(डॉ. मनोहर देवरे)

सहाय्यक आयुक्त पशुसंवर्धन
मध्यवर्ती अंडी उबवणी केंद्र, पडेगाव,
छत्रपती संभाजीनगर

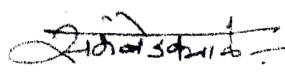

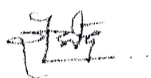

4. Central Hatchery

Specification for Single setter with 15000 egg capacity:-

- the incubator body is made up of laminated phylum sheet, highly durable, reinforced, water proof and oil proof.
- Stainless inner mechanism. High density thermocole for better insulation and aluminium channels for long life.
- Air route-perfect laminar flow forced ventilation with unique fan. Adjustable air ventilation for air current control.
- Digital temperature and humidity controllers with electronic sensor and digital display (accurate to +/- 1%).
- Fully automatic egg turning setter trays. Specially designed (ABS material). Inside light with on-off button in panel.
- Water pan with humidification with solenoid valve control. Wet bulb thermometer in door window.
- Cooling coils & primary & secondary heaters.

Additional specification for Single setter with 15000 egg capacity:-

Egg capacity	:- 15000 eggs
Egg turner	:- Automatic.
Inner material	:- HPL sheets.
Outer material	:- HPL sheets.
Dimensions (L X B X H)	:- 72 X 93 X 82 inch.
Body frame	:- 304 type stainless steel.
Automation Grade	:- Automatic.
Equipement:-	Incubation.
Bird type	:-Chicken
Hatching rate	:- 96-99%.
Power	:- 2.5 kw.
Usage	:- Poultry farm.
Temperature control	:- Automatic.(RTD temp sensors which are accurate within range of plus/ minus 0.2 degreefaranite)
Humidity control	:- Automatic.
Egg type	:- Hen.
Frequency	:-50/60 Hz.
Phase	:- Single phase.
Condition	:- new.
Country of origine:-	made in india.

2. specification for Hatcher – capacity 10000 chicken eggs/ hatcher:-

- a. The incubator body is made up of laminated phylum sheet, highly durable, reinforced water proof and oil proof.
- b. Stainless inner mechanism. High density thermocole for better insulation and aluminium channels for long life.
- c. Air route-perfect laminar flow forced ventilation with unique fan. Adjustable air ventilation for air current control.
- d. Digital temperature and humidity controllers with electronicsensor and digital display (accurate to +/- 1%).
- e. Hatcher basket specially designed (with PP/CP) material. Double glazed window in door with sight inside light with on-off button in panel.
- f. Water pan with humidification with solenoid valve control. Wet bulb thermometer in door window.
- g. Cooling coils & primary & secondary heaters.
