Sir,

With reference to the above cited subject, during the site visit of the higher authority, it is found that, during the execution of work, your site engineer and civil engineer was not present on the site. It is also observed that, till today you have not provided your site engineer and your civil engineer for supervision of the said work. The instruction has been given to your team leader for poor supervision of work and negligence, of your work / services, but no action has been taken at your end. This is default of your part not providing satisfactory consultancy services as per condition of contract.

The competent authority has found your services poor and unsatisfactorily. Therefore it is ordered that your TPQA service is discontinued with effect from 26/10/2020, and the contract between us is determined to be end thereafter.

Yours faithfully
