National Training Programme

Biogas Production, Power Generation and Compressed Biogas Technology

17-19, January 2024

Biogas Development and Training Centre

Center for Rural Development and Technology Indian Institute of Technology Delhi Hauz Khas, New Delhi 110016

Sponsored by

Ministry of New and Renewable Energy Government of India, New Delhi

IIT Delhi Hauz Khas, New Delhi, India-110016

INTRODUCTION

Energy is an essential factor in the development of the country. Biogas has proved to be a feasible and sustainable fuel in the physical and socioeconomic conditions of India. The rising population and small-scale industries are pushing the use of traditional sources of energy beyond the sustainable generation capacity. Amidst all this, biogas technology has gained popularity in India for its multitudes of benefits. Although biogas is seen as the best alternative rural energy resource, various factors have hindered its spread in both the rural and urban sectors. Technical and informational barriers, lack of technical capacity for construction, maintenance, and absence of state-level call centers/service centers for plant repair (trouble shootings) are major obstructions in the biogas development and dissemination in India.

BDTC IIT Delhi

The Biogas Development and Training Centre (BDTC) at Indian Institute of Technology Delhi is actively engaged in research and development for various aspects of biogas-related technologies and their applications. A biogas purification and bottling plant with improved design parameters has been designed, fabricated, and implemented at IIT Delhi campus. BDTC is operating a $25 \text{ m}^3/\text{day}$ kitchen waste biogas plant and gas is upgraded into compressed biogas (CBG) using IITD-developed Water Scrubbing Technology and filled-in a biogas car. The car has been operating on CBG for the last eleven years.

AIM	Participants are required to pay the fees through	NATIONAL TRAINING PROGRAMME
This programme aims to impart training to govt.	online transfer (NEFT/RTGS/UPI) of the requisite	ON
functionaries, budding entrepreneurs,	amount. Send the payment receipt to email: bdtciitd@gmail.com OR upload it on Google	
supervisors, and consultants to various aspects of	form if registration is done through Google form.	Biogas Production, Power
biogas technology, the importance of biogas as a		Generation and Compressed Biogas
fuel, the present status of biogas programmes,	The SNA staff from the states of Haryana, Uttar	Technology
interalia details about biogas up-gradation,	Pradesh, Delhi, and biogas staff members from	recunology
bottling, power generation, etc. The programme	states under BDTC IIT Delhi jurisdiction are exempted from the registration fees.	17.10
is also intended for field supervisory	exempted from the registration rees.	17-19, January 2024
functionaries involved in the implementation of	Limited accommodation will be available in IITD	
biogas programmes in India.	Hostels to the participants on a first come first	Biogas Development and Training Centre
	serve basis.	IIT Delhi
HOW TO APPLY	Details for payment through NEFT/RTGS/UPI	
• To register, fill in the registration form and	mode are as follows-	Name:
send the scanned copy of the registration form		
& e-receipt to bdtciitd@gmail.comRegistration can be done through Google Doc	PAYMENT DETAILS:	Gender: Male / Female
form through the link given below	Name of Account: IITD (IRD) Delhi Bank Account No. 10773572600	Profession:
(National Training Programme (google.com))	Name of Bank: STATE BANK OF INDIA	Date of Birth:
 The registration form and e-receipt should 	Branch: IIT Delhi	Qualification:
reach on or before 30 December 2023 .	Branch Code: 1077	
 Preference will be given to those who are 	NEFT IFSC Code/RTGS: SBIN0001077	Experience:
already associated and have field experience	SWIFT Code: SBININBB547	Corresponding Address:
with biogas technologies	MICR code: 110002156
