Subject: Generic Technical Specifications for Laptop and Desktop Computer Systems.

Sir/Madam,

I am directed to address you on the subject cited above and to inform you that Government have observed that many Departments/Boards/Corporations/State Govt. organizations are facing issues while procuring Laptop and Desktop Computer Systems due to repeated launching/availability of new generation of processors and other electronic systems in the market. It has also been noticed that to meet the industry standards with current availability, various Government departments lack full knowledge with respect to specifications of multiple types of Brands and OEMs available in the laptop and desktop markets.

After careful consideration, State Government (IT Department) has drafted generic specifications for Laptop and Desktop Computer Systems taking into consideration multiple new generation processors and OEMs available to ensure maximum participation and healthy competition among potential bidders during any purchase processes. A copy of the statement showing Generic minimum technical specifications for Laptops and Desktop Computer Systems with latest configurations (for different categories) duly approved by the State Technical Committee is enclosed for reference.

Accordingly, all the State Departments/ Govt. organizations may consider these generic specifications and take further appropriate action in the matter.

Special Secretary, IT
For Principal Secretary to Government of Haryana
Citizen Resources Information Department (CRID)
