Question Type: UNSTARRED

Private Investments in Nuclear Power Projects

Will the Prime Minister be pleased to state that:

- (a) the current status of the private investments sought for nuclear power projects;
- (b) the specific measures being taken to attract private sector participation in nuclear power, including regulatory and policy changes to facilitate these investments;
- (c) the steps the Government proposes or planning to propose to address safety and environmental concerns associated with increased private investments in nuclear power projects;
- (d) whether the Government has conducted a risk analysis of the economic and energy security risks expected from such significant private sector involvement in nuclear power generation; and
- (e) if yes, details thereof and if not, the reasons therefor?
