Unit had submitted reply of the quarry letter issued vide no: PCC/DDD/G-5952/WA/AA/DB/14-15/1274 dated 23/12/015 along with the remaining consent to operate fee of Rs.5800/- through DD. Still Rs. 100 is less in Submitted consent fee so this amount will be recovered from the unit during next process of Consent to Renewal.

The unit was inspected on 10/02/2016 at 14:30 hrs. At the time of inspection of the unit following observations were noted:

- Display sign board was properly filled with product and waste generation details.
- The unit was in operation at the time of inspection.
- Raw materials used in manufacturing process were POY, Polyester and Filament yarn filer.
- Products being manufactured during the time of inspection were spun yarn and texturising yarn.
- Manufacturing process involved in the unit were twisting, texturising, winding and packaging of above mentioned raw materials into final products.
- Housekeeping observed was in poor condition, so representative of the unit was instructed to improve it.
- Proper storage facilities were available for raw material and products.
- A Boiler of 300 Kg/hr was found installed in the premises of the unit. Fuel used for operation of the boiler is electricity. Representative of the unit was instructed to apply for consent to establish and operate for Boiler.
- The unit is not significant to pollution potential. As there is no water used during any stage of process.
- The unit was availed with septic tank and soak pit for domestic waste water generation.

In view of the above, Operate to Consent for manufacturing of "Texturising yarn, spun yarn, blended yarn-4000 MTPA. (no other items)." Which falls in **Category-III** under water act and air act along with terms and conditions as mentioned in annexure-I for the period up to 31/10/2016.

Submitted for your perusal and approval, Sir please.
