Note: This RLMM list has been prepared with the available documents / information furnished by the wind turbine manufacturers for the wind turbine models being manufactured by them. State Electricity Boards, TRANSCOs, State Nodal Agencies, Developers and any party referring this RLMM list shall verify complete type approval / certificate of the models listed above including ISO certificate for verification of validity period, detailed specifications, power curve and all the other relevant information including its legal implications. Also refer the renewed Type Certificate / ISO certificate for the validity period above than the period mentioned.

\*WTG model can operate with Power output upto 2.2 MW under Enhanced Performance mode as per the Type Certificate.

\*\* The validity of type certificate is restricted to the expiry date of Component certificate i.e. 20.09.2022

\$ Only ABB make generator and ABB make converter shall be used

\$\$ M/s. Regen Powertech Pvt. Ltd. is undergoing the Corporate Insolvency Resolution Process (CIRP)

##As per information provided by M/s. Servion Wind Technology Pvt. Ltd., Servion GmbH, Germany has filed for debtor-in-possession (d.i.p.) proceedings on 9 April 2019, in accordance with laws of Germany

#Only ELIN (model no. HRL-071 Z06) and Siemens AG (model no. DFIG-JPRA-630LR-06A) generators shall be used

\$\$\$ The validity of type certificate is restricted to the expiry date of Component certificate i.e. 25.08.2024

\*\*\* The wind turbine model can operate at the rated power range 2.0-2.2 MW depending upon de-rating strategy

! The power curve of 'SG 3.4-145' wind turbine model having rated power of 3.465 MW was used for type certification of 'SG 3.6-145' wind turbine model.

!! Only SGRE (type: CR33-6P) make generator shall be used.

!!! The validity of the Type Certificate is restricted to the expiry date of the Component certificate i.e. 26.03.2025

#### The geographical altitude of the erection site shall be less than 1000m above sea level for this turbine model.

% The validity of type certificate is restricted to the expiry date of Component certificate i.e. 05.11.2024. In case of blades manufactured by an alternate vendor viz., M/s R/a Blades S.A are used, only 10 sets of blades (SL Nos. RB002 to RB031) included in the type certificate shall only be used

%% The validity of type certificate is restricted to the expiry date of Component certificate i.e. 22.01.2024

Disclaimer: Inclusion of any wind turbine manufacturer and wind turbine model in RLMM list is based on the documents and information furnished by the respective company and it does not amount to certification or recommendation in any manner including suitability, usability etc., of the wind turbine models included in the list. Nevertheless, MNRE shall in no way be responsible or liable for any consequences including technical, commercial, operational, environmental and legal implications that may arise due to the usage of the list by any party at any time. The responsibility for the usage, verification of complete documents and consequences thereof lies entirely with the user.
