Outcome:

After completion of this Continuing Rehabilitation Programme the participants are clear on:

- Meaning & Definition of Research
- Types of Research
- Components of a Research Proposal
- Qualitative Research in Disability
- Inferential Research
- Technology in Research
- Reference & Bibliography
- Case Studies in Research with respect to disability
- Action Research

Evaluation of the Participants:

As per RCI's guidelines, evaluation is one of the most important components. So, all participants were evaluated after each and every technical session. They all obtained 70 percent passing marks in the first or second attempt. (Copy of excel sheets are attached for reference).

Feedback of Participants:

Participants were happy with this program. According to feedback given by most of the participants, selection of topic was very useful and it will help them.
