### **3. Terms & Conditions**

- 3.1. Definitions:** the contract document consists of the agreement, the special and general conditions of the contract, specifications and bills of quantities.
- (a) The site: shall mean the site of contract work at Sardar Swaran Singh National Institute of Renewable Energy, Kapurthala, Punjab
  - (b) Sub-Contractor: includes those who have a direct contract with the CONTRACTOR.
  - (c) Owner: Director General, Sardar Swaran Singh National Institute of Renewable Energy, Kapurthala, Punjab.
  - (d) Work: the term “work” includes both labour and material of the CONTRACTOR/Sub-Contractor.
  - (e) Law: Law of the place of work shall govern the construction under this contract.
  - (f) Contract documents: shall consist of the following: Articles of agreement, General and special conditions of contract, technical specifications and Bills of quantities
- 3.2.** On the award of any work order under this work, the contractor shall immediately proceed with the preparation of drawing according to the work order to be carried out. Two sets of such working drawings including make of all items shall be submitted to the institute for its approval to ensure that work will be carried out in accordance with specification and proposed drawing including such changes as may have been mutually agreed upon. All the drawing shall be received by the In-Charge for his approval within 07 days of award of work. Also, the contractor must furnish detailed bar chart showing the various activity w.r.t. time and must organize co-ordination meeting at the site to review the progress of work.
- 3.3.** Time is the essence of the contract. The time allowed for the work shall be strictly followed otherwise the Contractor shall be liable to pay compensation at the rate of 0.2 % of the ordered value of the work per day of delay on the part of the contractor subject to a maximum of 5 % of the total ordered value. The decision of the institute about the delay shall final and binding.
- 3.4.** If the contractor after award of work fails to deliver any item / part of the work within the time period allowed, institute reserves the right to remove that particular component from the scope of main contractor and get it done through some alternative resources at the cost of main contractor.
- 3.5.** All work under or in course of execution or being executed in pursuance of the contract shall at all times be open to inspection and supervision by the institute and his authorized subordinates, and the Contractor shall at all times during the usual working hours, and at all other times at which reasonable notice of the intention of the In-charge or his subordinate to visit the works shall have been given to the contractor, either himself be present to receive

order and instructions, or have a responsible agent duly accredited in writing, present for that purpose. Order given to the contractor's agent shall be considered to have the same force as if the same had been given to the Contractor himself.

- 3.6.** Institute and/or its nominated representative(s) will, inspect and/or test the work / material to confirm their conformity to the tender specification at no extra cost to the Institute. The Inspection Authority to be designated by the Institute shall specify what inspections and tests are required and where they are to be conducted. The Institute shall notify the contractor in writing in a timely manner of the identity of any representatives retained for this purpose. All work / material shall be tested as stipulated in the latest specification of, Govt. /institutes.
- 3.7.** The inspections and tests may be conducted on the premises of the tenderer or its subcontractor(s) or at the point of delivery. If conducted on the premises of the tenderer or its subcontractor(s), all reasonable facilities and assistance, including access to drawings and production data shall be furnished to the Inspectors at no charge to the institute.
- 3.8.** The representative of institute shall inspect or test the items, which fail to conform to the specifications. The institute may reject such items and the tenderer shall replace the rejected items, at no cost to the institute, within a stipulated time period.
- 3.9.** The Institute's right to inspect, test and where necessary, reject the items after its arrival at the final destination shall in no way be limited or waived by reason of the items having previously been inspected, tested and passed by the institute or its representatives.
- 3.10.** No payment shall be made for rejected items. Rejected items must be removed by the contractor within one weeks of the date of rejection at their own cost and replace immediately. In case these are not removed, these will be auctioned at the risk and responsibility of the contractor without any further notice.
- 3.11.** All materials and work, whether at the site or in the contractor's /Sub-Contractor's premises shall be subject to inspection and test by the Director General (or authorized representative). Any materials, equipment, etc. brought to the site and found to be not satisfactory in accordance with the agreement, shall be rejected by the Director General (or authorized representative) and the contractor shall remove the materials from the site within the period specified. The contractor shall take adequate steps to rectify the defects or to replace such materials and work which have failed during inspection /testing. The contractor shall not be entitled to any extension of time or extra cost for rejection as per above.
- 3.12.** In the case of extra item(s) (items that are completely new, and are in addition to the items contained in the contract), the contractor will submit rates, supported by rate analysis, for the work and the Director General after giving consideration to the analysis of the rates

submitted by the contractor, will determine the rates on the basis of the market rates and the contractor shall be paid in accordance with the rates so determined.

- 3.13.** The work shall be carried out as per specifications in the Tender schedule/ latest C.P.W.D./DSR Specifications and IS code, along with the correction slips; issued up to date of acceptance of Tender in case of doubt the decision of the Engineer/ designated authority or committee of the Institute shall be final and binding on the CONTRACTOR.
- 3.14.** The work shall be carried out in accordance with the phasing plan approved by the institute authorities to avoid disturbance to the normal working of the Institute. The CONTRACTOR will prepare and submit a Phasing Plan of all work activities with targeted dates of completion for all the work activities and get it approved from the institute authorities.
- 3.15.** The work is required to be completed within a period of 90 days from issue of work order. No labor or material rate escalation claims will be entertained from the CONTRACTOR in case of any delay of work.
- 3.16.** The contractor shall have to remove all waste (Melba) and other unwanted material from site of work before handing over the installation to the institute. The work shall not be treated as complete in all respects unless these requirements are fulfilled by him. In the event of contractor failing to do so, the institute shall have right to get the site cleared at the cost of contractor.
- 3.17.** Institute shall provide power & water at one point for the proper execution of the work free of cost under normal circumstances if available at site.
- 3.18.** CONTRACTOR are advised to inspect and examine the site and the surroundings and satisfy themselves before submitting their Tender as to the nature of the work (so far as practicable), the form and the nature of the site, the means of access to the site, the accommodation they may require and in general shall themselves obtain necessary information as to the risks, contingencies and other circumstances which may influence or affect their Tender. CONTRACTOR shall be deemed to have full knowledge of the site, whether he inspects it or not and no extra charge consequent to any misunderstanding or otherwise shall be allowed.
- 3.19.** The CONTRACTOR shall be responsible for any damage to the equipment or structures, injury to the personnel during the progress of the work and he shall be liable to pay compensation as may be decided by the Director or his authorized representative in respect of such damages /injuries.
- 3.20.** Schedules of quantities given in the contract bill are provisional and are meant to indicate the intent of the work and to provide a uniform basis for the contract. The Owner reserves the right to increase or decrease any of the quantities or to totally omit any of them.

CONTRACTOR shall be bound to carry out the same without claiming any extras.

- 3.21.** The serviceable materials out of the dismantled materials, if any, will be the property of the institute and properly stacked by the CONTRACTOR as directed by the institute. Decision of Director General or his authorized representative on the serviceability of the dismantled materials shall be final and binding on the CONTRACTOR.
- 3.22.** All labor employed by the Contractor shall be covered by the workman's compensation act. Any death, injury or mishap to the workmen of the Contractor will entirely be the Contractor's responsibility and the institute, shall not be liable to pay any damages for the same.
- 3.23.** Contractor shall take adequate safety precautions to avoid any accident etc. at site. He shall erect proper barricades, sign boards, lights, etc. shall provide safety belts, safety shoes, head gears (all I.S.I standard) and shall be fully responsible for any criminal & civil liabilities. All safety arrangements are to be made by contractor at his own cost.
- 3.24.** The rates quoted in the tender shall include all charges for clearing of site before commencement and after completion, necessary scaffolding equipment, storage sheds, security and safety as well as working on all days including Sunday and holidays, protection of the public and safety of adjacent roads, walls, houses and buildings etc. The contractor shall take down and remove any or all such scaffolding, etc. as occasion shall require or when ordered to do so and fully reinstate all things disturbed during the execution of the work to the satisfaction of the institute.
- 3.25.** Director General, Sardar Swaran Singh National Institute of Bio-Energy reserves the right to decrease the items of work, change the specifications of works or remove the entire section of work as may be deemed necessary to finish the works within the available budget.
- 3.26.** Whether specified elsewhere in the Agreement or not, the contractor shall provide all materials (including steel and cement unless specifically spelt out in the agreement otherwise), labours of every description, energy and water and all tools, tackles, plant and transport necessary for proper execution of the work to the entire satisfaction of the owner.
- 3.27.** Taxes: Service tax, purchase tax, turnover tax, income tax or any other tax applicable in respect of this contract shall be payable by the Contractor and SSS-NIBE will not entertain any claim whatsoever in respect of the same except GST.
- 3.28.** The Contractor shall, in respect of labour employed by him either directly or through subcontractors, comply with or cause to be complied with the following statutory provisions and rules and in regard to all matters provided therein and any other law or modifications made there under from time to time.
  - (a) The Contract Labour (Regulation & Abolition) Act 1970

- (b) The Minimum Wages Act 1948 and related Central Rules.
  - (c) The Payment of Wages Act 1936 and related Central Rules.
  - (d) The Employee's Provident Fund & Miscellaneous Provisions Act 1952.
  - (e) The Employees State Insurance Act 1948.
  - (f) The Workmen Compensation Act 1923.
  - (g) The Industrial Disputes Act 1947.
  - (h) The payment of bonus act 1965
- 3.29.** If the Contract work or any portion thereof, at any time, is found to be defective or fails to fulfill the requirements of the agreement, the Director General shall give the contractor notice in writing setting forth of such defects or failure and the contractor shall forthwith make good the defects or replace or alter the same to make it comply with the requirements of the agreement.
- 3.30. Maintenance guarantee / Defects liability period:** Maintenance Guarantee period will be one year from the actual date of completion and handing over to the OWNER.
- (a) The CONTRACTOR guarantees that within the maintenance guarantee period, the contract work shall not show any signs of defects, cracks, settlements, disfigurations, shrinkage, leakage, dampness or any other defects.
  - (b) The CONTRACTOR shall maintain and satisfactorily execute, at his own cost, all such works of repair, amendment, re-construction, rectification, replacement and any other work to make good the faulty work as stated in Article (a) during the maintenance guarantee period.
  - (c) At the end of the maintenance guarantee period, the CONTRACTOR, along with Director General (or authorized representative) shall carry out final inspection of the contract work to prove that no defects had appeared or that all defects which appeared in the contract work have been rectified to the entire satisfaction of the Institute. If during the final inspection it is found that the defects still remain in the contract work, the period of maintenance guarantee shall be extended at the discretion of the Institute and the CONTRACTOR shall be liable to make good the defects and be responsible for the maintenance of the work till the defects have been fully rectified.
  - (d) Upon successful completion of the maintenance guarantee period the Director General shall issue final acceptance certificate to the CONTRACTOR
- 3.31.** The Institute may withhold or on account of subsequently discovered evidence nullify the whole or part of any certificate to such an extent as may be necessary in his reasonable opinion to protect the Owner from loss, for defective work, non- payment to Subcontractors, or other claims connected to this work.
- 3.32.** The Contractor shall indemnify the Owner against any liability, loss, claim or proceedings

whatsoever arising under any statutory or common law in respect of personal injury to or the death of any person, whomsoever arising out of or in the course of or caused by carrying out the work.

**3.33.** Contractor shall not employ child labour under 18 years of age and if female workers are employed, he should make provision for safeguarding the small children to keep them clear of the site. All labour shall wear proper safety gear to protect them from any head injury.

**3.34.** In respect of all labour directly or indirectly employed in the work for the performance of the contractor's part of this contract, the contractor shall at his own expense arrange for the safety provisions as per C.P.W.D. Safety Code framed from time to time and shall at his own expense provide for all facilities in connection therewith.

**3.35. Force majeure:** In the event of either party being rendered unable by Force Majeure to perform any obligation required to be performed by them under the contract, the relative obligation of the party affected by such Force Majeure shall be suspended for the period during which such cause lasts.

The term "Force Majeure" as employed herein shall mean acts of God, War, Civil Riots, Fire affecting the performance of the Contract, Flood and Acts and Regulations of respective government of the two parties, namely Sardar Swaran Singh National Institute of Bio-Energy, Kapurthala and the Contractor.

**3.36.** Upon the occurrence of such cause and upon its termination, the party alleging that it has been rendered unable as aforesaid thereby, shall notify the other party in writing, the beginning of the cause amounting to Force Majeure as also the ending of the said clause by giving notice to the other party within 72 hours of the ending of the cause respectively. If deliveries are suspended by Force Majeure conditions lasting for more than 2 (two) months, Sardar Swaran Singh National Institute of Bioenergy, Kapurthala shall have the option of cancelling this contract in whole or part at its discretion without any liability at its part. Time for performance of the relative obligation suspended by Force Majeure shall then stand extended by the period for which such cause lasts.

**3.37. Arbitration:** All matters connected with this shall be governed by the Indian law both substantive and procedural, for the time being in force and shall be subject to the exclusive jurisdiction of Indian Courts at Punjab. In case of dispute, the difference of opinion on any matter pertaining to the works, the decision of the Director General / Institute shall be final and binding on the contractors and the owners. If either party is not satisfied with the decision, within 28 days, a notice to this effect will be sent to the Institute in writing. Decision of Director General, Sardar Swaran Singh National Institute of Bio-Energy, Kapurthala shall be final and binding in this regard.

#### **4. Instructions for bid submission:**

- 4.1. “Technical Bid” shall comprise of all documents as per Annexure-I (Performa for Technical Bid) and Tender Clause 2 (Eligibility Criteria), and undertaking of blacklisting (Annexure IV)
- 4.2. Each page of tender document must be numbered and signed by the bidders with rubber stamp of the firm affixed on each and every page.
- 4.3. Payments to the contractor shall be made as per the Clause – 7 & 9 of the CPWD updated General Conditions of Contract. The EMD amount will be retained by the Institute as performance security deposit for one year.
- 4.4. The rates quoted in the BoQ will be valid for a minimum 90 days from the date of financial bid opening.
- 4.5. Bids shall be submitted at the institute. Bidders shall submit their bids well before the bid submission end date & time (as per Server System Clock). Bidder will be solely responsible for any delay due to any issues.
- 4.6. Downloaded tender documents, including annexure and templates should not be tampered/modified in any manner. If the same is found, the tender will be completely rejected, EMD would be forfeited and the bidder will be blacklisted.
- 4.7. Intending bidders are advised to visit the Institute website [www.nibe.res.in](http://www.nibe.res.in), [www.mnre.gov.in](http://www.mnre.gov.in) and CPP Portal <https://eprocure.gov.in/eprocure/app> on regular basis, and at least 3 days prior to closing date of submission of tender for any corrigendum / addendum/ amendment at any stage.
- 4.8. SSS-NIBEReserves right to accept or reject any or all tenders without assigning any reason and also to change/relax any of the terms and conditions of the tender.

#### **5. Opening of bids and evaluation**

- 5.1. Opening and Evaluation of Technical bid
  - 5.1.1. The Technical Bid will be opened on stipulated date and time. In case the date of technical bid opening is declared a holiday, the bids will be opened on the next working day at the same time.
  - 5.1.2. Evaluation of technical bid will be done by the technical committee constituted by the Director General, and shall comprise assessment of all documents as per Annexure-I and Tender Clause 2 (Eligibility Criteria).
  - 5.1.3. The Technical committee will conduct antecedent verification of the provisionally qualified agencies. The agency will have to produce all the technical bid documents in original to the Technical Committee, if required. The Committee may also decide to visit/inspect the offices and as well as the sites of the eligible agencies for verification of antecedents.

**5.1.4.** Bidder can send their representations to the Director General, SSS-NIBE, Kapurthala on the email ID sss.nibe@nibe.res.in.in within 24 hours following update of evaluation status i.e. reject/accept bids. The Committee decision on representation will be considered final. Representations beyond the stipulated time period will not be entertained. Representation sent on any other email address or received from other mode/source will not be entertained/considered.

## **5.2. Rejection of Technical bid**

The technical bids submitted shall become invalid/be rejected in case of the following:

**5.2.1.** The bidder does not fulfill Minimum Eligibility Criteria as per the tender document and Technical Bid Annexure-I.

**5.2.2.** The bidder has not submitted and submitted requisite documents, certificates, EMD, Annexure in tender format etc.

**5.2.3.** The documents/Certificates/Registrations are found not valid at the last date of submission.

CUM	286.85	174.28	49992.22
2.	4.1.10	1:5:10 (1 cement : 5 coarse sand 10 graded stone aggregate 40 mm nominal size)	CUM	6050.65	34.06	206085.14
3.	6.1.2	Brick work with common burnt clay F.P.S. (non modular) bricks of class designation 7.5 in foundation and plinth in: Cement mortar 1:6 (1 cement : 6 coarse sand)	CUM	6658.25	18.70	124509.28
4.	6.31.2	Brick work with common burnt clay machine moulded perforated modular bricks of class designation 12.5 conforming to IS : 2222 in exposed brick work including making horizontal and vertical grooves 10 mm wide 12mm deep complete in cement mortar 1:6 (1 cement : 6 coarse sand). Above plinth level upto floor V level	CUM	7870.35	37.36	294036.28
5.	5.1.3	Providing and laying in position specified grade of reinforced cement concrete, excluding the cost of centering, shuttering, finishing and reinforcement - All work up to plinth level :1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20 mm nominal size)	CUM	7945.65	14.38	114258.45
6.	5.3	Reinforced cement concrete work in beams, suspended floors, roofs having slope up to 15° landings, balconies, shelves, chajjas, lintels, bands, plain window sills, staircases and spiral stair cases above plinth level up to floor five level, excluding the cost of centering, shuttering, finishing and reinforcement with 1:1.5:3 (1 cement: 1.5 coarse sand (zone-III): 3 graded stone aggregate 20 mm nominal size).	CUM	10719.30	10.47	112231.07
7.	5.22.1	Steel reinforcement for R.C.C. work including straightening, cutting,	Kg	88.95	2314.87	205907.69
8.	10.5.2	Providing and fixing 1mm thick M.S. sheet door with frame of 40x40x6 mm angle iron and 3 mm M.S. gusset plates at the junctions and corners, all necessary fittings complete, including applying a priming coat of approved steel primer. 10.5.1 Using M.S. angles 40x40x6 mm for diagonal braces.	SQM	4615.15	10.20	47074.53

9.	10.16.2	Steel work in built up tubular (round, square or rectangular hollow tubes etc.) trusses etc., including cutting, hoisting, fixing in position and applying a priming coat of approved steel primer, including welding and bolted with special shaped washers etc. complete. Hot finished seamless type tubes	Kg	168.95	1316.09	222353.41
10.	12.1.1	Providing corrugated G.S. sheet roofing including vertical / curved surface fixed with polymer coated J or L hooks, bolts and nuts 8 mm diameter with bitumen and G.I. limpet washers or with G.I. limpet washers filled with white lead, including a coat of approved steel primer and two coats of approved paint on overlapping of sheets complete (up to any pitch in horizontal/ vertical or curved surfaces), excluding the cost of purlins, rafters and trusses and including cutting to size and shape wherever required 1.00 mm thick with zinc coating not less than 275 gm/m <sup>2</sup>	SQM	1320.35	267.71	353470.90
11.	11.5	62 mm thick cement concrete flooring with concrete hardener topping, under layer 50 mm thick cement concrete 1:2:4 (1 cement : 2 coarse sand : 4 graded stone aggregate 20mm nominal size) and top layer 12mm thick cement hardener consisting of mix 1:2 (1 cement hardener mix : 2 graded stone aggregate, 6mm nominal size) by volume, hardening compound mixed @ 2 litre per 50 kg of cement or as per manufacture's Specifications. This includes cost of cement slurry, but excluding the cost of nosing of steps etc. complete.	SQM	928.65	219.80	204117.27
12.	11.7	Cement concrete pavement with 1:2:4 (1 cement: 2 coarse sand: 4 graded stone aggregate 20 mm nominal size), including finishing complete.	CUM	7958.65	4.10	32630.47
13.	11.6.1	Cement plaster skirting up to 30 cm height, with cement mortar 1:3 (1 cement: 3 coarse sand), finished with a floating coat of neat cement. 11.6.1 18 mm thick	SQM	570.75	10.45	5964.34
14.	16.68	Providing and laying 60mm thick factory made cement concrete interlocking paver block of M -30 grade made by block making machine with strong vibratory compaction, of approved size, design & shape, laid in required colour and pattern over and including 50mm thick compacted bed of coarse sand, filling the joints with line sand etc. all complete as per the direction of Engineer-in-charge.	SQM	951.00	360.78	343101.78
15.	16.69	Providing and laying at or near ground level factory made kerb stone of M-25 grade cement concrete in position to the required line, level and curvature, jointed with cement mortar 1:3 (1 cement: 3 coarse sand), including making joints with or without grooves (thickness of joints except at sharp curve shall not to more than 5mm), including making drainage opening wherever required complete etc. as per direction of Engineer-in-charge (length of finished kerb edging shall be measured for payment). (Precast C.C. kerb stone shall be approved by Engineer-in-charge).	cum	8613.55	9.64	83034.62
16.	5.23	Smooth finishing of the exposed surface of R.C.C. work with 6 mm thick cement mortar 1:3 (1 Cement: 3 fine sand).	sqm	253.05	71.61	18120.91
17.	16.3.1	Supplying and stacking at site. 90 mm to 45 mm size stone aggregate	cum	1937.60	55.08	106723.01
18.	16.3.3	53 mm to 22.4 mm size stone aggregate	cum	1837.25	36.72	67463.82
19.	16.4	Laying, spreading and compacting stone aggregate of specified sizes to WBM specifications in uniform	cum	865.80	91.81	79480.44

		thickness, hand picking, rolling with 3 wheeled road/vibratory roller 8-10 tonne capacity in stages to proper grade and camber, applying and brooming requisite type of screening / binding material to fill up interstices of coarse aggregate, watering and compacting to the required density .				
20.	16.30	Providing and applying tack coat using hot straight run bitumen of grade VG - 10, including heating the bitumen, spraying the bitumen with mechanically operated spray unit fitted on bitumen boiler, cleaning and preparing the existing road surface as per specifications : 16.30.1 On W.B.M. @ 0.75 Kg / sqm	sqm	45.20	367.20	16597.44
21.	16.33.1	2.5 cm premix carpet surfacing with 2.25 cum and 1.12 cum of stone chippings of 13.2 mm and 11.2 mm size respectively per 100 sqm and 52 kg and 56 kg of hot bitumen per cum of stone chippings of 13.2 mm and 11.2 mm size respectively, including a tack coat with hot straight run bitumen, including consolidation with road roller of 6 to 9 tonne capacity etc. complete (tack coat to be paid for separately) with paving Asphalt grade VG - 10 heated and then mixed with solvent at the rate of 70 grams per kg of asphalt	sqm	227.00	367.20	83354.40
22.	13.61.1	Painting with synthetic enamel paint of approved brand and manufacture to give an even shade Two or more coats on new work	sqm	131.45	80	10516.00
23.	13.44.1	Finishing walls with water proofing cement paint of required shade	sqm	97.60	226	22057.60
24.	E&M 1.3.1	Wiring light point light/ Fan 1.5 sq. mm cable	point	1244	28	34832.00
