### Most Important Points in Tariff

- 1 MOU Discount is applicable on approved credit amount, i.e. Payor's share and not on the full cost of treatment.
- 2 MOU Discounts are calculated after removing charges for Implant, Drugs, Medical Consumables, Blood bank, Equipment and outsourced services.
- 3 In case the Payor makes short payments, Max hospitals have the right to recover the balance money from the Patient.
- 4 The latest approval from Payor, before the discharge of patient shall be considered for preparing Payor's share of bill. Once the patient has left the hospital, any revised approval shall be considered null and invalid. Payor in such case shall be liable to pay as per the approval received before the discharge.
- 5 In case of rejection of cashless service by Payor, The Patient shall be treated as Walk-In patient and his/her bill shall be prepared as per prevailing tariff of hospital which is applicable for all Walk-In patients.
- 6 There shall be no discount on the prices of Govt regulated services and products like Blood Bank products covered under NACO, Drugs & Consumables covered under NPPA/DPCO/NLEM.
- 7 The hospital reserves the right to take deposit and hold it till the Payor makes payment to hospital. In case of short payment received from Payor, balance money shall be deducted from patient deposit and remaining money shall be refunded through cheque.
- 8 In case of expiry of MoU or agreed Tariff, billing shall automatically be done on prevailing tariff of hospital till MoU is again agreed with Payor.
- 9 Professional medical services like Intensivist fee, RMO fee, Nursing charges and Dietician Consultation are not part of room rent and hence shall be separately charged to patient.
- 10 If any services/items are not available in provided SOC (introduced after MOU) shall be charged as per prevailing tariff of the hospital.
- 11 **In case you have any concern on our billing terms and conditions, please inform our account manager within 7 working days of receipt of the tariff documents.**
- 12 **If NPPA impose maximum margin restriction on Drugs & Consumable, then all discounts shall be revoked (i.e. MOU discount, Drugs discount etc) from date of imposing maximum margin.**
