Yes To Access Mobile Application

About this app

Yes To Access is your ultimate accessibility evaluation tool, designed to create more inclusive public spaces for everyone, including individuals with disabilities. Whether you are a facility manager, accessibility advocate, or just someone passionate about promoting inclusive design, this app helps you assess public spaces and facilities to ensure they meet the necessary accessibility standards.

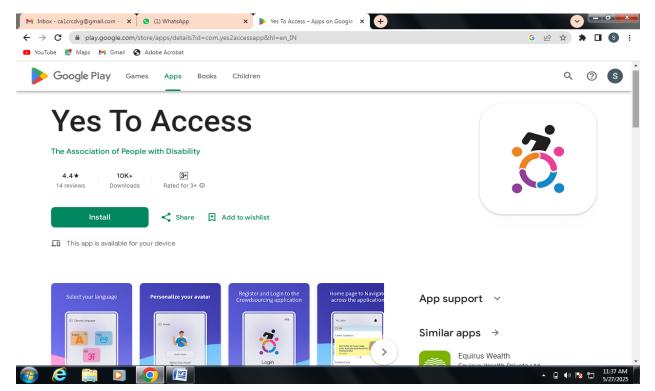

To conduct an accessibility audit using the Yes to Access (YTA) app:

Detailed Steps:

 Download and Install: Obtain the Yes to Access app from either the Google Play Store or Apple App Store. Google link Yes to Access app :

- 6. **Capture Images:** Use the app's camera feature to take pictures of the specific features you want to evaluate, such as toilets, pathways, or signage.
- 7. **Complete Checkboxes and Ratings:** After capturing an image, the app will prompt you to complete checkboxes and ratings related to accessibility features, such as:
- **Toilet:** Check for obstructions, types of doors, and the presence of internal support.
- **Signage:** Check for clear and directional signage.
- **Traction:** Rate the grip of the pathway from 1 to 4.
 - 9. Add Image: Add the captured image to the audit report.

- **10. Explore Map Feature:** Use the map feature to visualize your audit results and identify areas for improvement.
- **11. Share Findings:** Share your accessibility audit results with others.

By following these steps, you can effectively use the Yes to Access app to conduct accessibility audits and contribute to a more inclusive and barrier-free environment.
