

NIC Delhi Rolls out Digital Platform for Delhi Lakshmi Yojana

<https://dly.delhi.gov.in>

The National Informatics Centre (NIC), Delhi State Centre, has successfully designed, developed, and deployed the digital platform for the **Delhi Lakshmi Yojana**, a flagship women-centric welfare initiative of the Government of NCT of Delhi. **The portal was officially launched by the Hon'ble Chief Minister of Delhi on 1st August 2026**, marking the commencement of online registrations under the scheme. The scheme will provide monthly financial assistance of ₹2,500 to eligible beneficiaries.

The portal significantly streamlines the implementation of the scheme by reducing manual intervention, minimizing processing time, and enhancing transparency at every stage of the application lifecycle. Applicants can conveniently submit applications online, upload supporting documents, and track the status of their requests in real time, while departmental officials benefit from an integrated workflow for faster scrutiny, verification, approval, and monitoring. Designed to handle high transaction volumes, the solution ensures reliability, security, and ease of access for applicants across Delhi.

NIC Delhi State Centre played a pivotal role throughout the project lifecycle—from requirements analysis and system design to development, testing, deployment, and post-launch technical support.

To ensure a smooth rollout of the Delhi Lakshmi Yojana, NIC Delhi State Centre conducted a comprehensive training programme prior to the launch for over 300 officials, including District Informatics Officers (DIOs) from all districts of Delhi and officials of the Department of Women and Child Development (WCD). The training outlines the portal's features, application workflow, and operational procedures, enabling them to effectively support citizens during the registration process. On the day of the launch, dedicated facilitation counters were established across all 13 districts of Delhi, where trained officials assisted beneficiaries in completing and submitting their applications, ensuring seamless registration and enhanced citizen service delivery from the very first day.

Hon'ble CM interacting and congratulating officers of NIC Delhi and WCD department, GNCTD on the successful launch of the portal.

The successful implementation of the Delhi Lakshmi Yojana portal was made possible through the dedicated efforts of the NIC Delhi State Centre project team. The project was executed under the guidance of **Sh. Nittal Srinivas, SIO Delhi** and was led by **Sh. Sandeep Jain, Scientist-F**, with valuable contributions from **Smt. Sakshi Huria, Scientist-D** and **Sh. Ankur Mandovra, Scientist -C**. Their

collective efforts and commitment were instrumental in delivering a robust, secure, and citizen-centric digital platform.

The overwhelming response to the Delhi Lakshmi Yojana portal reflects the success of its digital rollout. Within just two days of its launch, nearly **2 lakh women** had successfully registered through the portal, demonstrating both the scale of citizen participation and the platform's ability to handle high volumes of concurrent applications.
