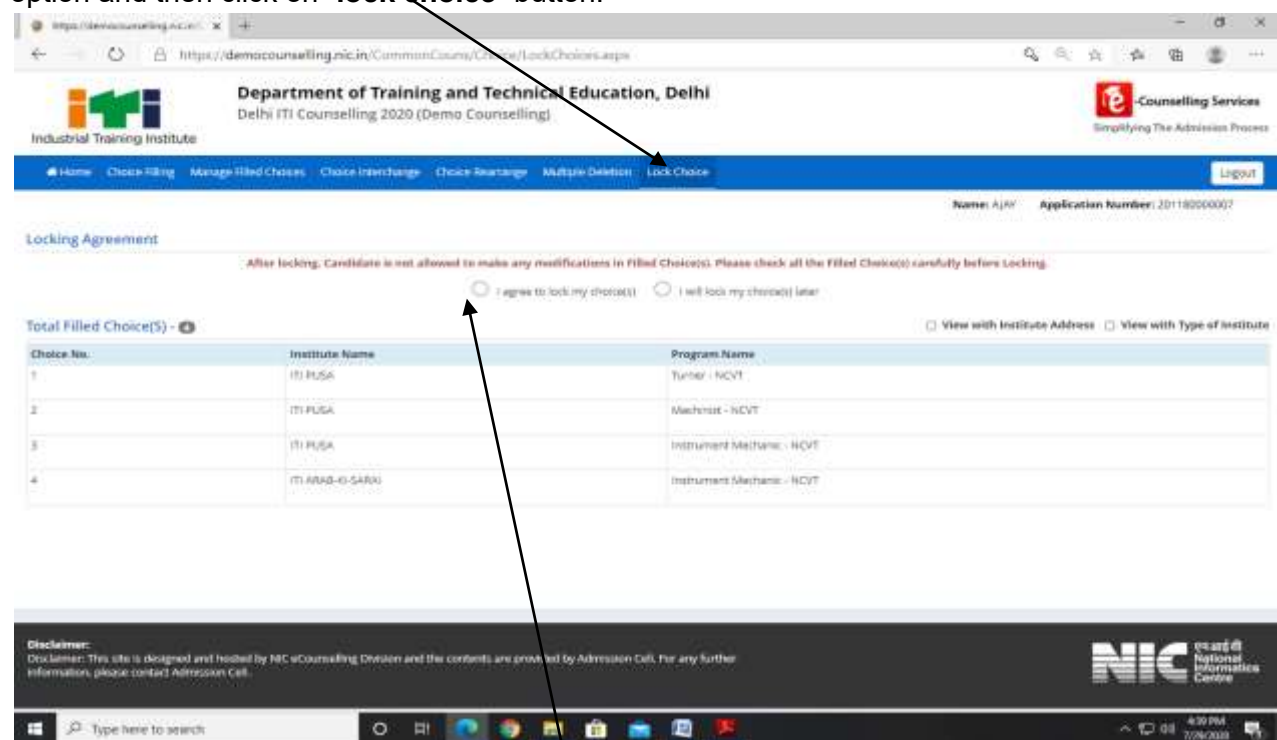

Candidate can also change the priority of his/her choices by using choices in Top menu bar.

Thereafter candidate can select" **Save and Continue**" or "**Save and go to home**" as applicable to save choices.

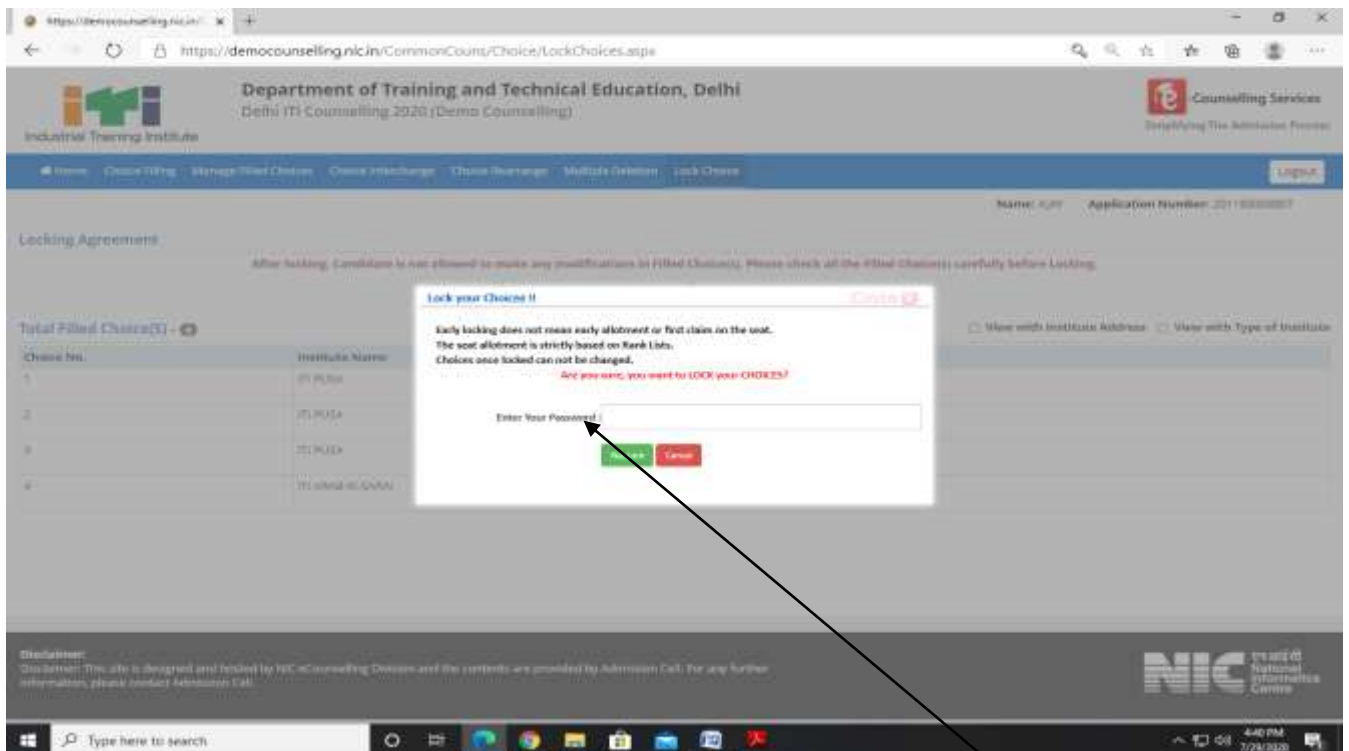

The following screen will appear

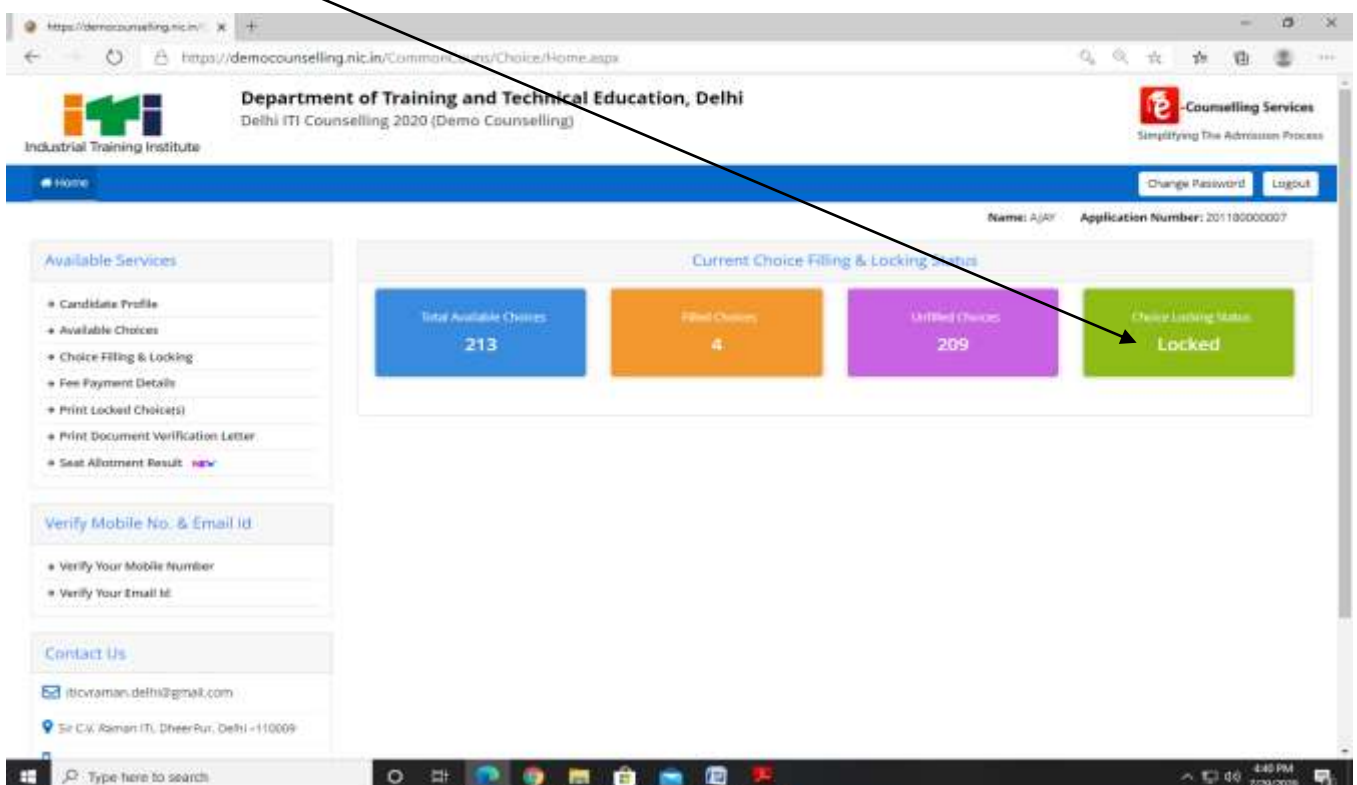

After saving the candidate needs to lock choices. For locking click on “**Choice filling and Locking**” option and then click on “**lock choice**” button.

Now select the round button “**I agree to lock my choices**”.

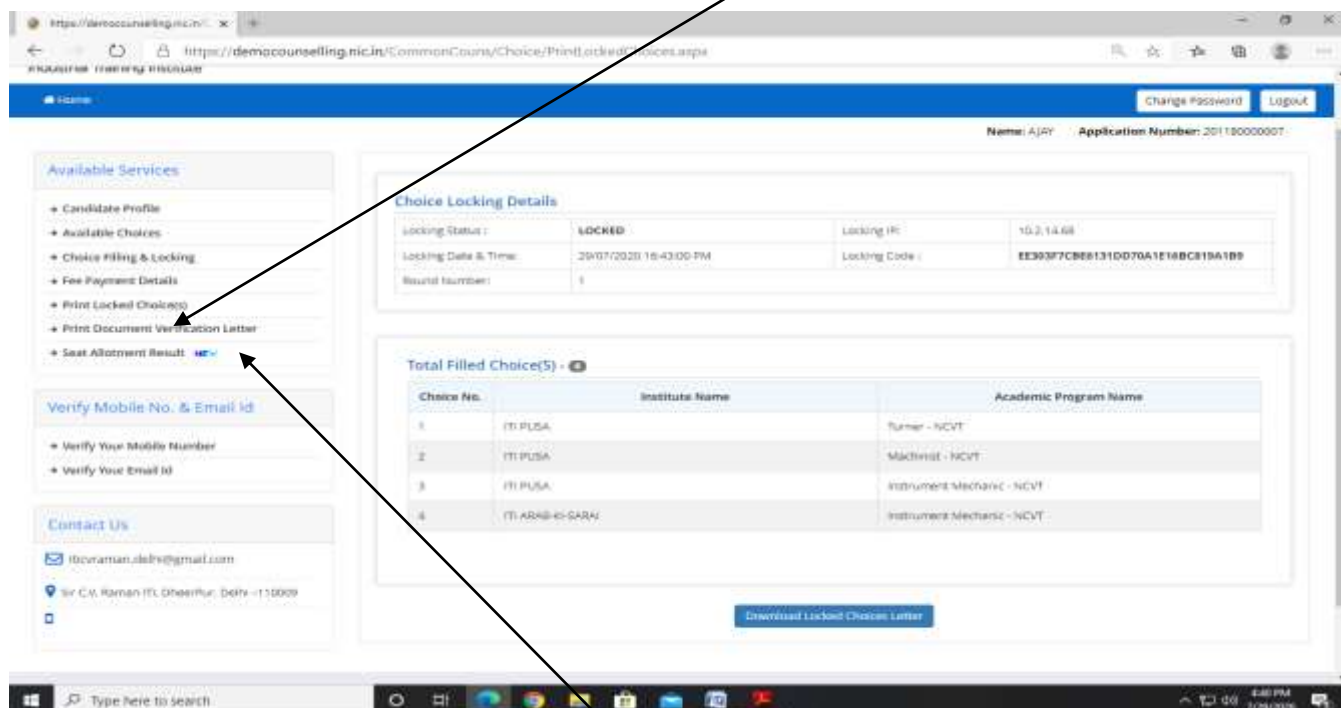

The above dialogue box will appear on the screen. Candidate needs to fill the **Password** in the dialogue box and click on submit. The following screen will appear and confirm that candidate's choices are "**Locked**".

Choices once locked cannot be changed and would be treated as final.

Candidate can print locked choices by clicking on “**Print Locked Choice**” Button.

Candidate can print verification Letter by clicking on “**Print Verification Letter**”.

CRITERIA FOR CALCULATION OF MARKS PERCENTAGE

In case there is any clarification sought by the verifying Government ITIs regarding equivalency of the eligibility qualification certificate furnished by the candidate, the same must be produced by the candidates from the appropriate authority in the matter. In absence of the equivalency certificate, no admission shall be given to the candidate and the responsibility of the same shall solely be of the candidate.

The following criterion is to be followed while entering marks /grades for registration of various boards:-

- 1. If both marks and grades are given on the marks sheet for same subject then only marks are to be considered.
- 2. For marks sheets containing grades/grade points, the grades/grade points are to be converted to corresponding marks by using the conversion factors given in the mark sheet and filled in marks column in consideration to the single conversion factor for a given mark sheet
- 3. If a candidate is absent in a subject then that subject is also to be considered for admission. In marks obtained column the candidate should enter 0 for subjects in which he/she is absent.
- 4. If a candidate is fail in a subject then its marks are also to be entered.

The following points must be considered while converting grade/grade points into marks and vice a versa and verifying the marks /grades of the candidate:-

Marks sheet the grades/grade points are to be converted to corresponding marks and filled in marks column.

i) FOR MARKS SHEETS CONTAINING GRADE POINTS: The aggregate percentage of marks of all subjects including optional subjects after conversion from grade points according to respective conversion calculator shall be taken into account if possible, in consideration to the single conversion factor for a given mark sheet and vice versa. For conversion candidate should consider the conversion calculator of that respective board and if range of marks are given then take the average of marks as to consider as marks obtained.

ii) FOR MARKS SHEETS CONTAINING GRADES: The aggregate percentage of marks of all subjects including optional subjects after conversion from grade according to respective conversion calculator shall be taken into account ,if possible in consideration to the single conversion factor. For conversion candidate should consider the conversion calculator of that respective board and if range of marks are given then take the average of marks as to consider as marks obtained.

iii) FOR MARKS SHEETS CONTAINING MARKS: The aggregate percentage of marks of all subjects including optional subjects for which marks are given If possible, in consideration to the single conversion factor for a given marks sheet and vice a versa.
In case no calculators are available or any confusion, help desk of any Govt. ITI may be contacted for guidance.

For CBSE marks sheets the following factors should be considered:-

- a) All the marks or grades of the candidate should be entered.

- b) In case of CBSE, if grades E1 OR E2 are given then their corresponding grade points will be deemed as 3 for E1 grade and 2 for E2. If a candidate is absent in a subject then his grade points would be 0.

GENERATION OF UNIQUE RANK /TIE BREAKER CRITERIA

The rank of the candidate would be generated by calculating percentage of marks/grades secured by the candidate in qualifying examination and arranged in decreasing order. If two or more candidates are having same percentage/grade then, the following tie breaker criteria would be used in sequence to allot them distinctive ranks:-

1. **Date of Birth:** The candidate higher in age would be allotted the higher rank.
2. **Application Number:** If tie is still not broken then the candidate's application number in ascending order would be allotted the higher rank.

However, if still the tie does not break then CAO reserves the right to develop and implement further suitable criteria for distinguishing the rank of tied candidates.

ADDITIONAL INFORMATION REGARDING RESERVATION:

CRAFTSMEN TRAINING SCHEME (CTS)

The Craftsmen Training Scheme was introduced by the Government of India in 1950 to ensure a steady flow of skilled workers in different trades for the domestic industry, to raise quantitatively and qualitatively the industrial production through systematic training, to reduce unemployment among the educated youth by providing them employable training.

Salient Features of the **Craftsmen Training Scheme**:-

- ITIs are functioning under the administrative control of the respective State Govt./UTs.
- The period of training for various trades varies from one year to two years and the entry qualification varies from 8th & 10th class pass, depending on the requirements of admission in different trades.
- These institutes are required to conduct training courses as per the curriculum prescribed by National Council for Vocational Training (NCVT). The admission to the new courses is made in the month of July/August every year.
- The trainees are required to appear in the Final Trade Tests conducted under the aegis of National Council for Vocational Training/State Council of Vocational Training. The successful trainees are awarded National Trade Certificate/State Trade Certificate which has been recognized by Govt. of India/State Govt. for the purpose of recruitment to subordinate posts and services under the Central Govt./State Govt./PSUs/Private Sectors.
- Syllabi of various trades are periodically revised to keep pace in tune with changes in technology.

CERTIFICATION ON SUCCESSFUL COMPLETION OF TRAINING

- A trainee admitted in NCVT designated trade/course with affiliation from NCVT will have to undergo a regular training of the trade concerned as per the syllabus laid down by the Directorate General Training (DGT), Government of India and shall be eligible to get the N.C.V.T. certificate on passing all examinations.
- A trainee admitted in SCVT designated trade/course will have to undergo a training of the trade concerned as per the syllabus lay down by the Board of Technical Education, Delhi and shall be eligible to get the S.C.V.T. Certificate on passing all examinations.
- A trainee undergoing training in any of SCVT designated trade or NCVT designated trade running under SCVT affiliation, will receive a SCVT certificate on successful completion of his/her trade course.

DUAL SYSTEM OF TRAINING (DST)

Ministry of Skill Development & Entrepreneurship has implemented the scheme named “**Dual System of Training**” (DST) w.e.f. **August 2016**. DST has been approved during 40th meeting of National Council of Vocational Training (NCVT).

The courses will be conducted to meet the workforce requirement of the industry so that after the completion of training in dual system, the trainee having NTC with dual mode will get better employment opportunities in industry.

The ITI and Industry will have the freedom to choose the training pattern either in **Block mode (few months in ITI and few months in industry)** or **mixed mode (i.e. few days in a week shared between ITI and Industry)**.

TRADE THEORY AND SOME PORTION OF PRACTICAL: The theory portion and basics about safety and tools, equipment along with foundation practical will be conducted by ITI.

INDUSTRY TRAINING PORTION: The remaining portion of training shall be conducted in the industry/organization. For a **two year course it is expected that nine months (i.e. ~1560 hrs.) training would be in the industry** and remaining portion would be in the ITI. **For one year course it is expected that five months training would be in the industry.**

Assessment and Certification: Assessment and certification of all the trainees will be carried out as per DGT/NCVT norms for Trade theory including practical portion conducted in ITI workshop. Industrial training of the trainees shall be accessed by the industry partner. After successfully completion of training, **National Trade Certificate (NTC) (mentioning dual model) shall be awarded to the trainee.**

For stipend, industry, and additional information the candidate may **contact ITI offering the said trade in Dual System of Training and/or** refer orders issued by MSDE (DGT) in this regard (http://dget.nic.in/Dual_System).

National Skills Qualifications Framework (NSQF)

The **National Skills Qualifications Framework (NSQF)** is a competency-based framework that organizes all qualifications according to a series of Level of knowledge, skills and aptitude. These levels, graded from one to ten, are defined in terms of learning outcomes which the learner must possess regardless of whether they are obtained through formal, non-formal or informal learning. NSQF in India was notified on 27th December 2013. All other frameworks, including the NVEQF (National Vocational Educational Qualification Framework) released by the Ministry of HRD, stand super ceded by the NSQF.

Under NSQF, the learner can acquire the certification for competency needed at any level through formal, non-formal or informal learning. In that sense, the NSQF is a quality assurance framework. Presently, more than 100 countries have, or are in the process of developing national qualification frameworks.

The NSQF is anchored at the National Skill Development Agency (NSDA) and is being implemented through the National Skills Qualifications Committee (NSQC) which comprises of all key stakeholders. The NSQC's functions amongst others include approving NOSs/QPs, approving accreditation norms, prescribing guidelines to address the needs of disadvantaged sections, reviewing inter-agency disputes and alignment of NSQF with international qualification frameworks.

Specific outcomes expected from implementation of NSQF are:

- i. Mobility between vocational and general education by alignment of degrees with NSQF
- ii. Recognition of Prior Learning (RPL), allowing transition from non-formal to organized job market
- iii. Standardized, consistent, nationally acceptable outcomes of training across the country through a national quality assurance framework
- iv. Global mobility of skilled workforce from India, through international equivalence of NSQF
- v. Mapping of progression pathways within sectors and cross-sectional
- vi. Approval of NOS/QPs as national standards for skill training

Multi-Sectoral Development Programme

The Multi-Sectoral Development Program (MSDP) was conceived as a special initiative of the follow up action on the Sachar Committee recommendations. It is a Centrally Sponsored Scheme (CSS) approved by the Government in the beginning of the 11th five Year Plan and launched in the year 2008-09 in 90 Minority Concentrations Districts (MCDs). It is an area development initiative to address the development deficits of minority concentration areas by creating socio-economic infrastructure and providing basic amenities. The scheme aims at focused development programs for backward minority concentration areas to help reduce imbalances and speed up development. Muslims, Sikhs, Christians, Buddhists and Zoroastrians (Parsis) have been notified as minority communities under Section 2 (c) of the National Commission for Minorities Act, 1992.

ASIA PACIFIC ACCREDITATION AND CERTIFICATION COMMISSION, MANILA, PHILIPPINES ACCREDIATION

Jija Bai ITI for Women, SiriFort is internationally accredited with APACC, Manila, Philippines

for scope of activities under governance and management, Teaching and learning, Human Resources, Research and development, Image and sustainability, other resources and support to students.

Accredited institutions and stakeholders enjoy the following benefits:

1. Greater workforce mobility and mutual recognition of qualifications in Asia and the Pacific region;
2. Quality and employable workforce in member countries through APACC coordination among its network of institutions, agencies and other stakeholders;
3. Employer confidence on the selection of employees coming from accredited institutions. Accreditation status is important to employers when evaluating credentials of job applicants and when deciding to provide support for current employees seeking further education;
4. **International recognition of the institutions' quality, accountability, and public trust;**
5. Eligibility and reliability of TVET institutions for funding support from donors and other lending agencies;
6. Part of a regional network of quality institutions that expand schooling and learning opportunities for students; and
7. Transferability of credits earned by a student among educational institutions. Receiving institutions take note of whether or not the credits a student needs to transfer have been earned from an accredited institution.

Two Year Engineering Trades

- 1. TOOL & DIE MAKER (DIES & MOULDS)**-Tool and Die Makers build, repair and modify custom made prototypes or special tools, Dies, Moulds, Die casting Moulds and various types of mechanical devices. Dies and moulds are metal forms used for molding plastics or other molding material. Tool and Die Makers fabricate various parts, like pieces of a puzzle, which require perfect fitting. While this occupation is closely allied with the machinist trade and encompasses many of the same skills, Tool and Die Makers usually specialize in jobs spending more time in fitting and assembling precision components which are required for plastic injection moulds and die cast moulds. A Tool and Die maker's work depends up on precise measurements and accuracy, as such math skills are important. Also, they must be able to read and interpret information from design drawings and specifications to fabricate all types of Dies and Moulds. Being mechanical minded is an additional skill. Plan and organize assigned work and detect & resolve issues during execution. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English, Sensitive to environment, self-learning and productivity
- 2. TOOL & DIE MAKER (PRESS TOOLS, JIGS & FIXTURES)**- & Die Maker (Press Tools, Jigs & Fixtures): Tool and Die Makers build, repair and modify custom made prototypes or special tools, Press Tools, Jigs, Fixtures and various types of mechanical devices. Press Tools are metal forms used for Sheet metal cutting and forming. Tool and Die Makers fabricate various parts, like pieces of a puzzle, which require perfect fitting. While this occupation is closely allied with the machinist trade and encompasses many of the same skills, Tool and Die Makers usually specialize in jobs spending more time in fitting and assembling precision components which are required for sheet metal cutting forms. A Tool and Die maker's work depends on precise measurements and accuracy, as such math skills are important. Also, they must be able to read and interpret information from design drawings and specifications to fabricate all types of Press Tools Jigs and Fixtures. Being mechanical minded is an additional skill. Plan and organize assigned work; and detect and resolve issues during execution. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English, sensitive to environment, self-learning and productivity.
- 3. DRAUGHTSMAN (CIVIL)** -The course gives a wide knowledge on construction related manual and CAD drawings, Surveying, Materials, Concrete Technology, and Building Specialization in Construction. One can take gainful employment with construction Industry, Architectural firms / Designers / PWD etc.
- 4. DRAUGHTSMAN (MECHANICAL)** -Professional Knowledge subject is simultaneously taught in the same fashion to apply cognitive knowledge while executing task. In addition components like physical properties of engineering materials, interchangeability, method of expressing tolerance as per BIS Fits, different types of iron, properties and uses, special files, honing, metallurgical and metal working processes such as heat treatment, the various coatings used to protect metals, different bearing, working material with finished surface as aluminum, duralumin and stainless steel,

topics related to non-ferrous metals, method of lubrication are also covered under theory part. At the end part of each semester, the trainees should express their skills by presenting project works. Total three projects need to be completed by the candidates in a group. In addition to above components the core skills components viz., workshop calculation & science, engineering drawing, employability skills are also covered. These core skills are essential skills which are necessary to perform the job in any given situation.

5. **ELECTRICIAN**- Electrician General; installs, maintains and repairs electrical machinery equipment and fittings in factories, workshops power house, business and residential premises etc. Studies drawings and other specifications to determine electrical circuit, installation details etc. Positions and installs electrical motors, transformers, switchgears. Switchboards and other electrical equipment, fittings and lighting fixtures. Makes connections and solders terminals. Tests electrical installations and equipment and locates faults using mugger, test lamps etc. Repairs or replaces defective wiring, burnt out fuses and defective parts and keeps fittings and fixtures in working order. May do armature winding, draw wires and cables and do simple cable jointing. May operate, attend and maintain electrical motors, pumps etc. Electrical Fitter; fits and assembles electrical machinery and equipment such as motors, transformers, generators, switchgears, fans etc., Studies drawings and wiring diagrams of fittings, wiring and assemblies to be made.
6. **ELECTRONICS MECHANIC** - Electronic Equipment Mechanic repairs electronic equipment, such as computers, industrial controls, transmitters, and tele-metering control systems following blueprints and manufacturers specifications and using hand tools and test instruments. Tests faulty equipment and applies knowledge of functional operation of electronic units and systems to diagnose cause of malfunction. Tests electronic components and circuits to locate defects, using instruments, such as oscilloscopes, signal generators, ammeters and voltmeters. Replaces defective components and wiring and adjusts mechanical parts, using hand tools and soldering iron. Aligns, adjusts and calibrates testing instruments. Maintains records of repairs, calibrations and test.
7. **INFORMATION & COMMUNICATION TECHNOLOGY SYSTEM MAINTENANCE** -The role of a Information & Communication Technology System Maintenance personnel is to support and maintain computer systems, desktops, and peripherals. This includes installing, diagnosing, repairing, maintaining, and upgrading all hardware and equipment while ensuring optimal workstation performance. The person will also troubleshoot problem areas in a timely and accurate fashion, and provide end user training and assistance where required. Install, maintain and setup network with computers, printers and other peripheral equipment as well as configure broadband equipment.
8. **INSTRUMENT MECHANIC** - This course has been started with a view to train students in the vastly Emerging industries of India using new technologies like Petro-Chemical Engineering, Manufacturing Engineering, Aviation etc. To cope up with the modernization of Indian industry and quality control, the syllabus and objectives of teaching have been formulated to encompass the areas of computers, manufacturing engineering, robotics and industrial automation, which are now important areas of study. One takes employment with Govt. / Private Industries.
9. **MACHINIST GRINDER** - Grinding experience will be in the field of "Tool" Grinding, Machinist (Grinder) setup and operates variety of machine tools, and fits and assembles parts to fabricate or repair machine tools and maintain industrial machines, applying knowledge of mechanics, shop mathematics, metal properties, layout, and machining procedures. The trainees, admitted after successful completion of their training, acquire the skills on various operations in different grinding machines Viz. Centre less grinder, Crankshaft Grinders, Internal & External Grinders, Tool & Cutter grinder apart from basic knowledge on machines. One can take Govt. / Private Employments.
10. **MECHANIC MOTOR VEHICLE** - The course broadly covers the complete functioning, overhauling of Petrol & Diesel Engines of vehicles of all categories being fuelled by Petrol, Diesel & Gases The course has a good demand in the Automobile industry thereby giving advantage for either employment or self-employment.
11. **REFRIGERATION AND AIR CONDITIONING TECHNICIAN** -The course gives an in-depth knowledge on Repair & Maintenance of Refrigerators, Centrally Air-conditioning system & Air-conditioners available in the market. On Successful completion, trainees can be absorbed in Railways, Govt. / Public Sector under takings apart from self-employment.

- 12. FITTER** - Fitter is a person who uses machine tools to make or modify parts, primarily metal parts, and a process known as machining. This is accomplished by using machine tools to cut away excess material such as a woodcarver cuts away excess wood to produce his work. The demand of fittings of various nature, Plumbing, Welding, Black smithy, Knowledge on various Lathes, drilling Machines, Sheet Metal Works etc. The fitter Workshops are equipped with modern and sophisticated Machineries, Equipment & Tools. The precision works are mainly handled by fitters in the Industries.
- 13. MACHINIST** - Machinists use machine tools, such as lathes, milling machines and grinders to produce precision metal parts. Although they may produce large quantities of one part, precision machinists often produce small batches or one-of-a-kind items. They use their knowledge of the working properties of metals and their skill with machine tools to plan and carry out the operations needed to make machined products that meet precise specifications. The parts that machinists make range from bolts to automobile pistons. Some machinists, often called production machinists, may produce large quantities of one part, especially parts requiring the use of complex operations and great precision. Many modern machine tools are computer numerically controlled (CNC) or CNC machines.
- 14. PAINTER (GENERAL)** - This trade broadly covers oil painting using spray gun and brushes, stenciling, Painting of walls-Layout process, Pigment, Process of pre-treatment of metal, surfaces, silk screen painting, Spray painting, color codes & identification of pipe lines as per international & Indian standard, Airless & electrostatic spraying, Rustburg electrostatic, blade coater, Method and application processes of car body finishing various types of systems of spray painting and Staving , methods of heat transfer, time temperature relation in a staving oven. The trainees in Painter (General) may work as painter, Automobile, Railways, Aircrafts and Medium, small industry or in government organizations.
- 15. TURNER** - The trainees admitted, after successful completion of their training acquire the skills on various operation in different Lathe machines and acquire the skills of Facing, Planning, Turning, Threading (Internal & External), Taper Turning etc. Apart from the conventional machines, they have exposure to acquire skills on CNC Machines, CAD & CAM.
- 16. WIREMAN** - Wireman, Light and Power installs various kinds of electrical wiring such as cleat, conduit, casing, concealed etc. in houses, factories, workshops and other establishments for light and power supply. Studies diagram and plan of wiring and marks light, power and other points accordingly. Fixes wooden pegs, sizes tubes, saws casings, etc. by common carpentry fitting and other processes, according to type of wiring needed. Erects switch boards and fixes switch box casings cleats, conduits ceiling roses, switches, meters etc. according to type and plan of wiring. Draws wire in two way or three-way wiring system as prescribed and makes electrical connections through plugs and switches to different points exercising great care for safety and avoiding short circuit and earthing at any stage of wiring. Fixes fuses and covers as per diagram and insulates all naked wires at diversions and junctions to eliminate chances of short circuit and earthing. Fits light brackets, holders, shades, tube and mercury lights, fans etc, and makes electrical connection as necessary. Tests checks installed wiring for leakage and continuity using megger, removes faults if any and certifies wiring as correct for connecting mains. Checks existing wiring for defects and restores current supply by replacing defective switches, plug sockets, blown fuse etc. or removing short circuits and faulty wiring as necessary. May repair simple electrical domestic appliances.
- 17. TECHNICIAN MEDICAL ELECTRONICS** - This course has been designated to provide an in depth knowledge of Digital Electronics, Communication equipment and various precisions medical & dental equipment's viz. surgical diathermy, baby incubator, ventilator, pacemaker, ECG recorder. They also learn the operation of these electronics equipment and trouble shooting. After completion of training, one can take up job with the manufacturing and service industries of electronics equipment with advantages of being absorbed as biomedical technician by the medical equipment manufacturer.
- 18. TECHNICIAN POWER ELECTRONICS SYSTEMS**-The trade broadly covers the topics on different variety of This course is meant for the candidates who aspire to become a Technician to Maintain and Repair Power Electronic Equipment, trainee shall be able to handle different types of Electronic measuring Instruments, faults, computer hardware & networking, maintenance of SMPS, UPS, Inverter, solar power system and various analogue and digital circuits. Repair maintenance& installation of Electrical control of AC/DC machines. On successful completion of this course, the candidates shall be gain fully employed in leading industries or getting self-employed.

19. MECHANIC CONSUMER ELECTRONIC APPLIANCES-This course is meant for the candidates who aspire to become a Technician to repair different Domestic and Consumer Appliances. The trainee shall be able to handle different types of Electronic measuring Instruments, faults, computer hardware & networking, maintenance of SMPS, UPS, Inverter, solar power system and various analogue and digital circuits. Installation & Repair maintenance of microcontroller based system, LED/ LCD TV, Cell phone (Mobile), Consumer electronics equipment's like Washing Machine, Dish Washer, Mixer Grinder, water purifiers, Vacuum cleaner, Microwave oven, Immersion heater, Induction cook top, printers, home theatre system & CCTV etc. The candidates shall be gain fully employed in leading various industries like consumer/domestic electronics appliance & manufacturing industry or getting self-employed.

20. INFORMATION TECHNOLOGY-Junior Software Developer; is one of the many entry L roles in the software industry including support and help desk, testing, user interaction design, maintenance, enhancement, development and documentation. Programming Assistant/Junior Software Engineer; installs, maintains and updates computer programs by making minor changes and adjustments to them under the guidance of computing professionals. Maintains and updates documents of computer programs and installations. Web Developer; is responsible for designing and maintaining web-based applications that include static and dynamic content. This includes the design, layout and coding of a website. They may work standalone or along with application/functional developers as part of the overall solution that includes a web based component. Media Developer-Application Development; is responsible for designing and improving the look and feel, functionality and graphics appeal of the developed application. They may work standalone or along with application/functional developers to improve the aesthetics of the application being developed. Data Communication Analyst/Network Administrator; researches, tests, evaluate, and recommends data communications hardware and software: Identifies areas of operation which need upgraded equipment, such as modems, fiber optic cables and telephone wires.

21. SURVEYOR-Topographical Surveyor, surveys land to determine out line, contours and relative position of control points (land marks) on tract of land, coast, harbor, etc. for preparing topographical and other maps and records. Establishes control points and pillars to do instrumentation work on ground to prepare maps. Provides identification marks on ground for photographs taken in aerial survey. Fixes position of control points on ground in relation to some permanent position and with reference to celestial bodies using the odolites and precise Ls, tachometer, digital plan meter etc. Adjusts and sets the odolites, compasses, plane tables, Ling instruments, Total station, GPS, DGPS and other modern instruments for survey, observes and records measurements and angles from three determined points (triangulation), locations to scale on proper sketch. Corrects margin of error due to worn-out tapes which become incorrect, and readings on instruments which are affected by environmental factors. Plan and organize assigned work and detect & resolve issues during execution in his own work area within defined limit. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English. Sensitive to environment, self-learning and productivity.

22. ARCHITECTURAL DRAUGHTSMAN-Prepares drawings of buildings, parks, gardens, monuments etc. from sketches, designs or data for construction. Studies notes, sketches and other engineering data of buildings, parks, gardens, monuments etc. to be constructed. Draws sketches of required construction according to directions of architect to suit the purpose and environment; alters them if directed and gets them approved by him. Draws to scale drawings according to approved sketches showing plan, elevations, settings, arrangements etc. as necessary. May trace drawings and make blue prints. May prepare architectural designs, may prepare estimate of schedules for material and labor. May prepare model of construction work. May work as Draughtsman civil.

23. TECHNICIAN MECHATRONICS- Technician Mechatronics are generalized trade-technician workers. Mechatronics technicians will usually assist design, development and engineering staff, as well as working closely with other trades persons to install, maintain, modify and repair Mechatronics systems, equipment and component parts. Mechatronics technicians build automated systems for industry. Mechatronics involves mechanics, electronics, and pneumatics and computer technology. The computer technology element covers information technology applications, programmable machine control systems, and technology which enable communication between machines, equipment and people. In addition Technician Mechatronics have the ability to visualize the job, good coordination, mechanical attitude, manual dexterity and perform work related mathematical calculations.

ONE YEAR ENGINEERING TRADES

- 24. MECHANIC AUTO BODY REPAIR** -Dent Remover/Auto Body Repair Technician/Denter Dent Remover; Panel Beater removes dents from sheet metal parts such as mudguards, body panels, tanks, containers, trunks by beating with mallets, smoothens surface for painting and other operations. Gets parts dismantled, examines dents caused by stress or accidents and starts beating from highest point on inner side with mallet to bring it back to original shape. Supports outer surface with soft metal-piece, wood or broader mallet to avoid distortion in reverse direction. Manipulates support and uniformly beats inner portion till damaged portion is reformed to original shape. May engage an assistant to hold support and guide him in manipulating it. May also scrape or lightly file outer surface to remove further defects, if any, for obtaining finer finish. Welder, Gas Welder, Gas fuses metal parts together using welding rod and oxygen acetylene flame. Examines parts to be welded, cleans portion to be joined, holds them together by some suitable device and if necessary makes narrow groove to direct flow of molten metal to strengthen joint. Gas Cutter Gas Cutter; Flame Cutter cuts metal to required shape and size by gas flame either manually or by machine.
- 25. MECHANIC AUTO BODY PAINTING-** Painter, Spray/Painting Technician (Spray Painting) Painter Spray; Duco Painter applies decorative or protective materials such as paint, enamel or lacquer including synthetic paint on articles of wood, metal etc., using spray painting equipment. Selects and mixes paints to produce desired color consistency, strains and puts coating liquid into spray-gun tank, couples gun to air-hose and adjusts air pressure valves and nozzle. Presses trigger and direct spray of prime and finish coats of paint over surfaces and ensure smooth and even finish. Covers with tape areas not to be painted or where painting is to be done in second coloring. Cleans gun and hose with solvent before changing color and on completion of work. May prepare surfaces for painting, using scrapers, abrasives, chemical removers or other means. May be designated according to article coated or material used. Plan and organize assigned work and detect & resolve issues during execution in his own work area within defined limit. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English. Sensitive to environment, self-learning and productivity.
- 26. CARPENTER-** Carpenter, General makes, assembles, alters and repairs wooden structures and articles according to sample or drawing using hand or power tools or both. Studies drawing on sample to understand type of structure or article to be made and calculates quantity of timber required. Selects timber to suit requirements. Marks them to size using square, scribe etc. Saws, chisels and planes wooden pieces to required sizes and makes necessary joints such as half lap, Tenon mort ice, dove-tail etc. using saws, planes, mortising, chisels, drills and other carpentry hand or power tools as required. Checks parts frequently with square, foot rule, measuring tape etc. to ensure correctness. Assembles parts and secures them in position by screwing, nailing or dowsing. Checks assembled structure with drawing or sample; rectifies defects, if any, and finishes it to required specifications. Alters, repairs or replaces components in case of old structures or articles in similar manner. May glue parts together. May smoothen and finish surface with sand paper and polish. May fix metal fittings to structure and polish. May fix metal fittings to structure or article made. May calculate cost of furniture. May sharpen his own tools.
- 27. MECHANIC DIESEL-**Diesel engine fundamentals and power generation. The trainees have to participate in hands-on work and begin repairing diesel engine vehicles. Mechanic, Diesel Engine; Oil Engine, Fitter repairs services and overhauls diesel or oil engines for efficient performance as prime mover to drive machinery and equipment. Examine engine to locate defects, using various tools and instruments. Dismantles or partly dismantles it to remove damaged or worn out parts and

replaces or repairs them. Grinds valve and assembles parts, doing supplementary tooling and other functions as necessary to ensure accuracy of fit. Installs assembled or repaired engine in position and connects pulley or wheel to propulsion system. Starts engine, tunes it up and observes performance noting different meter readings such as temperature, fuel L, oil pressure, etc. and sets it to specified standard for optimum performance. Checks, adjusts and lubricates engine periodically and performs such other functions to keep engine in good working order. May solder or braze parts and service diesel fuel pumps and injectors. Additionally, since diesel engines are starting to incorporate electronic components, programs usually give students a chance to take courses in electrical systems and computer diagnostic software. Plan and organize assigned work and detect & resolve issues during execution in his own work area within defined limit. Demonstrate possible solutions and agree tasks within the team. Communicate with required clarity and understand technical English. Sensitive to environment, self-learning and productivity.

28. INTERIOR DESIGN & DECORATION - Planning designs, and furnishing interiors of residential, commercial, or industrial buildings. Interior designer understands civil requirements & offers clean & functional Interior designs. Makes sketches and diagrams or design keeping into consideration purpose, cost and preferences of client. Estimates material requirements and costs, and presents design to client for approval. Plans and designs interior environments also for boats, planes, buses, trains, and other enclosed spaces. Designers can use different interior software's for making plan & designs. Decorator; Decorators coordinate the architect & civil engineer. Decorator is executing the concept of designing of interior designer. They have to know management, time line part, material part, consult the designer regarding the fabrication, design the aesthetic part. Furniture Designer Furniture Designer designs furniture line or individual pieces for manufacture according to knowledge of design trends. Studies market trends and customer needs and discusses design suggestions with production management and trade channels. Design & execute suitable furniture as per anthropometrics in different materials.

29. PLUMBER - The trade broadly covers Basic Galvanized pipes Fitting, Cast iron pipes Fitting, PVC Pipe Fitting, SW Pipes Fitting, Water test, Pressure test, Smoke test, Ball test, Taps & Valves Fitting, Cutting / Threading / Bending / GI Pipes, Alkathene flanging / Jointing, Making service connections, Connecting house sewer to main, Fixing Sanitary Fixtures, Installing Water Pump, connecting supply pipe. Thus the trainees are prepared for employment with sanitary organizations, construction Industry and self-employment in both India & abroad.

30. MECHANIC TWO & THREE WHEELER -Mechanic, Motor Cycle after successful completion of the above course, the trainee shall be able to perform the following skills with proper sequence. Repairs, services and overhauls motorcycles, auto rickshaws, scooters; etc., to keep them roadworthy. Examine motor cycle or scooter to locate faults by running engine in stationary position or by driving it on road. Dismantle parts such as engine, ignition system, dynamo forks, shock absorbers, gear box etc., as necessary. Grinds valves, sets timings, relines brakes, re-bushes steering mechanism, replaces worn out parts, assembles gear box clutch etc. Performs other tasks to affect repair, cleans and sets carburetor, fits driving chain, wheels silencer, kick, gear, clutch and brake levers and other accessories. Adjusts control cables for brake, clutch and accelerator, sets tappets and wheel alignment, tightens loose parts and makes necessary fittings and connections.

31. WELDER - Welder while doing gas welding fuses metal parts together using welding rod and oxygen acetylene flame. Examines parts to be welded, cleans portion to be joined, holds them together by some suitable device and if necessary makes narrow groove to direct flow of molten metal to strengthen joint. Selects correct type and size of welding rod, nozzle etc. and tests welding, torch. Wears dark glasses and other protective devices while welding. Releases and regulates valves of oxygen and acetylene cylinders to control their flow into torch. Ignites torch and regulates flame gradually. Guides flame along joint and heat it to melting point, simultaneously melting welding rod and spreading molten metal along joint shape, size etc. and rectifies defects if any. Welder while doing Arc welding fuses metals using arc-welding power source and electrodes. Examines parts to

be welded, cleans them and sets joints together with clamps or any other suitable device Welder, operates spot welding machine to joint metal sheet by resistance welding method. Feeds metal sheets to be welded according to type of machine and welds them by pressing paddle, or by automatic arrangements. Welder while doing gas cutting, cuts metal to require shape and size by gas flame either manually or by machine. Welder while doing gas brazing, joints metal parts by heating using flux and filler rods. Cleans and fastens parts to be joined face to face by wire brush. Welder while doing Gas Tungsten Arc welding also known as Tungsten Inert Gas (TIG) welding reads fabrication drawing, examines parts to be welded, cleans them and sets joints with clamps or any other suitable device

- 32. MECHANIC AUTO ELECTRICAL & ELECTRONICS** - A course which covers all Electrical/Electronic related works in an automobile which broadly covers basic miscellaneous electrical equipment's& accessories of all type of vehicle Automobile, control system, power seats, power window system, heated windshield, electric door lock, lighting system, spark plug, ignition system cranking motor, alternator functioning system, sensor functioning, types of sensors, charging system, Alternator types, types of regulator, Alternator cooling, trouble diagnosis. The course has a good demand in the Automobile industry thereby giving advantage for either employment or self-employment.

ONE YEAR NON-ENGINEERING TRADES

- 33. COMPUTER HARDWARE & NETWORK MAINTANANCE** - Computer System Hardware Analyst/Hardware Engineer; analyses data processing requirements to plan data processing systems that provide system capabilities required for projected workloads and plans layout and installation of new system or modification of existing system. Confers with Data Processing and Project Managers to obtain information on limitations and capabilities of existing system and capabilities required for data processing projects and projected work load. Data Communication Analyst/Network Administrator; researches, tests, evaluates, and recommends data communications hardware and software: Identifies areas of operation which need upgraded equipment, such as modems, fiber optic cables and telephone wires. Conducts survey to determine user needs. Reads technical manuals and brochures to determine equipment which meets establishment requirements.
- 34. COMMERCIAL ART(SCVT DESIGNATED TRADE)** - The course aims at developing creative abilities, artistic skills and understanding of human psychology in respect of preparation of advertising designs and broadly covers basic design, letter inland typography, press layout, illustration, sketching, poster design and study of life, nature and objects. The trainees in Commercial Art can work as commercial artists/ visualizes in advertising agencies or in government organizations, as an Artist with a publishing/newspaper house and also as Art and Craft Teacher in teaching institutes. They can also work as Graphic Designer in TV and film industry and as an Artist in the computer field.
- 35. COMPUTER OPERATOR & PROGRAMMING ASSISTANT (COPA)** - Computer Operator operates computer and peripheral equipment to process business, scientific, engineering, or other data, according to operating instructions. Enters commands, using keyboard of computer terminal, and presses buttons and flips switches on computer and peripheral equipment, such as tape drive, printer, data communications equipment, and plotter, to integrate and operate equipment, following operating instructions and schedule. Loads peripheral equipment with selected materials, such as tapes and printer paper for operating runs, or oversees loading of peripheral equipment by Peripheral Equipment Operators. Enters commands to clear computer system and start operation, using keyboard of computer terminal. Observes peripheral equipment and error messages displayed on monitor of terminal to detect faulty output or machine stoppage. Enters commands to correct error or stoppage and resume operations.

Notifies supervisor of errors or equipment stoppage. Clears equipment at end of operating run and reviews schedule to determine next assignment. Records problems which occurred, such as down time, and actions taken. May answer telephone calls to assist computer users encountering problem. May assist workers in classifying, cataloguing, and maintaining tapes. Programming Assistant installs, maintains and updates computer programs by making minor changes and adjustments to them under the guidance of computing professionals. Maintains and updates documents of computer programs and installations. Applies knowledge of principles and practices in the area of programming and computing in order to identify and solve problems arising in the course of their work. They may receive guidance from managers or professionals. May supervise other workers also.

36. FOOD PRODUCTION (GENERAL) - Cook, Institutional; prepares, seasons and cooks soups, meats, vegetables, desserts and other foodstuff for consumption in hotels, restaurants and other establishments. Fries, boils, broils, roasts or steams vegetables, meats, fish and other food to prepare dishes listed on menu and prepare salads, sandwiches, cakes, fruit juices and other cold foods. Supervises dish washing and preparing of vegetables and other foodstuff for cooking. May specialize in preparing a particular cuisine such as Indian/Chinese/Continental or specialize in Grade manger/bakery and be designated accordingly. Cook, Domestic; prepares and cooks meals in private households. Plans menu according to own judgment or employer's instructions and prepares soup, salad, breads, lentil, vegetables and meats. Cook, Ship Cook, Ship on board ship. Plans menu taking account of foods in season and local availability. Cooks, Other; prepare special food or dishes in private households or public eating places and include cooks not elsewhere classified, such as SWEET MASTER plans and prepares general and special sweet dishes, in hotels, restaurants and other such establishments. DIET COOK prepares special diets for people under medical restriction. TEA AND COFFEE MAKER brews and prepares beverages like coffee and tea in hotels, clubs or similar establishments and ensures proper cleanliness of stall.

37. SEWING TECHNOLOGY - This course is meant for the candidates who aspire to become Sewing Machine operator, Assistant to Designer, Assistant worker in Boutique, Assistant to Sample Garment Designer and Assistant to Garment Sample Coordinator.

38. DESKTOP PUBLISHING OPERATOR - Desktop Publishing Operator lays out pages, selects size and style of type, and enters text and graphics into computer to produce printed materials, such as advertisements, brochures, newsletters, and forms, applying knowledge of graphic art techniques and typesetting and using computer: Reviews layout and customer order. Enters text into computer, using input device such as mouse, keyboard, scanner, or modem. Scans artwork, using optical scanner which changes image into computer-readable form. Enters commands to position text and illustrations on page grid of computer monitor. Creates spaces between letters, columns, and lines, applying knowledge of typesetting, and enters commands, using input device. Arranges page according to aesthetic standards, layout specifications of Graphic Designer, and applying knowledge of layout and computer software. Prints paper or film copies of completed material. May alter illustration to enlarge, reduce, or clarify image. May operate automatic film developer to process photographs. May assemble artwork into paste-up and perform key lining manually.

39. DIGITAL PHOTOGRAPHER - Digital Photographer takes photograph of persons, places, or other subjects, using various kinds of photographic equipment. Measures day light using exposing meter or arranges artificial lighting and holds or places camera at desired angle and distance from subject to be photographed. Focuses lens and adjusts lens opening and exposure time. Loads camera with film or plate. Presses lever to open lens shutter and exposes

film or plate by pressing lever, allowing time, if for publication. Supplies series of pictures on selected topics, for writing feature articles in magazines. May develop films and print copies. Photographers and Image and Sound Recording Equipment Operators, Other take photographs of persons, places and objects and record sound for different purposes and include Photographers, Image and Sound Recording Equipment Operators not elsewhere classified. Photographer News; or Press Photographer photographs news events, persons or objects for use in news-papers, magazines and other publications. Photographer, Aerial; photographs objects, places and areas of vital importance from aero planes in flight, for use in surveys, planning, development and other scientific and military purposes. Digital photographic institutions; it will provide the familiarization with the institution, its importance of trade training & professional use of Digital camera into different types of uses into variety of interests of the Govt. and public sectors.

40. FASHION DESIGN & TECHNOLOGY - Designer; Pattern Maker (Garments) develops, designs and makes pattern for new styles of men's, women's and children's garments. Studies existing styles, develops new ideas and draws out full scale drawing of garments on paper. Marks and cuts out paper patterns of different parts of garments. Gets cloth cut according to paper patterns and gets sample garment stitched as required. Tries garment on model and makes changes in pattern, if necessary. May make specifications and supervise production.

41. HEALTH SANITARY INSPECTOR - Sanitary Inspector; Health Assistant takes measures to maintain and improve standard of public health in the specified area. Inspects houses, shops, factories, entertainment places, bazars, drains, night soil depots, rubbish depots, latrines, burial and cremation ground, etc., and undertakes public health activities such as disinfections, anti-malarial and anti-epidemic measures. Inspects hotels, restaurants, etc. to ensure that food and edibles sold are fit for public consumption. Attends to complaints regarding sanitation. Reports outbreak of infectious diseases to authorities and takes preventive measures. Attends courts for prosecution of individuals violating sanitation and public health regulations and performs inoculation work. Controls and supervises work of Sanitary Darogas. May maintain accounts and correspondence compile figures of births and deaths in his jurisdiction and may investigate causes of death. May be designated as Disinfecting Inspector, Food Inspector, Slaughter House Inspector, Mosquito Inspector, etc. according to nature of work performed.

42. COSMETOLOGY-A Cosmetologist job role provides various types of beauty services, aware of the Beauty therapy, Health and hygiene, Safety & needs to be knowledgeable about beauty products. They must able to perform Basic Epilation, Manicure, Pedicure, Facial Treatments, Haircuts, Hair Styles, Hair Coloring, Straightening, Rebinding & Hair treatments. They are also able to demonstrate different types of makeup & basic corrective makeup. A cosmetologist must be able to perform and demonstrate Yogasana & Meditation in order to remain fit & active for long working hours as they have to work under pressure, be polite & patient. & recommend the asana to clients having common ailments. Demonstrate the operation of Beauty & Hair Equipment.

43. DRESS MAKING -This Trade broadly covers knowledge on stitching garments of male, Female & children both Indian & Western designs. Dress Maker stitches together parts of garments such as dresses, blouses, jumpers, brassieres, pant, coat, shirts etc., according to instructions of Master Cutter. Stitches together parts by hand and machine. Inserts inner material, makes embroidery work, button-holes, etc., and attaches lining, lace, button, etc. Carries out alteration as directed. May press garments and supervise work of Sewer, Hand.

- 44. STENOGRAPHY & SECRETARIAL ASSISTANT (ENGLISH/HINDI)** - Trade involves taking dictation in shorthand and reproduces it on paper using computer and performs various other clerical duties to assist superiors. Maintain a good mannerism and professional approach with the boss.
- 45. SECRETARIAL PRACTICE (ENGLISH)** -Perform routine clerical and administrative functions such as drafting correspondence, scheduling appointments, organizing and maintaining paper and electronic files, or providing information to callers.
- 46. FOOD AND BEVERAGES SERVICE ASSISTANT** -Steward, Hotel; supervises work of Dining Room Waiters Pantry Man and Room Service Waiter and ensures that guests are served promptly and courteously in dining room. Receives customers in dining hall and escorts them to tables and obtains orders from customers and ensures that food is served promptly by Waiters. Visits rooms, halls and other areas to ensure that they are kept clean and tidy. Ensures that glass, china and silver wares are in good order. Prepares dining halls for banquets and special occasions by decorating them with flower vases and arranging tables and chairs in pleasing fashions. Keeps record of any breakage of crockery or loss of cutlery. May keep kitchen equipment, crockery, cutlery etc., under his charge and issue them as needed. May purchase food supplies and kitchen equipment and check them for quality and quantity. May supervise storage and issue of supplies Waiter, Institutional/Food and Beverage Service-Steward: Bearer (Institutional) serves food, snacks, beverages to customers, guests in hotels, bars, and restaurants. Prepares table with clean linen, condiments containers, glasses, menu-card and obtains orders from customers Collects food, beverages, snacks etc., from kitchen according to customers' orders from Pantry Man and serves them. Waits on customers periodically for additional requirements, of food etc Removes used plates, cups, saucers from table and presents bill to customers and collects cash and hands it to Cashier. Is designated as WAITER (dining room) if employed in serving food in dining rooms and LOUNGE WAITER if engaged for serving beverages and snacks in lounge.
- 47. TEXTILE DESIGNING (SCVT DESIGNATED TRADE)** -The trade broadly covers the topics on different variety of fabrics and their structures, design, bleaching, dying, block printing, screen making & printing, traditional Indian designs and basic design of weaving etc. On successful completion, the trainees can be absorbed with leading garment manufactures, textile designers etc. in both India & abroad.
- 48. SURFACE ORNAMENTATION TECHNIQUES (EMBROIDERY)** - This course is meant for the candidates who aspire to become Tracing experts, Hand Embroider, Zig-Zag Machine Operator, Aari Embroider, Motif Maker, Entrepreneur & Design Coordinate to Fashion Designer.
- 49. IOT TECHNICIAN (SMART HEALTH CARE)**-IOT Technician (Smart Healthcare); tests electronic components and circuits to locate defects, using instruments such as oscilloscopes, signal generators, ammeters and voltmeters. Replaces defective components and performs basic/SMD soldering/de-soldering. Assembles tests and troubleshoot various digital circuits.
