# Sustained shedding of Active Caseload (4.74%) continues

Karnataka, Maharashtra, Kerala, Tamil Nadu, Andhra Pradesh have reported Maximum Decline in Active Cases in past 1 month

## Total tests in India cross landmark of 14 Cr

Posted On: 30 NOV 2020 12:02PM by PIB Delhi

In the last 24 hours, only **38,772** persons were found to be infected with COVID in India. In the same period, India also registered **45,333** new recoveries ensuring a net reduction of 7,004 cases from Active Caseload.

The contraction of India's Active Caseload has ensured that India's present active caseload of **4,46,952** consists of just **4.74%** of India's Total Positive Cases.

The difference in New Recoveries outnumbering New Cases has also improved the Recovery Rate to **93.81%** today. The total recovered cases stand at **88,47,600**. The gap between Recovered Cases and Active Cases, that is steadily increasing, presently stands at **84,00,648** i.e 19.8 times the active cases.

### Recovered cases cross 88 lakhs & Active cases under 5 lakhs

Karnataka, Maharashtra, Kerala, Tamil Nadu, Andhra Pradesh have reported highest decline in Active Cases in the past one month.

Madhya Pradesh, Himachal Pradesh, Delhi, Haryana and Rajasthan are reporting a rise in the active caseload, on the other hand.

India has crossed a landmark milestone in its fight against COVID, with the total tests having crossed the **14 cr mark** today. **8,76,173** tests have been conducted in the last 24 hours. India has ramped up its per day testing capacity to 15 lakh.

Ten States/UTs have contributed **78.31%** of the new cases reported in the last 24 hours.

Kerala reported 5,643 cases in the last 24 hours followed closely by Maharashtra which recorded 5,544 new cases. Delhi reported another 4,906 new cases yesterday.

76.94% of the new recovered cases are contributed by ten States/UTs.

With 6,325 persons recovering from COVID, Delhi saw the greatest number of recoveries. Kerala registered another 5,861 daily recoveries while Maharashtra reported 4,362 new recoveries.

78.56% of the 443 case fatalities that have been reported in the past 24 hours are from Ten States/UTs. The national Case Fatality Rate has further dipped to 1.45%. India is one of the countries with the lowest deaths per million population globally (99.4 at present).

19.18% of new fatalities reported are from Maharashtra which reported 85 deaths. Delhi saw a fatality count of 68 while West Bengal reported 54 new deaths.

## 79% of new deaths in the 10 States & UTs
