INTRODUCTION

Government Industrial Training Institutes (ITIs) in Chhattisgarh play a vital role in equipping youth with industry-relevant technical skills. Established and managed by the Department of Skill Development, Technical Education and Employment, these institutes aim to provide vocational education and hands-on training to enhance employment opportunities for students, especially from rural and underprivileged backgrounds.

After the formation of the state in the year 2000, Chhattisgarh prioritized skill development as a key driver for socio-economic growth. Today, over 100 government ITIs are operational across the state, including in remote and tribal areas, ensuring widespread access to technical education.
