Action by: PFMS

.....

Proposed Protocol for CSS to capture payments to NGOs:

NITI Aayog/ Dept of Expenditure needs to issue clear instructions to ensure that if NGO is going to get funds from Center Govt/State Govt, that **NGO must be registered in NGO DARPAN Portal and obtain DARPAN ID.**

NITI Aayog/ Dept of Expenditure needs to issue clear instructions to ensure that if NGO is going to get funds from Center Govt/State Govt, that NGO must be registered in PFMS as **NGO type agency**

PFMS will make capturing of NGO Darpan ID mandatory in agency registration process for CSS type schemes.

PFMS will share the details of NGO type agencies with State Treasuries through API providing critical attributes like Bank Account Details , Agency Name, NGO Darpan ID etc.

While doing fund release to NGO's, State treasuries needs to ensure that they have already received Agency Details along with NGO Darpan ID from PFMS.

It needs to be ensured that State Treasuries release funds to NGO type agencies in the same bank account which is registered in PFMS for that particular agency.

While sharing data of releases to PFMS through integration, State Treasuries need to share the PFMS agency code of NGO also.

Releases made to NGO Type agencies through EAT module will automatically get captured if the agency is registered in PFMS with NGO Darpan ID.

Above process will enable capturing of releases to NGO's by State Treasuries as well as through PFMS EAT module.

PFMS will share the release details captured as above with NGO Darpan Portal through the existing API integration.

Broad Actions to be initiated by all concerned for implementation

- (1) While registration system may cover all the NGOs irrespective of the system followed by them for incorporation/registration, the financial management system may cover only those grants that are released to them by various Ministries/Departments.
- (2) SOPs for registration of NGOs may be suitably incorporated in the procedures of FCRA, 80G and CSR systems in consultation with their respective Ministries/Departments.
- (3) Requisite decision support systems covering aspects like performance parameters, preventing duplication and misuse, overall consistency in penal processes, genuineness of NGOs etc. may be developed and integrated within the overall work flow of the Ministries/Departments concerned.
- (4) Grant management system may be suitably integrated with PFMS rather than becoming a stand-alone system. It may cover the entire life cycle of projects. Both Central and Centrally Sponsored Schemes may be covered. Since PFMS is currently not mandatory for CSS up to the last point of expenditure, therefore appropriate reporting system may be evolved for this purpose.
- (5) Both (3) and (4) above may take into account specific procedural requirements of different Ministries/Departments and such other nuances.
- (6) The mechanism to monitor effective and efficient use of funds may use suitable technology tools like GIS, data analytics, AI etc. and may be able to generate all the required MIS for multi-level reviews.
