G. 5878

N/3

The unit was inspected on 21/04/2016 at 17:00 hrs. At the time of inspection of the unit following observations were noted:

- There was no environmental display sign board.
- The unit was in operation at the time of inspection.
- Raw materials used in manufacturing process were PET poly printed sheets.
- Products being manufactured were plastic pouches and bags.
- Manufacturing process involved in the unit was cutting and sealing.
- Machineries installed in the unit were two cutting & sealing machines, a chiller and an air compressor.
- Housekeeping observed was in good condition.
- Proper storage facilities were available for raw material and products.
- The unit is not significant to pollution potential. As there is no water used during any stage of process.
- The unit was availed with septic tank and soak pit for domestic waste water generation.

In view of the above, a quarry letter is prepared and placed in the file regarding installation of environmental display sign board at entrance gate.

Submitted for your kind perusal and further needful, Sir please.
