1. About Department

1.1 Introduction- Rural Water Supply Department Zilla Parishad Thane.

1.2 Vision and Mission- The Rural Water Supply Department is one of the total 14 divisions of the Thane Zilla Parishad. The Executive Engineer is the head of the department.

Under the Jal Jeevan Mission program through the Rural Water Supply Department, tap water supply schemes, repair of tap water supply scheme, repairing simple well, taking a new dirt well, a small tap water supply scheme through electric pump/solar pump, implementing scarcity programs.

1.3 Objectives & Functions -

1. Under the Jal Jeevan Mission Program, Har Home Water Scheme. From 2009-2010, the National Rural Drinking Water Program, which is a central government-sponsored rally, was re-established in the Water Life Mission. All families in the rural areas have a goal to supply water like water till 2025 as per the water (FHTC-Furnal Household Tap connection). Until 2025, the main entrepreneur of the water life mission is to supply at least 55 per day, at least 55 per day by individual taps in every household in the rural areas of the state.

Planning criteria -

- 1) Every house in the village is 55 l. Supply of pure water through the tap of the man.
- 2) Pure water supply to every government offices in the village, schools.
- 3) Planning from this emergence by developing that the population of 30 years is
sufficient to the population Plan.

2. Mechanical subdivision

The functioning of the mechanical department is involved in the following tasks.

Managing work

1. To take a new Bor well under the scarcity as well as tribal deployment, MLA and MP funds and installing hand pumps.
 2. Maintenance and repair by contracting with the gram panchayat of the existing wells.
 3. To make a small NP -PP based on electric pumps and solar pumps.
 4. To update the information of the hand pumps and the recovery of the recovery and actually recover.
- ### 3. Lift Irrigation Scheme

As the tribal area is generally hilly and falls in the catchment area above the dam, sub-irrigation is provided by the government at 100% cost to the tribal farmers to get the benefit of irrigation water from the dam. Plans are implemented.

Technical task

1. To repair the wells under the Gram Panchayats who have been contracted through the maintenance repair team.
2. Flushing the wells.
3. Surveying by the demands of the Gram Panchayats, to make small NPs through electric pumps and solar pumps from Vindhan wells for small fences.
4. To take a new ditch well

Maintenance repair Desk

Under the Government decision of March 4, 2011, a maintenance repair room has been set up under the Rural Water Supply Department. The maintenance repair room is involved under the function of the room.

Managing work

1. To keep the information of water supply schemes throughout the district
2. To review the cost of gram panchayat -wise water belt and maintenance repair costs
3. Guidance to the Gram Panchayats on the reduction of electricity consumption
4. To take appropriate measures to increase the connection for the supply of domestic tap water and look at the fact that the beneficiaries are being supplied with regular and proper pressure.
5. To take immediate action to resolve the grievances of the beneficiaries.
6. Maintenance and repair of regional tap water supply scheme.

7. Repairing a faucet water supply scheme under a water scarcity program, supplementary planning.

Technical Desk

1. Training on immediate action to be taken to the concerned Gram Panchayats in the water supply schemes and emergency conditions.
2. To suggest a preventive measures planning so that the water supply scheme should not be closed.
3. Although the beneficiaries do not take advantage of the water schemes, the maintenance repair room will continue to look into the scheme.
4. To look into the fact that the materials fixed according to the required standard for the construction of the schemes will be used.

Financial functioning

1. Gram Panchayat wise annual expenditure statistics etc. Info
2. To pay attention to the proposal for incentive grants will be sent to the government over time
3. The cost of maintenance of the plans to the maintenance of the maintenance repair fund.
