Letter was issued to the unit on 23/05/2016 regarding to install machineries as per project report. The unit had submitted reply of the same on 31/03/2017 informing that they will be only repacking of finish products in smaller container and for this required machineries were installed.

In this regard, the unit was inspected on 26/04/2017 and at the time of inspection following observations were noted:

- Display signboard was installed outside of the premises.
- The unit was in operation at the time of inspection.
- Raw material used in manufacturing process was Ready made paints.
- Products being manufactured were Repacking of paint in small containers.
- Manufacturing process involved at the time of inspection was mixing and re-packing only.
- Machineries installed within the premises of the unit were Stirrer – 01 no, and manual filling instruments.
- There was no use of water in manufacturing process.
- The generated waste drums of paint were returned back to the raw material supplier for refilling.

In view of above, Consent to Operate (Category-III) for manufacturing of “All types of industrial paints & coatings (By mixing and re-packing only) – 20 Lac lit./Annum” under water act and air act for the period upto **30/04/2018** may be issue with following specific conditions:

- The unit shall permit to carry out re-packing of ready paints only.
- The unit shall not carry out any type of washing activity.
- The unit shall not generate any kind of fugitive emissions from manufacturing process.
- The unit shall apply separately for any other installation within the premises.

Submitted for your kind perusal and approval, Sir.
